Mr. W. S. Boales comes forward with the announcement that the two colored night a headless calf was born on his place. It was perfectly formed in every respect except that its head was gone. It gave no evidence of life and was probably one of the many curious natural phenomena frequently reported by the papers.

The Ohio Valley engineers were in the city Wednesday preparing to run a line from here to Carleton. Their work had been delayed but they were energetically at work trying to secure some one to serve their needs. It is presumed they are going to project a main line through from Princeton to Jackson, Tenn.

Our tobacco market was on a boom. Prices yesterday were strong and steady and a heavy board of buyers were present to bid in the weed. A man who has practiced medicine for 40 years ought to know a little about sugar; read what he says:

Messrs. F. J. Cheney & Co., Gentlemen—I have been in the general practice of medicine for 40 years, and would say that in all my practice and experience I could prescribe with much confidence of success as I can Hall's Catarrh Cure, manufactured by you. Have prescribed it a great many times and it is effective and powerful, and would say in conclusion that I have yet to find a case of Catarrh that it would not cure, if they take it according to directions.

Yours truly,
 L. L. GORHAM, M. D.
 Office, 215 North St.

We will give \$100 for any case of Catarrh that can not be cured with Hall's Catarrh Cure. Taken into Cure. Taken internally.

Sold by F. CHENEY & Co., Toledo, O. as well as warm solicitations from his home people.
