## News of Our Neighbors

Mr. and Mrs. Audie Ballentine and daughter, of Golden Pond, Route 1, were shopping visitors in Benton Friday.

## 4-H CLUBS TO ATTEND 4-H CLUB CONTESTS IN PADUCAH FRIDAY

Sunshine Colley, Home Demonstration Agent, and six girls will attend the District 4-H Contests at Paducah on Friday May 23. The girls who will take part in the contests are: Delores Gohsen, Demonstration; Glenda Hancock, Public Speaking; Jonda Greenfield, Clothing Judging; Norma English, Canning Judging; Betty Ruth Jones, Room Improvement Judging; Patricia Rudolph, Foods Judging. Four out of six of these girls will be selected to go to 4-H Week in Lexington, in June.

## FISH AND WHALE TALES

Fish and whale tales are as uncertain as the weather—one week the flimsy bony tribe are knocking the bottom out of boats, biting at almost anything then stop sudden as an old deaf horse, ye fishy editor once plowed behind.

## DEMONSTRATION ON FROZEN FOODS TO BE HELD BY HOME AGENT

A demonstration on "How to Prepare and Pack Foods for Freezing" will be given by Sunshine Colley, Home Demonstration Agent, at Elam's Electric Shop in Calvert City, Monday night, May 26 at 7:30. If you have any problems on preparing foods for freezing, attend this meeting. Anyone interested is invited.

Reports from all of the fishing sections were about the same—no big ones caught and none got away. The fish calendar says fishing will be good, starting this week end and for several days after. From this corner there isn't anything worth reporting, but we hope the weather is in our favor for the coming week.

Finus Holley, of Route 5, was in Benton on business Friday.

## HOME AGENTS C-O-L-U-M-N

Canning time is here. Be sure to have your pressure canner gauge tested. This can be done in the Home Demonstration Agent's office at the Court house. The rubber ring must be a perfect fit. Be sure all openings are clean for proper venting and pressure control. For the cover that sticks, rub a thin film of vaseline, mineral oil, or unsalted fat on the edge of the sealing ring.

Jars should be checked to see that there are no nicks or chipped places. Use new rubber rings and new metal lids for canning.

Copies of the new canning bulletin No. 440 "How To Can Fruits and Vegetables" may be had at the Home Demonstration Agent's office.

If you set out evergreens this spring or last fall, water every 10 days. Use from 5 to 10 gallons for each evergreen.

Many older people aren't as healthy and happy as they might be if they would eat the right foods. Does this sound like you? A chronic tired feeling, a gloomy outlook on life, anxiety over small things, loss of sleep, too much weight? Check your food habits. There might be a hidden hunger. You could be badly nourished. Do you get the seven basic foods every day?

I still would like the name of the families in Marshall County having the seven basic foods every day. The rural mail carriers are looking over the mail boxes.

## HOME EC JUDGING CONTEST IS HELD HERE SATURDAY MAY 10th

Marshall County 4-H girls had their Home Economics Judging Contest on Saturday, May 10. The County winners to represent Marshall County at the District Contest in Paducah May 23 are:

Norma English, Canning Judging; Betty Ruth Jones, Room Improvement Judging; Patricia Rudolph, Foods Judging; Jonda Greenfield, Clothing Judging. Ribbon winners in the county were Peggy Jo Inman, Kay Francis Dunnigan, June Story, Geneva Edwards, Joan York, Lois Mae Derringer, Janice Sthal and Janice Rudolph.

Mrs. Jack Edwards and Mrs. R. M. Rudolph, 4-H Leaders, assisted Sunshine Colley, Home Agent, with the judging contest.

Mr. Jess Egner, on Route 6 reports that the group of mail boxes at Texas Gas Co. are outstanding. If several of you have mailboxes in a group, why not take time to see this group on a wheel. E. M. Bailey also has a box that is noticeably good. See it. On Rt. 2 look at the box of Theron Freeman. We would like to carry the names of some of the better looking boxes.

4-H week is June 3-7 at the University of Kentucky, Lexington, Ky.

If you make strawberry preserves to sell this year to tourists, put them up in small containers that can be sealed. 1-4, 1-2, or 1 pint will be fine. Fill jar and then process 20-30 minutes in the water bath canner to do away with mold.

## Commissioner's Sale

### THE BIBLE SPEAKS

International Union  
Sunday School Lessons  
BY DR. KENNETH J. FOREMAN

SCRIPTURE: Exodus 20:13; Matthew 5:21-26; 18:1-6, 19-24; Mark 1:40-45; Luke 9:51-56; 12:1-7.

#### God and Life

Lesson for May 25, 1952

IF THERE IS any one commandment which Jesus not only did not abolish but made far clearer and sharper, it is the commandment, Thou shalt not kill.

By word and act, the Master showed that life is sacred. It is sacred because we are God's children; and whatever injures life, whatever makes it less worth living, whatever tempts men to do way with their own lives, whatever shortens life and makes it wretched and unbearable, this violates the will of God, this is a form of killing.

Jesus' attitude to disease is a case in point. We do not read of a single case where he came in contact with a sick person and urged the patient just to be patient. He always restored the sick to health; sickness in his eyes, is a thing that ought not to be.

Dr. Foreman

**Blunt Instruments**  
MURDER MYSTERIES are always solved in the detective stories. In real life we are not always so fortunate. Many a murder mystery remains a mystery after long years. All the police could ever be sure of was that "some person or persons unknown" hit the victim with a "blunt instrument."

Now you would think that a murderer would pick out something more efficient. Why not a sharp instrument? However, the blunt instrument, whatever it was—a sash-weight, a brick or whatever,—did the work. A man can be just as dead from being hit with a sandbag as from being shot with a rifle.

As Simeon Stylites pointed out some time ago in the "Christian Century," there are all kinds of blunt instruments besides crowbars, sash-weights and bricks. Whatever tends to shorten life is a kind of blunt instrument; it may take a long time to have its effect but if it is deadly in the long run, then it is deadly, period.

Any sort of habit that cuts down one's good health; any carelessness or neglect; any stupidity or foolishness such as driving too fast on a wet night; giving way to worries and getting indigestion from them; these are not un-heard-of ways of shortening life. They are, in plain language, murderous.

#### Alcohol the Killer

AS THIS IS the temperance lesson, this is a good place to recall the fact that alcoholic liquor is a too popular deadly weapon.

You have heard of the so-called antibodies or phagocytes which are in a healthy blood-stream. These are the little fighting cells which gather around invading germs and kill them. Without these in our blood we could scarcely survive a single day, the air is so full of germs which we cannot help taking into our throats and lungs.

But alcohol taken internally will paralyze these phagocytes to such an extent that they are no use. This is not to say that a single bottle or drink of liquor kills all a man's phagocytes at once.

But still, as David Starr Jordan, president of Leland Stanford University, once said, if a man were telling the whole truth he would not say, Let us have a drink together. He would say, Come, let us paralyze our phagocytes together! Insurance companies which insure only ministers and religious workers, that is to say, which insure mostly non-drinkers, can and do offer insurance for much lower premiums than companies that have to insure all sorts of people including "moderate" drinkers.

#### Hit by the Bottle

A DRINKER is said to be hitting the bottle. Not at all. The bottle is hitting him. Liquor kills, in more ways than by paralyzing the health-cells in the blood. Time is the stuff life is made of; and how much time liquor kills, how many "lost weekends" it is causing this very week, only God and the devil know.

Liquor also creates poverty and poverty helps to shorten life. Liquor also makes a man reckless. The trade of prostitution would not be quite so flourishing without liquor. Many a serious disease is contracted under the effects of liquor.

As for violent and sudden deaths, read carefully next Monday's papers for the lists of the people killed on our American highways this beautiful May week-end. Read again after Decoration Day. Read carefully: how many of these dead people, if sober, might have lived?

### SURGICAL JOB for Hercules

... cut up  
an NC&StL locomotive!

A lot of things wind up on the NC&StL scrap heap—even old locomotives like the once proud and sleek Dixie Flyer 533. A victim of NC&StL's complete dieselization program, the old steam locomotive was cut up for scrap by the surgeons who operate with a white-hot "scalpel"—the skilled NC&StL blowtorch squad. Scrap metal for America's defense needs is a big "operation" at NC&StL—over 33,000,000 pounds of scrap were turned back to the steel industry during 1951. As America continues to work for freedom, NC&StL will keep busy at the task of "making little pieces out of big ones." When NC&StL "gets in the scrap"—it stays in until the job is done!
