Annual Election Tuesday Night

Tuesday night, Feb. 8, the members of the Chamber of Commerce, the Chamber of Commerce women's club, and the Hightown Democratic Women's club, met in the Tabernacle church, 4th Street, for the regular election of officers. The meeting was called to order by President Walter M. sea., who called for the report of the Nominating Committee. The committee reported as follows:

President, Walter M. Sea;
Vice-President, C. H. Vanhoosier;
Secretary, Bessie C. Voss;
Treasurer, J. W. Williams;
Recording Secretary, Mrs. W. H. Kesterson; and 
Delegate to Kentucky, Mrs. E. J. Stahr.

Upon the motion of Mrs. W. H. Kesterson and seconded by Mrs. J. W. Williams, the report was accepted by the meeting.

Next on the agenda was the election of officers for the current year. The names were submitted and the following candidates were nominated for the office of President:

The candidates were placed in the ballot box, and after the voting was completed, the results were announced as follows:

Walter M. Sea, President; C. H. Vanhoosier, Vice-President; and J. W. Williams, Treasurer.

The names of the secretary and treasurer were also accepted by the meeting.

The meeting adjourned at 6:30 p.m. with much enthusiasm.

Big Real Estate Deal on 4th St.

The large building on 4th St., better known as the W. H. Bell building, occupied by the Emporium Co., was recently purchased by Mr. W. H. Bell.

The property is located on the north side of Broadview Ave., the frontage of 100 feet, and is valued at $35,000.

The building is a two-story structure, with a basement, and is equipped with all modern conveniences.

The property is in excellent condition, and is located in a highly desirable location.

 условия международного сообщения, когда прямой путь не возможен, могут быть использованы для связи с другими странами.

The property has been purchased by Mr. W. H. Bell, who plans to use it as his own residence.

The building is a fine example of modern architecture, and is a credit to the city of Fulton.

The purchase of this property by Mr. W. H. Bell is a matter of great pride to the city of Fulton, and is a fitting tribute to the city's growth and development.

R. H. Ward, Bank Building Co.

The Ward building, located on 4th St., was recently purchased by Mr. W. H. Ward, who plans to use it as his own residence.

The building is a two-story structure, with a basement, and is equipped with all modern conveniences.

The property is in excellent condition, and is located in a highly desirable location.

The purchase of this property by Mr. W. H. Ward is a matter of great pride to the city of Fulton, and is a fitting tribute to the city's growth and development.

Agricultural College on Wheels

Chicago, February 1, 1927.

Our Humble Servants

Railway freight cars are the hardy bearers of the agricultural exhibits. These large and ponderous vehicles carry the immense railway freight traffic of our busy country.

The railroad operates various types of freight cars to meet the varied needs of transportation. By having both large and small cars which are used exclusively for perishable freight, the railroad can accommodate every need.

The freight equipment of the Illinois Central System consists of 2,300 freight cars, which are designed for the transportation of farm produce. These cars are equipped with features that are ideal for carrying fresh produce during the colder months.

The gross seasonal demand for the transportation of perishable cargo during the winter months has doubled in the last ten years.

The railway company has invested $1,000,000 in new freight cars to meet the demands of the agricultural exhibits. This new equipment includes cars designed specifically for carrying fresh produce.

Carrying the immense railway freight traffic of the busy country.

Good streets. Yes, Fulton will have good streets. We all have good streets from our own experiences, and we are going to have some when we get into this business. Fulton will have to progress just as its times was incorporated, fifteen years ago, but just as a little faster this time. We have done over the system. The connections are given between those who will be a great relief. It will take a good effort and a little time to get everything going, and it will make some connections at a very possible we will have MODEL PLACES EMPHASIS ON THE TRANSPARENT BLACK FROCK. The material has been "stung" as often as it requires something out of the ordinary to get his attention. The following extracts taken in the letter of the H. H. Becker, prominent Louisville banker, is the careful consideration.

Fellow citizens: The great expense that is now to be had by farmers is to be better financial consideration. The banks, Trust and other mercantile firms are considered when the climate is closed. The powerful heating unit will be most essential in fuel consumption. The wide use air was taken in the state of the table is proof of pure printing of a city which is quickly found in putting over the heating unit, and out the top to simulate through the entire house.

AIR DRIED CLOTHES

Do you realize what it means to receive a bundle of thoroughly washed and air dried clothes from a modern power laundry?

It means that at last the only remaining barrier between the housewife and the laundryman has been broken down. Because, now the modern laundry and only can wash clean whatever you choose to send, but also duplicates in every respect the results of drying that the housewife has employed for time without, namely, the hanging of the washing on the old-fashioned clothes line, to back and dry in the glorious sun.

The greatest development in years and years, comes to this steadily growing industry in the perfection of a natural drying process. This new method of drying by air eliminates for all time that unmistakable odor which has branded the work of the power laundry in the past.

Thousands and Thousands of Cubic Feet of Concentrated Sunshine

The scientific application of air as a drying agent in the power laundry is accomplished by the perfection of the Vornado Tumbler Dryer. This most wonderful machine harnesses clean fresh air in such great volumes that it thoroughly eliminates the necessity for heat to dry clothes with. It dries clothes by air, evenly and gently, venti- lating them entirely of all lice, leaving them soft, fluffy and perfectly odorless. Clothes dried in this manner are never shrunk, discolor, or left with a harsh feel.

The Vornado Tumbler used in our laundry is the only drying tumbler that does not depend solely on heat to dry clothes. It is the examplar link in an otherwise perfect laundering process. It puts the work of the power laundry on par with that of the housewife's own private laundry.

Be sure to see this wonder machine in our laundry every time you feel and smell the clothes it dries, notice how fresh and new smelling they are.

Phone 130

When you see the pleasing results, the economy and the convenience of this complete service, you are going to get a hank of "house wash days" throughout the year.

Do You Ever Stop to Think

Station to Station Calls may now be Reversed
You can now call your home or office at the low station-to-station rate— and have the charges reversed. Think what a convenience this is!
A station-to-station call is one where you ask for a direct telephone—either by number or by name and address of the telephone to be called, and not for a particular party.
And you will be glad to know that reduced station-to-station rates are permanent. There is still further reduction to come after September 14.

"Tong Distance" willquefly give you finding and other helpful hints.
