## Burnette Jersey Grand Champion At Mayfield District Show

Fulton County Cows Won Top Honors Friday; Local Dairymen Rank High In District

Sybil Design Ida Sultana, a fine Jersey cow entered by George Ely Burnette of Fulton, won the grand championship in the open class for female Jerseys Friday at the Purchase District Dairy Show in Mayfield. Young Burnette's entry had previously won the grand championship in the senior cow class against other 4-H club members' animals.

Cecil Burnette exhibited the winner for his brother, who was in school.

Joen Bondurant, Fulton, Route 2 with his Successor Nobly Born Lass, won the blue ribbon for two years old and under three; and copped second place with his Sensation Lady Marie.

Cecil Burnette, with Meridale Gold Treasure, won the contest for cows four years old and under five.

Dairymen of this section have made wonderful progress with their herds in recent years; and emphasis is being placed upon pure-bred herds.

## Southern Bell Asks Commission To Grant Phone Rate Increase

Wage Increases Building and Material Costs UP; Earnings Lowest In History

Because of greatly increased wages and rising costs of material and building construction, the Southern Bell Telephone and Telegraph Company today asked authority to raise rates in Kentucky so it can improve and expand service in pace with the state's economic development.

In a petition filed with the Kentucky Public Service Commission, the Company said its expenses in this state had climbed 118 per cent since 1939, while revenue increased only 88 per cent. During this same period total payroll costs increased 202 per cent. The Company said it had 4,000 employees in the state representing an increase of 90 per cent since 1939.

The rate increase for local service would be on a sliding scale, depending on the size of the locality. The Company is also asking authority to increase long-distance rates 5 cents on most calls within the state. The company stated that the requested rate increase would not produce all the added revenue that current costs indicate is needed but that it hoped that its operating experience under the requested rates might prove them to be sufficient. The increases requested for residence local service were held to a minimum as it was felt to be in the interest of business in the state that residential rates be kept as low as possible. It was further stated that the total increase would be only 11 per cent of Southern Bell's total revenues in the state.

"The company is doing a larger volume of business than ever before," J. M. McAllister, Kentucky manager of Southern Bell said, "but our earnings have dropped to a dangerously low point. This has resulted from the fact that wages and other costs have gone steadily upward while rates for local telephone service have remained the same for many years and long distance rates have even been reduced."

Mr. McAllister pointed out that telephone wage rates alone for Kentucky had increased by \$2,162,563 since March, 1945, on an annual basis, adding that the costs of erecting buildings have jumped 75 to 100 per cent, plant construction 45 to 60 per cent, and telephone materials 15 to 25 per cent.

"We are asking now for increase in rates that will more nearly reflect the costs of providing the service," Mr. McAllister said.

"That we have been able for many years to absorb increased costs, (Continued on Page 4)

## Fulton And Hickman Lions Attend Cayce P. T. A. Affair

Members of the Fulton and Hickman Lions Clubs were guests last Thursday night, Sept. 28, at the supper meeting sponsored by the Cayce Parent Teachers Association at the school building there.

Twenty-four members from Fulton and fourteen from Hickman were present.

A delightful musical program was given by high school students as follows: Hilda and Wanda Stallings, Patsy Harrison, Charlene Pruett, Mignon Scott, Elaine Rice. A humorous reading was given by Ralph Adams.

One of the major projects of the Cayce PTA this year is the purchase of permanent seating facilities for the school gymnasium.

## EXPLODING OIL STOVE BURNS MRS. PATRICK

An oil stove exploded at the home of Mrs. Charlie Patrick near Fulton last Thursday morning, September 28. She was painfully burned and was brought to the Fulton hospital for treatment.

The flames spread to the walls and floor of the kitchen but were extinguished before serious damage was done to the home.

## FULTON AND SOUTH FULTON SCHOOL STAFFS IN GET TOGETHER

Faculty members of the Fulton and South Fulton city schools held their annual get together meeting Tuesday night at Carr Institute. An evening of fund and good fellowship was enjoyed by husbands and wives, with about 100 present.

The gathering was planned for the Country Club but was held indoors because of cool weather. Barbecue luncheon was served.

## DRESDEN CAR AND GREYHOUND BUS IN WRECK HERE SUNDAY

Harvey Dunn, Raymond Dunn, and Leroy Perry, all of Dresden, were taken to the Fulton hospital Sunday night, after their car and a Greyhound bus collided at the Lake and Carr-st crossing Sunday night about 9:30 o'clock.

Raymond Dunn, driver, suffered painful knee injuries; Harvey Dunn sustained bruises on a laceration over an eye; Perry received bruises and cuts. No passengers on the bus were injured.

The bus was enroute to Evansville, Ind., and was making a left-handed turn from State Line into Carr-st. The Dresden car was coming from the opposite direction.

## GIRL FALLS FROM SECOND STORY HERE

Janice Kay Byrd, daughter of Mr. and Mrs. El Byrd, fell from the second-story porch in the rear of the Exchange Furniture Co., Saturday afternoon, and was taken immediately to the Haws Clinic.

She sustained a fractured skull, cuts and bruises.

## Fulton Drops Game To Russellville 26 To 20

The Fulton Bulldogs dropped their game with the Russellville Tigers Friday night 26-20. A pass in the fourth quarter from Knight to Hardy, good for 30 yards and a touchdown, was the fatal blow to the local team.

Fulton will play the Dresden team here Friday night (tonight) at Fairfield Park. A good crowd is expected to turn out.

Russellville scored in the first quarter when Cornelius drove thru the line for 20 yards and a goal. McMillin punted the extra point to end the quarter 7-0.

Dick Meacham, fullback for Fulton, raced around the left end on a 31-yard run and a touchdown, in the first part of the second period. Bone's try for the extra point failed. Fuqua, right half for Russellville, scored in the second quarter, but the try for extra point failed. Period ended 13-6 in favor of Russellville.

In the third period, Billy Joe Forrest started the drive for another score and Bone's kick was good to tie the score 13-all. Meacham then scored on a pass from Forrest. Bone again kicked the extra point.

Knight caught the kickoff on his own ten yard line and ran it back to the one, before Meacham clipped him from behind. The next play carried the ball over for Russellville, and McMillin's kick was wide for extra point.

## LEGION AUXILIARY PRESENTS SOUTH FULTON BAND AMERICAN FLAG

During the regular school assembly last Friday, the South Fulton high school and grade school band was presented an American flag by the American Legion Auxiliary. Mrs. R. L. Harris, past-president of the Auxiliary, and Mrs. Wallace Shankle, president, presented the flag.

Eugene Cates, senior and band captain, accepted the flag for the 35 members of the band. Several numbers were rendered by the band prior to the presentation, with Mr. Eller directing. Rendition of the National Anthem concluded the morning's program.

The American Legion Auxiliary, as one of its projects, is seeing that every children's organization in the twin-cities has an American flag.

## FULTON MAN ACCEPTS POSITION IN TEXAS

## Cayce School News

P. T. A. entertained the Fulton and Hickman Lions clubs jointly with a barbecue supper Thursday night Sept. 28.

The following former students and graduates visited school this week: Thomas Ballow of Akron; Betty Lou Atwill of Fulton; Beatrice Tucker and Ella B. Taylor of Cayce.

Junior Class is sponsoring Queen-King contest for the opening night of the basketball season and following have been nominated; 1st and 2d grade, Wanda Jean Burns, Geo. Elbert Bondurant; 3rd and 4th grades, Jerry Alexander and Rena Margaret Kelly; 5th and 6th, Anna Harris and Tommy Scarsee; 7th Juanita Gilbert and James Preston Gray; 8th, Catherine Cruce and Clem Atwill; 9th, Charlene Pruett and Joe Harrison; 10th, Ruth Jean Bondurant and Dan Adams; 11th Mildred Harris and Bill Logan; 12th Katherine Ann McKelvey and James Dodd.

The regular meeting of the P. T. was held at the school auditorium Thursday night Oct. 3rd. Plans were made for the school carnival.

In the faculty meeting of September 20, it was agreed that the school would sponsor two social events for each class in the high school this year. Our teachers think that these parties should be given at the school building whenever possible, and should be chaperoned by one or more faculty members. These events should be planned for either a Friday or Saturday night, so that they will not interfere with class work.

The students of Cayce High school were fortunate in securing the services of the Mobile X-Rays for T. B. There were about 100 students X-Rayed.

The Home-Economics Club was extremely successful with its ice cream supper which went for the benefit of the Home Economics Department Sept. 13, 1946.

The Senior's of 1946 have received their Athletic sweaters.

#### NOBODY KNOWS HOW

In the deliberations of the United Nations, Hedbert V. Evatt, Foreign Minister of Australia, has taken the lead in asserting the rights of the smaller nations and in the advocacy of a peace based on justice and democracy.

Recently, he asserted that the only way to stop a third World War is to settle the Second World War on this basis. Practically everybody is willing to admit that the Australian official speaks wisely in this connection, but what worries most people is a practical method of achieving a settlement of the Second World War on any basis.

It is all right for people to assert that the issues arising from the recent struggle should be settled on the basis of justice and that the Big Three nations should cooperate in the interest of peace. What no one has been able to discover, however, is a method of persuading the Russians to participate in the settlement or to compromise any of the issues that arise. Apparently, if there is to be a settlement without friction, it will require the United States and Great Britain to give in to Russia wherever a difference of opinion exists.

#### HOOVER SEES DANGER

Former President Herbert Hoover, noted for conservatism as a public official and in connection with his views on economic matters, recently told newly-commissioned naval officers that "there is more danger now than ever before in the

history of the United States." While the former President did not go into the details upon which his statement was based, he made a point to advocate the retention of islands in the Pacific, not for commercial interests or upon imperial grounds, but simply to provide for our own defense and the defense of the world.

We wish we could believe that the remarks of Mr. Hoover present only the reaction of a conservative to the radical theory of Communism in economic affairs. It may be that it represents the conclusion, for which there is considerable evidence, but which has not yet been proven. We should continue to give the Russians the benefit of the doubt, insofar as a war of aggression is concerned, but, at the same time, if we are wise, we should be prepared for other eventualities.

#### FARMERS FACE SURPLUSES

Officials of the Department of Agriculture are beginning to talk about the possibility of huge agricultural surpluses which they foresee as easily possible when European production reaches its pre-war volume and farmers in the Western Hemisphere continue to plant and produce as they have in recent years.

The concern of the officials is well taken because every person who is familiar with the problems of agriculture knows what will happen to farmers and their standards of living if surplus crops glut the market and depress the prices of agricultural products.

While the spokesmen for industrial regions and metropolitan centers continue to urge that production is wealth and denounce farm organizations and public officials for advocating a policy of scarcity, these big-city dwellers do not understand, apparently, that the economy of the world is so arranged that farmers can often make more money with a moderate production than they can if they produce more abundantly. This being the case and farmers being engaged in the business of making a living for their families, it is not surprising that crop control is enthusiastically embraced.

We have seen some newspapers, published in large cities, complaining of the concern over surpluses while half the world is hungry and a part of it has just emerged from a famine basis. This is quite true but no one has come up with a

plan to permit the hungry portion of the world's population to secure the cash with which to buy more food to eat. The only discussion of the problem involves a denunciation of the "policy of scarcity" without any attempt to analyze the economic conditions that prevent millions of people from securing sufficient food.

The plain truth of the matter is that intelligent farmers should not produce more than they can sell at a fair price. Farmers should not over-produce any more than shoe manufacturers, automobile makers or newspaper publishers. The world may contain millions of people who would like to have more shoes, more automobiles, more newspapers and more food, but nobody suggests that the proper solution of the problem is the endless and uncontrolled production of shoes, automobiles and newspapers; why should it be advocated that farmers produce without control and regardless of their probable markets?

#### THE AMERICAN WAY

By George Peck

The depression of the 1930's and the Second World War introduced an epidemic of new words, terms and phrases into the English language, not to mention a countless number of alphabetical bureaus. Your correspondent humbly begs pardon for "having fallen a victim to this word-coining contagion, and with your permission, he would like to inject still another new caption into the already badly overcrowded maze of recently coined names, to wit, "Sixth Column."

Prior to the Second World War and while it was in progress, we heard much about "Fifth Column" activities in Europe, and their paralyzing and devastating effects upon Poland, Finland, Denmark, Norway, Holland, Belgium, France and even upon England. Thanks to our Federal Bureau of Investigation and other governmental agencies, the "Fifth Column" was checkmated in America before it could get in its deadly work.

But today in the United States there is a "Sixth Column." It is a threat to our welfare and security. This "Sixth Column" is especially dangerous because as a nation and individuals we seem to be unaware of its existence. Many of those who make up its membership, would indignantly deny belonging to it —

as far as they are concerned, it is a secret organization and they are not even in on the secret.

As I see it, "Sixth Column" is made up of three principal groups of citizens:

The First takes in those countless thousands of native-born Americans who see in the present situation, a failure of our American System of Free Enterprise, and are willing to have it scrapped; who have come to the conclusion that "Capitalism" is dying on its feet; that the "Profit and Loss System" is outmoded and that we must substitute for it, a "system of production— for use and not for profit."

The Second Group comprises those millions who sit idly by, failing to exercise their electoral franchise bought for them at such great cost by the founders of this nation; who are too lazy, or too indifferent to put forth the simple effort of going to the polls to vote.

The Third Group rounding out the "Sixth Column" is the most dangerous because it knows what it is trying to do. There is neither indifference nor lack of knowledge in this group. It consists of the "Economic Planners" the demagogues who have succeeded in centralizing more and more power in the Federal government—the very thing which our Founding Fathers so sagely warned against. This is the group which is mainly responsible for the retarding of the reconversion program, for it has left no stone unturned to hamper legitimate business, which had it been left false ideas and delusions of utility; the second, comprising the "Let George Do it" and the "Don't Give A Damn," perhaps can be aroused from its lethargy. As to the third group, there is no possible solution, except to oust it from the nation's capital.

We can get rid of this third group of the "Sixth Column" if we exercise the good common sense next November 5th, to elect men and women to Congress who will truly represent us, by putting a stop to our being regimented and pushed around by these unselected, unrepresentative bureaucrats.

Not even a strong man can cope with a small woman who weeps at the right time.

FULTON, KENTUCKY

(Continued from Page 1)

**NEW PHONE RATES SOUGHT** without asking for higher rates, is we feel, a remarkable achievement of which the Company's management, our employees and subscribers can justly be proud."

Mr. McAlister stated that the Telephone Company's investment in Kentucky is approximately \$40,000,000 representing an increase of about \$10,000,000 since 1939.

"The Telephone Company did not profit from the war," Mr. McAlister said, "as is shown by the facts that earnings declined throughout that period and are today less than half of what they were before the war. For 1939, the return was 4.40 per cent of the average investment. This percentage dropped point by point until in 1945 it was only 2.99 per cent. And for the period of April, through August of this year, extended on an annual basis, the return was only 1.83 per cent. This earnings rate does not include any possible tax refund that may be available this year only on 1944 Federal Income Taxes.

We have every reason to believe that in face of rising costs earnings will continue to drop unless we get some relief in the form of better rates.

"We must expand our facilities to meet the rapid growth of Kentucky because the telephone is a business and social necessity of modern living. We have great confidence in the future of this state and the Company has carefully-laid plans to keep pace with its development. Our plans call for gross expenditures of approximately \$35,000,000 for construction in Kentucky during the next five years. In the interest of our subscribers we must protect the soundness of the telephone system by having our earning capacity more nearly equal costs."

"The rate revision we are now requesting is very nominal in view of the heavy increases in expenses we have sustained for a long period and the extensive building program now being undertaken in the state. The Telephone Company's policy has been to keep its rates as low as was consistent with financial safety and that policy continues."

The Southern Bell Company has grown with Kentucky. Mr. McAlister said, "and we are proud of the part we have taken in that growth. We look forward to an expanding telephone service that will reach more people, create more jobs and promote the state's development. Reasonable earnings

are, of course, essential to the attainment of these objectives."

# Please Read this Notice of Request For Increase in Telephone Rates

**Your Telephone Company has found it imperative to file application with the Kentucky Public Service Commission for higher rates on local telephone service and on most long distance calls within the state. This action was taken because telephone earnings are dangerously low and reasonable earnings are required to furnish adequate service. We ask that you read this message carefully so you will understand clearly why increased telephone rates are necessary.**

Your telephone rate is low and it is the earnest desire of your Telephone Company to keep it low.

While your rate has remained the same for many years, the total cost of furnishing telephone service has steadily gone up. Since 1939 our expenses for Kentucky operations have increased 118 per cent, while revenue increased only 88 per cent.

### Wage Rates Up \$2,162,573

Much of the increase in expenses is represented by wages, since wages make up the greater part of the cost of furnishing telephone service. Wages have been raised in keeping with national policies and the general trend throughout the country. These wage increases were necessary to assure, through competent personnel, the provision of an adequate service. Telephone wage rates in Kentucky have been raised during the past 18 months by \$2,162,573 on an annual basis.

Since the first of this year, 40,000 new telephones have been installed in Kentucky but 23,000 people are still waiting for telephones. This demand forces us to build new facilities now, in the face of high costs. The cost of erecting buildings has jumped 75 to 100 per cent; the overall cost of providing telephone facilities has advanced 45 to 60 per cent and the cost of telephone materials has increased 15 to 25 per cent. Despite these high costs, we telephone folks—and there are 4,000 of us in Kentucky—must continue to improve service generally, and to expand it. Our plans call for gross expenditures of approximately \$35,000,000 for telephone construction in Kentucky during the next five years.

### Pay-Out Is Increasing Faster Than Take-In

With the tremendous increase in the expenses of furnishing telephone service and with rates unchanged for years, we have a difficult time making ends meet. So much so, that today we find ourselves confronted with the lowest earnings in our history in spite of a record volume of business.

No business can long continue to render service when the amount paid out to provide that service is increasing faster than the amount taken in. Therefore, it is our

duty, as your public servant, to report this condition to you since it directly affects your telephone service. We must appeal to you for relief through the Kentucky Public Service Commission, which regulates our rates.

The requested rate increase for local service would be on a sliding scale depending on size of locality. Authority is also being asked for an increase of 5 cents on most long distance calls within the state.

### Residence Rate Held at Minimum

Today's high costs indicate a need for greater increases than we are asking, but it is hoped the proposed new rates will prove sufficient. In view of this, the increases requested on residential service were held to a minimum. Your Telephone Company feels that it is to the best interest of every business man in Kentucky that residential rates remain as low as possible.

The new rates we are asking represent an increase of 11 per cent of our total revenue in Kentucky. This is small when compared with the increased costs of doing business. In fact, even with the new rates, long-distance charges generally would be lower than they were 21 years ago and local service rates only slightly higher, while service has been considerably extended and its value has been increased many times.

Southern Bell wants rates no higher than necessary to furnish everyone with good service and expand it. The proposed rates are the very minimum increases we can get by on. In face of rising costs, they are very modest.

### FUTURE FARMERS TO PARTICIPATE WITH PROGRAM

The Agriculture Teachers of the Fulton county Chapters, Future Farmers of America, have this to tional Fire Prevention Week. "The say regarding the program of National Fire Prevention Week. "The Kentucky Association, Future Farmers of America, with chapters all over the State of Kentucky, will be definitely active in their counties with an interesting program that will save rural property and lives."

The adage "a clean house seldom burns," is equally applicable to farm buildings.

National Fire Protection Association statistics show that about two million dollars of farm and rural property was destroyed by fire last year, grim testimony to the fact that farm folks in general don't know the primary requisite for fire safety—good housekeeping.

It's a simple as that. Perhaps 85 percent of all farm fire losses originate from the following sources, listed in the order of their importance:

Defective chimneys and flues.  
Lightning.  
Sparks on roof.

Gasoline and petroleum products.  
Matches and smoking.  
Spontaneous Ignition.

Stoves, furnaces and their pipes.  
Hot ashes and coals.  
Grass fires in fence rows and

grounding of metal roofs on farm buildings.

Not a small part of this fire loss is attributable to the improper and careless use of gasoline and other petroleum products. Quickening fires with kerosene exacts a heavy toll in human life and home dry cleaning takes the lives of 800 mothers every year.

Install "No Smoking" signs and observe them, particularly in the barn. Install hay dryers in mows or otherwise ventilate hay as freely as possible immediately after storage. Burn oily rags and mops immediately or place them in closed metal receptacles.

Farm fire protection consists of rigid observance of simple precautions, and the members of the Kentucky Association, Future Farmers of America, want to bring this story to you rattention.

The teachers of agriculture in Fulton county are: James T. Roberts, Cayce; Harold Shaw, Western High school, Hickman.

### FREEDOM

A British Communist newspaper charges that the visit of American warships to the Mediterranean is a "blatant example of gangster diplomacy," that the "power-drunk State Department" is engaged in a serious crusade to "restore capitalism in Europe" and that the British Government, through "servile toadying to U. S. aggression" is jeopardizing world peace.

The Daily Worker thus parrots the contention of Moscow, as do

most Communist organizations throughout the world. It is worth noting, however, that the right of the Communist newspaper to make these charges is upheld in a country enjoying modern freedom.

Nothing like such a charge could be printed in any newspaper published in Russia or in the satellite states, where the press is controlled by the government. The difference may explain the state of freedom in the nation and even a Communist ought to see it clearly.

The punishment of every liar is that he eventually believes his lies.

## 'Small Wonder They Say Retonga Is Grand!'

Distress From Acid Indigestion, Sleeplessness And Sluggish Elimination Promptly Relieved And She Feels Like A Different Person, States Mrs. Curtis.

"I felt so exhausted I could hardly drag around the house and it seemed I would have to drag along all my days, but it didn't take Retonga long to bring me blessed relief," happily states Mrs. D. C. Curtis, well-known resident of 6200 California Ave., Nashville, Tenn. Discussing her case Mrs. Curtis gratefully continued:

"I could eat very little and distress from acid indigestion tormented me after every meal. I dreaded going to bed at night because I knew I would lie awake for hours

and then sleep only a short time before waking up again. Mornings I felt worn out. Splitting headaches added to my distress. My elimination was so sluggish that early a day went by without taking a strong laxative. "Small wonder they say Retonga is grand. It promptly brought me blessed relief and I now sleep better than in years and have a fine appetite. Distress from acid indigestion, gas and restlessness are relieved and so are the headaches and poor elimination. I feel like a different person. Retonga deserves all the praise it receives."

Retonga is intended to relieve distress due to insufficient flow of digestive juices in the stomach, loss of appetite, Vitamin B-1 deficiency and constipation. Thousands praise Retonga; accept no substitute. Retonga may be obtained at DeMyer Drug Co. Adv.
