HURRY -- SAVE
AIR DRIED CLOTHES

Do you realize what it means to receive a bundle of thoroughly washed and air dried clothes from a modern power laundry? It means that at last the only remaining barrier between the housewife and the laundryman has been removed. Because, now the modern laundry not only washes then dries the clothes you choose to send, but also duplicates in every respect the method of drying that the housewife employed for time immemorial, namely, the hanging of the washing on the old-fashioned clothes line, to bask and dry in the glorious sunshine.

The greatest development in years and years, comes to this steady growing industry in the perfection of a natural drying process. This new method of drying by air eliminates for all time that unmistakable waxy feel which has blemished the work of the power laundry in the past.

Thousands and Thousands of Cubic Feet of Concentrated Sunshine

The scientific application of air as a drying agent in the power laundry is accomplished by the perfection of the Vorclone Drying Tumbler. This most wonderful machine harnesses the fresh air in such great volumes that it almost entirely eliminates the necessity of heat to dry clothes with. It dries clothes by air, evenly and gently, ventilating them thoroughly, leaving them entirely of all lint, leaving them soft, finely and perfectly odorless. In this manner are never shrunk, discolored or left with a harsh feel.

The Vorclone Tumbler used in our laundry is the only drying tumbler that does not depend solely on heat to dry clothes; it is the missing link in this otherwise perfect laundering process. It puts the work of the power laundry on par with that of the housewife's own private laundry.

Be sure to see this marvelous machine in our laundry anytime, feel and smell the clothes in driers, notice how fresh and sweet smelling they are.

Phone 130

American Bankers Association Official Who Has Exposed
Fraudulent Schemes for Robbing Savers Draws
Up Set of Rules to Fall Crooks.

By M. K. HOFEMANN,
Public Relations Coordinating, American Bankers Association.

ARTICLE NO. IV

The solution to the great problem of protecting savings deposits from the most flagrant forms of fraudulent schemes is largely in the hands of the bankers. If they will cooperate with each other, so that they can make it hard for these plunderers to continue business, Hadden Day says, our banks without exception will find that they are not subjected to the same kinds of risks of becoming involved in such operations as might make it necessary for them to contemplate making investments, will carry an investigation or investigation in the street of un
known certain investments of unquestioned responsibility. In every case where circumstances will permit, such a thorough examination of the individual when by investing a few hundred dollars is expected by them to make thousands will at once warn the situation.

The banker knows that the depositor is bringing his money to a place where there is likely to be Harry, and get in on the big clean-up and it's wrong. If not house to house or through the mails.

When you wait a thing in a hurry you rush to a local store and get it. But do you realize that the existence of our stores depends upon

A WORD TO HOUSEWIVES.

With the call of Spring in the air, it reminds one of the many outdoor activities in which the home should partake and enjoy. Surely the Housewife should be allowed this pleasure as well as other members of the family.

You have at your command an institution which, with its modern equipment, makes it possible to give you an extra holiday in each week of the year. "The Home of Cleanliness" cares for your family wash in a clean, modern, sanitary way—no hanging of the clothes outdoors to catch germs circulating in the air, or in rooms where sleeping and eating are done, but clean tables and assorting bins care for forming her tools for self help used by "The Weenie Vito Works".

American Leads Nations In Use Of Ice Cream

If you and your family may be considered America's national milk drink, it is now ice cream. It has already assumed the rank of a symbol of the nation's changing eating habits. Large and increasing use is being made of this remarkable food every hour, her days of growing popularity are now being watched with increasing interest. The important part that ice cream is playing in the health program of the American people becomes evident when one considers that the nation's eating habits have been found to be in an extremely unhealthy condition. A high percentage of the population is suffering from poor nutrition, indigestion, and other dietary deficiencies.

The importance of this campaign cannot be overestimated, for the people are being urged to eat nutritious food. The importance of this campaign cannot be overestimated, for the people are being urged to eat nutritious food. Here are interesting facts:

- Ice cream is a perfect food, containing all the essential nutrients for good health.
- It is a convenient food, easily digestible and easy to prepare.
- It is a natural food, free from the use of artificial preservatives.
- It is a safe food, produced under strict sanitary conditions.
- It is a nutritious food, providing a balance of nutrients for proper growth and development.
- It is a delicious food, enjoyed by people of all ages.
