T ALE OF TWO CITIES

Mr. Fergusson was a man of many parts, and a man of large business. In his younger days he was a member of the state house of representatives, but he did not live up to the expectations of his constituents. He was known as a great, rich landowner, a man of high social position, and one of the leaders of the community. He was also a man of wide experience in business, having been engaged in various lines of endeavor, from the time he was young. He had a great deal of success in his business, and was known as a great, rich man.
