THE LISTENING POST

● I wonder if the Old Car Derby held here yesterday might be an omen of what might occur if the Fulton County Fair should be reorganized for next year and the same driving force as was used in the Old Car Derby be applied to the Fair? Now, how many people were at the Derby is a matter of conjecture. I hear one person gave one figure and another a vastly different figure. Some say at least fifteen thousand people saw the Derby, others say ten thousand, and at least one person said five or six thousand. Others say it was the biggest crowd ever seen in Fulton since the year that the Liberty Bell came here. I do not know—I only know that a great crowd was here, and a crowd that filled the fair grounds nearer to capacity than I have seen in many years.

● In thinking over the matter I have decided that no other country in the world could such a thing take place. For several reasons. For in no other country of the earth would there be enough automobiles to transport these people to such an attraction. But the principal reason would be that those automobiles which made up the Old Car Derby—that is, those ten and twelve and fifteen year old cars—would still be in active service and there would be novelty in seeing them run.

● Despite all our failings and shortcomings, despite the depression and so called recessions, this nation yet remains the richest nation on earth and still does things as a matter of course that would be impossible in other nations. Consider the automobile picture in this nation for a moment. We buy a new car and use it on average, I believe, of less than three years. We put about thirty thousand miles on the car and then we trade it in. This is average, of course. Some use cars longer than that, and some put more mileage, but this is about the average. Our used cars are sold to others and the new owners get another car or so out of them, and then they are cast on the junk pile or left in some garage. As this goes on the car makers make new models, faster, better, more economical, more comfortable—and cheaper. As a natural consequence a car that is ten years old in this country looks like a museum piece. We see few of them, and when something comes like the Old Car Derby we are willing to travel long distances and pay money to see these so called old cars and ascertain if they would really run.

(Continued on Page Two)

S. F. Basketball Schedule For 38-39

The following is a schedule for South Fulton boys and girls basketball teams' 1938-39 season:

Nov. 3—Kenton, here.
Nov. 11—Woodland Mills, here.
Nov. 15—Palmerville, here.
Nov. 18—Dixie, here.
Dec. 2—Palmerville, there.
Dec. 6—Oblon, here.
Dec. 9—Dresden, there.
Dec. 16—Martin, here.
Dec. 20—Union City, here.
Jan. 6—Dixie, here.
Jan. 7—Troy, there.
Jan. 13—Rives, here.
Jan. 14—Kenton, there.
Jan. 17—Woodland Mills, there.
Jan. 20—Martin, there.
Jan. 24—Fulton High, at F. H.
Jan. 31—Union City, there.
Jan. 27—Dresden, here.
Feb. 7—Oblon, there.
Feb. 10—Fulton H. at S. Fulton.

Roosevelt Acts To Halt Rail Strike

To Confer With Road And Labor Chiefs Today

Washington, —President Roosevelt will confer with representatives of railway labor and management tomorrow in an effort to avert a strike of 1,000,000 rail workers against the proposed wage reduction which his fact-finding board has declared unjustified.

The White House gave no inkling tonight as to what the President would have to say to the deadlocked parties. There was speculation in the Capital, however, that an effort might be made at this and subsequent conferences to reach an agreement on recommendations to the next Congress concerning liberalization of Government railroad loans and other rail legislation.

Loan Offer Predicted

Some executives in New York predicted that the Government might offer the railroads about \$1,000,000,000 in easy-term rehabilitation Presidential board's recommendation that the managements abandon their proposal to reduce wages 15 per cent on December 1.

Existing law forbids the Reconstruction Corporation to make loans to railroads, except for maintenance purposes, unless the Interstate Commerce Commission certifies that the carriers are not in need of reorganization.

In reliable circles here it was said that the roads which could obtain such certification were the ones least in need of loans. The R. F. C. recommended to Congress at its last session that the law be changed to permit loans without the "no reorganization needed" certification. The legislation failed of passage, however, some of the opposition being based upon the roads' proposal to reduce wages.

Church Attendance Record

Yesterday was the last day of the "Go To Church Campaign" in Fulton, and the following percentages were reported:

Church	S.S.	Ch.
C. P. Church	83.1%	62.6%
Episcopal	50%	35%
Baptist	66%	61%
Methodist	76%	47%
Nazarene	60%	80%

Mrs. Della Travis of Paducah spent the week-end here, the house guest of Mrs. C. A. DeVania, at her home on the Middle Road.

Television's Faults Are Cited By President Of Radio Firm

Chicago. —E. F. McDonald, Jr., president of the Zenith Radio Corporation, opened today the time had not yet arrived to "sell television to the American people."

In answer to inquiries prompted by a recent prediction that television receivers would be put on the public market next spring, he set forth a letter to stockholders:

"There are many technical problems which are still unsolved. The economic problems which must be settled before the public should be asked to buy television receivers are no less serious.

Stations Needed
"In the present stage of the art, it is not possible to transmit a television program beyond a radius of from thirty to fifty miles, depending upon the height of the transmitting station above the ground, and even in that area buildings and other structures situated between the receiver and transmitter make good reception extremely difficult. In order to furnish television programs to purchasers of television receiving sets throughout the United States, it will be necessary to construct more than

Pilot Climbs Rope On Return Trip To Endurance Plane

Lancaster, Calif. — In another daring maneuver, Thomas H. Smith, Clarksburg, W. Va., aviator, returned to the record-breaking endurance plane Clyde "Little Bear" today, replacing Clyde Schlieper, Long Beach flier who had been aboard since the flight started last Sunday.

Smith, seizing a trailing rope, climbed up a ladder into the plane a few minutes after Schlieper had parachuted from 2000 feet. It was the same method used last Wednesday when Smith was stricken with air sickness and Harley Long, also of Long Beach, replaced him.

The ship, which passed the light-plane endurance record of 136 hours and 10 minutes Saturday, had been in the air exactly a week at 3:25 p. m. (CST).

Lovett To Speak At District Legion Meet In Paducah Nov. 6

The American Legion will hold a district convention in Paducah Sunday, Nov. 6, at the Masonic building. The session will open with a luncheon-meeting at 12:30 o'clock. District Commander John S. Kendall, of Bardwell, will preside, and Department Commander Joe T. Lovett, of Murray, will be the principal speaker.

Reservations may be made for the luncheon by calling J. Earle Lovvo, 1143-J, no later than Thursday, November 3.

Those from here are to call Thomas Goldsmith, car will leave Fulton about 11:00 a. m.

Mrs. Sam McCall Dies In West

Mrs. Sam, McCall, former Fulton woman who has resided in Long Beach, California, since 1922, died at her home there last night at eight o'clock, according to messages received by local relatives this morning. Funeral and burial will take place in the California city.

Mrs. McCall, the daughter of the late J. M. Morris and Mary Ligon Morris, was born in Obion County a few miles southwest of Fulton, and lived in Fulton for many years. Her husband, Sam McCall, who survives, was in the insurance business here for many years with J. F. Fall and J. E. Fall, and hundreds of friends will be grieved to hear of her death.

Mrs. McCall was the sister of the late N. B. (Pony) Morris and Charles Morris.

Youth Killed In Ancient Car He Was Driving To Local Derby

Dresden, Tenn. — Death came to 22-year-old Edward Brooks today at the wheel of an ancient model T Ford—a rickety contrivance on which he worked all night last night to get it in running condition for a "Model T Ford Derby" at Fulton, Ky., this afternoon.

Young Brooks and Howard Cashin, a companion, had barely left Dresden for Fulton this morning when their 15-year-old vehicle turned over as they were rounding a curve on a gravel road near here. Brooks was killed instantly, his neck broken. Cashin, as if by some miracle, did not receive a scratch. Relatives said Brooks had tinkered on the old car for hours to get it in running condition, and was sure its age and decrepit appearance would make it a winner in the derby.

Brooks, a motion picture operator, was a son of Mr. and Mrs. E. E. Brooks of Dresden. His father is a representative of the Dresden Oil Co. In addition to his parents, he leaves two brothers, Harold and Billy Brooks of Dresden, and four uncles, Doyle Brooks, Basil Brooks, Rea Brooks and Frank Brooks, all of Memphis.

Funeral services will be held Monday at 3 p. m. at the Dresden Methodist Church, the Rev. W. E. Mischke officiating.

Sam McAlister Dies In Paducah Hospital Sunday

Sam McAlister, 40, Mayfield druggist, died at 8:45 a. m. yesterday at the Illinois Central Hospital of motor accident injuries sustained Friday morning when the automobile in which he was riding with four other Mayfield men, crashed into a truck near Metropolis, Illinois during a heavy fog. McAlister died of a broken back and other injuries.

McAlister is a native of Fulton, Kentucky and went to Mayfield in 1922 and was associated with three other drug stores before he and George Stone purchased Hunt's Drug Store in May, 1936. Besides his wife and three children, one brother, Arnie McAlister of Tampa, Florida, and one sister, Mrs. Edwin Bein, survive.

The body was taken to Mayfield where funeral services are to be held sometime tomorrow.

Still on the serious list at the hospital is Dr. James T. Fuller, 38, chief surgeon and president of the Fulton-Gilliam Hospital, Mayfield. William S. Hunt, 36, Mayfield sportsman and sporting goods store owner; Gus C. Covington, Jr., 38, head of a Mayfield wholesale grocery company; and James E. "Buster" Seay, 34, tobacco dealer. The party was enroute to Chicago where they were to attend a football game Saturday.

Will McClain Is Injured At Race

Will McClain, 66 years of age, who lives one mile south of Duke-don was badly injured yesterday afternoon when he was struck by one of the racers in the Old Car Derby at the fair grounds. McClain was standing out on the track, after a committee from the Y. M. C. C. had insisted that all stand back from the cars, when an old Star driven by Smith, sponsored by Shankle's Auto Company, was forced from the race and struck McClain.

He was carried to the Fulton Hospital where attending physicians said that he suffered a badly fractured hip. His condition is reported favorable today.

Motor Output For Present Year Shows Almost Two & Half Million

Detroit. —More than three-quarters of a million motor vehicles will roll off the assembly lines of the automobile industry between now and the end of the current year and bring to approximately 2,450,000 units the aggregate output for 1938.

As the total of a year's business figures in themselves are not especially impressive. Compared with mid-summer expectations of a 1938 total of about 2,000,000 cars and trucks, however, they tell a story of a sharp upward swing that was foreseen soon after most of the industry's assembly plants

ended the making of 1938 models. Production and distribution volume potentialities for next year occupy the attention of the motor makers to the exclusion of almost everything else at the moment as they prepare for the formal introduction of the few remaining new models.

Quick Start Sought
As has been the custom of the producers during the last few years, most of them have sought a quick start on new model merchandising and have presented their new models without awaiting the opening of the National Automobile Show in New York week after next.

Sally Rand Wants To Show Jurors How She Dances

Los Angeles — Sally Rand, her fans and her bubbles are scheduled to go to court tomorrow for Sally's trial on battery charges. Milton Golden, Miss Rand's attorney, announced that he will ask the court to permit Sally to do her dance before the jury, as a demonstration that photographs taken from certain angles would be objectionable to her.

Miss Rand, making a stage appearance July 12 in a downtown theater, objected to pictures being taken with a candid camera by Hazel Drain and C. R. Stanford. They contend she scratched and bit them in a scuffle over possession of the films.

Lonnie Glosson And Sugar Creek Gang Coming Here

Lonnie Glosson and his Sugar Creek Gang in person, appearing daily over a Memphis radio station, will appear here Wednesday night under the sponsorship of the Woodmen of the World. The show will start at 7:30 and the admission will be only 15 and 25 cents. The proceeds of the show will go to the Community Chest in Fulton, and there is not a worse cause now before the public.

The Sugar Creek gang has appeared over many radio stations, and has always been one of the big hits. Fulton people will welcome the opportunity to see and hear them. Remember the place and date—City Hall, Wednesday night, November 2, beginning at 7:30.

Wreck Last Night On Mayfield Hi-way

Mr. Wayne Edwards of Water Valley, Ky., was slightly injured last night when the car he was driving was struck head-on by another driven by a Mr. Woods of Paducah, Ky. Mr. Edwards was going to his home in Water Valley when the accident occurred about seven o'clock near the home of Carl Hastings on the Mayfield Highway.

State Highway patrolmen stated this morning that Woods left the scene of the accident before it could be investigated and that it was thought that he was intoxicated.

Mr. and Mrs. A. G. Boaz and son, Jack, of Mayfield, and Mrs. Dean Collier of near Fulton returned yesterday from Los Angeles, California where they spent four weeks.

Almost 15,000 Persons Gather In Fulton Yesterday For Car Derby

Approximately 15,000 people swarmed the gates at the Fulton fair grounds yesterday afternoon to see the Old Car Derby which proved to be the biggest crowd ever to gather in Fulton for a show of any kind. The Young Men's Business Club of Fulton is to be congratulated on their great success in staging this race. People started gathering there in the morning at eleven o'clock and by noon all box seats were sold and by two o'clock only standing room was left in the grandstand.

The following ten entries started the race: Johnnie Owen, in a 1924 Buick, sponsored by Highlands Service Station; Lewis Bimble, driving a 1926 Model T Ford, sponsored by the Fulton Theatre; William Abell, driving a 1924 Lincoln, carrying the banner of the Whiteaway Service Station; Malcolm Brown, with a 1933 Buick, flying the colors of Jones Auto. Parts Company; Buck Bushart and Ray Bond in a 1923 Packard, sponsored by the Read Motor Company; Harold Thompson, steering a 1926 Hudson for the Edwards Food Store; "Red" Smith in a Star; Porter Norton of Hickman, driving a Hudson; sponsored by the Shell Oil Company; J. T. Jackson, in a Model T Ford, sponsored by Brady Brothers Garage; and John Thompson, in a 1924 Jewett.

U. S. Forecasts Business Gains During 1939

Industry Not Expected To Reach Level Of 1937, However

Washington, —The Bureau of Agricultural Economics forecast today that 1939 would be a better business and industrial year than this one but not quite so good as 1937.

In an annual report on demand and prices for agricultural products, the bureau said: "General economic conditions in the United States are most favorable to recovery."

Farmers were advised not to expect much of a raise in prices of their products as a whole. The bureau said, however, that an expected increase in consumer income should broaden markets for agricultural products and thereby put more dollars into the farmers' pockets than this year.

Producers' Goods Delay Seen

Important industries which the bureau said were expected to contribute to a 1939 rise in production were automobiles, building, steel, textiles and miscellaneous consumers' goods. Improvement in production of producers' goods—equipment and materials for industrial plants and railroads—may be somewhat delayed, the bureau said, due to relatively unfavorable situations in the important railroad, utility and private non-residential building industries.

The outlook for foreign markets for American goods was described as less favorable than this year.

Red Cross Workers Here

Miss Ruth Riley, field representative of the American Red Cross, was in town Friday reviewing the plans for the Annual Roll Call to be held on November 15th. Mrs. Mansfield Martin is chairwoman of the Roll Call Committee. Mrs. Ward McClellan, Mrs. Ward Bushart, Bill Browning and James Warren are the other members of the committee. Fifty or more persons have been selected to put on the drive. A dinner meeting will be held at the First Christian Church on the evening of the 14th at which all plans will be perfected. The local Chapter's quota is 400 members.

Mr. and Mrs. Glenn Walker had as their dinner guests yesterday Mr. and Mrs. M. O. S'wall Mr. and

The Leader will gladly correct any error in facts which may have gotten into its news stories when attention is called to them.

When Disraeli Took The Bait

Neville Chamberlain makes no pretension to being a linguist and has wisely used an interpreter in his talks with Hitler. Not all his predecessors have had such distrust in their own power of making themselves understood in foreign tongues.

Lord Beaconsfield (Disraeli), for instance, prided himself on his fluent French, though it was a distinctly Anglo-Gallic brand. When he went to Berlin in 1873 for the congress at the close of the Russo-French war who accompanied him that he intended to give his opening speech in French. They were dismayed at the prospect, and appealed to our Ambassador, Lord Odo Russell, to find some means of preventing it. He pondered the situation for a few moments and then said: "Yes, I think I see my way. Leave it to me."

That afternoon he called on Lord Beaconsfield to discuss some of the matters that would come up. Just as he was leaving he remarked:

"By the by, I must tell you how much disappointment was felt by the other plenipotentiaries when it became known that you intended to address the congress in French."

"Why should they be disappointed?" asked the Prime Minister, putting up his eyeglass. "Is not French the language most generally understood on the Continent?"

"Undoubtedly, my dear lord," replied the Ambassador, "but they had been looking forward with the keenest anticipation to the pleasure of hearing English spoken by his greatest living master, and, if I might venture to intercede, I would beg you to give them this gratification. It is of some importance, you know, to predispose them favorably to the consideration of the questions which will arise."

"I think there is a good deal in what you say," observed Lord Beaconsfield. In the end he rose to the bait and complied with Lord Odo Russell's request, to the great comfort of the Foreign Office staff. — Manchester Guardian.

Almost 15,000

(Continued from Page 1)

their old 1923 Packard, which was still in good condition at the finishing line, would have come in first if the race had lasted a few more laps. They were third in the final lap. Porter Newton of Hickman was the second to complete his 100 laps.

Time-keeper Clarence Maddox announced that the winner, William Abel, completed the race in 77 minutes. Newton came in about 6 or 8 minutes after the winner and Ike and Buck were right on their heels.

The newsreel cameramen, Malcolm Gilbert, manager of the Fulton Theatre, covered the entire race as well as Mr. Joe Browder and a number of local enthusiasts.

In the judges' stand were: W. M. Miles, mayor of Union City; C. P. Mabry, mayor of Hickman; Paul DeMyer, mayor of Fulton; J. H. Lowe, mayor of South Fulton; and Smith Atkins, prominent Fulton business man.

Physician Has Task Keeping Up With Changes

By LOGAN CLENDENING, M. D.
THE SCIENTIFIC exhibits at the American Medical association are among the most educational features of the meeting. They are all arranged by doctors, and the doctor is required to be in attendance to explain them.

A physician, for instance, will have had an unusually large experience with certain tumors of the adrenal glands. These produce changes in hair development and the quality of the skin. Also when they occur in women, they tend to develop masculine characteristics—deeper voice, growth of beard, etc. In a man the opposite occurs—he loses his beard, and he becomes feminine in characteristics. The doctor who has had so many of these cases has photographs of the patients, specimens of the tumors under the microscope, case histories, a moving picture of the operations for removal, and a chart of statistics showing the results of the operations. All these are assembled in a little booth with the doctor in attendance to explain and answer questions. A visitor who spends 15 minutes there comes away with a liberal education in that subject.

Dr. Clendening will answer questions of general interest only, and then only through his column.

Treatment of Fractures
At another booth was a special exhibit in the treatment of fractures. "There all day long an experienced orthopedic surgeon—there were 50 of them who worked in pairs—demonstrated how to pre-

pare splints and plaster of paris bandages, and on a dummy demonstrated the latest approved methods of treating fractures of the arms and legs and spine. Doctors in the audience were invited to apply bandages themselves under the instruction of these teachers. Any doctor who spent an hour there would be doing his patients a great potential service.

Another special exhibit was on the latest methods of anesthesia. Here all the anesthetics used in surgical operations and during childbirth were exhibited. The apparatus used was demonstrated and the most approved methods of administration described. Charts explaining the advantages and dangers of each anesthetic were hung on the wall, so that even he who saw might read and learn.

This brief and incomplete account will give the reader some idea of the variety of interests, the wide field of usefulness which modern medicine presents. Your family physician has great responsibilities to keep up with the advances in all these fields. Through the help of the American Medical association he is doing it ably. Be sure to stand behind him, and appreciate his interest in your welfare.

EDITOR'S NOTE: Seven pamphlets by Dr. Clendening are now available by sending 10 cents in coin for each, and a self-addressed envelope stamped with a three-cent stamp to Dr. Logan Clendening in care of this paper. The pamphlets are: "Three Weeks Reducing Diet," "Indigestion and Constipation," "Diabetes and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene," and "The Care of the Hair and Skin."

6 Persons Killed In Mississippi Motor-Bus Crash

Jackson, Miss. —A head-on collision between a heavily-loaded New Orleans-bound Greyhound bus and a small open car instantly killed six people near Byram, Miss., this afternoon, eight miles south of Jackson.

At least four passengers on the bus were injured, two of them seriously.

A local funeral home said two of the victims had been tentatively identified as J. C. Evans, a creamery employee at Brookhaven, and Mrs. Evans, both about 30.

A deputy sheriff at Brookhaven said he was informed the others in the car who were killed were Mrs. Martin Walker, her 18-year-old daughter and a girl by the name of Albritton, also of Brookhaven.

The injured bus passengers received treatment at a hospital here.

Germany Wants All Lost Land

Ladeburg, Germany —Germany demands the return of all her colonies, without exception, taken from her by the Versailles Treaty. Gen. Franz Ritter von Epp, Governor of Bavaria and Adolf Hitler's deputy for colonial matters, declared today at the opening of the Reich's colonial school.

Future relations with other great European powers, Von Epp indicated, depended on their willingness to hand over the property which Germany regards as "stolen."

"Our claim is to all our former colonies," he said. "Whether, when the moment for bargaining comes, we show restraint is for the future to decide. If we do, we shall demand compensation for whatever we do not claim."

He declared, however, "we will never attempt to solve the colonial problem by military forces."

Listening Post

(Continued from Page 1)

● In other countries that one might name such a condition could not prevail. For in those old countries, racked and torn by wars, past, present and future, few people own cars. Those who do own them, buy a car for almost a life time. Ten years is but a beginning for a car in France and England and Germany. True, those nations have been shooting at the marks made in this country in mass production and sales of cars, but with indifferent success. They cannot reach and hold a standard of living that will allow ordinary working people to own and operate automobiles and allow them to figure that a car is a necessary and legitimate expense.

● It is true that a lot of folks say that automobiles have ruined this country, but it is a false belief. In individual cases, no doubt, some families have strained themselves in car ownership, but one must never overlook the fact that the sale and operation of automobiles in this country has kept millions of people at work at high wages. No doubt the automobile business has lessened the impact of several business depressions and will do so in the future.

PLANE PILOT BURNS TO DEATH IN SHIP CRASH

Williamson, W. Va. —The pilot of an unidentified black cabin monoplane with silver wings burned to death today when the ship plunged to earth and caught fire on the Kentucky side of the Tug River about two miles from here.

A statement From Mayor Of Fulton:—

As Mayor of Fulton I have always tried to do things I thought were for the people's interest. If you want cheap current it depends on how you vote November 8th.

I'm sorry that the bond issue has been misinterpreted by our voters. Neither I or the City Council have any intention of building a generating plant which means making electric current in Fulton. We have never had this in mind.

This bond issue is to buy or build a distribution system which means poles, wire, meters, transformers, and not a power plant.

This bond issue is the next step we will have to take to get cheap electricity, as other towns have done. We are following the same steps that other cities have followed to the goal which is cheap current.

Also remember any City, town or county has to own all electric lines, poles, meters (the distribution system) before they can get T. V. A.

The city then will sell the current to the people. The people will own the poles and wiring by the City of Fulton. We will not build a power plant.

The bonds will be revenue bonds and will not raise your taxes 1 cent.

Cash Left In Old Phone Book Starts Gold Rush

Boston. —A gold rush was on tonight—in a heap of discarded telephone directories.

The claim was staked by Joseph V. Harkins when he learned that in one of the thousands of directories was a wad of \$100 bills — \$1,500 in all—which he had brought home late Saturday night.

The money was receipts of a Boston jewelry firm. Harkins' brother, just to be on the safe side, slipped the bills between the leaves of the family phone book. But then—

The telephone company came around Monday morning to collect old books in exchange for a new issue.

W. P. A.'s Midwest Job Rolls Decline

Chicago. —For the first time in twelve months, Howard O. Hunter, regional W. P. A. director, disclosed today, more persons left W. P. A. projects in the Middle West during September than were added.

Figures for thirteen Midwestern States, including Kentucky and Indiana, showed 98,307 persons left W. P. A. rolls during the month whereas only 97,689 new workers were added. Hunter regarded the decline as the "most encouraging sign in the last year."

Of those who quit W. P. A. jobs in September, Hunter said, 37,840 were known to have obtained jobs in private industry, while 1,601 left for jobs in other Federal agencies.

80 Go On Strike At Paducah Plant

Paducah, Ky. —Eighty employees of the Paducah Cooperage Company, Myers St., went on a strike this morning over alleged refusal of the owner to effect a new union contract, providing for wages higher than the 25-cent minimum under the wage and hour act.

The workers, members of the International Coopers' Union, A. F. L. affiliate, said a contract the union held expired October 20. Since that time, the employees said, they have been unsuccessful in effect-

MIRRORS FOR SPACIOUSNESS

WINTER winds howling outside will only intensify the cozy charm of this living room which is an excellent example of a modified modern decor. Although small, the room gains a sense of spaciousness from the strategically placed large glass mirror. The sectional sofa is upholstered in one of the new tone-spuns in wine and tan, and has a tan leather trim. The coffee table has mirror glass tops with chromium

trim and legs of light walnut to match the triangular bookcase. The carpet is a warm brown toning in with the upholstery of the divan. Unseen are two other chairs, one upholstered in tan leather matching that on the divan and another in wine velvet and a walnut desk with tan leather top. The interior decoration department of your favorite store will be glad to help you in planning such a room at moderate cost.

ing a new agreement.

Hollis Johnson, owner of the plant, said he proposed to the workers that they return to work according to the terms of the new wage and hour act, which, he claimed, provides for wages "above the standard" paid in cooperage plants. Johnson said he would not consider a new contract which includes the old wage scale provision.

Industrial "Tots" Grow In Nation

New York. —Business scouts have their eyes on several young hopefuls as contenders for the industrial big leagues in the struggle for trade supremacy and productive power.

They are: Synthetic fibers and plastics, aviation, Diesel engines, low-priced tractors for small farms, television and air-conditioning.

Most of these, it was noted, bid fair to push the "horse and buggy age" farther into history, and to expedite the conquering progress of the machine and new materials born in the test tubes of research laboratories.

Stirrings of accelerated progress have appeared in most of these since business turned up last spring.

Attention has been called to the rapid strides in synthetic fibres and plastics by the recent announcement of du Pont interests and the Celanese Corp. of plans for two big textile plants to turn out a new yarn belonging to the rayon family.

Curiosity Of Boy About Wire Causes His Death

Henderson, Ky. —Archie Bumpus, 18, was killed when he grasped a 6,900-volt power line while shucking corn in a field along the Illinois Central right-of-way, two miles south of Henderson.

Curiosity which led him to touch the wire cost Bumpus' life, a fellow-farmhand, Elmus Rideout, revealed.

The wire were dangling from a pole which had fallen into the field when the youths, working down a corn row in their shucking operations, came upon them.

Rideout said Bumpus asked, "do you dare me to touch that wire?" "I told him he'd better not," Rideout said, "but he took hold of one of the wires and said, 'see, it doesn't hurt.'"

Rideout said he went on with his work and turned in a moment to see Bumpus grasping both wires and sparks flying from his hands.

Rideout said he ran to Bumpus' aid and was knocked down by the current and his hands slightly burned when he attempted to dislodge the other youth from the wire. Finally, Bumpus fell away from the wire, gasped a few times and died, Rideout said.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Maxwell McDade announce the birth of an eight pound son, Max, born Saturday night at the Fulton Hospital.

BIRTH ANNOUNCEMENT

Mr. and Mrs. William Pittman announce the birth of a daughter, born Saturday morning at their home on the Clinton Highway.

MISS IRIS SANFORD HONORED AT PARTY

Miss Iris Sanford, a student at the University of Tennessee, Knoxville, spent the week-end in Fulton and was complimented when Miss Dorothy Legg entertained a group of their friends at a slumber party

Saturday night at her home on Central Avenue.

Six were present who enjoyed informal entertainment throughout the evening. After various games were enjoyed a mid-night supper was served to:

Misses Sanford, Florence Eleanor Pickle, Dorothy Pickle, Helen Jones, Bonnie Ruth Moss, and Legg.

FRENCH-BELL

Miss Mildred Bell, daughter of Mr. and Mrs. S. G. Bell, of South Fulton, was married here yesterday, October 30, to Oscar E. French, son of Mr. Calvin French. The wedding was quietly solemnized by Justice of the peace, Homer Roberts, in the presence of S. G. Bell. Mr. French is a farmer.

HARRIS-HARTLEY

Miss Constance Hartley, daughter of Mr. and Mrs. C. N. Hartley, of Cape Girardeau, Missouri, and Charles N. Harris, son of Mr. and Mrs. T. G. Harris, also of Cape Girardeau, were united in marriage in Fulton Saturday, October 29. Homer Roberts performed the ceremony and their only attendant was William Lewis.

ROYAL NEIGHBORS TO MEET TOMORROW P. M.

The Royal Neighbors of American will hold their regular meeting tomorrow afternoon at 2:30 o'clock at the home of Mrs. R. Q. Moss, 308 Paschall Street.

A full attendance is urged.

RECENT BRIDE IS HONORED AT SHOWER

Miss Dorothy Elliott and Miss Francine DeMyer complimented Mrs. J. P. Bailey, a recent bride who was Miss Theda Barr Owenby before her marriage, last week-end with a bridge shower at the home of Mrs. M. I. Boulton at her home on Norman Street.

The attractive Boulton home was cleverly decorated with autumn leaves and cut flowers in the hall-

lowe'en motif. The bridal motif was also carried out in decorations, tables, and refreshments.

At the conclusion of the bridge games high score was held by Miss Mary Swann Bushart and Mrs. C. F. Jackson held second high. Mrs. Uel Killebrew cut consolation. All were presented lovely prizes.

After the bridge games many lovely and useful gifts were presented to the honoree.

A well-planned party plate was served to the following: the honoree, Mrs. David Walker Harris and Mrs. Tom Cowden, of Union City; Mrs. Harry Moss Latta, Miss Judith Hill, Miss Laverne Burnett, Miss Elizabeth Shankle, Mrs. Ward Bushart, Miss Mary Elizabeth Powers, Mrs. Gilbert DeMyer, Miss Carolyn Beadles, Mrs. E. N. DeMyer, Mrs. D. M. Milster, Miss Dorothy Monroe, Mrs. Uel Killebrew, Miss Betty Koehn, Mrs. A. T. Owenby, Mrs. C. F. Jackson, Miss Agatha Gayle, and Mrs. Boulton.

JUNIOR MUSIC CLUB MEETS WEDNESDAY

The Junior Music Department of the Woman's Club will meet Wednesday afternoon at three o'clock at the Woman's Club, with Carolyn Atkins, Betty Lou McClellan and Mary Blanche Wiggins as hostesses.

TERRELL-HAMPTON WEDDING HERE

Miss Anna Mae Terrell, daughter of Mr. and Mrs. Richard Terrell, of Dyersburg, Tennessee, was married here last evening at six o'clock to Mr. William H. Hampton, son of Mr. and Mrs. Howard Hampton, also of Dyersburg.

The ceremony was quietly performed by Rev. J. N. Wilford at his home on Walnut Street. Their only attendants were Miss Christine Watlington and R. F. Griffin, from Dyersburg.
