the democratic administration, but will keep between 6,000 and 8,000. It is to be expected that the Republicans in the House, with the exception of the few true friends of the people in the South, will make the resolutions before you. The House has resolutions on its hands, and will probably use all its powers to defeat this measure. But the President will veto it. A bill for the suppression of internal improvements cannot pass the Senate. The Republicans are too busy and productive to make a law to prevent the doing of any good. They all get on that basis the better part of the people. The Democrats will pass the resolutions, but they will be null and void, as the President has the power to veto them. The President will veto the resolutions, and the people will be left to do as they please. The resolutions will be passed, but they will be null and void, as the President has the power to veto them. A New Blacksmith Shop
At Brienburg.

J. L. Cole has opened a shop in the Hamilton old stand, at Brienburg, where he will give the people in the surrounding country perfect satisfaction in repairing Wagons, Buggies, Plows, and in other new work such as horse-shoeing and in making other new work. Call and give him a trial.
One of the most remarkable developments of the past decade has been the rapid growth of the cities of the United States. The movement of population from the towns and villages. The traditional idea that the growth of population in cities has been a sign of industrial development has been corrected by the experience of recent years. The cities are growing at a rapid rate, and in a number of instances, the population has increased by more than 200 per cent. in a single decade. This is a phenomenon that has been observed in few other countries.

The growth of cities is due to a number of factors. The industrial development of the country has been the primary cause. The demand for labor in the factories has led to an influx of people from the rural areas. In addition, the cities offer opportunities for education and social enjoyment. There is a great deal of social activity in the cities, and many of the people who come to work in the factories also come to enjoy the social life that the cities offer.
