### The Pure Food Law.

Secretary Wilson says: "One of the objects of the law is to inform the consumer the presence of certain harmful drugs in medicines." The law requires that the amount of chloroform, opium, morphine, and other habit forming drugs be stated on the label of each bottle. The manufacturers of Chamberlain's Cough Remedy have always claimed that their remedy did not contain any of these drugs, and the truth of this claim is now fully proven, as no mention of them is made on the label. This remedy is not only of the safest, but one of the best in use for coughs and colds. Its value has been proven beyond question during the many years it has been in general use. ## ANOTHER FIRE

Holland's Cafe and Asher Graham's Store Together With Buildings Destroyed.

Fire that originated from an unknown source in the pressing club upstairs in the building occupied by Everett Holland's cafe destroyed the building together with the Graham building adjoining on the west, Wednesday night.

Holland's stock and fixtures, the pool room owned by Banks & Holland, the Graham stock and the two buildings, owned by Graham, and Dr. Hart and Radford where a total loss.

Graham estimates his loss at from \$12,000 to \$14,000, building and stock, with \$8,500 insurance.

Holland estimated his stock and fixtures at \$1,800 with \$1,100 insurance.

The pool room fixtures valued at \$1,000 were a total loss with no insurance.

The Hart & Radford building valued at \$5,000 was insured for \$2,500.

An alarm of fire was turned in about 12 o'clock and it was found that a coal house at Geo. Wallis' residence near the depot was afire and about the time the crowd

that had gathered was dispersing a second alarm of fire was turned in and it was found that the Holland cafe was a mass of flames.

Heroic work on the part of volunteer fire-fighters soon removed the Murray Harness Co. stock, the Sexton, Farley & Co. stock, the Adams barber shop fixtures and Dumas Allbritten's stock. In the meantime attention was turned to the Gatlin building to prevent its destruction. After some time and much labor the flames were confined to the Graham and Hart & Radford buildings. The heat from the burning building was intense and for some time it seemed that the entire block would be consumed.

Every merchant in the block sustained losses in damage to goods, etc. Dumas Allbritten lost about \$50 in money that was left on a dresser in the rooms he occupied over his place of business. This was evidently picked up by some one in the building at the time the goods were being removed.

Thursday night at about nine o'clock the Gatlin building was discovered on fire in the second story floor and it was found that a joist near a flue in which a fire had been burning all day Thursday was burning rapidly. The timely discovery evidently prevented a second serious conflagration.

### May Cause Change.

Frankfort, Ky., Jan. 5.—Protest on the part of several Democrats here over the appointment of Judge A. J. G. Wells of Murray, as member of the State Board of Control, has given rise to the rumor that an attempt will be made at the next session of the Legislature to repeal the act which created the bi-partisan board of control and thus take the power of appointment from the Governor. According to rumor it is planned to create another board to have charge and jurisdiction over the state asylums, the members of same to be elected by the legislature.

This rumor and discussion, naturally are causing much speculation as to the probable relative strength of the Republicans and the Democrats when the solons take their places next winter in the new state capitol across the river.

## A DECISION

Is Rendered by Judge Berry in Calloway County Chairman Contest.

Judge W. A. Berry, of Paducah, state central commissioner from the First congressional district, and by virtue of the position is made referee of all disputes or contests arising in the district, rendered his decision in the Calloway case Wednesday in which he sustains N. L. Chrisman as chairman of the committee and Zeb A. Stewart as the secretary.

The matter was laid before Berry last Tuesday by affidavit and was reviewed by him and a decision rendered the following day.

Mr. Berry rules that the organization of the committee by six members was regular, and that the credentials committee had the authority to refuse to permit the five members who presented credentials not signed by a secretary of mass meetings which elected them, seats in the organization. He did not rule that such a mass meeting secretary was necessary, in fact the question was not discussed in the opinion.

He further sustained the election called and held last week under direction of Chrisman and declared that the committee is now legally composed of Zeb A. Stewart, West Murray; Dan Clayton, East Murray; Tom Fair, Fair; N. L. Chrisman, Hazel; J. F. Myers, South Swann; Boss Starks, North Swann; A. P. Adams, North Brinkley; Elbert Lassiter, South Brinkley; M. M. Youngblood, Jackson; Jack Stewart, Almo; John Roberts, North Liberty; Rafe Jones, South Liberty; John C. Oliver, South Concord. A vacancy is declared to exist in North Concord because no election was held in same last week.

The decision is sweeping in effect and radically at variance with actual occurrences. It is claimed by friends of the five committeemen that the matter will be further prosecuted.

### TRY THIS FOR COLDS

Mix half ounce of Concentrated pine compound with two ounces of glycerine and a half pint of good whiskey; shake it well each time and take in doses of a teaspoonful to a tablespoonful every four hours.

These ingredients can be obtained from any good druggist who will prepare the mixture, or it can be mixed at home. This is said to be the quickest cough and cold cure known to science, and at the same time it has a splendid tonic effect which benefits the whole system. The Concentrated pine is a special pine product refined for medical use and comes only in half ounce bottles, each enclosed in a round case, which is airtight, to retain all the original strength of the fluid, but be sure it is labeled "Concentrated."

Girl's Head Encrusted—Feared Loss of All Her Hair—Baby Had Milk Crust—Missionary's Wife Made

**Two Perfect Cures by Cuticura.**  
"For several years my husband was a missionary in the Southwest. Every one in that high and dry atmosphere has more or less trouble with dandruff and my daughter's scalp became so encrusted with it that I was alarmed for fear she would lose all her hair. After trying various remedies, in desperation I bought a cake of Cuticura Soap and a box of Cuticura Ointment. They left the scalp beautifully clean and free from dandruff, and I am happy to say that the Cuticura Remedies were a complete success. I have also used successfully the Cuticura Remedies for so-called 'milk-crust' on baby's head. Cuticura is a blessing. Mrs. J. A. Darling, 310 Fifth St., Carthage, Ohio, Jan. 29, 1905."

**Opposed to Toll Roads.**  
Maryland, following the recent lead of Pennsylvania, is moving to abolish toll roads. Gov. Crothers has expressed the hope that before his term is ended every tollgate in the state will be abolished and every road free. He believes that the work of the good roads commission will ultimately result in wiping out the gates. The tollgate, says the governor, "is not of this age and has no proper place in this time. It is ridiculous to think of charging people money for coming to your city."

**Splendid.**  
"That's a fine looking maid you have now, dear."  
"Yes, she's a darling, and she came to me highly recommended."  
"Knows all about the latest styles of maidling, I suppose?"  
"Oh, so far as knowing the duties of a maid goes, I don't suppose she knows a thing."  
"But she came highly recommended, you said?"  
"Yes, she broke the jaw of the last man who tried to kiss her."—Houston Post.

**The Disturbing Telephone.**  
"The telephone has destroyed all the privacy of society," said the society girl. "It breaks in on everything. Nothing is sacred to it. You may be saying your prayers. The telephone. Or in the midst of your bath. The telephone. Or doing up your back hair, or, worst of all, a delightful man may be making love to you, who, kiling, kiling! The telephone breaks off the thread of his theme and he fails to resume it."

**Warmth and Illumination Needed.**  
A philosophy without heart and a faith without intellect are abstractions from the true life and being of knowledge and faith. The man whose philosophy leaves cold, and the man whose real faith does not illumine, may be assured that he faults lies in themselves, not in knowledge and faith. The former is still an alien from philosophy, the latter an alien from faith.—Hegel.

**ROSY AND PLUMP**  
Good Health from Right Food.

"It's not a new food to me," remarked a Va. min. in speaking of Grape-Nuts.  
"About twelve months ago my wife was in very bad health, could not keep anything on her stomach. The Doctor recommended milk half water but it was not sufficiently nourishing. A friend of mine told me one day to try Grape-Nuts and cream. The result was really marvelous. My wife regained her usual strength and today is as rosy and plump as when a girl of sixteen."  
"These are plain facts and nothing I could say in praise of Grape-Nuts would exaggerate in the least the value of this great food."

## SIX NIGHT RIDERS ORDERED HANGED

DATE OF EXECUTIONS IS SET FOR FRIDAY, FEBRUARY 19th, NEXT.

## NEW TRIALS DENIED THEM

Twenty Years for Two Other Men Convicted of Captain Rankin's Murder—Extreme Penalty Imposed.

Union City, Tenn., Jan. 10.—Death on the gallows for the six night riders convicted of murder in the first degree and 20 years in the penitentiary for the two convicted of murder in the second degree is the sentence of Judge Joseph E. Jones.

The date of the execution of the men convicted of murder in the first degree was set for Friday, February 19.

Sentences were imposed on the eight convicted night riders, following the overruling of a motion for new trials on behalf of each man Saturday morning.

### Extreme Penalty Imposed.

The judge disregarded recommendations of mercy for each of the six convicted of murder in the first degree and also gave the extreme punishment for second degree murder.

The prisoners received the news suddenly and there was no demonstration. The attorneys for the defendants gave notice of appeal, which will be taken to the supreme court. The latter meets in April.

The names of the men sentenced to death: Jarrett Johnson, Fred Pinton, Arthur Clear, Sam Applewhite, Ed Burton and Ray Hanson.

The following were sentenced to 20 years imprisonment: Bob Hoffman and Tad Morris. This is the limit in Tennessee for second degree murder.

### Hanly Urges Temperance.

Indianapolis, Ind., Jan. 10.—Gov. Hanly's last message was delivered Friday. He denounced the proposition to repeal the local option bill passed at a special session last September. He said local option was a live wire and contained electricity enough to kill any party that touches it, and denounced alcohol as a cause of despondency, crime and a public burden.

### Confederate Reunion in June.

Memphis, Tenn., Jan. 10.—By a unanimous vote the executive committee having in charge arrangements for this year's Confederate reunion decided on June 1, 2 and 3. These dates are subject to the approval of Adj. Gen. Mickle, and a copy of the resolution was forwarded to him in Mobile. Committees were appointed looking to the entertainment of the veterans and visitors.

### Bride Killed By Mistake.

Sterling, Colo., Jan. 10.—Mistaking Henry W. Tucker, a prominent young ranch contractor, and his two months bride, for robbers, Karl Tachnarch, a Russian farmer, Friday evening, near Bluff, fired blank at both of them with a double barreled shotgun. Mrs. Tucker was instantly killed and her husband was seriously wounded.

### Caleb West in Critical Condition.

## CLAUDIA HAINS AT TRIAL

HEAVILY VEILED AUDITOR WAS CAPTAIN'S WIFE.

Court Orders Darrin to Finish With Rebuttal Testimony—Not to Call Aliens.

Flushing, L. I., Jan. 10.—John F. McIntyre, senior counsel for the defense in the trial of T. Jenkins Hains charged with complicity in the murder of Dr. Samuel Manson, a woman, declared Saturday he believed Mrs. Claudia Libbey Hains is attending the hearing in disguise.

"I believe Mrs. Hains was in the court room yesterday afternoon," said McIntyre. "During the examination of Dr. Samuel Manson, a woman, clothed in black and heavily veiled, entered the court room. She took a seat in the rear, near one of the doors. The moment I noticed her, I felt reasonably certain she was Mrs. Hains."

### State to Finish Saturday.

Justice Crane told Darrin at the opening of the session Saturday that the state must finish its rebuttal before night.

Darrin insists he has 30 witnesses—and that he will demand they be heard—to contradict the testimony of John Tierney, the ashman, who testified Mrs. Hains was not on the boat at the time of the killing, and that T. Jenkins Hains did not draw his revolver until Roberts had picked up Capt. Hains' pistol and pointed it at him.

The prosecutor has positively announced he will not call any medical experts in rebuttal, as he claims the defense has made no case in its efforts to prove Hains insane at the time of the tragedy.

### State Not to Call Aliens.

"When the accused sets up a plea of insanity," he said, "it is not the duty of the state to disprove insanity, but it becomes the duty of the defense to prove insanity beyond a reasonable doubt. This has not been done, and I will not call witnesses to disprove something that has not been established."

The witness Tierney is reported dying of pneumonia. The defense has decided to call the wives of several members of the Riverside yacht club to substantiate the defendant's contention.

### FAMINE IN WOOD PULP.

Leading Manufacturer Declares Print Supply is Nearly Exhausted.

New York, Jan. 10.—C. F. Remington, one of the leading paper manufacturers in the country, head of paper mills having a capacity of 200 tons daily, warns the publishers of the country, in an article published in the Editor and Publisher this week, that a paper famine is at hand.

"The country has suffered from an unprecedented drought, in which the surplus wood pulp of the country has been used up, and should severe winter weather set in generally over the paper mill section, the supply will be found exhausted and many of the larger papers will be forced to suspend publication."

"Owing to low water, the mills have produced but about half their capacity, the three months' strike of the international paper workers served further to diminish the supply, and although few publishers realize it, we are on the brink of a paper famine."

"One thing that must soon be done is the adoption of a standard size of newspaper by publishers, manufacturers and printing press manufacturers. The present hand-to-mouth methods of supply and demand tend more than anything else to demoralize the industry."

### Oklahomans Fight Duel.

Oklahoma City, Okla., Jan. 10.—Oklahoma City, Okla., Jan. 10.—George Johnson and Samuel Howard, prominent citizens of Elk City, fought a duel with pistols in the street there Friday, as a result of which each killed the other, Johnson dying instantly and Howard a few minutes later in his wife's arms. The men had been friends and the cause of the tragedy is not known. They met on the street, turned off the mouth of an alley and began firing without apparent provocation.

### Roosevelt Gives Dance.

Previous to the dance, which began at 10 o'clock, there was a dinner, at which about thirty guests were present.

### Noted Coachman Ends Life.

Boston, Jan. 10.—Daniel J. Mooney, former president of the coachmen's union, committed suicide Friday night by taking poison. Mooney had been driver for President Roosevelt, who commended his skillful work on a visit here four years ago, and had also driven Prince Henry of Prussia when the latter visited this city on his tour of the United States. Mooney had been out of work of late.

### Explosion Shakes Town.

Partisville, Okla., Jan. 10.—When nearly 200 quarts of nitroglycerin exploded here, most of the heavy plate glass windows of the city stores were shattered. The explosion occurred at the magazine of the Eastern Tobacco Co., nearly two miles from town. No body was injured as far as known.

## TWO FIRES NEAR ST. LOUIS

RESIDENCE AT FERGUSON BURNS WITH \$10,000 LOSS.

Merchant's Stock Worth \$12,000 Is Ruined in Southampton Blaze.

St. Louis, Jan. 10.—Two disastrous fires occurred early Saturday. One, in Ferguson, resulted in injuries to four men and destroyed the \$10,000 home of Peter Wagner. The other, in Southampton, ruined a \$12,000 uninsured stock of merchandise and partly wrecked a new building.

The Ferguson fire was one of many thrills. Mr. Wagner had left early for St. Louis. About 7 a. m. his son, Horace, smelled smoke.

Defective Flue Blamed.

Horace is in the insurance business and was dressing in his room on the second floor. Running downstairs he called his mother. They heard a roar of fire and when they reached the outside of the house discovered the eaves ablaze.

A defective flue is believed to have started the blaze.

Realizing the danger to his sister, Miss Carrie Wagner, 23 years old, an invalid, Horace rushed back into the house. He stopped only to telephone an alarm to Fire Chief Charles Drauss before rescuing Miss Wagner. Another sister, Miss May Wagner, was able to get out unassisted, but Horace carried the invalid to the home of William Smith, a neighbor.

### Three Firemen Are Hurt.

Drauss summoned the members of the volunteer department and en route to the Wagner home, which was in Ashbrook place, near Carson road, three firemen were hurt.

The men were running down a grade when the rope gave way and they fell—several right into the path of the hose reel, which is a heavy vehicle.

Chief Drauss and William Adams were among those struck, but were able to go on to the fire.

John Salz, another volunteer, was more seriously hurt. After the cart had passed on he was picked up and carried to a doctor.

### Three Die in Tenement Fire.

New York, Jan. 10.—Three persons, two men and a boy, lost their lives in a fire that gutted two upper stories of a five-story tenement in Ninth avenue early Saturday. The police and firemen offered many heroic rescues.

Officer Dondero, who gave the alarm throughout the lower floors, is in the hospital, badly burned.

### Four-Story Bank Building Burns.

Hamilton, Ohio, Jan. 10.—The Miami Valley National Bank building, a four-story brick structure in the heart of the business district, at Second and High streets, was burned out early Saturday. The loss is estimated at \$200,000, with insurance at less than half this amount.

### GOW GETS FOUR YEARS.

Former Elsbey Pastor Found Guilty by Jury at Mexico, Mo.

Mexico, Mo., Jan. 10.—After being out nearly two hours and a half, the jury in the case of the former preacher, Clyde Gow, returned a verdict in which Gow is found guilty of manslaughter in the second degree and sentenced to four years' imprisonment. The defense will ask for a new trial.

The defendant, who was indicted jointly with Dr. W. A. Hemphill for the death of Miss Elizabeth Gleason, a Lincoln county school teacher, took the stand in his own behalf.

His testimony lasted an hour and a half and he told in detail of his acquaintance with Miss Gleason. His story would make it appear that the girl, and not himself, was the one who insisted upon their friendship.

The prosecution attempted to cross-examine him, but was practically prevented from doing so by skillful objections from the counsel for the defense.

### Warships at Beirut.

Beirut, Syria, Jan. 10.—The United States battleships Louisiana and Virginia, under command of acting Rear Admiral Schroeder, arrived here Friday and left immediately for Smyrna, Turkey, in consequence of the plague which prevails here.

## TILLMAN TO REPLY TO ROOSEVELT

PREFERS LONG ANSWER TO THE PRESIDENT'S CHARGE OF INTEREST IN LAND CASE.

## IS PART OF THE SPY INQUIRY

Alleged That South Carolinian Profited Through Action Against Railroad—Hale Has Roosevelt Report.

Washington, Jan. 10.—To the president's charge that Senator Benjamin Tillman of South Carolina was involved in his own profit in the Oregon land deal, the South Carolinian will make answer in the senate Monday, he having prepared a long defense of his action. Tillman has declined to discuss the matter.

The charges of the president are sequential to the "spy system" inquiry and in a report to Senator Hale of Maine the president makes public the findings in the Oregon case. The report was presented to Hale in response to a requested statement on secret service.

The report purports to show that Mr. Tillman used his influence as a senator in an effort to force the government to compel a railroad corporation to relinquish its control of land grants from the United States in order that he and his family and his secretary, J. B. Knight, might profit through the purchase of some of the land; used his government franking privilege in numerous instances for the conduct of private business.

### Long Communication.

Senator Tillman said that he could not make his reply so complete as he would desire for Sunday's papers, and that he would, therefore, withhold whatever remarks he might have to make until Monday, when he would make a statement to the senate.

"Certain letters and telegrams," said the senator, "which would have been very useful to me in explaining this transaction, I find have disappeared from my desk in my room at the Capitol. They were left there last spring by my secretary, who is a very reliable man. He assures me that he placed the man in a certain pigeon hole and that he did not remove them. I do not charge that any one broke into my room or my desk. I simply state the fact that the papers were there and that they are now missing."

### Tillman Goes Slow.

Tillman, discussing the president's message, said: "It is a serious thing for the president of the United States to attempt to limit the honor of a senator of the United States, and therefore I suppose the evidence he has, in force I suppose, convinces me. I am going to proceed slowly and carefully, so that the whole matter may be handled in as grave a manner as it deserves. Of course, I know that I have not done anything unlawful, and therefore I have no fear of the outcome. But I cannot afford to be hasty."

The senator declined for the present to go into details as to his application for land grant sites in Oregon, or explain the apparent discrepancies between his statement on the floor of the senate on February 19 last and his letter of February 15 to Reeder & Watkins of Marshfield, Ore.

The communication to Senator Hale is nearly 3,000 words long and there is appended exhibits including copies of letters written by Senator Tillman and his agent, William E. Lee, showing that they did make an effort to secure several quarter sections of the Oregon land, and the reports of the post office inspectors who investigated the transactions of the land agents.

### Referring to Tillman.

It was through this investigation that the alleged interest of Senator Tillman was brought to light, and, fatefully, it appears that it was at his instigation the inquiry was begun.

### TRAIN WRECKERS SOUGHT

Open Trestle On Great Northern Causes Fireman's Death.

Bellingham, Wash., Jan. 10.—Detectives are seeking the persons responsible for the wrecking of the north-bound Great Northern passenger train at Commercial point Thursday night.

The trestle was left open and the passenger engine and mail car plunged into the bay. Edward Stuart, fireman lost his life; Jack Bailey, mail clerk, had both legs crushed.

### Pioneer Illinois Land Owner Dies.

### Mrs. Grace Depew Gets Divorce.

Colorado Springs, Colo., Jan. 10.—Mrs. Grace Goodyear Depew, the rich Buffalo woman, who was the wife of Senator Depew's nephew, Saturday obtained a divorce.

## Terse Telegrams

Harry K. Thaw was taken from the Matteawan state hospital for the criminal insane to Nyack, to be present at a hearing before Justice Tompkins on the application of his mother, Mrs. William Thaw, for another trial to determine whether he ought to be liberated.

The Arkansas general assembly will convene Monday for what doubtless will be one of the most remarkable sessions of the state legislature ever held.

In two fervid letters, written evidently by a woman of culture striving to lift the man she loved from the depths of some great trouble or despair lies the clue to the mystery surrounding the death of Earl N. McCourty, 22 years old, found dead with a bullet hole in his forehead in his office in the Century building, St. Louis late Friday night.

Deprecating all eulogy of himself, "Fighting Bob" Evans, in an address under the auspices of the Navy League of the United States, at New York Friday night, gave all the credit for the taking of the fleet around the Horn to the "men who boiled the water and peeled the potatoes." The grizzled fighter also declared that the fleet was unfit for such a test at the time; that he knew not where he was going when he started, but that he did not dare to question President Roosevelt.

### RED TAPE KILLS MANY.

Italian Government's Delay Blamed for Many Deaths.

Rome, Jan. 10.—The red tape of the Italian bureaucracy was responsible for thousands of deaths in the quake-devastated towns, according to charges that are now being made against the government.

It developed Saturday that these would have been officially made at the opening session of the extraordinary session of parliament Friday, but the leaders were persuaded at the last moment to postpone the attack until the public temper becomes slightly calmer.

Until delay in getting government aid to the stricken towns was due, the opponents of the government say, to the cumbersome red tape with which Premier Giolitti has wound the different departments.

Had the government acted promptly instead of waiting forty-eight hours it is believed that at least 10,000 persons who died in the ruins or from injuries and starvation, could have been saved.

### WRIGHT DENIES CHARGE.

American Was Too Busy in France to Gossip Himself About Women.

Paris, Jan. 10.—Wilbur Wright, the American aeronaut, who is about to be named by a jealous husband in a suit for divorce to be filed within a fortnight at Le Mans, says he has never even seen the woman in the case. Mr. Wright's friends say it is only another phase of the Wright mania which seems to possess Frenchmen.

Those who were with him at Le Mans say he was too busy guarding his aeroplane to think of attentions to the fair sex. He has never had the reputation of being a ladies' man.

## The Murray Ledger

O. J. JENNINGS, Editor and Owner.

Entered at the post office at Murray, Ky., to second-class matter.

### JUSTICE!

The Ledger will endeavor to review at some length the political affairs of Calloway as they now stand in our next issue. We will also give some notice to the Berry opinion and will again give attention to all the facts leading up to the present condition and render our opinion accordingly.

Hon. Boge Wyatt, of Marshall county, trimmed the sails of Tom Myles to a queen's taste in a speech at Paducah last Saturday. Myles was fired as grader of the association some time ago for good and sufficient reasons, and he has lately been going around bitterly attacking Mr. Ewing and the management of the Association. Saturday he was billed to spout a few at Paducah, and the "little giant" from Marshall was on hand cocked and primed, and those who heard him say that his reply to Myles simply put the former Association grader out of business. Wyatt's speech is said to have been great, and would compare favorably with his effort when he went after Tommy Drewery while discussing the new Capital question on the floor of the Kentucky House of Representatives several years ago.—Cadiz Record.

## GROWS HAIR ON BALD HEADS

Bald Headed People May Get a New Chance in Life.

In these days when youth is the moving factor in business; when a man makes his mark at thirty-five and is ready to retire at forty-five; when business houses pension the man we call "middle aged" rather than allow his lagging influence to intrude upon the commercial rush, a bald head is almost fatal to any man's hopes. The following must therefore prove interesting to people who are losing their hair or are bald.

Resorcin is one of the latest and most effective germ killers discovered by science, and in connection with Beta Naphthol, which is both pernicidal and antiseptic, a combination is formed which destroys the germs which rob the hair of its nutriment, and also creates a clean and healthy condition of the scalp, which prevents the development of new germs.

Pilocarpin is a well known agent for restoring the hair to its natural color, where the loss of color has been due to a disease of the scalp. Yet, it is not a coloring matter or dye.

This combination of curatives mixed with alcohol as a stimulant perfects the most effective remedy for hair and scalp troubles.

The famous Rexal "93" Hair Tonic is chiefly composed of Resorcin, Beta Naphthol and Pilocarpin. It makes the scalp healthy, nourishes the hair, stimulates the follicles. Where the head is already bare, it enters the follicles, revitalizes the roots, supplies nourishment and stimulates a new growth.

We want you to try a few bottles of Rexal "93" Hair Tonic, on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy and it should indisputably demonstrate that we know what we are talking about when we say that Rexal "93" Hair Tonic will grow hair on bald heads, except of course, where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexal "93" Hair Tonic, and we have the right to assume that what it has done to hundreds of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Two sizes: 50c. and \$1.00. Dale & Stubblefield, Murray, Ky.

## Defeat of The Bob-Cats.

If I were Guy-not Willson, I tell you what I'd do; I'd haste me down a gopher hole, And pull the hole in, too.

Over in dear old England when a representative's policy is turned down he resigns his commission to the people. This custom is respectfully submitted to Governor Willson. Last year he was elected by a majority above fifteen thousand. He has been in office a little more than a year. He has pursued a certain policy in managing a serious situation. The first time the people got a chance to express themselves on his policies they condemned them in no uncertain terms. The Governor made a vigorous campaign against Bob Thomas, speaking at several places in the district. Bob was elected, overcoming a republican majority of six hundred. He denounced Owsley Stanley, and the people of his district sent him back to congress by a majority of over four thousand. He accused Ollie James of being in league with the night-riders and other high crimes and misdemeanors. They haven't got through counting Ollie's vote yet, but it has already gone above thirteen thousand.

Governor Willson spoke at Glasgow and old Barren responded with a democratic majority of 700. He spoke at Cadiz, and Trigg came back with the largest democratic vote in years. He spoke at Central City, and the republican majority in Muhlenburg was cut in half. He spoke in Paducah, and that progressive pansy of the purchase went democratic for the first time in a dozen years in the presidential elections, and the county handed him back a 1,000 majority for the other fellow. He went out to Calloway, and Calloway responded nobly to the tune of 2,500. He spoke at Hopkinsville, and the republican vote was materially reduced.

The Governor is quoted as saying: "I don't say that every democrat is a night-riders, but I do say that every night-riders is a democrat." Maybe it was Franks said that, but if so, somebody told him to say it. At any rate, Willson believes, or affects to believe, this thing. What does he think now? If the democrats are night-riders, there are still a few of us left down here in God's country.

The fact is, Governor Willson is a failure. He had a chance to do a great work, but either did not have the ability or the honesty to accomplish it. In dealing with the tobacco problem, his motive was as apparent as the rear view of one of Charlie Meacham's pole-climbers. The people down here think, whether rightfully or otherwise, that he was acting under the orders of another. They have no power to remove his soldiers, but they have the vote, and the large vote cast here for the persons whom he has made the subjects of his vituperations is their answer.

Governor Willson, the people of Western Kentucky have spoken.—Bowling Green Messenger.

## S.S.S. FOR BAD BLOOD

The most important part of the human system is the blood. Every muscle, nerve, tissue, bone and sinew is dependent on this vital fluid for nourishment and strength necessary to maintain them in health and enable each to perform the different duties nature requires. Even the heart, the very "engine" of life, receives its vigor and motive power from the blood. Since so much is dependent on this vital fluid it can very readily be seen how necessary it is to have it pure and uncontaminated. If we would enjoy the blessing of good health, Bad blood is responsible for most of the ailments of mankind; when from any cause it becomes infected with impurities, humors or poisons, disease in some form is sure to follow. Muddy, sallow complexion, eruptions, pimples, etc., show that the blood is infected with unhealthy humors which have changed it from a pure, fresh stream to a sewer, acid fluid, which forces out its impurities through the pores and glands of the skin. A very common evidence of bad blood is sores or ulcers, which break out on the flesh, often from a very insignificant bruise or even scratch or abrasion. If the blood was pure and healthy the place would heal at once, but being loaded with impurities, which are discharged into the wound, irritation and inflammation are set up and the sore continues. Bad blood is also responsible for Anemia, Boils, Malaria, etc.; the weak, polluted circulation cannot furnish the nourishment and strength required to sustain the body, and a general run-down condition of health results. S. S. S. is nature's blood purifier and tonic; made entirely of healing, cleansing roots and herbs. It goes down into the circulation and removes every particle of impurity, humor or poison that may be there, restores lost vitality, and steadily tones up the entire system. It adds to the blood the healthful properties it is in need of, and in every way assists in the cure of disease. S. S. S. neutralizes any excess of acid in the blood, making it fresh and pure, and permanently cures Eczema, Acne, Tetter, and all other skin diseases and eruptions. S. S. S. cures Rheumatism, Catarrhs, Sores and Ulcers, Malaria, and all other diseases or disorders arising from bad blood. Book on the blood and any medical advice desired free to all who write.

## Sues For Divorce.

Mayfield, Ky., Jan. 7.—Mrs. Lillie Dulaney, through her attorneys, Robbins & Thomas has filed a petition in the circuit court asking for divorce and alimony from her husband, James A. Dulaney.

She states that they were married in Fulton, on April 15, 1896, and have since lived together in Mayfield, during which time she says she has endeavored to make a dutiful wife.

She makes allegations in the suit stating that he has mistreated her on various occasions.

She now asks for an absolute divorce and a general attachment for \$5,000 against his property, to secure the alimony of that sum, for which she is praying.

She further asks in the petition that Mr. Dulaney be restrained from visiting her during the pendency of said suit, and from interfering in any manner with her, or taking away their child, James Jr., at any time without jurisdiction of the court.

In the suit she also wants the custody of the child.

Mr. and Mrs. Dulaney are members of one of the prominent families of this city.

## TESTIMONIAL.

Mr. Freeman Rodgers who lives 5 miles N. E. of Murray is a farmer and stock raiser of considerable experience. Listen what he says about Rawleigh's stock food: "I have been a farmer all my life and have taken a great interest in stock raising in which I have been reasonable successful. I have always tried to get the most out of my stock at the least possible expense, to do this it is necessary to use some kind of a conditioner or stock food, but after feeding 100 lbs of Rawleigh's Medicated stock food I am free to confess its the best I ever fed. I find it pays to feed it to growing colts, I find young mules will do as well on 8 or 4 ears of corn with stock food as they will do on 5 or 3 without stock food."

## I Have The Fastest Pacing Stallion in Cal-laway County

and I only feed him 3 ears of corn at a feed with Rawleigh's stock food and he keeps in good flesh and full of life. I feed Rawleigh's stock food to my jack and I find he is more sure to fold. If all stock raisers would use Rawleigh's stock food before breeding they would be more sure of a fold. It is just as needful to tone your mare's system before breeding as it is to prepare your land before planting a crop. I am never hasty in recommending any kind of preparation but after giving Rawleigh's stock food a thorough trial I have written this testimonial and desire to have you publish it for the benefit of stock raisers. Hoping every man will look to his own interest in stock raising with full confidence that all who use Rawleigh's stock food will find it as I have, an added profit rather than an added expense."

Respectfully yours,

## A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broad-cast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merits, and made them medicines of known composition.

By this bold step Dr. Pierce has shown that the formulae are of such excellence that he is not afraid to subject them to the public scrutiny.

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomachs, biliousness and all catarrhal diseases wherever located, have printed upon it in plain English, a full and complete list of all the ingredients composing it, but a small book, has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral acids or other poisonous or injurious agents and that they are made from native medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, over-worked, "run-down," nervous and debilitated women, were employed long years ago by the Indians for similar ailments affecting their women. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription, was known to the Indians as "Snake-Weed." Our knowledge of the uses of not a few of our most valuable native medicinal plants was gained from the Indians. As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, relieving painful periods, toning up the system and bringing about a perfect state of health. Sold by all dealers in medicine.

## WIRE AND WIRELESS

By D. G. DANVERS

The going ashore warning had been sounded and the home-stayers were hurrying to give their last messages, say their last farewells. It seemed to Mona Wayland that every passenger aboard had friends to say good-by to except herself.

The thought only served to increase her bitterness of spirit, though she had carefully planned to conceal her departure, that there might be no one at the dock to see her off.

Friends at such a time could only serve to accentuate the self-pity that had sustained her ever since she had read that fateful telegram. This was to have been her wedding journey. She and Graham Temple had planned to take the trip. It was to have been Graham's first visit abroad and they had laid out a tour that should cover the whole continent.

Then Temple had been called to New Mexico to look after some mining interests and presently the papers had reported his marriage to the Señora Mendez, who owned the mines adjacent to his and who was reported to be worth several millions.

Harry Vieland had often joked Graham about his conquest of the Mexican woman, but Mona had not taken it seriously. When the telegraphic dispatch appeared in all the papers and Graham had not written in two weeks, she feared what she thought was the bitter truth.

Unable to bear the sympathy of her friends, Mona had arranged to slip quietly off to Europe. Her aunt would join her in London, and by

Mechanically She Stretched Out Her Hand.

the time they returned the broken romance would have been forgotten. She sat quietly in the shadow of the funnels or the upper deck and idly watched the preparations for departure through tear-blinded eyes.

There were few on the upper deck. Most of the passengers were crowding the lower rails to catch last glimpses of their friends as the huge ship backed slowly out of the slip, and with the help of the noisy, panting tugs headed for the opening of the Narrows.

Even the men were too busy to give more than a passing notice at the handsome girl whose wealth of golden hair was snugly held in place by the veil that served also to hold in place her trim stalking cap. And yet Mona Wayland was well worth a second glance. Her well-rounded figure showed to excellent advantage in the severely tailored suit of blue cloth and the clear pallor of her cheeks were things to be remembered.

Sloping the impressive panorama of the harbor slipped past; the wonderful sky line of the city, the villa-dotted shores of Staten Island and the more populous Long Island shore, but Mona gave no heed. She was lost in her thoughts and her thoughts were far from pleasant.

She had loved Temple with an intensity that sometimes frightened her, and her disappointment was the more keen because she had trusted him so implicitly. For nearly a year they had planned for their marriage, and when he had wed another without even a word to her, both love and pride were sorely hurt.

She did not stay at home and let others console with her. It was less than a week since the item had appeared. Yet it seemed to her that years had passed since her father

had handed her the paper at the breakfast table.

The bugler blew the luncheon call, the notes sounding soft and clear as they floated up from the main deck, but Mona gave no heed. She wanted only to be let alone, to sit back in her chair and watch the fading of the land, comparing it with the dying of her hopes.

In review, she brought all of the incidents of the year of their engagement, recalling all their tender intercourse and trying to deaden her feelings with the thought that it was all insincere and that Temple had forgotten his tender vows in the thought of the material advantage to be gained through a marriage with the owner of the adjoining mines.

She had thought that by this means she might succeed in deadening the bitter pangs of her heart, but instead every memory only increased her suffering, and at last, unable to bear with her pain, she rose and descended to the lower deck in the hope that she might find distraction in the company of other passengers.

As she reached the other deck the passengers were coming up from lunch, and a boy was pacing the decks for her. Mechanically she stretched out her hand for the envelope he held and tore it open.

It was a long one from Temple, and told of his arrival in the city just too late to find her. His telegrams had been delayed during the strike and the first knowledge he had had of his reported marriage was when his friends had jokingly congratulated him.

A hurried inquiry had developed the fact that Vieland's cousin was an operator handling the Press Association dispatches and that he had changed the name of the bridegroom probably at Vieland's instigation.

In a flash Mona saw the plan. It was Harry Vieland who had been first to offer her his sympathy. She had wondered then at his suggestion that they get married immediately to show Temple that she did not care. It was all a part of his scheme. While pretending to be Temple's friend had only sought to win her for himself.

With trembling hands she took the pencil to write an answer. "Follow on next steamer," she wrote. "Ceremony can be performed in London. I liked wireless better than wire."

And Temple, reading the reply, fervently blessed the wireless that had reduced his suspense to so short a period.

### SEES END OF RELIGION.

Miss Ethel Arnold, the Englishwoman lecturing in this country, thinks that there is something deficient in the ethics upon which the civilization of the day is founded. "Still," she says, "when the gods of the past are gone there will survive a god in every blade of grass, in every flower, in every star, in every struggling human soul."

### WOODEN SHOES.

"Hello!" said the city salesman "What's this?"

"A wooden shoe," said the proprietor of the Sixth avenue store. The city salesman seemed surprised. "You don't mean to say," he said, "that there are people in this town who make wooden shoes and others who actually wear them?"

—New York Times.

### KNOW HER FAILING.

Patience—How do you know Peggie is alone?

Patience—Because I hear her singing!

Patience—But that's no sign.

Patience—Yes it is. If there was anyone with her she'd be talking.—Stray Stories.

### MATTER OF LIFE AND DEATH.

Lady Tourist (with notebook)—Were you not afraid as you stood there in the jaws of death?

Old Salt (reminiscently)—Not that I know of, ma'am! You see, I had been used to facing the jaws in life. I'm a married man.—Bohemian.

### NO NEED OF IT.

"I would die for you," exclaimed her lover, passionately.

"Oh, don't," she answered, in alarm; "I would like your hair and mustache so much better as they are."—Stray Stories.

### UNANSWERED.

Mrs. Hoyle—Does your husband smoke?

Mrs. Hoyle—My husband is dead.

Mrs. Hoyle—That isn't answering my question.

### PATIENT SUFFERING.

Many Women Think They Are Doomed to Backache.

It is not right for women to be always ailing with backache, urinary ills, headache and other symptoms of kidney disease. There is a way to end these troubles quickly. Mrs. John H. Wright, 606 East First St., Mitchell, S. D., says: "I suffered ten years with kidney complaint and a doctor told me I would never get more than temporary relief. A dragging pain and lameness in my back almost disabled me. Dizzy spells came and went and the kidney secretions were irregular. Doan's Kidney Pills rid me of these troubles and I feel better than for years past." Sold by all dealers. 50c a box. Foster-Milburn Co., Buffalo, N. Y.

### MAKING THE MOST OF IT.

"Don't be alarmed, Miss Hash, this microscope is merely to enable me to see what I'm eating!"

### A Woman's Threat.

"Well, if that ain't the limit," mused the postman, as he came down the steps of a private residence. "What's the trouble?" queried the passing citizen, who had overheard the postman's noisy thought.

"Why," explained the man in gray, "the woman in that house says if I don't come along earlier she'll get her letters from some other carrier."

### Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the

### Mabel's Wish.

Small Mabel—Mamma, they sell cream at a creamery, don't they? Mamma—Yes, dear.

Small Mabel—If I were to buy some tan at a tannery, mamma, do you think they would throw in a few freckles?

### DOMESTIC REPARTEE.

Mr. Knags—Before you met me you said you wouldn't marry the best man in the world.

Mrs. Knags—And you are the only one who thinks that I broke my word.

### Unique Visiting Card.

Mme. Johanna Gardski has brought to this country a card that has become quite the rage in Germany, where it is a new form of visiting card, containing not only an elaborately engraved border, but a silhouette of the person it represents. The custom calls for a design appropriate to the holder's station. Thus, in Mme. Gardski's case the prima donna's head is framed in a border of laurel, while a lyre forms the base of the design. The card is not only unique but exceedingly pretty and effective.

### His Pedigree.

The calf, which Gideon King had taken the summer resident to see, surveyed his owner and the stranger with a wary eye. "Er—what breed is your calf?" asked the visitor.

Mr. King removed a wisp of straw from his mouth and said:

"That critter's father got a justice of the peace, knocked a lightning-rod agent end over end, and lifted a tramp over a picket fence; and as for his mother, she chased the whole Tanbury brass band out of town last Fourth of July. If that ain't breed enough to pay \$5 for, you can leave him be. I'm not pressing him on anybody.—Youth's Companion.

### Rather Hard.

The messenger entered the palace with the dispatches. "Brimstone and asphalt!" ejaculated Castro, as he read the yellow slip. "Holland threatens to spank us."

"Well, what of it, your excellency?" responded the secretary. "Other nations have threatened to do the same."

"Yes, but, confound it, this is a spanking that will hurt. The Dutch wear wooden shoes."

### The Taftful Husband.

"How did you cure your wife of chattering so much?" "I told her that when her lips were closed they formed a perfect Cupid's bow."—Cleveland Leader.

# Answer This Question

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

Red Banks, Miss.—"Words are inadequate to express what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from a female disease and weakness which the doctors said was caused by a fibroid tumor, and I commenced to think there was no help for me. Lydia E. Pinkham's Vegetable Compound made me a well woman after all other means had failed. My friends are all asking what has helped me so much, and I gladly recommend Lydia E. Pinkham's Vegetable Compound."—Mrs. Willie Edwards.

Hampstead, Maryland.—"Before taking Lydia E. Pinkham's Vegetable Compound I was weak and nervous, and could not be on my feet half a day without suffering. The doctors told me I never would be well without an operation, but Lydia E. Pinkham's Vegetable Compound has done more for me than all the doctors, and I hope this valuable medicine may come into the hands of many more suffering women."—Mrs. Joseph H. Dandy.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful—or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

What more proof can any one ask?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

## A Good Tonic

### For Sick Women

Of course, well people don't need a tonic. But sick people, and especially sick women, frequently do. That feeling of weakness, tiredness, or languidness, that seems to make every movement or thought an effort, is much more than merely disagreeable. It is a sign of dangerous weakness, and should be promptly treated with Wine of Cardui. Mrs. Annie Vaughan, of Raleigh, N. C., writes: "I cannot find words to express my deep gratitude

for what your wonderful medicine Wine of Cardui did for me, for I sincerely believe it saved my life.

"I was sick and worn-out, almost unto death. My sister finally persuaded me to take Cardui. Before I had taken five (5) bottles, I was well and strong." Try Cardui. 'Twill help you.

This Town Has its Share of Dread Disease, Which is Said To Yield to Simple Home Recipe.

To relieve the worst forms of Rheumatism, take a teaspoonful of the following mixture after each meal and at bedtime:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

These harmless ingredients can be obtained from our home druggists, and are easily mixed by shaking them well in a bottle. Relief is generally felt from the first few doses.

This prescription forces the clogged-up, inactive kidneys to filter and strain from the blood the poisonous waste matter and uric acid, which causes Rheumatism.

As Rheumatism is not only the most painful and torturous disease, but dangerous to life, this simple recipe will no doubt be greatly valued by many sufferers here at home, who should at once prepare the mixture to get this relief.

It is said that a person who would take this prescription regularly, a dose or two daily, or even a few times a week, would never have serious Kidney or Urinary disorders or Rheumatism.

Cut this out and preserve it. Good Rheumatism prescriptions which really relieve are scarce, indeed, and when you need it, you want it badly.

Grandmothers and Grandfathers Who Believe in Pe-Ru-NA.

"I CAN recommend Peruna as a good medicine for chronic catarrh of the stomach and bowels. I have been troubled with it severely for over a year, and also a cough."

"Now my cough is all gone, and all the distressing symptoms of catarrh of the stomach and bowels have disappeared."

"I will recommend it to all as a sure remedy."—Mrs. F. E. Little, Tolono, Ill.

"I HAD catarrh of the stomach, bowels and lower internal organs. Had a great deal of pain in my right hip, which felt like rheumatism. Also, pain in my internal organs. The water was highly colored, my back was weak, was constipated, and very restless."

"I commenced to take Peruna according to directions, and began to improve. I have taken ten bottles of Peruna and think I am cured."—Mr. W. C. Hemphill, Louisville, Miss.

"I had catarrh for twelve years and quite a bad cough so I could not sleep nights. I do not have any cough now. If I feel anything in the throat I take a swallow of Peruna and I am all right."

—Mr. W. D. Smith, Sr., 240 Forest St., Port Huron, Mich.

"BY following your instructions and taking your Pe-Ru-na and Manilla I am cured of catarrh."
