SECOND SUNDAY SINGING AT SOUTH FULTON SCHOOL

More than a thousand people are expected to gather at the auditorium at the South Fulton high school this Sunday, to attend the regular second Sunday singing. Many singing groups of other communities are expected to be present, it is reported. Those in charge of the singing are: Bill Mathis, H. C. Cashon, Roy Adams and Bill Elliott of Fulton and Bill Black of Mayfield, and a number of others have been instrumental in helping to build up the attendance.

There will be good quartets from other places. Mrs. Montel Manley, little Betty Gene Cannon, and Tillman Adams and the Mayfield quartet will give special numbers. Also many of the best leaders of this section will help make this one of the best singing that has been had, it is predicted. The singing is open to all who will take part, and the public is cordially invited to attend—Reporter.

(Editorial)

The city council and Warner's Orpheum Theatre are at it again. Monday night the council voted to increase the picture show license from \$100 to \$600 a year a five hundred percent increase. Although the increase is considered drastic in many quarters, there is considerable smoke screen hiding the actual status of the case. The action to increase the license is believed coincident with a step by the council to bring about a reduction in admission prices at the local theater.

It is the general belief of public opinion that \$600 for a license will never become effective, for any license which costs so much that it tends to create a monopoly or smother competition is legally and morally a liability to that community. For that reason, as has been previously pointed out, the picture show, or for that matter no other license, should be placed so high. It is the time will come when it will be necessary for the council to rescind its action.

We see no reason why some adjustments cannot be made that will pave the way for a compromise that will settle the controversy once and for all.

Fulton has a fine theatre, showing the best pictures before most of the other communities around us get them. The best way to find this out just go visiting some time, and look over the publicity in the lobbies of the other theatres.

We do not believe that the council intends to work an unjust hardship on the theatre, and we feel that the management is striving to give the community the best in pictures. The matter of license and admission can no doubt be ironed out without much difficulty.

KATHLEEN WINTERS SAYS FRESHMEN COP HONORS

Kathleen Winters, reporter for the Freshman Class at Fulton High says, November 2 was Freshman Day. It really it was the Fulton High Homecoming Day, but the Freshmen took the whole show. They elected their queen, Lillian Cooke, and Peggy Williams was drum major, business manager for the queen, and deserves a rising cheer for putting forth such an effort to elect the queen. Lillian was beautiful, dressed in blue and white corduroy with an enormous bouquet of yellow chrysanthemums. Peggy Williams could have stood her ground with anyone's drum major.

The upper classmen may call us green Freshmen but we can at least beat them selling tickets.

COMMENTS

We have on our desk a copy of The West Kentuckian, which is published by the College City Printing Co., at Murray, W. E. Wyatt and W. W. Rogers are the publishers. This is the third week of this new paper. It was well gotten up, new-y and carries a good variety of advertising. It is well printed, and has plenty of real reader interest. Murray is a good town, and the college there is a real credit to the community and West Kentucky. Congratulations, ye editors of The West Kentuckian.

Three new members of the school board were selected Tuesday in the election. This board has some real work to do, and their problems will be many and complicated. It's a man's size job to balance the budget, and please the people regardless of the public office held. We have a fine school system here, and the board is entrusted with the task of

supervision.

Stray paper on the streets, especially in the downtown district is a nuisance. Lake-st has been busy with it this week. And as you walk down the street the wind would whip it around your feet or into your face. Call out the street cleaning brigade!

All Elk members, both new and old, are expected to be on hand next Monday night to put on the "feed bag" and enjoy the splendid social program planned for that evening. And don't forget the initiation services—plenty of entertainment is guaranteed, it is rumored.

The holiday season is fast approaching. Many have already started to talk about Thanksgiving and the jolly Yuletide. Although none of us can boast of the prosperity of '29, things generally show a decided improvement, and the future is much brighter. After the elections are over business will take another spurt, with sharp increases denoted this fall and winter.

The Illinois Central is inaugurating a new streamline train between Chicago and St. Louis. It will be the finest ever put in operation by the railroad. The day is not far distant until one of these crack trains will be coming through Fulton, on a run from Chicago to New Orleans, and the people of this section are looking forward to the time with great expectations.

We knew the school band was going to be a high spot in the homecoming game here Friday with Mur-

ray. But many of our good people were pleasantly surprised at the capable performance given by the band which was only started a few weeks ago. Mr. Floyd, director of the band, is to be congratulated on the splendid showing that he has made in building up a band for the city school.

Lillian Cooke was the football queen for Fulton High, and she rode in her four-cylinder carriage during the colorful parade here last Friday.

The Bulldogs showed surprising power against the Murray Tigers last Friday. Incidentally, they upset all dope by holding the strong Murray aggregation 0-0. Murray came here rated as one of the best teams in the conference. They outweighed Fulton's backfield about 20 pounds to a man. The entire Fulton line-up played tip-top football for a light high school team, each man was in there fighting for his school. And we think that Edwards deserves a berth on the mythical A-L Conference Eleven.

BEELETON

The Beelerton High School basketball team defeated the Shiloh tasketeers here Friday night by a score of 22-18. This was the most sensational game of the season and it was witnessed by a record crowd. The game started with little scoring on either side and at the end of the half Shiloh was leading 13-8. In the last half the Beelerton boys came back with a rally that the visitors could not stop, and he game ended Beelerton 22 and Shiloh 18.

Plans are getting under way for a high school play to be presented in the near future.

James Conley, Miss Dorothy Bostick and Miss Myrtle Henderson, were the Sunday guests of Warren, Wayne and Effie Rilla Kimbrell.

Mr. and Mrs. Pleasant Rudolph of Lone Oak spent the week end with Mr. and Mrs. S. J. Walker.

Mr. and Mrs. Jasper Bockman and Miss Sarah Bockman spent Sunday with Mr. and Mrs. Raymond Vaughan.

Mr. and Mrs. Albert Bard and family was the Sunday guest of Mr.

and Mrs. R. H. McAllister, Mrs. Gladys Gardner and sons and Mrs. Edgar McMorris spent Sunday with Mr. and Mrs. Claud Presley and family.

Mr. and Mrs. J. W. Bostick spent Sunday with Mr. and Mrs. Jewell England.

Carl and Bernard Bostick spent Sunday with Mr. and Mrs. Roy Howell.

HOUSING HINTS

Modernizing Rent Apartments

Finding that ten out of twelve apartments in his building would not rent, a Philadelphia landlord recently spent \$273 on each of the kitchen-

ens in modernizing them and installing bright new sinks. Now all twelve apartments are full at higher rentals.

Rotting Shingles Dangerous

No matter how attractive the home may be the final point of judgment is the roof. Shingles that are rotting and curling not only are unsightly but constitute a grave danger in case of fire.

Insulate Water Pipes

Modernizing heating pipe and hot water tank insulation means saving on the overhead. It cuts down on the fuel bills by conserving heat. Uncovered heating pipes and hot water pipes, or even just uncovered joints, mean a loss in money to the owner. It is real economy to inspect hot water and steam pipes regularly and see that they are well insulated.

Pour Water in Drain

If water is frequently poured into the basement floor drain evaporation of the water seal and consequent escaping of sewer gas is prevented.

Patty Up Holes

For those cracks and small openings surrounding the holes in walls for pipes and wires entering from outdoors, bituminous putty should be used to prevent the infiltration of water. It is an elastic band little affected by temperature and vibration.

Killing Knots

Troublesome knots in exposed wood are killed by the application of a hot iron, a scraping and two coatings of gold or silver leaf before paint.

Clean Catch Basin

This is a good time of year to have the catch basin in the house sewer line cleaned. Periodical cleaning is important.

Dealer Sets Example

A clever lumber dealer of Tonawanda, Kan., was among the first in his thriving community to take advantage of the loan provisions of the F.H.A. to improve his property. The banker there reported that his action served two useful purposes: setting an example for the community and stimulating the local lumber business.

Telephone Users Consider Quality
and Dependability of Service
as Paramount

Telephone service is such an intimate, personal service that anything adversely affecting it at once becomes a subject of individual interest to the millions of users. Because this service has such an important part in your every day social and business life, its quality and dependability are matters of serious concern to you. Service inferior to the high standard to which you are accustomed would not be acceptable, even at a lower price.

Recognizing this fact, the Bell System has always so shaped its policy as to insure the best and most dependable service that science and careful, far-sighted management could produce at the lowest possible cost consistent with financial safety.

Due to this constructive policy, the telephone business has never earned speculative profits.

In the best years of the Southern Bell Telephone Company's history, and during a time when other businesses were earning large profits on soaring prices, the cost of the telephone service was kept at a level where the return on the investment was never more than 7%. In 1930, when the depression was first felt, these earnings declined rapidly, and in 1933 they shrank to about 4% on the investment.

It is obvious that further reductions of such already inadequate earnings would seriously endanger the financial soundness of the business, and be reflected in the quality and dependability of the service.

ILLINOIS CENTRAL WILL OPERATE STREAMLINED TRAIN, ST. LOUIS-CHICAGO

The streamline train which the Illinois Central Railroad will operate between St. Louis and Chicago has been ordered. L. A. Downs, president of the Illinois Central System announced that the train will be built by the Pullman Car and Manufacturing Corporation. It will be electrically driven, deriving its energy from a 1200-horsepower Diesel engine, which is the largest single engine yet designed for train service. There will be five cars with seats for 150 passengers, and it is expected that the train will make the 300-mile trip in something less than five hours. Shortening the schedule from the present six and one-half hours will enable the train to make a round-trip daily.

The train will be built of steel and aluminum—steel in the framework and aluminum in the remainder of the body and in the interior finish. The steel used is an alloy produced under one name of Cor-Ten, which includes chromium, copper and silicon and gives great strength with a saving in weight and resists corrosion. The train

fully loaded will weigh 250 tons and it will be 330 feet long.

The train will consist of a motor car, a baggage, mail and express car, two chair cars and a lounge car. The lounge car will have an electrically equipped kitchen with complete mechanical refrigeration. Dining tables will be provided in the lounge, and each seat in the chair cars will have a collapsible table for meat service and for reading and writing. The train will be built as an articulated unit designed to reduce air resistance to the minimum. It will be fully air-conditioned.

The cost of the train is approximately \$400,000, which will be met through a loan from the Public Works Administration. Work will be undertaken at once, and it is expected that the train will be delivered in the spring.

REFLECTION

The selection of a funeral director involving discriminating selection at a time of stress, is necessarily a difficult choice. It is a relief to many families to find that services by Winstead-Jones & Co. reflecting good taste and a consideration for loved ones, can be obtained so reasonably.
