Another Big Reduction In Prices.

All remaining Fall and Winter Suits and Overcoats for men and boys enter into this sale. The merchandise is the same fine, dependable sort of goods that we had in our reputation, and just the kind the men and boys of Fulton and vicinity want to buy.

We might enlarge on the fact that the prices we have placed on our men's and boys' clothes are especially low, for even a store of extraordinary value. We might say that never in our existence have we values merited the term "Extraordinary" so much as they do in this sale. We might affirm and reaffirm this, but proof will still be necessary to convince the average buyer. A visit here will give you that proof—positive, irrefutable proof—that seasonable wearing apparel may be bought here at great savings.

It is an opportunity that many men have been waiting for and will be quick to take advantage of.

About this time of year a boy's clothes begin to show signs of wear. This sale makes it possible to outfit him completely at a minimum cost.

This is truly a home-like restaurant because it has endeavored to break down the prejudice based on the theory that restaurants could not serve good food like that at home. Many patrons will testify that there is no difference between our meals and the meals they get at home. That’s the reason they come here so frequently to eat.

Years of entering to the appetites of particular people make it possible for us to serve appetizing meals.

AIR DRIED CLOTHES

Do you realize what it means to receive a bundle of thoroughly washed and air dried clothes from a modern power laundry?

It means that at last the only remaining barrier between the housewife and the laundryman has been broken down. Because of the modern laundry not only makes clean whatever you choose to send, but also duplicates in every respect the method of drying that the housewife herself would choose, if at all, namely, the hanging of the washing on the old-fashioned clothes line, to back and dry in the glorious sunshine.

The greatest development in years and years, comes to this steadily growing industry in the perfection of a natural drying process. This new method of drying by air eliminates for all time that annihilating odor which has branded the work of the power laundry in the past.

Thousands and Thousands of Cubic Feet of Concentrated Sunshine

The automatic application of air as a drying agent in the power laundry is accomplished by the perfection of the Vortcline Drying Tumbler. This most wonderful machine harnesses clean fresh air in such great volumes that it almost entirely eliminates the necessity of heat to dry clothes with. It dries cloths in this manner one inch sheet, dissolved or left with a harsh beak.

The Vortcline Tumbler used in your laundry is the only drying tumbler that does not depend solely on heat to dry clothes, at the same time in an altogether perfect laundering process. It puts the work of the power laundry on par with that of the housewife's own private laundry.

Be sure to see this wonderful machine in your laundry anytime, foal and smell the clothes it dries, notice how fresh and sweet smelling they are.

Phone 130

When you are the guessing results, the economy and the convenience of this complete service, you are going to put a hero or "three wash days" throughout the year.
