WHERE THERE IS A WILL THERE IS A WAY.

"Where there is a will there is a way." Perhaps not one of the most original sayings in the English language, but it is a saying that has been repeated down through the ages. It emphasizes the importance of determination and perseverance in overcoming obstacles.

