# Trade With Your Home Industries and Make Fulton a Better Town

## FULTON ADVERTISER

Vol. 3 No. 14

FULTON, KY., FEBRUARY 25, 1927

R. S. Williams, Publisher

### All Streets In Fulton Included

#### In Resolutions Prepared for Council by City Attorney

Will Probably be Read and Acted Upon  
at the Regular March Meeting.

Tuesday night's meeting of the City Council was a busy session. The street leading under the viaduct was ordered rebuilt like it was found before trenched for sewer and water main improvements and Contractor Hartig is rushing the work to completion.

The Sewer Committee was empowered to have a fence built around the sewer disposal plant.

Regarding the littering of streets with prunings from trees and shrubs, the council advised Chairman DeMyer of the street committee that an ordinance demanded the property owner to remove same and it was not for the city to move. The ordinance also provides a fine for any one throwing trash of any kind in gutters along the streets.

The City Attorney was consulted regarding an ordinance for making connections to sewer system and the City Clerk advised to secure copies of ordinances from Mayfield, Murray and Paducah who have recently gone through with the same work.

The City Attorney was also consulted regarding street improvements in Fulton. Mr. Nichols said that he has prepared the resolutions already, which included every street in the city limits, and explained in detail how said street improvements should be made, etc.

Ten days after the resolutions are read an ordinance should be passed designating what streets should be built first, etc.

When asked how long it would take before any actual work could be done, Mr. Nichols said at least 90 days.

After discussing street improvements from every angle the council adjourned.

#### W. P. Felts Hardware Co., Reorganized.

The W. P. Felts Hardware Co., Incorporated, has been reorganized and is now under the management of Will McDade and Joe B. McWherter.

The new organization will restock the store with a complete line of International Harvester Co's implements and shelf hardware. In fact, all lines will be restocked with everything to be found in an up-to-date hardware establishment and the business conducted at the same old stand on Walnut street.

Cleo Latta, Fulton, Ky., R. No. 4.

The school notes reached us too late for publication this week.

#### POOL TOBACCO RECEIPTS HIGH

Passed 22,000,000 Pound Mark  
Saturday, Officials State

Hopkinsville, Ky., Feb. 21.—Receipts of dark tobacco by the dark pool up to Saturday have passed the 22,000,000 pound mark, according to an announcement of officials of the Dark Tobacco Growers' Cooperative Association here today. For the same period of operation, the receipts of 1926 tobacco by the pool are running far ahead of the 1924 crop and at the same time the expenses of handling this tobacco throughout the dark territory are the lowest in the history of the association. This is regarded by pool officials as proof that the management is keeping its pledge to growers that a policy of rigid economy would be followed in this year's operation.

Another announcement by pool officials today answered unfounded rumors that association receiving stations in the western district have been closed. The pool stations at Paducah, Mayfield, Murray and Fulton are now in operation and will remain open to receive tobacco at any time, it was announced. Officials believe the rumor that the houses had been closed was started through a misunderstanding of some changes at Mayfield and Paducah that were made for the purpose of cutting expenses and improving the service. At Mayfield, a smaller plant, under new management, replaced the regular receiving station and slight changes were made at Paducah.

#### SOME GOOD DOGS AND LOTS OF BAD ONES

About this time of the year the dog-catcher starts his rounds, looking for the "poor mut," whose owner has failed to dig up the price of his license and many a small boy and girl has lost forever their loved companion, just because "Pa" forgot to do the necessary "digging."

The D. C. is a very necessary person in the community, for entirely aside from the monetary part of the program, there are always a lot of stray dogs that the general public would like to see put out of the way.

When a lot of stray dogs chose a fellow's chickens, tip over the garbage cans, scratch up the front lawn and generally make themselves a nuisance to the peaceful citizen, he begins to wish that the D. C. was a lot more active, and stayed on the job longer.

If the dog owners would give just a little thought to "the other fellow," and not let his dog run loose all over the neighborhood, perhaps there would not be so many dead dogs, and infantile lamentations.

#### FOR SALE

Four-room house and lot 45x100 feet on McDowell street. For quick sale, \$600. See T. B. Anderson.

#### VEAL CALVES WANTED

at stock pen Saturday, Feb. 26. Will pay market price. J. H. Duncan, Fulton, Ky.

### Lion or Lamb?

### S. S. Motley, Our New Secretary

S. S. Motley, secretary of the Fulton Chamber of Commerce, can now be found at his office on Main street where he will be pleased to welcome members of the organization and discuss matters of interest pertaining to the city's future welfare. Mr. Motley arrived in the city Monday from Gideon, Mo., to take charge of the work of secretary. The best part of the day was taken up with President Hardesty visiting members and getting acquainted with the town. He is a man of pleasing personality and a natural born booster. He is a native Mississippian, born at Tupelo, home of the late "Private" John Allen, who originated the word "Booster" and made his home town famous with his wit in Congress.

Mr. Motley left Tupelo at the age of 22; entered commercial college at Sulphur Springs, Oklahoma, where he graduated and afterwards was employed as assistant instructor and field representative of that institution which position he held for two years. He returned to his native state for a year and moved to southeast Missouri, where he resided until he came to Fulton. For three years he was engaged in mercantile business at Gideon, Mo., for himself. The remainder of years he spent in Missouri was in the employ of the Gideon-Anderson Lumber & Mercantile company, working in various departments.

In coming to Fulton and taking up the secretary's work of the Chamber of Commerce, we may say, was by accident. It just happened that J. A. Colley, one of the directors of the Chamber of Commerce, during a visit to Missouri, met Mr. Motley and was so favorably impressed with his qualifications and boosting spirit, on returning home, related his acquaintance and experience to the other directors. They got in touch with Mr. Motley and had him to come here to consider the position of secretary. An agreement was reached and he is now in charge of the office. As quickly as he can adjust himself and get acquainted with affairs of the city, a program will be outlined for future work, and with our hearty cooperation, results will follow.

The Advertiser \$1 per year.

#### EMINENT YOUNG MUSICIAN COMING TO FULTON

Joseph Henry, of Louisville

On Friday evening, March 4, the Music Department of the Woman's Club will present Joseph Henry, talented pianist, in recital at High school auditorium.

Mr. Henry comes to Fulton highly recommended. He is a native Kentuckian, born at Clinton some twenty years ago. Unfortunately he is blind, but is gifted with unusual musical talent.

Read what others say about him:

**Graduate of Louisville Conservatory of Music**  
"Mr. Joseph Henry is a graduate of piano at the Louisville Conservatory of Music and is continuing his work under Mr. Rebarer through this season."

"Mr. Henry, though young in years, is a pianist of more than average ability and is thoroughly capable of presenting a program of value. He is unusually gifted and a deep student of his chosen field of work."

"As Director of the Louisville Conservatory, I give most hearty my recommendation to Mr. Henry, knowing that he will give pleasure as well as satisfaction in his playing. He is to be commended and encouraged in the fine work he is doing."

Very truly,  
FREDERIC A. COWLES,  
Director Louisville Conservatory of Music.

The Courier-Journal says: "An artistic program of unusual merit was given by the Senior class of the Louisville Conservatory of Music. Piano solos by Joseph Henry were offered with astonishing facility."

The Louisville Times says: "Talented pianist—Mr. Joseph Henry, a pianist who has been heard before Louisville audiences and over WHAS, radiophone of The Times and the Courier-Journal, a number of times and who was graduated from the Louisville Conservatory of Music in June, is the son of Mr. and Mrs. J. W. Henry, 140 Bellaire avenue, formerly of Clinton, Ky. Mr. Henry who is blind, was awarded a scholarship four years ago when he competed in a piano contest with 200 students who could see. He is 20 years old."

The late Sir Edward Baxter Perry said:

"Joseph Henry has unusual musical ability. He gets a beautiful tone and plays a melody with fine discrimination and shading."

#### SPRING TRACK MEET, MAY 5, 6 AND 7

Invitations have been sent out by the Fulton High school to more than fifty high schools in western Kentucky, west Tennessee and southern Illinois, to participate in a spring track meet to be held at the Fair grounds in Fulton on May 5, 6 and 7. Acceptances have been received from many schools and it is expected that many athletes will be here at this time. In the events are listed, the 100 yard dash; 220 yard dash; 440 yard dash; 880 yard run; 1 mile run; 880 yard relay; shot putting; discus events; high jump, broad jump and pole vaulting. In addition to the track meet, there will be held at the High school auditorium contests of spelling; Boys Declamation; Girls Declamation; piano; voice; violin; typing and dramatics.

Cups and prizes will be awarded the successful entrants by the High school. Landrum Bros. & Ewell, of Dyer, Tenn., were awarded the contract to build the bridge across the Illinois Central railroad tracks north of the city. Their bid was \$12,667.95.

FOR RENT—3 room apartment. All conveniences. Reasonable. Wolfgram, Phone 10.

Hand us a dollar bill and get your name on the Advertiser list as a regular subscriber.

#### MASONS ARE ACTIVE

The Masonic fraternity displayed some activity last week in the way of work and feasting. On Tuesday night Roberts lodge met and conferred the Master's degree. After the work was finished, there were several interesting talks made by the following members and visitors, Martin Nail and Dr. Bethune of the city; R. A. Kennedy of Chicago, and Moses R. Glenn of Dawson Springs. The lodge was then closed and the craft repaired to the dining hall where they partook of a splendid feast of a variety of choice viands.

On the following Friday evening, Fulton Commandery, of Knights Templar assembled at the hall, and enjoyed a real banquet of quite a choice lot of good eats, served under the supervision of Sir Knight M. I. Boulton, who has gained no little distinction as a purveyor of delectable foodstuff along with his famous butterfly salad.

After enjoying some good cigars, the knights returned to the hall and exemplified the K. T. degree for the purpose of inspection.

Sir Knight E. C. Stockton of Richmond, Grand Treasurer of the Grand Commandery of Kentucky, was the inspecting officer.

After the work was finished, the inspector made a very interesting talk, instructing the members along the line of work, and complimented the commandery on having its full force of officers present.

Sir Knight D. Fred Worth, the Excellent Prelate, made a few pleasant remarks that were interesting and pleasing to the fraters, he having the happy faculty of entertaining his hearers, by being well versed in Masonic lore. There was quite a large crowd present that enjoyed the occasion very much.

#### CIRCLE NO. 5 HAD AN INTERESTING MEETING

Mrs. H. W. Williams was the gracious hostess to the members of Circle No. 5 of the First Baptist church at her home on Green street Monday afternoon.

Patriotic colors, American flags and emblems were featured in the decorations. The dining table overlaid with a beautiful lace cover, was centered with a cherry tree, surrounded by tiny flags.

After the devotional, Mrs. Carl Hastings, chairman, presided over the business session. The subject for the day, "Captivity of Judah," was very ably given by Mrs. O. H. McFarlin.

An appropriate patriotic program was given as follows: "America, the Beautiful," by the members.

Piano solo—Polish Country Dance, by Dorothy Williams. Reading, "In Flanders Fields Where Poppies Grow,"—Mary Katherine Bondurant.

Violin Solo, "Ave Maria," (Cav Rusticana), Mrs. W. A. Love, Mrs. McFarlin, accompanist.

Life of George Washington, by Mr. J. W. DaVault.

Mrs. R. S. Williams, accompanied by Miss Ruth Fields, sang "Greetings of the Day," by Grant.

The program closed by all singing "The Star-Spangled Banner."

Delicious frozen fruit salad with coffee and candy was served. American flag stick ups and tiny hatchets were plate favors.

During the social hour, musical numbers were given by Misses Dorothy Williams, Martha Brady, Mary Katherine Bondurant, Mary Nevill Walters on the piano and ukulele.

A jury in the Graves county court Saturday, awarded damages of \$850 to Mrs. Ella J. Bard on 7.29 acres of land to be used for right-of-way for the Mayfield-Fulton highway. Mrs. Bard had asked for several thousand dollars damages and will no doubt appeal the case to the Circuit Court.

# TAX SALE

I, John M. Thompson, Sheriff and Tax Collector of Fulton County, Kentucky, or one of my deputies will, on the 14th day of March, 1927 at the courthouse door at Hickman, Ky., offer to the highest and best bidder for cash, the following described real estate for the purpose of collecting and paying the taxes due for the year of 1926, from the following lists of persons as shown by the Tax Commissioner's books and by tax books in my hands. The following is a description of the property to be sold, the name of the person or persons owning same, the total amount of taxes due from said person or persons, the location of the property to be sold, and the name of the taxing district entitled to receive any portions of the tax against the property to be sold and the amounts of such portion, to-wit:

## AIR DRIED CLOTHES

*Do you realize what it means to receive a bundle of thoroughly washed and air dried clothes from a modern power laundry?*

It means that at last the only remaining barrier between the housewife and the laundryman has been broken down. Because, now the modern laundry not only washes clean whatever you choose to send, but also duplicates in every respect the method of drying that the housewife has employed for time immemorial, namely, the hanging of the washing on the old-fashioned clothes line, to bask and dry in the glorious sunshine.

The greatest development in years and years, comes to this steadily growing industry in the perfection of a natural drying process. This new method of drying by air eliminates for all time that unmistakable odor which has branded the work of the power laundry in the past.

### Thousands and Thousands of Cubic Feet of Concentrated Sunshine

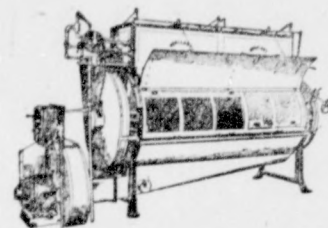

The scientific application of air as a drying agent in the power laundry is accomplished by the perfection of the Vorclone Drying Tumbler. This most wonderful machine harnesses clean fresh air in such great volumes that it almost entirely eliminates the necessity of heat to dry clothes with. It dries clothes by air, evenly and gently, ventilating them thoroughly, freeing them entirely of all lint, leaving them soft, fluffy and perfectly odorless. Clothes dried in this manner are never shrunk, discolored or left with a harsh feel.

The Vorclone Tumbler used in our laundry is the only drying tumbler that does not depend solely on heat to dry clothes; it is the missing link in an otherwise perfect laundering process. It puts the work of the power laundry on par with that of the housewife's own private laundry.

*Be sure to see this wonder machine in our laundry anytime, feel and smell the clothes it dries, notice how fresh and sweet smelling they are.*

When you see the pleasing results, the economy and the convenience of this complete service, you are going to put a ban on "home wash days" throughout the year.

# O. K. STEAM LAUNDRY

J. J. OWEN, Proprietor

### To The Democratic Voters of The First Senatorial District Ladies And Gentlemen:

Yielding to solicitations to become a candidate for State Senator, from the First Senatorial District, composed of the counties of Hickman, Fulton and Graves, to represent them in the General Assembly of Kentucky. I now make public the announcement of my candidacy subject to the Democratic Primary to be held August, 1927.

In seeking this honor I fully realize and appreciate the duties and responsibilities that come to and rest upon your representative in the highest legislative body of the state, and am not unmindful of the fact that the public interest and commonweal of the community depends largely upon the character and fitness of the men elected to our law-making bodies.

While realizing that from a financial consideration your Representative makes a personal sacrifice in seeking this position, yet I further deem it a duty, if from public service and experience any citizen has acquainted themselves with the financial, educational, and social interest of the state and has at heart the general welfare of its citizenship, to offer themselves for public service.

I believe that my experience in connection with the public affairs of the state and local community has afforded me an opportunity to familiarize myself with their general interest and progress, and to have a better understanding of the public needs, and for that reason I have a greater ambition at this time to serve my constituency than ever before.

I assure you I am actuated by no selfish motives, and none other than a consciousness, that there is to-day a

general awakening of a spirit of progress in Kentucky and especially in the western section of the state unprecedented in its history. In the past decade we have made strides along the lines of public education, and further possibilities can not be comprehended at this time.

Our cities, towns, and villages are being woven into a network of public roads and highways so vital to educational material and social progress, we are stimulating a dormant interest in agriculture, and endeavoring to elevate farming to a scientific and profitable basis.

Now in seeking your support I have no pet legislation to be enacted nor greater aspirations to attain than to contribute my best energies toward promoting his spirit of progress and accomplishments, and not to throw hindrances in the way to retard its growth.

To those who are unacquainted with me I will state I am not inexperienced as a legislator, having represented Graves county in the lower house of the general assembly in the sessions of 1908 and 1910. At that time I had the distinction of introducing and directing through that body at the request of its Authors, The Wyatt-Bosworth Good Road Resolution, providing for the amendment to the State Constitution, granting state aid for the construction of public roads, which was ratified by the people, and has resulted in enactments defining a magnificent plan for a System of Highways in keeping with the progress of sister states, and of which Western Kentucky has begun to take advantage. I now assure the public I shall be untiring in my efforts, if successful, to see that the First Senatorial District gets its equitable part of the

benefits to be obtained in the construction of public highways. I was instrumental in securing the passage of a measure providing for a Sub-experiment Station for Western Kentucky to promote the agricultural interest of this section of the state which, however, was vetoed by the governor. I supported all educational measures, looking to a better school interest in the state and pledge my greatest endeavor toward advancing that in-

O. HOUSTON BROOKS

of Mayfield, Ky.

Candidate for State Senator.

to eliminate technicalities in procedure, and further simplify the enforcement of our Penal Statutes, I shall support such measures as will penalize alike all public offenders, and unhesitatingly oppose the operation of statutes, making one class amenable to and another immune from the penalties of the law. I have had practically twenty years of experience as a practicing attorney, and have been honored by the voters of Graves County, by being elected and serving them as County Attorney from 1922 to 1926. Believing from my experience in connection with the fiscal affairs common to all the counties of First Senatorial District I am familiar with their needs and welfare and can better serve their general interest. I was born and reared on a farm, and am familiar with the agricultural problems and have a common sympathy with those endeavoring to solve them.

I have an ambition to render faithful and efficient service and to enjoy the honor and distinction that will come from such service, should I be elected your State Senator, and while it will be impossible to see all voters of the district I hope to meet most of you before the election and make my views known on questions of public concerns, until then I invite your most earnest investigation of me and my public record. Thanking you in advance for any favorable consideration given me, I am,

Most Sincerely Yours,  
O. HOUSTON BROOKS

### O. HOUSTON BROOKS AN- NOUNCES FOR STATE SENATOR

In this issue of The Advertiser will be found the announcement of O. Houston Brooks, of Mayfield, candidate for State Senator, subject to the Democratic primary election, August 6, 1927.

It will be remembered that Mr. Brooks represented Graves county in the lower house of the general assembly in the sessions of 1908 and 1910 with distinction and is thoroughly qualified to represent the First Senatorial District in the Senate with credit to himself and party. He is a brilliant young attorney with an excellent record and is actuated by no selfish motive in seeking the office to which he aspires. Perhaps there is not a man in the district better acquainted with the needs and welfare of the people than Mr. Brooks and it is his ambition to be placed in a position where he may render faithful and efficient service and to enjoy the honor and distinction resulting from such service. Read his announcement carefully and remember his claims on election day, August 6.

### CONCRETE STREETS

With the average American citizen, pride in his home town is second only to pride in his family, home and business. He is always ready to back his town against the advantages of any other one of equal size. He is proud of its business and its surrounding country. He is proud of its streets, fine residences, parks, schools and public utilities. He is proud of its age or its progress. With this sentiment—almost an inherent American characteristic—it is not hard to understand the universal desire for paved streets in Fulton.

Throughout the country, town improvement is the order of the hour. The time is past when the paved street was exclusively a big city feature. Whether the town is one of 500 or 500,000, it wants the best it can afford in street improvement. Practically every article that contributes to the American citizen's personal well-being or to his industry has to be carried to his home or to his place of business over streets. He has pulled up the old-fashioned fence around the dooryard, extended the lawn to the curb line and made the street a part of the community home and workshop. He refuses to stand for filth in the street or alley, just as he refuses to tolerate it in the store, office, or factory, and is willing to pay his good money to secure the paved street and alley which can be kept practically as clean as the floors in his home. For these reasons he demands of his town officials that true values shall be given him for his investment in paved streets. They must return to him a full measure of revenue in the form of healthful surroundings, must back his pride in his home town and must serve best the transportation demands to be made upon them.

Development in vehicles common to our highways has kept pace with the growth of population and has materially changed requirements for street and other highway surfaces. It is safe to say that in the average American town 90 per cent of the street traffic is self-propelled. It also moves at speeds many times greater than was possible in the days when light roadsters and heavy draft teams represented the only available powers for pleasure and commercial vehicles. The man who buys gasoline or electric power for his motor vehicle soon finds that the even, hard-top pavement is the one on which his motor operates with the lowest expenditure for power and for upkeep of mechanism which transforms that power into transportation. Every

up-grade, every irregularity in the surface exacts its proportion of power to overcome, and is reflected faithfully in the number of trips that must be made to fill the gas tanks or charge the storage batteries. Efficiency in street transportation, therefore, demands a pavement which is so hard and even, yet of skid-proof surface texture, that the movement of traffic will be made easier instead of retarded. Wheels must give instant traction when power is applied. There must be no tendency for tires to stick or cling to the pavement. Every ounce of power should be free to do its work of turning the wheels. Thousands of dollars have been invested in developing design to reduce friction in the mechanism of the vehicle itself and to procure the most direct transmission of power to the driving wheels. To make this expenditure effective there must be no unseen giant's hand gripping the tire at point of contact with the street surface and retarding the motion of the vehicle.

In a thousand communities throughout the country, concrete streets have proved they render the service demanded by modern traffic. Thousands of engineers and town builders working for the most part independently, have developed concrete street pavements that serve equally well the exacting whims of fashionable districts where wealth demands beauty as well as service and the business areas where volume and weight of traffic spell destruction to any pavement less substantial than concrete.

### HORSE FALLS ON RIDER, BREAKING HIS LEG

Mayfield, Ky., Feb. 18. — John Welch, a prominent and well known farmer of the Dukedom section in south Graves county, suffered a broken leg, both bones being fractured just above the ankle, as he was returning to his home from this city late Wednesday afternoon.

Mr. Welch mounted his horse and rode into Fulton, and then took the train to this city, looking after some business matters. He left the city on the evening train, and remounting his horse at Fulton, started for his home. When about a mile or two from Fulton his horse stumbled and fell, catching the leg of Mr. Welch under it in the fall, and fracturing the bones. His cries attracted the attention of people residing nearby, and they rushed to his assistance, and he was taken to the office of a physician in Fulton, where his injury was given attention. He was removed to his home Friday.

### FULTON COUNTY FARMERS RAISE TON LITTER

J. G. Wade and Coleman Evans  
Produce Eleven Pigs Weigh-  
ing 2,775 in One Litter

A record that stands up with any known in the state came to light this week when The Courier was informed that J. G. Wade and his son-in-law, Coleman Evans, of the Ebenezer neighborhood, raised a litter of eleven pigs that weighed 2,775 pounds or a average of 252 2-11 pounds per pig. This is believed to be a record for this section at least.

Mr. Wade and Mr. Evans sold eight of the eleven hogs to H. P. Johnson, the well known live stock dealer of Cayce, recently. These eight weighed 1990 pounds and brought \$11.35 per hundred pounds. Three of the litter, weighing 785 pounds, were retained by the owners.

These hogs were all from one litter of pigs and were fattened on corn, soy beans and skimmed milk. Mr. Wade and Mr. Evans are expert hog raisers and took excellent care of the litter, but this shows that it pays big dividends to have good stock, feed it right and take care of it. The mother of this litter now has another litter of pigs only a few days old. It is farming methods like this that will put Fulton county at the top of the list of Kentucky counties instead of near the bottom as it is now. A county agent would help greatly by bringing to the attention of every farmer, ways and means of improving production and thus profits. —Hickman Courier.

## THE FULTON ADVERTISER

### His Winning Stenographer

By H. LOUIS RAYBOLD

(Copyright.)

"I DON'T mind telling you," confided young Jimmy Dawson to his friend Charley Underwood, as they smoked their post-lunch cigars in the Belmont grill, "that Lesbia Carroll is just about all the brains in our firm. That girl's a marvel!"

"She's an easy creature to look at, also," replied Charley. "I've known her for years."

"Right!" Then Dawson frowned. "There's something worrying me. The little simpson has entered this fool contest for the world's best-looking and speediest typist, and I'm scared stiff she'll win."

"If she did," finished Charley, "she'd be snapped up by 'movie' men and the firm would lose its brains."

"You've said it," returned his friend gloomily. "But worse even than that, the girl would be utterly spoiled."

"Pardon my inquiry, but have you—er—any personal interest in that matter?" asked Charley gently.

"Certainly not!" retorted the other with apparent sincerity. "Pure altruism alone induces me. If I could think of some scheme by which she could be kept from entering the finals, I would not hesitate to save her from herself."

"You'd stop at nothing?"

"Well, almost nothing!"

"I've got it, then!" and Charley slapped his knee. "You say your sister is at her place on Long Island? Well, listen, here!"

An hour later, Lesbia Carroll looked up from her desk to see her employer striding towards her with an expression of determination on his face.

Looking down into her blue eyes, "Are you still set on being in that contest?" he demanded.

Lesbia tossed her curly bobbed head. "Certainly," she said. "Why not?"

Now young Jimmy had not been altogether sincere about his interest in Lesbia. In spite of himself, it was fast growing personal, but he would not recognize it if Lesbia persisted in advertising herself throughout the country.

Therefore, he now hedged somewhat in his reply. "There are many reasons, Miss Carroll. You are bound to lose interest in your work with us. And—and—oh, hang it!"

Lesbia flushed. "Please, Mr. Dawson. Please!"

"It's no use," he presently telephoned Charley. "She will go into the thing and with her looks and speed, she's bound to win. I'll get hold of my sister—lucky they used to be old friends in school—and we'll carry out that little plan. Means I've got to get in a substitute here, but it's worth the trouble. It's up to you to see that your arrival with Lesbia is quite too late for the final contest."

Now to do Jimmy's sister justice, she was not informed as to just why Lesbia was sent to her for a week-end visit other than that Jimmy thought she needed a rest. But because she had been asked to include Jimmy's old friend, Charley Underwood, in the house party, she suspected a love affair and managed to throw them into each other's company as much as possible.

Therefore, upon that poor man fell the duty of playing Machiavelli at the same time that he was supposed to be enacting the role of an ardent Romeo. And it was probably not the first time that a well-meaning friend cursed his well-meaning friendship for precipitating him into unseen difficulties.

On the morning when the final contest was to be held, Jimmy Dawson's cruiser swung slowly up the East river.

Her owner was pacing the dock at which she was to land, and now and then he glanced nervously at his watch, while a few yards away, a taxicab with its engine still running, quivered on the cobblestones.

As the boat drew near, Jimmy went over to the top of the ladder which led down to the float and, as Lesbia started up, he reached down and grabbed her arm. "Hurry, Lesbia," he cried. "The contest was postponed until eleven, but we've only about fifteen—no, thirteen minutes, in which to make it."

But Lesbia seemed in no great haste, while Charley, now on the scene, was regarding Jimmy with an expression decidedly curious.

"Hurry," said Jimmy. "Only twelve minutes!"

"But I'm not going to enter!" cried Lesbia. "I know that Charley, for some reason or other, doesn't want me to. Ever since we left your sister's, he has been inventing delays and imagining that one thing after another was wrong with the boat. We've stopped twenty times on the way!" Then she slipped an arm through Charley's.

"Mr.—er—Dawson, Charley and I—" she paused.

"Sorry, old man," said Charley. "You see—we've gone and fallen in love and now she's won me, she doesn't seem to care about winning anything else!"

### SAN BLAS INDIANS AT EDGE OF CULTURE

Little Chance to Develop  
Trends Now Outlined.

Washington.—If the San Blas Indians of Panama could be left alone for the next few centuries, they might develop a unique culture, like the famous Maya of Yucatan. But this interesting scientific experiment has little chance of taking place, since alien tribes are steadily encroaching on the land occupied by the San Blas.

The situation among these Indians, who have become widely known in this country through the visit of the "white Indians" of their tribe, is described by Herbert W. Krieger, ethnologist of the United States National museum, in a new government publication on the people of southeastern Panama.

The San Blas, who are a link between the Peruvians and the Maya in their characteristics, have not amalgamated with other tribes since very early times.

Coast Guards Trail Strangers. Watchmen of the tribe guard the coast and trail any strangers who come to a native village, and any attempt to stay overnight is discouraged. But the Panamanians are trying to force this independent and self-sufficient group to accept their government and to send their children to school, and it is only a matter of time before they will give in and will blend with other tribes.

The only measure which might enable the San Blas to remain isolated would be to establish a reservation. And while this might solve the problem to the satisfaction of the San Blas, Mr. Krieger says, as far as settlement is concerned, it would really come too late now for the tribe to develop its own culture.

The reason why they have not perfected a system of writing, a calendar or other developments of a high civilization may be that they have never gathered into large communities," Mr. Krieger believes. "Instead, they live in small villages off the islands of the Panama coast, and commute to the mainland where they cultivate plantations."

Have Turtle Calendar. "The first step toward a system of recording time is shown in the turtle calendar of the San Blas. This consists of a stick worn around the neck, with which to keep account of the time of hatching of the turtle eggs. When a turtle comes ashore to build its nest, the Indian fisherman begins cutting notches in the stick until fourteen days have gone, when he knows the turtle will again come ashore to visit its nest and the eggs can be taken from the nest and eaten."

The beginnings of an alphabet may be seen in their system of mnemonic or memory writing, which is a highly developed form of picture writing, intelligible to the initiated and used to record lore concerning treatment of disease, religious practices and tribal history.

Mr. Krieger's new publication on the culture of the people of southwestern Panama is intended chiefly to catalogue and describe the National museum's fine collection of over 1,000 objects from that region.

### Bar Chinese Narcissus Infested With Insects

San Francisco.—The "Avenue of the Temple of Heaven" mourns. An indescribable loss is felt in the narrow streets and dark alleyways of San Francisco's Chinatown, for the government has placed its foot down on further importations of the famed Chinese water lily or narcissus, because destructive insects have been found secreted in the innocent-looking bulb.

The fragrant plant, some Chinese believe, has powers to prophesy the grower's prospects for the ensuing year. Generally at this time of the year, the bulbs are being prepared for planting, timed to blossom forth their flowery message of hope or despair on the first day of the new year.

Some have tried to preserve last year's flowers by drying them and burying them in earth, but the outcome of this method is uncertain, and as no substitute has been found Chinatown faces abandonment of one of its principal New Year's table decorations.

### Student-Operated Bank Makes Record

Lynn, Mass.—Students in the Lynn English high school run their own savings bank and combine, to practical advantage, study and thrift. The bank is said to hold the records for deposits in such an institution in a single day—\$3,150—received one Monday morning. The school has 1,400 students.

The Lynn system of a student-operated school bank has been tested by 12 years' successful service. It has been copied in 14 states and two foreign countries.

Regular banking rooms are maintained. Students, themselves, fill the various positions, receive the deposits and keep the accounts. The school savings plan has spread in one form or another to all the public schools of the city above the third grade. In that time the students have saved more than \$200,000.

### Bars Balloon Pants

Mexico City.—Wearing of balloon pants is forbidden by the governor of the state of San Luis Potosi. He considers them unmanly.

Attend the play "Home Acres," at Beelerton High School, Saturday night, Feb. 26. You will enjoy it. Adm. 15 & 25c.

### At eight-thirty now instead of midnight!

There is no need now to wait up until midnight to place a long distance call at the lowest rate.

You can call the folks at home, or they you, any time after 8:30 P. M., and save about half the day rate. This applies, of course, only to station-to-station calls where you do not ask for an individual.

If you place your call from 7:00 P. M. to 8:30, you save about twenty-five per cent of the day rate.

You can also reverse the charges, if you like, on a station-to-station call where the rate is twenty-five cents or more.

If you give the number of the telephone wanted, the operator can complete the connection in much less time.

## Hickman News

The Fulton county equalization board is in session at the court house here, looking over the tax assessments and making adjustments as they see fit. After they have finished their work, notices will be sent to those whose tax lists have been raised and will later on be in session to hear complaints, if any, from the tax payers. The board this year is composed of Gus Bard, of Fulton; Charles G. McMurtry, of near Jordan; Ernest Treas, of Cayce, and Joe Roper, of Hickman, thus taking men from different parts of the county who are well acquainted with property values. Charles Bondurant, Tax Commissioner of Fulton county, has been sitting with the board.

Tobe Jackson, Fulton county jailer, is confined to his home in this city suffering from a badly swollen foot caused by sticking a rusty nail in the ball of the foot. In order to prevent or head off blood poisoning and lockjaw, he has been given tatanus serum and his physician is giving him careful attention. His foot is in bad shape however and he is confined to his bed.

### THE PROBLEM SOLVED By W. E. Lewis

When cotton's low and eats are high,  
It appears to me that to diversify  
Would be a sane and easy way  
To bring about a better day.  
With butter at 50 cents a pound  
And cream at 40 the whole  
Year around;  
With turkeys high and going  
higher,  
Is enough to kindle a great  
desire  
To raise more birds and a little  
less hell  
In a land where opportuni-  
ties dwell.

If we'd give more time to the  
dairy cow  
And a better feed to the old  
brood sow  
We'd not worry about the price  
of meat.  
For we'd have plenty our-  
selves to eat.  
With 50-cent eggs and a six-bit  
hen  
Why, oh why, will the chil-  
dren of men  
Ruin their fingers and break  
their backs  
Picking eleven-cent cotton  
and dragging sacks?

With corn in the crib and chick-  
ens in the yard;  
With meat in the smokehouse  
and tubfuls of lard;  
With cream in the pitcher and  
honey in the mug;  
With butter on the table and  
lasses in the jug—  
Things to you won't seem so  
high,  
For you'll be selling, won't  
have to buy.

Now stop that grumbling, for  
the fault's your own  
You expect to reap where  
you haven't sown;  
If you stay at home and help  
your mate  
Others, then, you won't be-  
rate,  
And you will live in Paradise.  
This to you, is my advice.

The above, taken from the  
Lake County News, Tiptonville,  
Tenn., is an answer to the poem  
we published last week, en-  
titled, "Eleven-Cent Cotton and  
Forty-Cent Meat."

### The One Occasion

where one must be absolutely sure is when a funeral director is called. One cannot afford to take a chance on inferior service at such a time.

It is mainly to teach folks where to get the kind of service they will wish that these talks are appearing in this paper.

## Sunday School 'Lesson'

(By REV. P. H. FITZWATER, D.D., Dean of the Evening School, Moody Bible Institute of Chicago.)  
(© 1921, Western Newspaper Union.)

Lesson for February 27

MAKING THE COMMUNITY CHRISTIAN

Temperance Lesson.

LESSON TEXT—Gal. 5:13-25.  
GOLDEN TEXT—Have no fellowship with the unfruitful works of darkness, but rather reprove them.  
PRIMARY TOPIC—Serving One Another by Love.  
JUNIOR TOPIC—The Law of Love.  
INTERMEDIATE AND SENIOR TOPIC—Self-Control for the Sake of Others.  
YOUNG PEOPLE AND ADULT TOPIC—Works of Darkness and Works of Light.

The only way this can be called a way of making the world Christian is by leading the individuals to a personal knowledge and experience of Jesus Christ and entering therefore into the power of the new life. Having shown in chapters 3 and 4 of this epistle that the believer is free from the law as a means of justification, Paul makes practical application of this doctrine. The divine way of making the community Christian is to secure the regeneration of the individual. The way to destroy the work of the devil is through the sonship of believers.

I. Christian Freedom (vv. 13-15).  
1. It is not an occasion to the "flesh" (v. 13).

Liberty is not license. The notion that when one is free from the law, that he is free from constraint, is wickedly erroneous. License of the flesh means not merely the indulgence of the flesh in actual material sins, but in the expression of a self-centered life in biting and devouring one another (v. 15).

2. By love serving one another (v. 13).

Freedom from the Mosaic law means slavery to the law of love.

The emerging from bondage through Christ is the passing into a sphere of life in which all the powers should act under the dominion of the true motive, love—Morgan. Love thus becomes the fulfillment of the law.

II. Walking in the Spirit (vv. 16-18).

This discloses the secret of how a life of service to another can be lived. The governing principle in the life of a believer is the Holy Spirit. Walking in the Spirit results in:

1. Loving service to others.

2. Victory over the flesh (vv. 16, 17).

By the flesh is meant the corrupt nature of man expressing itself in the realm of sense and self. The renewed man is two men between which is going on a mortal conflict. The Christian must choose between good and evil. When he chooses the evil, the Holy Spirit opposes, and when he chooses the good the flesh opposes. Notwithstanding this deadly conflict, victory is sure.

III. The Works of the Flesh (vv. 19-21).

By works of the flesh is meant the operation of the carnal nature. The one who chooses to live according to the impulse and desires of his natural heart will be practicing the following sins:

1. Sensuality (v. 19).

2. Irreligion (v. 20).

These acts take place in the realm of the spirit and are:

(1) Idolatry, which means the worshiping of idols.

(2) Witchcraft or sorcery. This means all dealing with the occult.

3. Sins of temper (vv. 20, 21).

These take place in the sphere of the mind and are:

(1) Hatred. (2) Variance, which means strife and contention. (3) Emulations, jealousy. (4) Wrath, bursts of passion. (5) Seditions, factions in the state. (6) Heresies, factions in the church. (7) Envyings.

(8) Murders.

4. Sins of excess (v. 21).

(1) Drunkenness. This means indulgence in intoxicating liquors.

(2) Revelings, acts of dissipation under the influence of intoxicants. Those who practice such sins shall be excluded from the kingdom of God.

IV. The Fruit of the Spirit (vv. 22-24).

This indicates action in the realm of life. The product of the Holy Spirit indwelling the believer.

(1) Love to God and man. (2) Joy, glad-heartedness because of what God has done. (3) Peace with God and fellowman. (4) Long-suffering, taking insult and injury without murmuring. (5) Gentleness, kindness to others. (6) Goodness, doing good to others. (7) Faith, believes God and commits all to Him. (8) Meekness, submission to God. (9) Temperance, self-control in all things. Against such there is no law.

### Underrating Value

Oh, do we not too frequently underrate the value of the promises of God? They were made to us and we should trust them, for they are as true as the God by Whom they were made.—Echoes.

### Exceedingly Difficult

It is exceedingly difficult for one's heart to bow and say, "I will be nothing but a lamb," but that is our place, for the Lord says, "Vengeance is mine."—Echoes.

When you buy John Deere implements you are sure of prompt repair service throughout their long life

## A FARM WAGON THAT IS GUARANTEED

The amount of satisfactory service that a wagon will give depends entirely upon the material and skill the manufacturer puts into it. We want to show you a wagon that is built of the best materials by men who know how—

### THE JOHN DEERE WAGON

A special machine automatically measures the inside of the skin of the John Deere farm wagon and shapes the axle to fit accurately. The skin is set in red lead under high pressure. It has exactly the right pitch, and the axle has the right gather to make the John Deere wagon run lighter than other wagons. With the John Deere sand- and dust-proof skins there is no wearing of bearing surfaces—the oil stays in—the wagon is always smooth-running and light-pulling. Only carefully-selected oak and hickory are used in the

Come in and see this wagon—read the guarantee on the tool box. Let us explain the many fine points embodied in it.

## Pierce News

Miss Virginia Giffin, of Fulton was the Saturday night guest of Misses Louise Matthews and Lucille Berry.

Mrs. C. E. Lowe is quite ill with a cold.

Chas. Neal Dacus was too ill to attend school Monday.

On account of Pierce having a snow Sunday, our Pastor, Rev. Pirham, did not get to fill his regular appointment at Hebron.

Mr. Dewitt Collins of Detroit, visited his parents, Mr. and Mrs. D. R. Collins, several days the past week, returning to Detroit Thursday night.

Mrs. O. L. Bruce, of Crutchfield, visited Mrs. C. E. Lowe, Friday and Saturday.

Mrs. J. C. Smith spent the week end with Mrs. Leo Cunningham of Paducah.

Mr. and Mrs. Roy Adams and boys of Fulton visited relatives in Pierce, Sunday.

J. C. Smith sold a fine bunch of cattle to the Reynolds Packing Company of Union City to be delivered Tuesday.

Robert Hodges and E. J. Matthews bought five hundred baby chicks from the Mansfield Hatchery company of Louisville on Tuesday and are looking for six hundred more from the same hatchery the last of this week.

## Roper District News

Charley Sloan and family spent Sunday with Mr. and Mrs. Bill Prewitt.

Harry Sams was a visitor at Mr. and Mrs. Workman's.

Little Woodford Treas spent the week end with his grandparents, Mr. and Mrs. Ernest Treas.

Mr. and Mrs. Lee Davis, of Union City spent the week visiting relatives in this community.

Mr. and Mrs. Robert Goodman spent one day with Mr. and Mrs. John R. Lunsford.

Effie and Pleas Fields spent the week end with home folks.

W. J. Fields was in Hickman Saturday.

Mrs. Bob Powell was in Hickman shopping.

Mr. and Mrs. Bob Adams are the proud parents of a fine baby girl on the 16th, named Bessie Lucile.

Mr. Morrow moved to the J. L. Glover farm this week.

Mrs. Louise Meroney of St. Louis is expected home on a visit.

## McFadden News

Mrs. Sonnie Madding spent Wednesday with her parents, Mr. and Mrs. Joe French.

James Martin, Clevia and Mary Frances Bard spent Saturday evening with Miss Lillian Bard.

Miss Lucy Bowers spent Sunday with Miss Swan Herring.

Robert D. Wade and Dock Hill spent the week end with Mr. and Mrs. Ernest Carver.

Mrs. O. C. Wolberton was reported on the sick list the first of the week.

Mr. and Mrs. Haydon Dunahoo attended the birthday dinner at Mr. Buster Herring's Sunday.

Messrs. Johnny Cox and Paul Cook spent Tuesday evening with Mr. Ralph Brady.

Mr. Garry Pickering spent Sunday afternoon with Mr. W. R. Boulton.

Mr. and Mrs. C. J. Bowers and family spent Sunday with Mr. and Mrs. Sam Bard.

Mr. and Mrs. Cox spent Tuesday evening with Mr. and Mrs. J. M. Cook.

Miss Lola Mae Brown spent Thursday night with Miss Lucy Bowers.

Mr. and Mrs. Homer Underwood and children were Sunday evening guests of Mrs. and Mrs. O. C. Wolberton.

## Chestnut Glade

Remember next first Sunday afternoon at 2 p. m. Singing at Chestnut Glade auditorium.

Mr. Rogers would like to meet all who are interested in the singing there. If the roads are bad, just hitch the mules to the wagon and go ahead.

The first play to be given at Chestnut Glade this year will be "A Rival by Request," Mar. 11, 1927, at 7:30. This will be given by the High school pupils for the benefit of the home

economics department. Admission 15 and 25 cents.

C. S. Hall, who has been in Detroit for some time, arrived home last week.

For four years W. H. Finch kept his apple trees wrapped with wire to protect them from rabbits. He was then told by the county agent to paint the trunks with lime sulphur and kill the scale as well as prevent the rabbits from damaging them. The wires were taken off and put on younger trees and lime sulphur applied. Some time ago, on passing thru the orchard we discovered that many trees were peeled. Some were four or five inches in diameter. They were wrapped immediately but the damage will be great.

Chestnut Glade Basket Ball boys played ball Friday afternoon at Dresden tournament. Ten visiting teams played during the tournament which lasted till Saturday evening.

## Crutchfield, Ky.

Rev. Butler filled his regular appointment at the Baptist church, Sunday.

Mrs. I. R. Jeffress is very ill at her home west of Crutchfield.

Mr. Dennis Hall is on the sick list.

Mrs. Ernest Carver was the guest of her mother, Mrs. W. D. Wade last Thursday.

Mr. John Beard died Saturday at his home near Crutchfield. He was 61 years of age. He leaves a wife and six children to mourn his death.

Mr. and Mrs. Cleo Newberry were Saturday night guests of her mother, Mrs. Fannie Nugent.

Mr. and Mrs. Murrell Jones of Fulton, spent Saturday night and Sunday with her mother, Mrs. Bob Strother.

Miss Linnie Page is very ill at her home in Arlington. Miss Augusta Little is teaching in her place.

Mrs. Jim Pickens and daughter are visiting in Barlow.

Mr. Glenn Dillon was the Saturday night guest of Mr. Virgil Nugent.

Miss Jessie Wade spent Thursday night with her sister, Mrs. H. C. Brown.

Misses Mittie and Laverne Yates spent the week end with homefolks.

## NOTICE

Fulton Circuit—To the Stewards and all the officials of the Fulton Circuit. You are hereby notified of the Second Quarterly Conference for this charge to be held at Riceville, Sunday, February 27. The business of the Quarterly Conference will be held at 3 p. m. on Sunday, February 27. We will elect the delegates to the District Conference at this time. The P. E. will preach at Riceville at 7:00 p. m. Let every one take due notice and govern themselves accordingly.

So mote it be.  
A. N. WALKER, Pastor.

## PLAN "EARLY" VEGETABLES EARLY

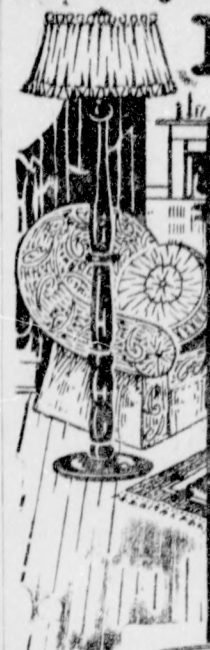

It is about time now to plant the early garden. In this section, the latter half of February is a good time to plant those hardy vegetables that will stand freezing temperatures. One of the delights that come from a backward garden is having vegetables very early in the spring. A list of garden vegetables that may be planted very early as February 22 are: Radishes, lettuce, spinach, mustard, English peas, turnips, Irish potatoes, cabbage, onions, salsify (oyster plant), beets, parsley, parsnips, carrots and Swiss chard.

Those vegetables that are short lived should be planted by themselves on one side of the garden so the space may be used later for planting those kinds that thrive during hot weather and that, being less hardy, need to be planted later in the season. It is well to include, if space permits, a number of varieties and kinds of vegetables as all of them are good. It is interesting to develop attractive ways of serving vegetables that are not generally included in the diet.

## SPECIAL OFFER

For a short time we will accept subscriptions for this paper and the Memphis Weekly Commercial Appeal—both papers one year for only \$1.25.

## Senour's FLOOR PAINT

### "It Penetrates"

IN the word "penetration," is a secret manufacturing process that has made Senour's Floor Paint a popular favorite for over 40 years.

If a floor paint does not penetrate or grip into the wood it will soon begin to crack, chip and peel.

Senour's Floor Paint dries over night with a high gloss enamel-like finish, but at the same time it sinks into the pores of the wood and forms a film that will withstand the hardest usage and will withstand repeated washings without dimming the lustre.

Every can of Senour's Floor Paint is guaranteed to give satisfaction if directions printed on the can are followed or money back upon receipt of empty can.

[A color card is yours for the asking.]

## SOUTHERN FENCE

Horse-high--Bull-strong--Pig-tight  
--"Weather-wise"--Rust-proof

SOUTHERN FENCE holds its own against the strongest pressure and resumes normal shape as soon as pressure is removed, because it has HINGED JOINTS. Also retains its shape in all weathers, as TENSION CURVES allow it to expand when hot and contract when cold. Made of the highest grades of tough, springy steel wire with extra heavy and uniform galvanized coating in which the best prime Western spelter zinc is used.

SOUTHERN FENCE IS LIFE-TIME FENCE—on the job all the while. You can get it here. We sell SOUTHERN FENCE under the guarantee of the Gulf States Steel Company, who make it.

**Methodist Church**

J. V. Freeman, Pastor

Sunday School, 9:30 a. m. T. J. Kramer, Supt.  
Epworth Leagues, 6:45 p. m.  
Prayer meeting 7:30 p. m., Wednesdays.

Preaching at 11 a. m. and 7:30 p. m., led by the pastor. Special music by the choir. Mrs. I. D. Seay, director. The public is cordially invited to attend all the services of the church.

Rev. R. L. Norman preached at the morning hour last Sunday. Every one present at both services felt benefited and more able to meet the perplexities of the coming week.

Another booster meeting was held at the church Tuesday night. A good crowd attended and the new church project is progressing rapidly.

The Kate Luten Circle of the W. M. S. met Monday with Mrs. A. J. Alexander. The chairman, Mrs. M. V. Harris, presided. Mrs. Freeman led the devotions in a very impressive manner.

The Lambeth circle merged with the Kate Luten circle. The annual report showed \$1,626.99 raised for all purposes in 1926.

The society had the pleasure of serving the Rotary and Lions clubs this week at the Chamber of Commerce.

Mrs. Moss and Mrs. Joyner gave the Bulletin most interesting. The Topic of study was "Africa," led by Mrs. Morris, assisted by Mesdames Butt, Beadles, Harris and Owen.

Meeting closed with prayer by Mrs. McDade. Adjourned to meet March 21 with Mrs. R. B. Beadles. During the social hour the hostess, assisted by Mrs. Hopkins, served delicious refreshments to 20 members and 3 visitors.

**Brieflets**

"Martin and West Tennessee now have a branch of the University of Tennessee," says the Weakley County Press. "The deciding vote was flashed to us at 10:20 last Friday morning, when the House voted 79 to 0 in favor of the bill. Dr. H. A. Morgan, president of the university, was here when the news was received. Martin celebrated by blowing whistles and 600 school children paraded the streets and filled the American Cafe when Dr. Morgan was being entertained at the noon hour by the Chamber of Commerce."

**BARDWELL AND FULTON DEBATING TEAMS TIE**

The debate at Bardwell between the Bardwell High school and the Fulton High school resulted in a tie when the two judges present failed to agree on the winner. The third judge failed to arrive, which deprived the affair of the deciding vote.

The Bardwell team took the affirmative side of the debate, which was, "Resolved that the Curtis-Reed bill should be passed by Congress."

The speakers for Bardwell were: Miss Frances Pettit, James Albert Fisher and Neville Gardner. The negative speakers of Fulton were Randolph Kramer, Miss Lillian Duncan and Richard Thomas.

**First Baptist Church**

C. H. Warren, Pastor

"We study to serve."  
Friday, 6:30 p. m.—Junior choir rehearsal.

Sunday, 9:30 a. m.—Sunday School, Geo. Roberts, Gen. Superintendent.

10:50 a. m.—Sermon by the pastor.

3:00 P. M. R. A. Meeting at the church.

6:15 p. m.—All B. Y. P. U's.

7:30 p. m.—Sermon by the pastor.

Tuesday—6:30 P. M. Junior choir rehearsal.

Wednesday, 7:00 p. m.—Teachers' meeting in T. E. L. class room at the church.

7:45 p. m.—Prayer meeting.

Thursday—7:30 P. M. Choir practice.

Much interest is being manifested in the study course the B. Y. P. U. is sponsoring this week; which is very gratifying to the General Director and all subordinate officers.

The first Sunday in March has been designated as Commencement Sunday, when between twenty-five and thirty will receive their diplomas for the completion of the Sunday School manual which the pastor has recently taught.

The decorators are finishing up the interior painting in the Intermediate department this week. This adds very materially to the appearance of this department.

There were two or three hundred per cent classes in our Sunday School last Sunday, based on the Six Point Record System. Let's have at least a dozen one hundred per cent classes next Sunday.

**First Christian Church**

B. J. Cantrell, Minister

Bible school, 9:45 a. m. Chas. Gregory, Supt.

Lord's Supper and preaching 11:00 a. m.

Christian Endeavor Societies, 6:30 p. m.

Prayer Meeting, Wed. 7:00 p. m.

The young people of the church are looking forward with keen anticipation to the coming Christian Endeavor Convention which is to be held with the Fulton church on March 19 and 20. The District officers met with the local societies one night last week, and a program was arranged. The program is now in the hands of the printer and will be out in a short time. Delegates are expected from every society in the sixteenth district.

The weekly prayer service is showing increased attendance and interest. The minister is giving a series of lectures on the Beatitudes.

Our organ has been repaired and the choir is meeting regularly each week following the prayer meeting service. Every one appreciates the organ again, after its having been silent so long.

The attendance at the preaching services is very gratifying, especially the night service. It is to be hoped that the attendance will continue to grow as spring approaches.

Sunday School attendance is growing, and we expect as the weather and the streets get better to see a larger attendance.

**Central Church of Christ**

J. G. Malphurs, Minister

Bible classes 9:45.

Preaching and communion at 11:00.

Young people's class at 6:00 p. m.

Wednesday at 3:00 p. m.—Bible class for women.

Wednesday at 4:00 p. m.—Bible class for children.

Wednesday at 7:00 p. m.—Prayer meeting.

Friday at 7:00 p. m.—Community Bible class.

The public is cordially invited to all our services.

**Trinity Episcopal Church.**

104 Washington St.

Dr. A. C. Boyd, Rector

Quinquagesima Sunday.

9:45 a. m. Church school, H. S. Stansbury, superintendent.

11:00 a. m. Matins and sermon.

Everyone cordially invited to attend these services.

**Church News**

Rev. W. F. Renenberg, of Louisville, Ky., representing the Bishop's Crusade, held four special services at Trinity this week, beginning Monday night.

On Tuesday he celebrated Holy Communion at 9:00 a. m. and another service at 2:30 p. m., with evening prayer at 7:00 in the evening.

These services were all well attended as Mr. Renenberg is well known in Fulton, having held many services here when he was rector at Hickman, where he was located for about eight years.

From here he went to Hickman where he again conducted services for the Bishop's Crusade.

Dr. Boyd is slowly regaining his health, but still shows the strain of holding services.

R. E. Hubbard was host to Rev. Renenberg at the Usona Hotel during his visit here the fore part of the week.

Mrs. Max Roach and Virginia Swiggart made a trip to Paducah last week.

The Woman's Auxiliary met Tuesday afternoon at the rectory. It was a very instructive and enjoyable meeting.

The number of communicants last Sunday was unusually big, the more noticeable on account of inclement weather.

R. E. Hubbard spent Sunday the 13th, with his mother, in Luca, Miss.

Attendance at church school last Sunday was gratifyingly large.

The Mohawk Club has held its weekly meetings regularly, at the rectory, thus helping to cheer Dr. Boyd while convalescing.

Bishop Woodcock is "Crusading" in Chicago this week.

**MUSICAL WIZARD TO APPEAR IN FULTON**

The Music Department of the Woman's Club has succeeded in securing an attraction for the music lovers of Fulton in the person of Joseph Wheeler Henry, of Louisville, Ky., the blind boy pianist, who is billed to appear in recital at the High school auditorium in Fulton on Friday evening, March 4.

The writer has known Joseph Henry from early childhood and at the young age of ten or twelve years he revealed a wonderful talent in the art of music, and being totally blind from infancy he was given access to the piano and before his hands had developed sufficient to span the octave, could not only perform with notable skill but rendered various numbers of his own composition. Having been given the advantages of the conservatory of music in Louisville, he has become a musical artist of note, having often performed for broadcasting in that city.

Those who love and appreciate classic numbers requiring unusual skill should not fail to hear this performer who, at his young age, has acquired phenomenal success.

W. C. PORTER.

**A SPLENDID FEELING**

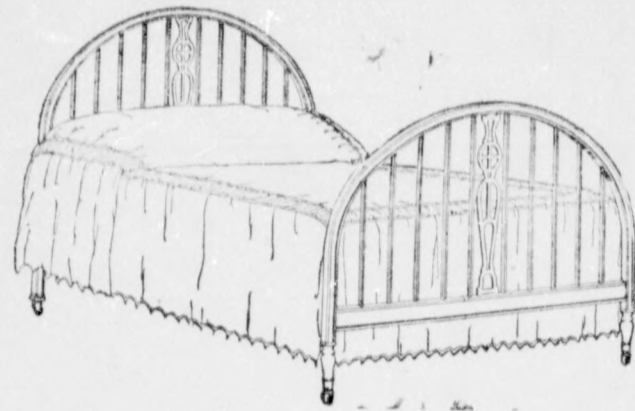

That tired, half-sick, discouraged feeling caused by a torpid liver and constipated bowels can be gotten rid of with surprising promptness by using Hertzine. You feel its beneficial effect with the first dose as its purifying and regulating effect is thorough and complete. It not only drives out bile and impurities but it imparts a splendid feeling of exhilaration, strength, vim, and buoyancy of spirits. Price 60c. Sold by Bennett's Drug Store, Fulton, Ky.

**SPECIAL OFFER**

George Beadles, Manager

Fulton, Ky.

**Its Spring Pressure Feature Insures Better Disking**

We have in stock, ready for your inspection and use, a supply of disc harrows that are noted for doing a better job of diskings their entire width when going over ridges or depressions, or on side hills, as well as on level land. Come in and inspect the

**JOHN DEERE Model "B" Disc Harrow**

By means of the third lever, spring and John Deere pivoted yoke, this harrow can be given the required pressure to penetrate at even depth its full width under all the above conditions. It is a really flexible harrow—penetrates, pulverizes and packs in conditions where rigid harrows fail to work all the soil. Each gang works independently, like separate harrows, and both can be given the proper angle to pulverize under varying conditions. It is strong—will last years longer than ordinary harrows because of its all-steel main frame and double-bar, riveted gang frames. It has oscillating scrapers, with lock-down and lock-off features, and the most convenient grease cups—easy to fill and out of the dust and dirt.

We can furnish the John Deere Model "B" with rear gang and hitch to convert it into a double-action, horse- or tractor-drawn harrow—a good way to save money and yet get good results.
