CEASE FIRING!

This order which echoed around the world on November 11, 1918, brought joy to countless millions. It brought to a close a great war, in which America was marching her young men in the hundreds of thousands.

Of these thousands who saw the call, many never returned from over there. It is to those brave souls that we pay most reverent tribute.

We carry on in the hope that they might have not have died in vain—that in some manner we may contribute to the ideal of liberty, the altar upon which they gave their all.

Lake Street, Fulton, Ky.
Through the year; 1918 to 1934 the world faced constantly changing conditions, many of which have affected the temper of men and nations. We have endeavored to keep abreast of the pace set for styles, quality, comfort, and price. Even though this be an advanced price season, the silver lining in the apparel field is that good fabrics have made their return appearance—which is simple reason why you should be outfitted for the winter now.

Everything points to an advance in price. All your needs can be taken care of at the

Great honor goes to the living heroes of the world war—greater honor goes to the dead—those gallant souls that even in their fear marched straight into the cannon mouth—to the last man of them. We record this tribute so that fellowmen and citizens may not forget and so that we may never be charged of lacking in loyalty. This hour in 1934 has brought its own problems—but let it not be said that we failed to pay tribute where tribute is due.

PAIRED MARRIAGES

The number of married couples has doubled during the last year. This is due to the fact that people are marrying at a younger age. This is a good thing because it helps to reduce the population explosion.
