ONE PRECINCT IN COUNTY IS
CARRIED BY REPUBLICANS

Staying more in line than her neighbors in the First Congressional District, Calloway county gave Al Smith a majority of 1958 in the general election Tuesday. With much jumping of the fence and hundreds of Democrats staying away from the polls the Democratic majority of more than 19,000 in 1924 was cut to but little more than 6,000 Tuesday in the "Gibraltar of Kentucky".

In the Republican landslide which swept a Republican into congress from every Kentucky district but the first and third, Congressman W. V. Gregory of the first, was saved only by the loyalty of Calloway, Graves and some of the lower counties.

Judge Gregory ran 38 votes ahead of Smith in Calloway, receiving 3530 while his opponent, Miller Hughes, ran 52 behind the Hoover-Curtis ticket, getting 1842 ballots to 1534 for Hoover and Curtis.

The vote by precincts in Calloway in the presidential race was as follows:

SAVES POLICEMAN'S LIFE

Lancaster, Pa., Nov. 8.—Russell Troup, state highway policeman, declared upon his return here from Baltimore that he owed his life to a bob-haired girl bandit who was one of a gang that kidnapped him. The girl interceded in his behalf when death seemed certain. She told the gangsters there was no reason to add murder to their other crimes, he said. Troup was then forced to aid in the holding up of an automobile, and finally thrown from the car on the outskirts of Baltimore.

YOUTH IS KILLED BY TRUCK SUNDAY

Parks Riley, 8, Victim of Fatal
Accident Near Sinking
—Springs Sunday

Parks Riley, little eight year old son of Mr. and Mrs. John Riley, of near Sinking Springs, was instantly killed Sunday afternoon, about three o'clock when a truck rim passed over his head. The youth and several other children were playing with an old truck near the home of his grandparents, Mr. and Mrs. Horace Riley, when the terrible accident occurred.

The truck was tireless and abandoned but the children had started the motor and were running it back and forth when the little Riley boy stumbled and fell under the wheel, it passing over his head before it could be stopped. He was immediately rushed to the Mason Hospital but expired before reaching there.

At the request of the parents, no inquest was held as the accident was entirely unavoidable, according to witnesses, and Mr. and Mrs. Riley wished to attach no blame to any of the children. Funeral services were held at Sinking Springs Monday morning at eleven o'clock with many attending. A large number of friends joined the family in mourning their untimely death of their little son.

Short Paper This Week Account of Moving

The Ledger & Times is issuing only eight pages this week on account of the necessity of moving part of its machinery and equipment from the Times-Herald building to the Ledger building.

During the next two weeks we will be considerably handicapped by the huge job of moving and setting our plant in order, so please understand that any shortcomings in our service in the meanwhile will be only a temporary state of affairs and that as soon as we can get the physical merger perfected and our plant properly organized, we will be able to give the prompt service you should expect.

We regret exceedingly much for things undone but we have been severely handicapped during the past three weeks and will continue to be hampered until we can get the entire plant under one roof.

Smith Says He's Quit As Public Campaigner

New York, Nov. 7.—Alfred E. Smith has declared his stormy and tempestuous political career at an end just sort of his highest goal. He announced today he had fought his last political battle and that from now on "as a high private in the ranks of American citizens" he would be a spectator from the sidelines.

"I certainly do not expect ever to run for public office again," he said. "I have had all I can stand of it. I have given a quarter of a century of my life to the best years of my life to it. I will never lose my interest in public affairs—that is a sure thing. But as far as running for office again is concerned—that's finished."

SOME GOWN!

DEMOCRATS CARRY BUT EIGHT STATES IN HUGE UPHEAVAL

Virginia, North Carolina, Texas
and Florida Go Into
Republican Camp.

MASSACHUSETTS, RHODE
ISLAND WON BY SMITH

Closing tabulations of Tuesday's election have continued to reinforce the tremendous popular vote by which Herbert Hoover and Charles Curtis have amassed majorities in states having 444 electoral units and left Alfred E. Smith and Joe T. Robinson leading in other having only 87.

The late returns have served only to emphasize the immensity of the Republican sweep that embraced the entire west and most of the east and also extended into four traditionally Democratic states of the south—Virginia, North Carolina, Florida and Texas.

With less than a scattered quarter of the nation's precincts remaining uncounted, the Hoover majorities have rolled up in 40 states. Smith held the lead in eight others, six of them in the south and two in the east, Massachusetts and Rhode Island. Only Alabama, Georgia, South Carolina, Mississippi, Arkansas, and Louisiana in Dixie remained definitely under the Democratic banner.

The strangest of the new political map painted at the polls is best reflected in the historical con-trariness of the Republican vote in the Democracies of Texas, Florida, North Carolina and Virginia and the turn of Republican Massachusetts and Rhode Island to the Smith standard. Texas was a nip and tuck battle at the outset but in the late returns there as in the three sister states Hoover forged to the front with a lead that ran into thousands.

In southern states, even those Smith did win, the vote was heavier this year than in years past, and this undoubtedly accounted for part of the big jump both in the republican and Democratic balloting.

With about three-fourths of the precincts over the country heard from the vote tonight, it was well over 31,000,000 with Mr. Hoover having run his majority above 5,000,000 in the popular vote and having Smith beaten by the overwhelming figure of 444 to 87 in the electoral college.

According to Pitman's story of the shooting, Hays had been drinking all day and was advancing on him with an axe, threatening to slay him, when he fired in self defense. The killing took place in the yard between the residences of Hays and Pitman and was witnessed by several negro men and women.

Immediately after the shooting, Pitman surrendered to Sheriff Robertson and was lodged in jail. His examining trial was set down for Thursday afternoon of this week.

This Week

ONLY \$5,000 TO THE LORD.
OUR DESCENDANTS.
LINCOLN'S SHORT LETTER.
"ONLY A COLD."

Mrs. E. S. Dodge dies leaving one million. Nineteen thousand dollars to friends, \$5,000 to a Presbyterian church, the balance to relatives. Five thousand dollars out of \$1,000,000 given to the Lord seems small. In old days when Heaven and Hell were taken more literally, it would have been thought wise to give \$900,000 of the \$1,000,000 to religion and make sure of salvation.

But in this agnostic day many feel that the Lord does not need money, especially as He could create any amount of it by an easy miracle, whereas, relatives and educational institutions DO need money, and can't perform miracles.

That a son born to Princess Michael Cantacuzene in Chicago means little to the average, but a great deal to a few old men of the Grand Army, who know that Princess Cantacuzene is General Grant's granddaughter.

The only immortality of which we are certain, apart from the certainty of religious faith, is the immortality of our descendants. Each may live for thousands of years in his descendants. You that read this are descended from men that were alive on earth 500,000 years ago.

What our descendants will be we cannot guess. General Grant, before opportunity came and people wondered why he didn't keep "sober", little thought that he would be the great grandfather of a son of a Russian prince.

Descendants of Astors, Vanderbilts and Rockefellers will beg their bread a thousand years hence if begging still prevails.

Descendants of Jhenghis, Timur and Attila are among Mongolian laborers now scattered through Asia.

The Triennial Protestant Episcopal Convention in Washington is urgently requested to recognize faith cures the patient helps himself by believing that someone else will help him. Faith can do many things. A man was bound to a chair, his feet put in hot water and told that his feet would be cut by a razor.

The back of a razor was drawn across the sole of his feet. Not a drop of blood was shed, but he died. What can kill cure.

Some doctors wisely believe that faith healing should be used to help nervous patients.

On June 12, 1843, Abraham Lincoln wrote to William H. Herndon a short letter, telling what he thought about Zachary Taylor's prospect of election.

The letter was sold yesterday for \$3,000.

Lincoln, thirty-seven years old when he wrote that letter, would have been amazed had he known what would happen to it.

At that time he would have been glad to get the job in the Interior Department for which he applied

unsuccessfully. Fortunately he didn't get it, for it might have taken him out of politics.

Johns Hopkins, in 125 families, rich and poor, will investigate origins, causes and frequency of colds.

What is foolishly described as "only a cold," is the most harmful of diseases, causing a loss of hundreds of millions of dollars a year. And what is worse, it weakens the system, exposing it to attack from diseases that destroy life—pneumonia, diphtheria, heart disease and a dozen others.

The drive is on now for the Red Cross Membership. We are hoping Lynn Grove will respond as usual for this may mean whether we keep our county nurse or not.

The Chamber of Commerce Must Stay

In the past few years Murray has attained quite an enviable reputation for that go-getter spirit that builds cities, not only in this section but throughout Kentucky and in many instances beyond the borders of the state. In the past five years Murray has accomplished more than the average city does in five times five years.

Not a little of the share of credit for this growth and development along all lines is due the Chamber of Commerce. It has taken a part in every world-wide movement and in many of them it has been the initiating and motivating force.

A live Chamber of Commerce, such as Murray has had, is an investment that pays rich returns on the money invested in it. Murray has reaped a substantial dividend in money from the operation of its Chamber of Commerce.

To mention only one instance, the organization recently saved the city of Murray practically three times its annual operating costs in coal freight rates alone. Every day it earns its bread and butter, and very little butter it has on its limited allowance. Many things it does build for future profits for Murray and we who have our money invested here.

No one can deny that the Chamber of Commerce is a splendid undertaking for Murray. We must dig down in our pockets and buy stock in Murray by pledging our actual and material support to the Chamber of Commerce.

Let's don't let our sister cities scorn us as one who has cast aside and neglected a friend that has meant much to us.

Debunking Politics

The Radio Has Debunked Politics—this was the verdict of both Senator Moses and Pat Harrison in the concluding weeks of the Presidential campaign.

The extensive use of the radio in the past campaign has given opportunity to the people the opportunity of hearing the candidates discuss the issues.

The candidates, instead of being far-off, legendary figures, became real live, close familiar persons when their voices issued from the multitudinous number of loud speakers the country over.

The words uttered were not presented in printed form alone—their words were heard, every vibration

of their voices reached into the homes of American voters. The "air" has worked marvels in this campaign.

The speakers, knowing well that their voices would be heard through out the length and breadth of the land, have weighed their utterances carefully, and taken pains to deliver addresses marked by high-mindedness and intellectuality.

Their opportunities are broadened—one man today may deliver his message to millions of persons at the same time, instead of to a mere handful of local citizens. And everyone is in a position to know what is going on in politics by simply "tuning in" on the radio. To give some idea of the extent to which radio was used in this campaign, the most modest estimate indicates an expenditure of \$800,000 by the Democratic Party on radio "time" and the expenditure of a like amount by the Republican Party.

Cream Gets Old Even in Winter

The fact that the weather is cool does not mean that the cream can be held several days without damaging its quality points out J. O. Barkman, in charge of dairy manufactures at the Experiment Station of the University of Kentucky.

Sweet cream held at a temperature of 50 degrees for a week or 10 days makes a poor grade of butter. Such cream may be of low acidity and sweet to the taste when churned, but the resulting butter will have an old flavor.

Winter cream kept in cellars where such vegetables as onions and cabbage are stored will have a bad flavor. Likewise, cream kept in the kitchen exposed to the odors of foods being cooked, as well as to the heat of the stove.

Cream should not be allowed to freeze, as frozen cream makes an oily butter of poor quality.

Turkish schools are sending home girls whose skirts are too short to have their skirts lengthened. If this were done here, our girls' schools would be practically empty.

THE HUMAN SPHINX

WHAT HAPPENED BEFORE

Simon Judd, amateur detective, and William Dart, an undertaker, are visiting John Drane, eccentric man of wealth, at the Drane place. Suddenly the household is shocked to find that John Drane has been murdered. The dead man is first seen by Josie, the maid, then by Amy Drane and Simon Judd. The latter faints.

Priser officers call and investigations begin. Dr. Blessington is called and after seeing the murdered John Drane, makes the astounding revelation to Amy Drane that her "uncle" is not a man but a woman.

Dr. Blessington discounts the theory of suicide, saying that Drane was definitely murdered. Dr. Blessington comments on the fact that all the servants in the household of Drane are sick, and that Drane has never discharged a servant for ill health. Dick Brennan, the detective, arrives to investigate the case.

Brennan questions the persons in the house, asking Amy if anyone had any reason to kill her "uncle." Amy says no one had any reason to kill her uncle. After further questioning, she is asked about Dart, Meadville Judd has told the story of his acquaintance with the actual John Drane in Riverbank.

NOW GO ON WITH STORY
"No, nothing. He was uncle John's friend a long while—long before I came here," Amy said. "They have played cards together many evenings."

"Never quarreled?"
"You've not noticed anything queer about the servants?" Brennan asked after a moment.

"Do you mean that they were sick?" Amy asked.
"Yes, I think they are all sick. I don't know why uncle John had such sickly servants, unless he was so kind hearted. Dr. Blessington is here nearly every day for one or another of them, some one of them is always in the bed. It makes it very hard for Mrs. Vincent, the housekeeper, but I'm afraid she's the sickest of any."

"But aside from that you've not noticed anything queer in them. Anything you might call craziness, any mania?"
"Oh, no; never anything like that," Amy said.

"You don't know of any enemies your uncle had?"
"No, he never spoke of any."

"He had business in New York?"
"Yes," said an office there?"

"Amy said, and told him the address, which Brennan jotted down in his notebook. "He was a speculator, I think. He would wait and buy a great lot of some one kind of stock and then they would go up and he would sell. I think he was made a great deal of money that way. I don't really know much about that. They can tell you more at his office. His manager there is Rufus Lodermann. He is quite an old man and he has been with uncle for a long while, I think."

Brennan jotted down this name in his notebook.
"Who else is there? You don't know? No matter—I can look that up," the detective said, putting his book in his pocket again. "And I think that is all I have to ask you now, Miss Drane, unless you can tell me something about the servants—who are they and where they came from."

"I think Mrs. Vincent, the housekeeper, can tell you more about that," Amy said. "I've not really paid much attention to that; I've always felt I wasn't wanted to interfere. Mrs. Vincent had been here quite a while when I came, and uncle was old and liked to have things as they were. He didn't seem to want to have me do anything but enjoy myself."

Simon Judd said, "That's why I kept pesterin' them out there until they said they'd make me chief of police. Black my cats! I says to them: 'Thee ain't no tellin' when you're goin' to need just class detective ability.' I guess," he chuckled, "they don't think overly much of me at that! Am I a fool to go takin' up detectin' as a life work when I'm along past seventy years old?"

"I'll reserve my opinion on that," Mr. Judd, Brennan smiled. "I can't remember any man who took up investigative work at that age, but I've known some men who took up crime as old as that and did quite well at it."

"A detective has to be slicker than a criminal, that's the pest of it," Simon Judd said. "And it's so blame hard to them folks to take a fat man serious out there mostly clung to jobs where he could sleep most of the time, like livery-stables, as long as I could, and that's a fact, but these here automobiles has given the business a black eye, and if a man goes into the garage business he's got to be lively and wide awake all the time. Now, a detective in a town like Riverbank, Iowa—"

"Can sleep most of the time," Mr. Judd, Brennan smiled. "That's the ideal!" Simon Judd chuckled. "Particular if he's not on the force. If he's just a policeman he's got to be out and around. If he's chief of police and detective he's got to spend quite a lot of time in meditation—sittin' in his office in a chair tippin' his back against the wall with his eyes closed. Looked like a good job to me, so I got shed of my livery stable and peddled the life out of 'em until I got me this job, startin' January first next."

"Go to job," smiled Brennan.
"Yes, or I wouldn't have wanted it," said Simon Judd. "But the main thing when a man hammers down

Am I a fool to go takin' up detectin' as a life work when I'm along past seventy years old?"

"I'll reserve my opinion on that," Mr. Judd, Brennan smiled. "I can't remember any man who took up investigative work at that age, but I've known some men who took up crime as old as that and did quite well at it."

"A detective has to be slicker than a criminal, that's the pest of it," Simon Judd said. "And it's so blame hard to them folks to take a fat man serious out there mostly clung to jobs where he could sleep most of the time, like livery-stables, as long as I could, and that's a fact, but these here automobiles has given the business a black eye, and if a man goes into the garage business he's got to be lively and wide awake all the time. THE LEDGER &

you should say we'll work at this case together, so's I can get the inside of how you fellows go at it. What say to it?"

Once more Brennan looked at Simon Judd in the face. What he sought was the eye of an insane man—the eye of a man who might have come to his house and murdered John Drane to make a case worth solving.

Simon Judd was a man who had held a grudge against John Drane and had come here to satisfy it. What he saw, if he could judge, was the keen eye of a man who was not such a fool as he looked, the keen laughing eye of a man who, possibly, was laughing at the detective good naturedly while laughing at himself. "This," Brennan said to himself, "is a man who is laughing at me because he knows something I don't know!"

"I won't be no trouble to you than need-be," Simon Judd said. "Only thing is it would be quite an experience to me to work hand in arm, so to say, with a real detective like you are."

"I think we can manage it," Brennan said.

"Black my cats, that's fine!" Simon Judd exclaimed. "Amy, that fixes that fine! I'm goin' to pitch right in and work at this thing until we get it all cleaned up and the murderous person put where he ought to be. Fine! Now, first off, girl, you go up to my room and, if them officers has got through rummagin' in my baggage, fetch me down a note book I've got in my valise up there. It's a blank one, Amy, without anything wrote in it yet. I didn't know whether real detectives used note books or not, but I see Brennan does, and I want to do this thing right. It's right

down in the bottom of the valise, Amy."

The girl went into the house and Simon Judd looked after her. When he saw she was gone he drew closer to Brennan.

"Now that you and I are in cahoots on this business, partner," he said, "we want to start off clean and clear and no favors. What I know I want to know. If not nothing, no good. And there's something wrong here right at the start."

"It being—?" Brennan asked.

"The girl, Amy—here," Simon Judd whispered. "She ain't what she says she is."

BIRTHDAY DINNER

On Sunday Oct. 4, the Union Grove Sunday School folks were invited home with Mr. and Mrs. E. O. Overby to dinner and a good many of us accepted the invitation and I want to say right here to those that did not go, that they don't know what they missed. Such a feast I never sat down to. The table was loaded with all the good things to eat that any one could ask for and the hospitality as usual at their beautiful home could not be surpassed. When dinner was announced Mr. Overby with the smile that he has for every body, went out of his coat and helped that good woman of his serve dinner and any one that has ever been in their home knows that everything was done right for they can't be surpassed for their hospitality. We wish them many more happy and useful years here on earth and at last a home in Heaven.

Those present were: Mr. and Mrs. Leonard Wilson, Mr. and Mrs. Fate Fulton, Mr. and Mrs. Talbert Carr, Mr. and Mrs. Grover Cunningham, Mr. and Mrs. Eulin Douglas and two children, and Mr. Overbys half sister Miss Jennie Wheeler who makes her home with him.

Memorial

Once again comes the hour of the Memorial Hour.

With earnest hearts we pause to pay our tribute of love and respect to the memory of one of our beloved members.

The hearts of the Faithful Workers Sunday School Class, of the First Baptist Church, of Bartow, Florida were inexpressibly saddened by the passing of Mrs. Joseph Newton Ragsdale, who entered into rest May the 27th, Nineteen Hundred and Twenty Eight.

"With us all her name shall be Through all succeeding years, Entwined with all our hearts can give."

Our Prayers and our tears, A true and dignified Christian woman, noble in character and mind, we are the better for having known her.

We are richer as a Class because of her clear judgment in our councils, her high ideas in every phase of our work.

Mrs. Ragsdale, was an active worker, serving our Class since its organization as President, it seemed that we could not give her up but God called her Home.

In the death of our friend, we have suffered an irreparable loss—but by her life she set an example of building not only for today but for the future, and she left a stepping stone for all who pass this way.

"We softly say a fond farewell for just a little while. For soon we know, we'll meet and greet loved ones with a smile. Teach us, Dear Lord, to truly say, Thy will on earth be done, Teach us like her to keep the faith, Till the crown of life be won."

Our heartfelt sympathy and sincere love goes out to the three sons, one daughter, and especially to the bereaved stricken companion, who have suffered an irretrievable loss.

Shell Motor Oil stands the gaff

Fill up with SHELL MOTOR OIL. Hit the open road... Step on it... Force the car for all it's worth with never a fear or worry about lubrication. Shell Motor Oil will "stand up" and protect your motor every inch of the way.

What happens when you speed? Plunging pistons, a heavy crankshaft whirling in snugging bearings, spinning gears and busy pumps... all driven by a ceaseless roar of explosions... hundreds of revolutions every minute in an inferno of heat.

It takes a real motor oil to stand the gaff... to supply constantly a smooth, unbroken film which completely envelops these flying metal surfaces and keeps them safely apart, but Shell Motor Oil is more than equal to the task, because it is deliberately made for just such service.

The specially selected crudes which are its base... the low-temperature refining process used... the specifications to which it is refined, combine to produce an oil of exactly the right body. It is thin enough to flow freely to every moving surface... heavy enough to come through heat and friction unharmed... a constant protection to your motor and pocketbook.

Obtain your SHELL MOTOR OIL when and where you buy SHELL GASOLINE... SHELL Yellow and Red Service Stations and authorized SHELL Dealers everywhere are glad to render free crankcase service.

TIGERS VANQUISH FULTON BULLDOG

Wet Ball Handicaps Murray High Team in Conference Victory Friday

(By T. A. Sanford.)
The Murray High School football team defeated the Fulton Bulldogs at Fulton last Friday to the tune of 6-0 in a game which was hard fought from start to finish. The lone touchdown of the Tigers came at the end of the first quarter when Red Lewis, flashy Murray halfback, started off tackle on the Fulton 35 yard line, sprinted a round end, and eluded and outran the enemy's secondary to cross the goal line.

A wet ball kept the Tiger from resorting to the aerial attack which has proved a great ground gainer during the previous games. Murray found little trouble in penetrating the light Fulton line for numerous gains but the Bulldogs showed that fighting spirit which their name indicates time after time when their goal line was threatened. An unofficial record of first downs shows that Murray made fourteen and Fulton four. Fulton lost its chance to tie the score and probably win the game in the final quarter when a fumbled punt was recovered on Murray's ten yard line. Fulton could make but four yards in as many downs and the ball went over, being kicked out of danger on the next play.

Lewis and Chambers were outstanding in the Murray backfield on both offense and defense. Bishop Quarter, made numerous nice gains off tackle and ran his team smoothly. Rowlett at full opened up during the second half and played

good ball. On defense, Captain Bowman, Yarbrough, and Cook, playing his first game, looked especially good in the line. The Fulton offense was set for Bowman, however, and he was unable to get as many tackles as he is in the habit of doing.

Buckingham, center, was the outstanding player for the Bulldogs eleven, being by far the best pivot man whom Murray has played against. *His career has made more tackles than any other member on his team and passed the ball well on offense.*

TEACHERS DEFEAT MIDDLE TENNESSEE

Brodie Stars as Murray Men Win 14 to 6 at Murphreesboro Saturday

The Normal football eleven came off victorious at Murphreesboro, Tennessee Saturday in one of their hardest-fought games of the season when they defeated the Middle Tennessee teachers 14 to 6.

The thoroughbreds scored both touchdowns close together in the second quarter. Brodie crossed the goal line after a 14-yard gallop early in this period but the play was cancelled by the referee, and the score didn't count. The local teachers then pounded through for two authentic markers in quick succession.

In the last half the Tennesseans hurled passes like falling autumn leaves and, though many fell short, finally scored in the last few minutes by an aerial play. After their touchdown, the Murray teachers were knocking at the touchdown door again when the final whistle blew.

Brodie turned in the best game for the Tennesseans during the day though the entire team played "heads-up" ball. Hugh May carried the ball over for Murray's second touchdown.

The Tennesseans were encouraged by about 25 local rooters.

CALLOWAY-TO-SEEK FISH HATCHERY

Game Warden Pogue Announces Three Will be Established Soon

Calloway, along with other western Kentucky counties, has a new plan to get the new state fish hatchery, which will be located in this end of the state, according to an announcement by Forrest C. Pogue, state game warden, who was a visitor in Murray Saturday.

Three new hatcheries will be established by the state within the next few months, Mr. Pogue said, one in western, another in southeastern section of Kentucky. A plot of not less than 30 acres with a never failing spring that will feed by gravity into the fish ponds below is essential, Mr. Pogue said.

There are several such locations in Calloway county which may be obtained at reasonable cost, it is said.

Mr. Pogue was recently given this district by the fish and game commission and will probably make his home in Murray, he stated Saturday.

God's vindication of preachers in Kentucky in the election was certainly wonderful. He did it that way in Bible days. Read the last half of 1st Kings, if you want to see how He vindicated Elijah. God is still on the throne. Our meeting begins Monday night, Nov. 19th. If God wills. Everybody is invited. Preparatory for our meeting the pastor will preach next Sunday, Nov. 11th, on "Israel's Apostasy." The 700 did not apostatize and they were the only saved folks in Israel. The evening subject will be "Preparations for a Revival." Come and bring your friends.

KIRKSEY HI NOTES

(Wilder F. Paige)
The Kirksey High Male quartet which has been in training for the past four weeks under Prof. Barber Edwards is making excellent progress. Mr. Edwards is a splendid instructor having spent several years in the Lawrenceburg Tenn. Music Seminary. We are very fortunate in having one so talented in our midst. The quartet is composed of Joe Gregory, Bass; Fritz Riley, soprano; Will Brown Venable, second tenor; Frank Peterson, first tenor.

An Halloween party was given at the school house Halloween night. The party was sponsored by the Seniors and was put over very nicely. Most every one was in masquerade which kept all guessing as to who was who. Mrs. Hurt won the prize offered for the best costume representing Halloween. Mrs. Clara Butterworth won a prize for having the best all round costume. A program was rendered after which a number of games were played.

It was a pleasure to have with us in chapel last Wednesday morning the principal of one of our neighboring schools, Prof. W. A. Warren of Lynn Grove. He spoke on the subject, "As a man thinketh, so is he." Mr. Warren is an able speaker and his talk was enjoyed very much. We are always glad to have Mr. Warren with us and invite him back again.

The best ball game of the season was played on our floor last Friday night. For a time it looked as though Lynn Grove was doomed to defeat at our hands. Both teams were in excellent condition and played a speedy type of ball. When compared to size it looked like a match-between a set of pigmies and giants. Lynn Grove has one of the largest teams in West Kentucky and it was this fact which enabled us to play our game below them. The passing of Harrell and Smith was the feature of the game. At the end of the half the score was tied at fourteen. In the last quarter two field goals by Jones and Pogue enabled them to beat us by four points. The final score was twenty-two to twenty-six. Although we couldn't beat them they are bound to say they got their hair singed.

A new system of grading is being tried by Mr. Hurt. A number of individual class cards were received last week and the grade indicated on these cards will go a long way toward determining a student's monthly grade.
A new stove was received by the school last week. It is a very fine stove and will give good service.
Mr. Wrathe and Prof. Potts

motored to Nashville Saturday to attend the football game between the University of Kentucky and Vanderbilt University. They reported a pleasant time marred only by a slight accident in which no one was seriously injured. While driving through Nashville a woman stepped in front of the car and in order to prevent striking her the driver turned aside quickly and struck a telephone pole. The car was slightly damaged but no one was hurt.

Plans are under way for the selection of the participants in the Inter-scholastic League contests. If enough volunteers are obtained preliminary contests will be held, other wise the ones to represent the school will be selected at large. It is the plan of Prof. Hura to have an outdoor relay contest. We hold the debate cup which was won last year and a good fight will be put up before it is turned loose. John Irvan Ross, who represented us in the oratorical last year is a student in the Murray High School and they do say that we will have to watch him this year. Never mind we are in the field again this year.

A pep club was organized by the school last week for the purpose of boosting our ball team. Lewis Carson was elected president and Melba Ray was selected as secretary and treasurer. A number of new yells were learned.

Our ball team plays Hazel again Friday night and if ever a bunch meant to go out under sweet revenge it is us. Two weeks ago they beat us by one point. They can't do it again. Hazel, we are coming after you.

Jack Holt and Betty Compton performed some of the most daring feats of horsemanship ever attempted before a motion picture camera for scenes in Columbia's "Court Martial" which is coming to the Capitol Theatre on Friday and Saturday.

During the making of the thrilling fight on the mountain top for Columbia's "Court Martial" which will be shown at the Capitol Theatre on Friday and Saturday, Jack Holt and Frank Lackteen were almost catapulted into a valley 1500 feet below. It was only through the cool collectedness of Holt that the accident was avoided. During the conflict Holt and Lackteen drew near to the brink of the precipice and Holt's heel was over the edge when the danger was realized.
