Enthusiastic Get Together Meeting

The editors of the Chamber of Commerce held a meeting in the council chamber on March 4th, at 7:30 P.M. The business men were present and want the street improvement to be taken care of in a prompt and efficient manner. The new secretary, Mr. Motley, was present and took notes. It was decided that the Chamber of Commerce would make a demand on the city council for the street improvement program.

The street question proved to be a live issue at anytime and we know of no reason why one would hesitate considering such an institution a paying investment if properly managed.

A hospital for Fulton is a live issue and we know of no reason why one would hesitate considering such an institution a paying investment if properly managed.

TO THE PEOPLE OF THE CITY OF FULTON

S. S. MOTLEY

You Must Use the Chamber of Commerce

S. S. MOTLEY

Secretary of the Fulton Chamber of Commerce.

FINIS
Fulton, The City of Opportunity

The news was very much of the same kind that has been circulating for some time, namely, the hanging of the washing on the old-fashioned clothes line, to back and dry in the glorious sunshine.

Thousands and Thousands of Cubic Feet of Concentrated Sunshine

The practical application of air as a drying agent in the power laundry is accomplished by the perfection of the Vorclone Tumbler. This wonderful machine-contrivance brings fresh air to such great volumes that the washed clothes are entirely dry in a short time. It does this by means of a large tumbler, ventilating thoroughly, leaving entirely of all lint, leaving soft, fluffy and perfectly odorless. Clothes dried in this manner are never washed, discolored or left a heavy feeling.

The Vorclone Tumbler used in our laundry is the only drying tumbler that does not depend solely on heat to dry clothes. It is the drying tumbler in an altogether perfect drying process. It puts the work of the power laundry on par with that of the housewife's own private laundry.

Be sure to see this wonderful machine in our laundry anytime, and smell the clothes it dries, notice how fresh and sweet smelling they are.

Fulton, The City of Opportunity

When you are the graceful results, the economy and the convenience of our complete service, you are going to put a ban on home wash days throughout the year.

AIR DRIED CLOTHES

Do you realize what it means to receive a bundle of thoroughly air dried clothes from a modern power laundry?

It means that at last the only remaining barrier between the housewife and the laundryman has been broken down. Because now the modern laundryman does not only handle clothes but every garment in the house, and he does it in every respect the method of drying that the housewife has employed for time immemorial, namely, the hanging of the washing on the old-fashioned clothes line, to back and dry in the glorious sunshine.

The greatest development in years, and comes to this steadily growing industry in the perfection of a natural drying process. This new method of drying by air eliminates for all time that unmistakable odor which has branded the work of the power laundry in the past.

O. K. STEAM LAUNDRY

J. J. OWEN, Proprietor

Just to show that funny things still happen—The Chamber of Commerce closed its contest Monday afternoon wherein just forty suggestions were received as to the permanent slogan for the organization, and it is interesting to state that the slogan, "Fulton, The City of Opportunity," was finally decided upon by three competent judges who reviewed the list of suggestions, for more than an hour in a most careful manner.

The Chamber of Commerce listed the suggestions upon a sheet of paper, with the number next to each, and sent the number to the judges at the same time the suggestion was submitted, many of them being diagrams in the most artistic manner, which cost a number of hours of work. It shows that the people of Fulton have a considerable amount of imagination. There are very many more people interested in the contest than was known to them only by serial numbers, the first sheet being reserved for the judges, the second sheet being submitted to the public, the pledges being signed by the judges who judged according to the merit and appropriateness of the slogan for the occasion, those there being three contestants, to be decided upon by people at large, could not get away from that suggestion and fox, of course, created another contest which was carried out to the satisfaction of all.

If you want something that will fill your basket the full and winter with big white eggs when they are high, be sure to order a bluebell plant. Price $1.00 per hundred, delivered by parcel post, 100 per cent of the proceeds donated to the local branch of the American Legion.

SANITATION PAYS

The territory in which the Illinois Central System worked was not an easy one. It was a region of great natural beauty, with many fine forests and rivers, but it was also a region of great economic importance. The Illinois Central was faced with the task of developing a railroad system that would serve the needs of this region, and it was a task that required a great deal of hard work and dedication.

The history of the Illinois Central System illustrates this point. Seven years ago the Illinois Central, if judged by present-day standards, was a primitive railroad. It reached only a few points and its equipment was primitive. Its facilities were inadequate, and its other facilities were far from being adequate.

But the Illinois Central System did not give up. It worked hard to improve its facilities, and it succeeded. Today, the Illinois Central is one of the greatest railroads in the world. It has built a system of lines that serves the needs of the region, and it has done so in a way that is both efficient and economical.

The Illinois Central System is a monument to the power of hard work and dedication. It is a monument to the fact that, with a little hard work and dedication, anything is possible.

The Illinois Central System is a monument to the fact that, with a little hard work and dedication, anything is possible.
ears of catering to the appetites of particular people make it possible for us to serve appetizing meals. That's the reason they come here so frequently to eat.

This is truly a home-like restaurant because it has endeavored to break down the prejudice based on the theory that restaurants cannot be as good as the meals they get at home. That's the reason they have been successful.

HICKMAN LUMBERMAN
DIES AT DYERSBURG

B. G. Hale, prominent Hickman citizen, was found dead Thursday morning, February 24, in bed at the Stephens Hotel, Dyersburg. Hale went on a business trip and had reached Dyersburg, deciding to spend the night there and return to Hickman later so he could sell some lumber. He had not been feeling well lately. Several causes may be considered as possible causes of death.

In the passing of B. G. Hale, Hickman and Fulton community lose one of its best citizens, a man who was interested in all courses of work and all kinds of building material are

All of Hickman, a citizen, was found dead February 24, 1921, at the Stephens Hotel, Dyersburg. Hale went on a business trip and had reached Dyersburg, deciding to spend the night there and return to Hickman later so he could sell some lumber. Hale had not been feeling well lately. Several causes may be considered as possible causes of death.

In the passing of B. G. Hale, Hickman and Fulton community lose one of its best citizens, a man who was interested in all courses of work and all kinds of building material are

We are leaving the wreck here and we want to give the people a good time.

FOOD LIKE YOU GET AT HOME

It is truly a home-like restaurant because it has endeavored to break down the prejudice based on the theory that restaurants cannot be as good as the meals they get at home. That's the reason they have been successful.

It is true that we have been successful because we have been successful.

The most important thing is to understand that we are successful because we are successful.

**THE FULTON BANK**

**Building Your Wealth**

A bank works for you night and day, week after week, adding cents to your dollars. Little by little the amounts grow till each addition is a respectable sum.

Where does the gain come from? Not from your pocket. Not from any other pocket. It is the result of production. Money placed in a bank is given an opportunity to work and to produce.

Thus a bank builds your wealth.
