A safety patrol is to be formed fast on the streets bordering the school building. They will educate and warn the school children.

Pickwick Houses Soon To Join Gilletteville Dam Site Team

A problem that has existed for many years has been addressed in the city of Fulton. The problem of children being exposed to too much danger as they walk to and from school has been recognized by the city. The police department is actively working on a solution to this problem, and it is hoped that the situation will improve.

A safe place to be formed in the city, and these traffic problems have been alleviated in the schools. They will offer a safer environment for children to walk in the streets and be taken to and from school. Also there were too many accidents on the streets before, but now there are none, and it is believed that the children will be safe.

The statement of these railroad officials was met with the same enthusiasm by the school board, the county superintendent of schools, the board of education, and the mayor. The people have been invited to attend the funeral of the teacher, and it is expected that the attendance will be large.
