Meeting Called A Message For For Aug. 12. Fulton Folk

AGRICULTURAL AGENT
For Aug. 12. Fulton Folk

Fulton is the most abundant community of any size in this part of the state. It is surrounded by a large area of agricultural land, and the population is growing rapidly. The agricultural agent for Aug. 12 is expected to visit the town and discuss the latest developments in the field of agriculture.

Rev. E. J. Somervill will go with the agricultural agent as the representative of the Methodist church.

Brieflets

The Central Bank report indicates that the current year has been one of prosperity for the agricultural community.

Flea Beetle is Cause of Injury

Small Jumping Insect Feeds on Cabbage, Radishes and Other Crops.

Several cases of small jumping injury were reported to the agricultural editor of this paper by several farmers. The injury is caused by a small jumping insect that feeds on the leaves of cabbage, radishes and other crops. The insect is about the size of a pinhead and is brown in color. It feeds by jumping and lancing the leaves, causing them to curl and wither. The insects are attracted to the crops by the odor of the leaves. They are known to be most abundant in the spring and early summer, but may also be found later in the season.

We will not attempt to quote prices throughout the store, but will say that you will find attractive values here in Clothing, Shoes for men and boys, hats, shirts, athletic suits, ties, hose and everything to wear. Come and look around whether you buy or not. You are welcome.

A WORD TO THE WISE

Diversified farming is becoming more general, every year throughout the tobacco and cotton belt of the south, in the belief that it will help the farmers have more diversified income. Many farmers have been making it a practice for several years a change has taken place and the tobacco farmers will be out shorter than ever. There is need for all kinds of farm solutions for our farmers.

Here in Fulton and adjoining counties we are blessed with out that will grow, such as wheat, corn, and all kinds of fruits grow in perfection and ready for market just after the southern oysters. We are blessed with higher education because not only our state but the nation is the capital of higher education.

Ambulance

In the early years when they must decide what path to take, Winstead & Jones Undertaking Co.

ECONOMY AND PROBLEM OF FOOD

A family in which the husband or wife is not employed has something in common with the family of every other member of the community. All are dependent on the ability of the breadwinner.

It is absolutely necessary that the production of food and other necessities be increased in order to meet the needs of the community. Only then is it possible to realize the meaning of an agrarian economy, and it is the only way to reduce the cost of living.

BACKGROUND OF THE COMMUNITY

The history of a community is an important consideration, and it is the responsibility of every member of the community to be aware of it.

In the past, the production of food and other necessities was dependent on the ability of the individual to produce for himself. Only then is it possible to realize the meaning of an agrarian economy, and it is the only way to reduce the cost of living.

COLLEGE TRAINING

High school graduates have been making the transition to college training, but many of them fail to realize that college training is not the only path to success in life.

In this period when they need determination whether they will continue their education by attending some technical school or technical college.

Every day we have to think about the future of our children, and it is the responsibility of every parent to be aware of the options available for their offspring.

Ladies Aid and Missionary Society met last Wednesday, July 7th, with Miss Sarah Lewis presiding. The meeting was opened with Prayer, and the roll was called. There were sixty-two present, twenty-five new members having recently united. After the business was transacted, plans were made for the coming Sunday School and Church School campaigns. The Superintendent visited her district, and reported good results. It is estimated that the Society will send $2,000 to the Missions.

Miss Clara Brown was appointed Superintendent of the Sunday School, and Miss Emma Smith, Superintendent of the Church School. Miss Emma Smith will commence her duties in a few days.

AIR DRIED CLOTHES

Do you realize what it means to receive a bundle of thoroughly washed and air dried clothes from a modern power laundry?

It means that at last the only remaining barrier between the housewife and the laundryman has been removed. Because now the modern laundry not only washes clean clothes, but also dries them without heat, the wife has acquired the time and energy, namely, the hugging of the washing on the old-fashioned clothes line, to back and dry in the glorious sunshine.

The greatest development in years and years, comes to this steadily growing industry in the perfection of a natural drying process. This new method of drying by air elimination for all into that unmistakable odor which has branded the work of the power laundry in the past.

Thousands and Thousands of Cubic Feet of Concentrated Sunshine

The scientific application of air as a drying agent in the power laundry is accomplished by the perfection of the Vogue Steam Drying Tumbler. This most wonderful machine baronizes fresh air in such a way that it not only eliminates the necessity of heat to dry clothes, but also dries them with equal efficiency, leaving them soft, flaky and preserving valuable fibers. A clothes line in this manner are never shrunk, discolored or left with a harsh feel.

The Vogue Steam Tumbler used in our laundry the only dried clothes that do not depend solely upon the sun for their drying, but it puts the work of the power laundry on par with that of the housewife’s own private laundry.

Be sure to see this wonder machine in our laundry, feel and smell the clothes it dries, notice how fresh and sweet smelling they are.

Phone 130

When you see the pleasing results, the economy and the convenience of this complete service, you are going to put an end to “home wash day.”
