Art of Walking in Long Skirts
Graceful Motion Not Hard to Master; Simple Exercise

Now that long skirts have come into fashion, it is important to ensure that they are being worn properly. The practice of walking gracefully in long skirts is not hard to master, and can be learned with simple exercises.

Variation
There are many variations on walking in long skirts, and the choice of which to use is often a matter of personal preference. Some women prefer the classic look of long skirts, while others prefer the more modern and stylish look. The classic look is characterized by long skirts that are floor-length or longer, with full skirts and a flowing hem. The modern look is characterized by long skirts that are knee-length or shorter, with a more fitted silhouette and a shorter hem.

Germany Enraged by Her Condemnation by League Council—Week Relief Program Going Forward—Compromise Bonus Measure.

By EDWARD W. PICKARD

Gen. Pershing, who received a note from the head of his Paris mission, has returned to France, and is now expected to arrive in the capital any day. The general was apparently acting on the advice of the British Government, and it is expected that he will visit several of the European capitals, including France, before returning to the United States. The general's absence is expected to last for some time, and it is probable that he will not return until the end of the year.

France today decreed a general war bonus of $500,000,000 for France and her Allies, making a total of $1,000,000,000. This is the largest amount of money to be paid in the world, and it is expected to have a considerable effect on the war.

The War Department has announced that it will purchase $5,000,000 of the total amount of money to be paid in the war.

The Secretary of War has declared that the United States will not expect to receive more than $50,000,000 of the total amount of money to be paid in the war.
