Fulton's Growth
Evenly Balanced

Nothing bespeaks Fulton's steady growth more eloquently
than the 21,000 new dollars a day left over for
business purposes after meeting the company's daily
expenses. The population of Fulton is increasing at a
gerater rate than the average for the state of Kentucky.
Furthermore, the per capita wealth in the
l towns and cities of the state is lower than the
per capita wealth in the rest of the state. The people
of Fulton are making a realistic assessment of the
value of their property and are making
prudent plans for the future.

Tuesday afternoon, when
the gentle spirit of Miss Eliza
Carr, the tabernacle of the
people, and the spirit of
Misses Franklin and Holmes,
wings it high flight to the
heavenly city, they will leave
behind them the cares of
this world. Miss Franklin,
who was deeply religious,
remained in the church to
read the service. Miss
Carr, who was a silent
soul, was left to be buried
by her family.

The people of Fulton are
mourned in the death of
Miss Carr. She was a
widow and a mother, and
she will be missed by all
who knew her. Miss
Carr was a member of the
church for many years and
was loved by all who knew
her.

The funeral service will be
conducted in the church
on Friday at 10 a.m. All
friends and relatives are
invited to attend.

An enjoyable trip

Mrs. J. F. Wood, custodian of the
Fulton Poultry Association, and
her husband, Mr. J. F. Wood,
went to Kansas City last week
to attend the meeting of the
American Poultry Association.
They were given a tour of the
plants of the Missouri
Poultry Association, and
were treated to a fine meal.

Mrs. Wood returned to Fulton
on Sunday morning and
was met at the train by her
husband. They will remain in
Fulton until Monday morning
when they will return to
Kansas City.

This will be the first time
that Mrs. Wood has visited
Kansas City and she is
looking forward to the trip
with much interest.

The meeting of the
American Poultry Association
will be held on Monday
morning and will continue
throughout the week.

We wish Mrs. Wood and her
husband a successful trip.

Newsworthy

The mighty Missouri River
is flowing at a rate of
three miles per hour. The
water level is rising and
the river is expected to
reach flood stage in
the near future.

We hope that our
readers will be
prepared for the
high water.

FOOD LIKE YOU GET AT HOME
This is truly a home-like restaurant because it has endeavored to break down the prejudice based on the theory that restaurants could not serve food like you get at home. Many patrons will testify to the fact that there is no difference between our meals and the meals they get at home. That's the reason they come here so frequently to eat.

Years of catering to the appetites of particular people make it possible for us to serve appetizing meals.

The next time you want to eat away from home, bring your family here.

PAINT

"It Penetrates" - The name "Penetrates," is a secret manufacturing process that has made Senour's Floor Paint a popular favorite for over 40 years. If a floor paint does not penetrate into the wood it will soon break through. Chip and peel. It is not a durable finish. But at the same time it sinks into the pores of the wood and forms a film that will withstand repeated washings without dimming the lustre. It is a color cord is yours to have. It is a composite picture of a city as its citizenship would have it. The Chamber of Commerce?

The Chamber of Commerce of the city.
It reflects the ideals of the city.
It expresses the aspirations of the city.
It gives direction to the aims of the city.
It is the voice of the city.
It reflects the ideals of the city.

It is the spotlight that reveals the good name of the city.
It defeats the city against the outside world to your midst.
It is the center of worth.
It is the magnet that draws locaters to you.

It is a splendid picture of a city as its citizenship would have it.

AIR DRIED CLOTHES

Do you realize what it means to receive a bundle thoroughly washed and air dried clothes from a modern power laundry?

It means that the only remaining barrier between the housewife and the laundroman has been broken down. Because, now the modern laundry not only washes clothes clean whatever your requirements, but also duplicates in every respect the method of drying that the housewife has employed for time immemorial, namely, the hanging of the washing on the old-fashioned clothes line, to dry in the bright sunshine.

The greatest development in years and years, is to make housewives and the laundroman equal partners in the perfection of a natural drying process. This new method of drying by air eliminates all time that unmistakable odor which has branded the work of the power laundry in the past.

Thousands and Thousands of Cubic Feet of Concentrated Sunshines

The scientific application of air as a drying agent in the power laundry is accomplished by the perfection of the Vortec Dryer Tumbler. This marvelous machine harnesses clean fresh air to such great service that it almost entirely eliminates the necessity of hang to dry clothes with. It dries clothes by air, evenly and gently, washing them thoroughly, freeing them entirely of all dirt, leaving them soft, fluffy and perfectly soft and lintless. Clothes dried in this manner are never shrunk, distorted or left with a harsh feel.

As a result, the dry cleaning can be done without any other drying agent than that provided by the sun's rays, it being imposible for the sun to do this work. The new Vortec Dryer Tumbler is the only drying tumbler that does not depend solely on heat to dry clothes; it is the main link in an otherwise perfect laundering system. It puts the work of the power laundry on pay with that of the housewife's own private laundry.

Be sure to see this wonder machine in our laundry service, feel and smell the clothes it does, notice how fresh and sweet smelling they are.

Phone 130

When you see the pleasing results, the economy, and the convenience of this complete service, you are going to put the drying of clothes on a new footing, and will be sure to see this wonder machine in our laundry service, feel and smell the clothes it does, notice how fresh and sweet smelling they are.

GARDEN PARTY

The beautiful garden of the First Christian Church was the location of a most enjoyable party given to the pretty ladies of the community on the beautiful lawn of Mr. and Mrs. Paul Pickering, Monday afternoon. From four till seven, tables were arranged with the prettiest of flowers and pretty bits of novelties where delicious tea sandwiches were served. After the four interesting games of bridge, little Miss Frances Patterson gave a delightful party at the close of the games.

The following ladies assisted in making the guests have a memorable afternoon.

Graceful gladioli and other summer flowers were artistically arranged throughout the lower floor where the delicious tea sandwiches were given as favors. Out on the attractive patio, table and miniature flags were arranged with attractive covers and pretty bowls of nasturtiums where delicious tea sandwiches were served.

Mrs. L. 0. Carter made the fortunate cut and received a Venetian perfume bottle. At the close of the game, a lovely corsage with mints, was given to one of the guests.

Let Us Show You What We Can Do

CHICAGO. July 1, 1918.

THE RAILWAY ORGANIZATION

Although railway transportation is commonly thought of in terms of machinery, the human organization behind it is far more important from the production of service. The three human factors fundamental to railway service are patron, owner and employee. The first-named demands service, the second and third provide service. The patron expects to receive in return the quality of service he pays for, which may be anything from a minimum standard, decided upon by the operator, to carry on his business or his pleasure, and finally to carry on his business or his pleasure, and finally to carry on his business or his pleasure. The owner supplies the investments required to build and equip the railroad, and he expects to receive in return dividends comparable to the investments of the other two factors. In the end, the employee, with the help of the owner, produces transportation, and he desires to receive in return fair wages and reasonable working conditions in return for his services.

The close interdependence of these factors is emphasized by the fact that every passenger train sold both the owner and the employee, for instance, by charging less than the owner gives back to each, to the patron and the opportunity for employees. The patron, the employee, and the labor of the owner, is the very essence of the railway business. It is the key to the well-being of the whole organization. The owner himself may be a small investor, but the interest of the employee and patron is one and the same. The owner as such has an obligation to the other factors, and the owner produces transportation, and he desires to receive in return fair wages and reasonable working conditions in return for his services.

Mr. and Mrs. Bert Foreman, Mr. and Mrs. Bert McDonald, Mr. and Mrs. Morgan J. Patterson, and Mr. and Mrs. John Wilson were also present.

CITY NATIONAL BANK

"That Strong Bank"

FULTON, KY.

FULTON'S FIRST POSTMASTER

The first time I ever met him was in the year 1851. Mr. John H. Sisson had been renting a farm near Redford Center.

After Sisson had been killed in a skirmish, a new man took his place. Separating and going different ways, where they were going to Paducah in search of information, they failed to meet at the place designated. Being near the home of Mr. and Mrs. F. M. Herndon, where the man was going to stay, Mr. and Mrs. Herndon said, "If you go to Paducah, we'll invite you to our home and fix you a good meal."

After Sisson had been killed, the man was ready to share the dangers, as his education and means of support were not as much as his friend's. I gladly told him I was ready to go with him and shared the journey. We rode through the woods, taking the most contrary course to avoid the Federal soldiers who were destroying the roads. We crossed all the rivers on top of the trees, and when we reached the other side, the river was built higher in the center. Our courage was increasing.

Cold Facts for Hot Weather Consideration

All Leonard Refrigerators

are finished in cold steel. They are not only a refrigerator, they are, essentially, a safe. They have all the important features necessary to a perfect refrigerator—closed door, atomization, low circulation, economy in the use of cooling, and dry air and long life. An inspection of the LEONARD will thoroughly convince you that they are the best refrigerators obtainable for the money. We have all sizes. Come in and see our line.

Yes, we have a splendid line of ICE CREAM FREEZERS, ICE PICKS and WATER COOLERS. Small and large sizes—just the kind you want.

Flies vs. Screens

The flies and mosquitoes are coming thick and will soon take possession of your place unless you have the doors and windows protected. We have a splendid line of screen doors and all kinds of screening for your protection. Fly your order now.

"Blue Grass" Lawn Mowers

Now is the time to rig grass, and you will want to do it as soon as possible. The best and most satisfactory is to use the "Blue Grass" ball bearing lawn mower, built of the best rust and ace. We have them in all sizes, made well and durable.

A complete line of "Quick Meal" Oil Cook Stoves.

FULTON ADVERTISER

This oil range has focused heat!
Cooking in Comfort
With Focused Heat.

Florence kettles are cool and comfortable for the simple reason that the cooking heat goes into the cooking and not into the kitchen. The bottoms of the Florence are scientifically designed to FOCUS the heat directly on the bottom of the pot.

The top of the chart, against Florence kettles is only 2½ inches below the cooking. But that's not all. Florence kettles force air inside the flame, gives a crack and intense, steady heat. Best heat close up under the cooking. This is focused heat.

For each cup measure of stir-frying jars, for the gentle cooking that keeps flavor whole and tempting, you can adjust the Florence flame to any height you need, simply by turning a lever. And the best range comfort.

Of course it's a pleasure to use this oil range that leaves the kitchen cool. If it's cheaper and quieter, too.

Graham Furniture Co.

Fulton's Largest Furniture Store.

When you buy John Deere implement's you are sure of prompt repair service Throughout their long life.

A Big Advantage on Rough Ground

The high, easy lift of the John Deere Mower is a big advantage in rough ground. You can make the furrow high enough to clear obstacles in the field, and cut with the bar in that position.

John Deere Mower

The Rover with the High, Easy Lift

The ground floor lift enters the cutter bar 4½ to 5½ inches and the mowing bar from 6 to 11 inches. The hand lift enters the cutter bar 2½ inches and the mowing bar from 6 to 11 inches. Proof by the dealers.

The John Deere is simple and easy to work. Your agent will show you how to make the best use of the high lift. It is a permanent feature on all mowers for the present and future.
