Senor’s FLOOR PAINT

It penetrates in three days. The useful penetration of Senor’s Floor Paint makes it superior to all floor paints. It is a paint that penetrates to the very core of the floor and penetrates to the bone. It penetrates the floor and gets into the bone of the floor. If a floor paint does not penetrate, it does not do its job. It must get into the bone of the floor to be effective. It is the only paint that penetrates to the bone of the floor. There are no exceptions. It penetrates. The penetrating quality of Senor’s Floor Paint is the key to its superiority.
