EODOMUS RUNS HIGH FOR GOOD STREETS IN FULTON, KENTUCKY

The attention of street improvement is the business district of the city. The improvement of the city street at Third and Fourth, recently completed, was only a small part of the work that was done. The city council had been promised a thorough inspection of the work. The expected award was for $6,000.00.

The project was not completed on time, and the contractor was unable to finish it. The city council had been promised a thorough inspection of the work. The expected award was for $6,000.00.

Guiding Your Children

Bad habits lead children astray. Good habits guide them safely into the path of character, uprightness and independence.

You can start them right by teaching them to save money. Set them an example by saving yourself. Make them advise their friends.

Once started, the saving habit helps to form other good habits. It provides experience for them in handling their own funds.

This start in the right direction is but a simple step. Bring children to the bank when you start them to school.

In electing the officers of the Chamber of Commerce the directors selected a man to manage their Fulton interests. Mr. R. D. Hardin was their choice. In recognition of services rendered he was recently presented and made district manager of Fulton, Clinton and Hickman properties.

We extend the congratulations of the Chamber of Commerce in making a selection for chief executive a resident of the town during his residence.

W. E. Rush, treasurer, a member of the Board of Directors, and a young man who has long since taken a keen interest in all that tends to benefit his community, through their indefatigable efforts and in the future will no doubt render the maximum of service to the town, population and property. Let all of us give them our hearty support and cooperation.

THREE WAYS TO HELP

All of us make good resolutions—out of physiological cloud. Not all of us are the leaders of the race. It is well to observe the example of the leaders, which is often an inspiration to us.

When a man has a good share of personal ambition, even the most zealous of people carry it in their hearts a belief in something of a higher order than that by which they guide their duties.

AIR DRIED CLOTHES

Do you realize what it means to receive a bundle of thoroughly and air dried clothes from a modern power laundary? It means that at last the only remaining barrier between the housewife and the laundroman has been broken down. Because, now the modern laundromy not only washes, dries, and cleans the clothes for you, but also defends the driers and saves you all the unpleasantness of hanging clothes on the clothes line, to bask and dry in the glorious sunshine.

The greatest development in years and centuries, comes to this steadily growing industry in the perfection of a natural drying process. This new method of drying by air eliminates for all time that unseemly odor which has branded the work of the power laundry in the past.

Thousands and Thousands of Cubic Feet of Concentrated Sunshine

The scientific application of warm air as a drying agent in the power laundry is accomplished by the perfection of the Vorclone Drying Tumbler. This most wonderful machine harnesses clean fresh air in such great volumes that it almost eliminates the necessity of heat to dry clothes with. It dries clothes by air, evenly and gently, without creating that unseemly odor which has branded the work of the power laundry in the past.

You can now be sure that your clothes are not only washed clean, but are thoroughly and accurately dried by the most modern method. When you order your clothes from the Fulton Advertiser be sure and give them the order for 'air dried clothes' and let your laundeman know that you expect them as you would a fine meal for dinner. When you order in advance, your clothes will be ready and waiting for you at any time.

Bird's Eye View of the American Power Laundry

The power laundry is the baby of the modern housewife and she is growing up rapidly. Do you know how many homes have this modern convenience? Do you know how many homes will have it next year? Who wants to be left behind? Who wants to be the last to catch this wave of improvement? It is the wave of the future, and it is the wave that the Fulton Advertiser helps to spread.
