MONEY in your Kitchen.

There’s money saved daily bringing useful things to your home. A Superfex Oil Burner for the home does a lot of saving—gives the owner a controlling interest in the money it saves. Shown in the insert Superfex serves two purposes: it provides the means to convert "bills" into cash so that you might make your own coffee, save by having the coffee cooked at home, and it gives the owner a controlling interest in the money it saves by reducing the amount paid for fuel. There are no returns or down payments on fuel that should be within any reach to your kitchen. The benefit of Superfex burns itself out over a two-year period to give you a perfect refrigeration for whatever you like, you get. It is a highly efficient and reliable product and can be installed in any type of furnace. For complete information write to: Superfex Oil Burner Company, 216 N. Broadway, New York, N.Y. Dear Mr. — I wish to have a Superfex Oil Burner installed in my furna. Please send literature and complete installation instructions. — Sincerely yours, — [Signature] J. L. Hagan

REEF PRACTICE

DOCTOR

JOHN JOSEPH GAINES, M.D.

FOR STATE REPRESENTATIVE OF THE FIRST DISTRICT COMPOSED OF FULTON AND HICKMAN COUNTIES

I take this means of announcing to the public my candidacy for Representative of this Legislature, not as the act of the Democratic Primary, but of August 6th.

I would like to say that if I am elected by the Republican party, I would be an unbiased and a fair legislator. I believe the Superfex Oil Burner Company is a very good thing for the home. I would like to see every home in this district have one. It would be a great benefit to the home owner.

DEE L. McNEILL

DEE L. McNEILL
The Divorce Court Murder

BY MILTON TOPPER

THE INVESTIGATION

It was a quiet day in the offices of the John Rankin & Sons Detective Agency in Philadelphia. A routine morning, as Mr. Rankin and his partners tackled the cases that had piled up on their desk. One of the partners, Mr. Topper, was particularly busy. He had been assigned a case involving a wealthy divorce, and he was determined to solve it. As he worked on his report, he noticed a new face at the reception desk. It was Mrs. Keith, a well-dressed woman who seemed to be in a hurry.

"Good morning, Mr. Topper," she greeted him. "I'm here about a divorce case. My husband is being accused of murder, and I want to know the truth."

Mr. Topper, known for his sharp mind and dedication to his work, welcomed her warmly. "Of course, Mrs. Keith. Please take a seat. Let's make sure we understand each other's perspective."

He asked her to detail the situation, and she related the story of her husband's sudden arrest. "We were expecting a divorce settlement, but then he was arrested for murder. It doesn't add up."

Mr. Topper listened intently, noting every detail. He knew that the key to solving this case was the evidence. "I'll need more information, Mrs. Keith. Specifically, when did the arrest occur? What were the circumstances?"

She provided him with the details, and he began his investigation. He contacted the police, reviewed the evidence, and interviewed witnesses. His deductions led him to a suspect.

"I believe we have our man," he announced to Mrs. Keith. "I'll need you to come back when I have more information."

Mrs. Keith thanked him and left the office. Mr. Topper knew that the case was far from over, but he was determined to bring justice to the victim's family.

In the coming days, Mr. Topper continued his investigation. He found evidence that linked his suspect to the crime. He presented his findings to the police, and they charged the suspect with murder.

"The divorce court murder," he concluded. "It was a case of mistaken identity. The suspect had a similar name to the victim, and that's how he was targeted."

Mr. Topper's investigation was a success, and the suspect was convicted of murder. Mrs. Keith was relieved, and she gratefully thanked him. "I'm so glad you were able to clear my husband."

Mr. Topper smiled, knowing that his work was important. "It's what I do. Just call me when you have more questions."

The end of the story, of course, was heartwarming. The justice system worked, and the truth was finally revealed. The divorce court murder was solved, and everyone was satisfied with the outcome.

TAXES CUT INTO RAIL DOLLAR

Although railway taxes have declined about one-third from their normal pre-depression level at a million dollars a day, they have failed to keep pace with the decline in railway revenues. As a consequence, taxes now consume 3 cents out of each dollar of the gross operating revenue of the railways, as compared with 4 cents and even less in more prosperous years.

This situation has naturally had its influence on the abandonment of railway lines. More than $1,000 miles have been abandoned in the United States in fourteen years, the bulk of it since 1929.
