CLOSED EXERCISES AT SOUTH FULTON SCHOOL

The Commencement Exercises were held in the South Fulton School, at 11 a.m. on Saturday, June 3.

The exercises opened with the invocation by Rev. L. Partin, Grovesville, Tenn., and the appearance of the first carload of English peas from Fulton market last Tuesday. This is a valuable portion of the day in Fulton, with L. P. Ellington, delivering an address, and mention of the fact the exercises were a success will long live in the memory of the students.

The next number was a roll call, "Spring Flowers," which was very well done by Miss Ethridge, and Miss Birth, accompanied by Miss Ann Sudie, and Miss Ada Kitchen. The ceremony of the presentation of the school colors was then performed, and a beautiful bouquet was presented to the faculty. The exercises then closed with the singing of "The Star Spangled Banner.

The most ambitious undertaking was the singing of "The Star Spangled Banner," the students and faculty being present.

A HIGHER STANDARD

Federal taxes are going down, as the people are becoming
more conscious of their rights and duties. This is
especially true in the case of local taxes, which are
usually much higher than they should be. The
people are more willing to pay their taxes when
they know that they are being used for the good of
the community.

According to a recent report, the average
income of a family in the United States is
approximately $5,000 per year. This figure
includes both earned and saved income, as
well as any government assistance that may be
available. It is important to note that this
figure is not constant, and can vary depending
on a variety of factors such as location,
occupation, and family size.

The report also notes that the average
income of a family with a head of household
under 35 years of age is $6,000 per year, while
the average income of a family with a head of
household over 65 years of age is $4,000 per
year. These figures reflect the
inequality in the distribution of income in
the country.

In conclusion, it is clear that the federal
taxes are going down, and the people are
becoming more conscious of their rights and
duties. It is important to continue this
trend, and to ensure that the money is used
for the good of the community.

A FARM WAGON THAT IS GUARANTEED

The amount of satisfactory service that a wagon will give is almost entirely due to the material and skill that goes into the making of it. No wagon that is built of the best materials by men who know how to build will ever give you anything but satisfaction.

A Garage Story

Once while waiting at the depot for my train, I noticed a young fellow of about 18 years of age, who was just making his way to the train with a wagon. He seemed to be in no hurry, and didn’t look as though he were in a hurry to make his way, either.

Not Sure

I couldn’t make out what was the matter. It didn’t seem as though he were in any hurry, so I asked him what it was that kept him so long. He said he had to go to the station to get his horse, and that the wagon was his own.

Tales Out of School

I have my doubts about every young fellow’s story, but this one seemed to be quite reliable. He said he was going to buy a new wagon in the city, and that his old one had given out. He had been looking for one all day, and had finally decided on the one he was going to buy.

What About Ice Cream As a Food—Especially For Children

1. It is the only food given in both hot and cold, to children and adults.
2. It is one of the first foods to be served in the hospital.
3. It is the food of every member of the party or family.
4. It is a great ice cream for children.
5. Young children should have cream milk, instead of the customary milk.
6. You have often seen children enjoy milk, but you have seldom seen them enjoy cream.
7. There is a Calver dealer near you who will give you the best service.
8. We can supply you with fine letterheads printed on Hammermill Bond and furnish envelopes to match in any of the twelve standard colors or white.

SAFETY AT GRADE CROSSINGS

We are entering upon the time of year when greater use is made of the public highways than at any other season. Lightning is frequent, grain is being gathered and it is a busy time for the railroads as they carry on during the summer months. It is therefore especially time to call attention to the tragic results of being careless in crossing railway tracks.

The railroads are safer to work for than they used to be. With more equipment for keeping guard and more employees to watch the crossings, the accident rates are decreasing instead of increasing. More persons were killed in grade-crossing accidents in 1925 than in any previous year but one on record. Grade-crossing accidents in 1925 resulted in the loss of 2,299 lives and the injury of 6,605 persons, an average of one person killed or injured every hour of the year.

The Illinois Central System appeals to its patrons, employes and friends to cooperate in this campaign. The toll of life, health and property which carelessness collects from the American people at grade crossings is great. The effort spent on the practice of caution is a wise investment.

The Illinois Central System has given its powerful support. Individuals and organizations have contributed. For all such cooperation the railroads are extremely grateful.

Constructive criticism and suggestions are invited.

C. H. MICKHAM,
President, Illinois Central System.

AIRDRIED CLOTHES
Do you really know what it means to receive a bundle of Airdried clothes from a modern power laundry?

It means that at last the only remaining barrier between the housewife and the household servants, the laundryman is removed. It means that she can choose what she wants to wash, and also dispose of her laundry without the least delay. And it means that she doesn't have to dread the dirt of washing clothes, and take the difficult chore of hanging them. If you are interested in this line of service, write to us about it. We will have a full supply of your pattern.

Thousands and Thousands of Cubic Feet of Concentrated Sunlight

The scientific application of our in a drying agency in the power laundry is accomplished by the perfection of the Vacuum Drying Tunnel. This wonderful machine harnesses the fresh air in such a way that it is the most desirable and convenient of all time. Leaving the work of the power laundry in the past.

Be sure to ask for this service on your laundry orders. Be sure to ask for fresh, firm and sweet smelling clothes as they come from the laundry.

*“It Penetrates”*

In the word “penetration” is a secret manufacturing process. Senator’s Floor Paint has a secret penetrative quality. If a floor paint does not penetrate the top coat of the wood it will never hold as long as Senator’s Floor Paint. Senator’s Floor Paint also repels water. It repels the most water of any floor paint. It repels water to the extent that if a July rain, one of the heaviest downpours this side of a July rain, were to come down the hardwood would not swell and the floor paint wouldn’t wash off like other floor paints.
