VOLUME THREE

FULTON, KENTUCKY, FRIDAY, JANUARY 17, 1936.

NUMBER FIFTY-TWO

## W. C. T. U. IN MEETING HERE ON WEDNESDAY

The W. C. T. U. held its January meeting Wednesday afternoon, Jan. 15th, with Mrs. Luke Mooneyham at her home on West State L. O. The meeting was opened with a song, "God Will Take Care of You." Followed by a very interesting devotional read by Mrs. Ed Bondurant taken from the 16th chapter of Luke.

The subject of discussion for the afternoon was Prayer. Mrs. Lon Berninger gave a very appropriate reading entitled, "Cablegram to Heaven." Mrs. W. W. Morris and Mrs. J. B. Cequin gave interesting talks on "Liquor: How It Affects the One Who Drinks It and Hurts Their Loved Ones." Mrs. Essie Herring gave a report on "What Vital Prayer Would Do for America If People Would Only Let God Lead Them." The minutes were read by the secretary, Mrs. Ed Bondurant, and approved, and the treasurer's report was given. Mrs. W. W. Morris read a clipping which gave an account of Dr. Schesles of Nashville, Tenn., who spoke before the Educational Council and stated that "Liquor Has Not Won."

At the close of the program the meeting was closed with prayer by Mrs. Luke Mooneyham, and adjourned until February.

## HAYNES OPENS NEW THEATRE AT CLINTON

Will G. Haynes of Ridgely, Tenn. who owns the Strand Theatre here, opened a new theatre at Clinton this week. Mr. Haynes operates a chain of theatres in Tennessee, Kentucky and Arkansas.

The new theatre at Clinton is modern throughout, with interior decorations and seating arrangements attractively done. This theatre is the only one operating in Hickman county.

## GENERAL MEETING OF W. M. S. OF M. E. CHURCH

The Woman's Missionary Society of the First Methodist church held a general meeting at the church Monday, January 13th, with a twelve o'clock luncheon. Twenty-five regular members were present. After a bountiful luncheon was served the president, Mrs. Alf Hornbeak, presided over the meeting. A short business session was held during which a pledge service was observed. Reports were made by the different officers. The program was presided over by Mrs. Smith Atkins, who had prepared a very enjoyable program. Mrs. Edridge Grimes read an interesting devotional lesson. A solo by Miss Ruth Fields, accompanied by Mrs. Clarence Maddox entitled "The Voice of God is Calling" was enjoyed by all present.

After the program the pledge cards were signed and the meeting was adjourned to meet again in February.

## ART DEPARTMENT IN GOOD MEETING

The Art Department of the Fulton Woman's Club met Saturday afternoon with Mrs. J. E. Fall at her home on Vine-st. Miss Mary Martin presided over the meeting since the resignation of the chairman, Mrs. P. R. Binford has been accepted with much regret. A short business session was held. Those who took part on the program of which Mrs. Jake Huddleston was leader, were Mrs. Sarah Meacham and Miss Mary Martin. Articles were read on "Art" and "Time" taken from the Clubwoman of General Federation and an article was read from the Art Digest. Miss Mary Royster very interestingly gave "He Sent Forth A Raven."

At the close of the program the meeting was adjourned to meet again in February with Mrs. Sarah Meacham on West State Line.

Two visitors were present, Mrs. W. W. Morris and Mrs. A. L. Martin of Nashville, with one new member, Mrs. Payne.

Mrs. Horace Young will go to Dyersburg, Tenn., Saturday where she will spend next week with her parents, Mr. and Mrs. W. M. Potts. Mr. and Mrs. Bob Long spent the week end with friends and relatives in St. Louis, Mo.

## CITY NATIONAL BANK IS HEAVY THIS TERM BOARD OF DIRECTORS CIRCUIT COURT DOCKET

The January term of the Fulton Circuit Court will be one of the most active ones held in over a year. All dockets are heavier than usual with 27 cases scheduled for Fulton and 187 for Hickman. Court will convene in Hickman next week and in Fulton, Monday morning, January 27.

Seventeen cases appear on the ordinary docket at Fulton; three on the continued equity docket; ten on the appearance ordinary docket; eight on the appearance equity docket and nineteen on the Commonwealth docket, with eight of the commonwealth cases felony charges. At Hickman, 17 cases are continued ordinary; ten appearance ordinary; 105 cases continued equity; 16 cases on the appearance equity docket, and 39 cases on the Commonwealth docket. Thirteen of the commonwealth cases are felony charges.

## FULTON INDEPENDENTS TRIM MARTIN 37 TO 33

Fulton's Independent Basketweavers had their hots Wednesday night the shirt makers of Salant and Salant from Martin in which they defeated by the very close score of 37 to 33 in a game as tight as has been seen on the local court this year.

The score was deadlocked no less than eight times from beginning to end with Fulton holding the lead at all times with the exceptions of one time in the third period when Martin forged ahead by two points. The score was tied once in the first, twice in the second, three times in the third and twice in the fourth.

The Score:  
FULTON (37) POS (33) MARTIN  
Gore (10) RF (2) Hall  
O. Weaver (27) LF (21) Penecost  
S. Weaver C (10) Thorne  
C Dozier  
Williams RG Hilliard  
Yarbro LG Parish

## MINISTERS CONTINUE WAR ON GAMBLING HERE

During a special meeting of the Ministers' Association of Fulton on Tuesday morning, presided over by the president Rev. W. D. Ryan, discussion was focused on gambling and slot-machine operation in this city. Several of the Fulton pastors were present with a few business men by invitation.

Rev. Ryan pointed out that action is to be taken to wipe out gambling and slot-machines which are being operated in Fulton. During this month, short 5-minute talks have been given each Sunday from the pulpits, in order to arouse public sentiment against these vices. Rev. Ryan said; if more drastic action is necessary that will be taken.

## HOMEMAKERS FEDERATION TO MEET JANUARY 31ST

The annual meeting of the Kentucky Federation of Homemakers will take place the last day of the 24th annual Farm and Home convention to be held January 28-31 at the Kentucky Agricultural Experiment Station at Lexington. Mrs. W. M. Oliver, of McCracken County, president of the Federation, will be in charge of the program.

Dean Thomas P. Cooper will be the first speaker at the annual homemakers' luncheon, which is the closing feature of the convention. Mrs. B. F. Whitmer, of Muhlenburg county, also will speak.

Speakers at the morning session include Mrs. John Land, Garrard county; Mrs. F. N. Trilett, Henderson county; Mrs. T. F. Lynch and Mrs. W. E. Nichols, Fayette county; Miss Grace Frysinger, Washington, D. C., and Miss Lucy Furman, Miss Myrtle Weldon, state leader of home demonstration agents, will outline homemakers' work for the year. Mrs. Luther Todd, Madison county, will give the secretary's report, and Mrs. Will Shaw, Warren county, the treasurer's report.

Election of officers will be held for the directors of the five districts and the posts of president and secretary. Present directors are Mrs. J. H. Lawrence, Purchase district; Mrs. Theo. Posey, Pennyroyal district; Mrs. Eugene Doelckner, Central; Mrs. T. N. Cotton, Bluegrass, and Mrs. Kate Childers, Mountain.

Approximately 7,000 women from 27 counties are members of the Kentucky Federation. Delegations will attend the state meeting from every county. About 400 homemakers are expected.

The regular annual meeting of stockholders of the City National Bank was held Tuesday afternoon. The following directors and officers were re-elected for the new year of 1936:

W. W. Morris, Joe Browder, W. A. Terry, N. G. Cooke, E. F. Karmire, L. F. Burke, J. D. Davis, C. P. Williams and L. H. Weeks, Directors.

Officers: W. W. Morris, President; W. A. Terry, Vice-President; N. G. Cooke, Active Vice-President; Clyde P. Williams, Cashier; Bertie J. Pique, Assistant Cashier.

The City National Bank is a member of the Federal Deposit Insurance Corporation. At the close of business December 31, 1935, this bank had a capital, surplus and undivided profits totaling \$140,000, with a total deposit of \$956,504.32.

## DEATHS

### MRS. W. K. KUYKENDALL

Mrs. W. K. Kuykendall died Friday, January 10 at her home in Holdenville, Okla. The body arrived in Fulton Saturday and was taken to the Hornbeak Funeral Home where funeral services were conducted Sunday afternoon at 2:00 o'clock by the Rev. Woodrow Fuller. Burial followed at Fairview cemetery in charge of Hornbeak Undertaking Company.

She is survived by her husband, Rev. W. K. Kuykendall of Holdenville, one step-daughter, Mrs. R. B. Allen of Fulton and several nieces and nephews.

### MRS. CALLIE POSTON

Mrs. Callie Poston died Monday January 13, at her home near Union City, Tenn. Funeral services were held at the Hornbeak Funeral Home conducted by the Rev. E. R. Ladd, pastor of the Cumberland Presbyterian church. Burial followed at Camp Beauregard. She is survived by one brother, A. U. Horton of South Fulton and one sister, Mrs. Jim Roach of near Water Valley, Ky.

## MIDNIGHT SHOW TO BE GIVEN AT ORPHEUM

A special midnight show is scheduled for the Orpheum Theatre here Tuesday night, January 21. Karston world famed magician will give a mysterious demonstration in his marvelous act, and RKO-Radio Pictures presents a new mystery thriller "Two in the Dark."

## WEST KY. FINANCE CO. NAMES DIRECTORS FOR YEAR

During the annual stockholders meeting of the West Kentucky Finance Company, Monday night, the following board of directors and officers were elected:

Ira W. Little, Arch Huddleston, W. S. Atkins, N. G. Cooke, R. H. Wade, Joe Browder and L. J. Clements, Directors; Ira W. Little, President; Arch Huddleston, Vice-President; N. G. Cooke, Treasurer; W. S. Atkins, Secretary and General Manager.

This company was organized in January, 1926, and the report made Monday night indicated the continued growth of this organization.

## TUESDAY NIGHT CLUB

Miss Sara Butt was hostess to her bridge club Tuesday night at her home on Pearl-st. Three tables of players were present which included club members and these visitors: Messames Lawrence Holland and Uel Killebrew and Burgess Walton.

At the end of several games of contract high score among the visitors was held by Mrs. Lawrence Holland who received an attractive salt and pepper set. Miss Cordelia Brann held club members high score and was presented beautiful hose.

At a late hour the hostess served a delicious salad course.

## FULTONIANS ATTEND DINNER IN MAYFIELD

Mr. and Mrs. Joe Kasnow and children, Mildred and Paul, and Louis Kasnow, attended a birthday dinner Sunday night in Mayfield, which was given in honor of Joe Lookofsky.

## ROTARY IN GOOD MEETING TUESDAY

"What Will Our Children Think of Us?" was the subject of an article read by T. M. Franklin before the Rotary Club Tuesday. Mr. Franklin, who was in charge of the day's program, commented briefly. He then introduced Paul Farlow, agricultural agent for the Illinois Central System.

Mr. Farlow made an interesting talk on the farm situation, and suggested that a series of dairy and poultry meetings be held over this county during February in conjunction with a soil testing program. The Fulton Chamber of Commerce, Swift & Co., Armour & Co. are to co-operate with Mr. Farlow.

Members of the club voted to send a telegram to the Interstate Commerce Commission at Washington approving the pick-up and delivery freight service to be inaugurated in Fulton on January 20 provided this commission agrees.

Importance of diversification was stressed by Joe Davis, who pointed out that altho death of the AAA has been against the best interests of the farmers, a program of diversified crops will be helpful in bringing about better farming conditions.

## "EAST OF JAVA" AT STRAND HERE SUNDAY-MONDAY

Jungle madness—tropical fever—thirst—hunger—wild animals—lack of fire, a raging typhoon, a human love-triangle.

All these are found in "East of Java," showing at the Strand here Sunday and Monday. In the exciting screenplay, which opens in the East African port of Simba Sao, Bickford is cast as an American gangster fleeing from relentless "G" men. Knowing that a warrant is about to be served on him, he flees the port on a Chinese tramp steamer, which is hurled against the reefs of a jungle island with a beautiful girl, and five other colorful humans, but wild beasts, including lions, tigers, jackals and hyenas board. A picture filled with action and romance.

## FRANKLIN'S ANNUAL JANUARY CLEARANCE

Sales circulars for Franklin's big annual January Clearance event have been printed and mailed to those residing in this territory. Many unusual values are featured in this sale, in order to clear new winter merchandise to make room for incoming spring wear. Mr. Franklin points out, Seldom is seen such outstanding quality at such low cost, he said.

## FRANKLIN'S STORE ROBBED OF \$150 IN MERCHANDISE

Robbers broke into Franklin's Store Saturday night by smashing the glass in the front door. The thieves carried away two gladstone bags, several suits, shirts and hats, and several pair of shoes. It is estimated that around \$150.00 in merchandise was stolen.

## DORAN MAKE 70 POINTS IN GAME WITH GLEASON

The South Fulton High School basketball teams played a well attended double-header at the South Fulton gym Friday night with Gleason, Tenn.

In the opening game the South Fulton lasses defeated the Gleason girls by the score of 102-3. Doran, ace forward for the South Fulton Angels, scored 70 of the 102 points. Allen scored 22 and H. oss 10.

In the boys game the Gleason lads nosed out the Red five by the score of 44-28.

FULTON	POS.	GLEASON
H. Ross 10	RF	Wilson
I. Doran 70	LF	Hargrove
Allen 22	C	Motherall
Todd	C	Kennon
A. Ross	RG	Vinson
Maynard	LG	Castleman

Substitutions for S. Fulton: Bell, Brooks, Scott, Maupin and Vaughn. For Gleason: Hopper and Michell.

FULTON	POS.	GLEASON
R. McKinney	RF	H. Phelps
Mills	LF	T. Hobb
Palsgrove	C	Aylor
Faulkner	RG	M. Phelps
Lancaster	LG	H. Hobbs

Substitutions: Fulton, Brundage and Melvin.

## SOUTH FULTON GIRLS DRAW TROY IN MEET

Drawings for the Third District basketball tournaments were made at Union City this week at a meeting of directors. South Fulton boys drew Greenfield, while the girls are scheduled to meet Troy first.

The boys' tournament will be held at Greenfield, Feb. 27-29. The girls will clash at Dresden, on March 5-7.

Rives, Palmersville, Greenfield and Woodland were seeded in the boys' drawings. The girls' seeded teams were Dixie, Palmersville, Dresden and South Fulton.

Drawings in the boys' tournament: Rives vs. Obion; Kenton vs. Troy; Gleason vs. Tiptonville; Sharon vs. Palmersville; Greenfield vs. South Fulton; Dresden vs. Dixie; Union City vs. Hornbeak; Mason Hall vs. Woodland.

Drawings in the girls' tournament: Dixie vs. Union City; Woodland Mills vs. Hornbeak; Gleason vs. Rives; Greenfield vs. Palmersville; Dresden vs. Obion; Kenton vs. Sharon; Mason Hall vs. Tiptonville; Troy vs. South Fulton.

## WITH FULTONIANS AT MURRAY STATE COLLEGE

(By One of Them)  
There's quite a colony from Fulton here at M. S. C. this year—those that I think of off-hand are Julian "Hanson" Henderson, Doris Bushart, Harry Brady, James Byrd, Robbie Clark, Frances Cook Walker, Janice Puckett, Nell Dawn Hagler, Katherine Bondurant, Agnes Pharis, Frances Poyner, Christine Brown, Idelle Batts, Mable Williamson, Alton Thacker and Naylor Ward Burnette.

Extract from "Sports Spasms," a column by the College News sports editor: "No sooner had his football season drawn to a close than those 'M' fellers' start courting, with Captain-elect Julian Henderson leading the parade." In fact you at Fulton will probably never see much of "Hanson" any more, even when school's out, except as he goes through on his way to Clinton.

Although the 1935 Murray College Thoroughbreds completed the worst football season in the history of the college, "Hanson" was quite a credit to Fulton in every game, and this fact is recognized by his being elected captain for the 1936 edition of the 'Breds. He has probably played, and played well, more different positions than any other man on the team. Murray College console themselves over the disastrousness of the past season with the thought that every college must have off years in football now and then (although this was M. S. C.'s first) and that Murray played the hardest schedule of her career. All of which is very true.

Just now, however, basketball prospects are looking as good as the football season was bad at Murray. The Racehorses started out by easily defeating the strong Mississippi College Indians in the lead all 41-32, with Murray in the lead all the way. With three men on the team over six feet tall, and three men exactly six feet, Murray State is all set to pull down some tall figures for scores.

Everyone here is all excited about the big masked ball to be given January 18 by the Portfolio Art Club. It is the first masked ball to be given on the campus, and is to be one of the most elaborate and colorful affairs the college has ever seen. Several Fultoniens are members of the Portfolio Club, among them Janice Puckett, Christine Brown and Doris Bushart and Roberta Puckett, a former M. S. C. student now teaching in the Fulton school system, is also a Portfolian.

Those students from Fulton who are seniors are lamenting the fact that they won't be at Murray for the completion of the new health building, which will contain the largest indoor swimming pool of any college in the South. L. S. U. has, and will still have, the largest. It'll be rather nice, trekking out across December snow for a little dip in tropical waters of the pool.

Mrs. Jess Fields and Mrs. C. A. Boyd spent Wednesday with friends in Memphis, Tenn.

Mrs. Henry Miller and Miss Mary Adams spent Tuesday in Dyersburg, Tenn., with friends and relatives.

Miss Marguerite Walker has returned to her home near Paducah after residing in Fulton for the past several months.

## 'HAPPY' ALLEN IS KILLED BY AUTO

A. B. (Happy) Allen, age about 55, who resides near McConnell, Tenn., was killed instantly Saturday night near the old Doe Nannes stand on the Fulton-Martin highway, when he was struck by an automobile driven by a Mr. Rushing of Dukedom, Tenn. Mr. Allen was walking along the highway and is alleged to have staggered in front of the car as it passed another in the opposite direction.

Funeral services for Allen were held at Shady Grove church, McConnell, Tenn., Sunday afternoon. He leaves two sons, Marion and Robert Allen, and one daughter, Vivian Allen.

Three other automobile accidents occurred Saturday and Sunday night. One on the Clinton Highway, with minor injuries reported; one on the overhead railroad bridge on State Line street; and another on the Mayfield highway between Water Valley and Wingo in which two were seriously hurt and removed to a Mayfield hospital by Fulton ambulances.

## PRESIDENT'S BALL

Mayfield, Ky., Jan. 16—The largest radio orchestra now playing in the middle west will be in Mayfield, Kentucky on Monday night, January 27th when Horace Heidt and his Brigades, sponsored by the Mayfield Junior Chamber of Commerce, will play for the third annual President's Ball in that city. The Ball is being held three days earlier than usual in order not to interfere with similar entertainments in surrounding towns.

The coming of the "Heidt of entertainment" to this section of the country promises to be the biggest treat for music and dance lovers. Since Kay Kyser and his band played in the same city last summer. The Brigades comprise one of the largest entourages of any orchestra currently engaged in dispensing both rhythms for dancing and melodies for those just desiring to listen. The organization will bring twenty-five people to Mayfield, whose versatility makes it necessary for over two hundred instruments to be kept on the stand, and ten special entertainers. The latter will include Bob McCoy singer of stirring bass solos; Charles Goodman, baritone crooner of love songs in the modern mood; Steve Merrill, high tenor soloist; the Three Campbell Sisters; and four additional members of the Glee Club.

In the orchestra proper a few of the featured entertainers are as follows: Alvino Rey, who is generally conceded to be the finest guitar player in the world; Ernie Passajo, trombone, who is able to, and does, hit F-sharp and G, notes unattainable by any other manipulator of the sliding instrument; and the Radio Ramblers.

The Brigades come to Mayfield straight from the Drake Hotel in Chicago, where they have been featured, at the same time broad-casting over WGN nightly at 10:00 and 11:45, and the Columbia Broadcasting System, every Thursday at 9:00. Heidt came to Chicago following a three year engagement at the Golden Gate Theatre in San Francisco. Prior to that engagement he played successfully at the Hotel Gibson in Cincinnati, Hotel New Yorker in New York City, the Kit Kat Club in London, Les Ambassadeurs in Paris, as well as countless other famous resorts.

This band, with its unique and diversified entertainment, will offer to all lovers of music an evening of intense enjoyment, as well as an opportunity to contribute toward the health and happiness of the country's unfortunate victims of infantile paralysis—since the proceeds of the dance will, of course be contributed to the President's Birthday Ball Fund, which is dedicated to the national fight on that disease.

## MR. AND MRS. HACKETT CELEBRATE GOLDEN WEDDING ANNIVERSARY

A number of friends and relatives gathered at the home on Norman-st, Friday, January 10th, to delightfully surprise them on their 50th wedding anniversary. From two to five o'clock. One hundred and five friends were present and enjoyed games, contests and informal entertainment throughout the afternoon.

Mr. and Mrs. Hackett were presented many lovely and useful gifts which were attractively arranged in a beautiful golden pot. Delicious refreshments were enjoyed.

Miss Judith's Hill is reported ill at her home on Walnut-st.

YOU know, boys and girls, one of the most horrible things that can happen to a person is to be buried alive. For a long time I thought it was absolutely the most horrible, but since I've read the letter I got the other day from Edward V. Meister, I've had to change my mind about that.

For Ed Meister was actually in a spot once, back in the winter of 1906-07, that was a lot worse than just merely being buried alive.

As a matter of fact he was buried alive, and his only hope in those terrible moments was that nothing worse would happen to him before it was all over. For if Ed got out of that improvised tomb of his, in the one way he could imagine himself escaping, it would only be to get eaten alive. And doggone it, who wouldn't rather be buried than eaten?

From the sound of that last paragraph you'd think this adventure happened in Africa or India, where there are plenty of old tombs to be buried in and plenty of lions and tigers to do the eating.

You Can Be Eaten Alive in a Civilized Land.

But it wasn't that sort of tomb Ed got into, and it wasn't an animal that was going to do the eating. No—Ed's adventure took place right here in this country—at Lisbon Falls, Maine, in a pulp and paper mill that was located there.

Ed, then a boy of sixteen, had just started working in the chip loft of the pulp mill. His job was to see that the big hoppers full of wood chips were in good working order, and supplying a steady flow of chips to the big "digester" tanks down below.

The hoppers that Ed took care of were continually filling—continually being emptied. Huge conveyor belts brought the chips up from below and threw them into the tops of the boxes.

Trapdoors Were the Mouth of This Cannibal.

Great trapdoors in the floor opened at intervals to let them fall into the digester—big chemical tanks filled with acids, one of which stood directly beneath each of the hoppers.

Ed used to have to get down into the hoppers to shovel the chips this way and that, and there was a bell that rang just before the hopper trap was opened, to warn him to get back on the solid floor.

Ed was kept pretty busy shoveling chips that first night—so busy that, when he shoveled some chips against the warning bell, he didn't notice it.

A Landslide of Chips Was Falling From the Hopper.

The first intimation he had that anything was wrong was when, while standing on a bed of chips, directly over the trap, the door opened without warning.

It was a big pile of chips Ed was standing on. That saved him from an immediate plunge into the acid vat below. As it was, he felt the ground fall from under him as a ton or so of finely mashed wood fell from beneath his feet. Before his body went through the trap, though, the door closed.

For the moment he was safe from the vat. But in the meantime, a landslide of chips was falling from the sides of the hopper, burying him.

Smother or Sizzle—It Was Ed's Choice.

The rush of chips from the sides of the vat covered him up to his chin. He struggled to work himself free, but he couldn't move a muscle—and all the time more chips, pouring in from the conveyor belts, were falling on his unprotected head.

Ed screamed for help, but nobody heard him. He cried and shouted again and again as the rising tide of wooden splinters mounted to his nose—his eyes. Dust got into his nostrils and choked him, but he couldn't move a muscle to brush those chips away from his face.

He began to find it difficult to breathe, and his repeated shouts for help were muffled to a meaningless gurgle.

There was only one way Ed could think of to get out of that hopper, and that would send him to a worse fate than was already his. Any minute now, the trap would be opening for another bunch of chips, and this time, Ed would go with them—down into a vat full of sulphuric to be eaten alive by the acid's biting sting.

Even a Youth Sometimes Loses Hope.

And he began to wonder then, which it would be—suffocation in the hopper, or a more agonizing death in the big digester tanks 35 feet below the spot where he now rested.

The chips were up to the top of his head now—Ed was almost completely covered. A kid of sixteen will cling to hope for a long time, and it has to be a mighty tough spot that makes him lose it. But Ed lost hope then, and gave himself up for lost.

Then, even as he had resigned himself to fate, he heard a man's voice shouting. It was Wallace Fowler, the foreman, warning the men below not to touch the hopper, and summoning help to the poor kid buried over his head in the chip box.

Wallace had come up to the chip loft to see how Ed was getting on, and found him getting on very badly indeed.

It took a lot of hard work to get Ed out of that chip box, but when they'd finally dug him loose, he quit his job then and there.

"Maybe I'd take a chance and face death for my 10 dollars a week," says Ed. "But I'll be darned if I was going to face two deaths again, for any amount of money."

Cycads Were Prominent Millions of Years Ago

Cycads are members of an ancient family—more numerous in past ages. Fossil species are found in many lands where they flourished as the dominant plant life millions of years ago. Botanists call that era the "Age of Cycads." Zoologists, ignoring inanimate life, record it as the "Age of Reptiles." And it is shown as the latter in all geological charts, notes a writer in the Los Angeles Times.

This era in the world's history is named the Mesozoic, a Greek word meaning "middle." The earliest period of this era, termed the Cretaceous, was fourth in what is called the ages of life. Invertebrates, fishes, amphibians, reptiles and mammals; man appearing in the latter part of the mammal phase, following the Glacial or Ice age. The fourth one, age of reptiles and cycads, immediately preceded the one where Australia existed must as

Vina del Mar

Vina del Mar, six miles from Valparaiso, Chile's most important port has an historical origin. At one time the river on the left bank of which Vina del Mar is situated was called Malga-Malga because it yielded much gold from its sands. Then about 1500 one Alonso Riveras discovered that the same sand was fine for grape culture, planted a vineyard and called it "Vina del Mar," or Vineyard of the Sea.

## IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By REV. P. D. FITZWATER, D. D.,  
Member of Faculty, Moody Bible  
Institute of Chicago,  
© Western Newspaper Union.

### Lesson for January 19

#### JESUS PREPARES FOR HIS

LESSON TEXT—Luke 3:21, 22, 4:1-12.  
GOLDEN TEXT—Thou shalt worship  
the Lord thy God, and him only shalt  
thou serve.—Luke 4:8.  
PRIMARY TOPIC—When Jesus Grew  
Up.  
JUNIOR TOPIC—When Jesus was  
Tempted.  
INTERMEDIATE AND SENIOR  
TOPIC—Making a Right Start for Life.  
YOUNG PEOPLE AND ADULT  
TOPIC—Finding God's Way for Life.

The statement of the subject of this lesson is not quite satisfactory. His baptism and temptation were not means of preparation, but were respectively his formal entrance upon his work and the first conflict with the devil, whose works he came to destroy.

I. Jesus Entering Upon His Mediatorial Work (Luke 3:21, 22).  
1. His baptism (v. 21). In his baptism we see the symbolic act of Jesus dedicating himself to the work of redemption through the cross, or the act of consecration on his part to the work of saving the world through his death and resurrection. His baptism did not mean his obedience to the law of God, but his entrance upon the sacrificial work which on the cross of Calvary made a real foundation for full righteousness.

2. His anointing (v. 22). As he thus dedicated himself to the task of bringing in a righteousness, he was anointed with the Holy Spirit.

3. The heavenly recognition (v. 22). This act of devotion to the divine will was attended by the declaration of divine approval. "Thou art my beloved Son; in thee I am well pleased."

II. Jesus' First Conflict With the Devil (Luke 4:1-13).

Jesus went from the place of anointing and heavenly recognition as the Son of God to meet and to spoil the arch enemy (Heb. 2:14). Instead of the temptation, therefore, being a preparation for his messianic work, it was a demonstration of the inseparableness of the divine and human natures in the incarnation. It is to be noted that the Holy Spirit, not Satan, led Jesus into the wilderness to be tempted.

1. The place (v. 1). It was in the wilderness of Judea. The first man, Adam, was tempted in a garden, with the most pleasant surroundings. The second man, Jesus Christ, was tempted in a barren wilderness, surrounded by wild beasts (Mark 1:13).

2. The method (v. 2). Christ as the world's Redeemer sustained a threefold relationship: the Son of man, the Messiah, and the Son of God. Therefore, Satan made each one a ground of attack.

a. As Son of man (vv. 2-4). Satan made his first assault upon Jesus as a man by appealing to the instinct of hunger. Satan urged him to use his divine power to convert a stone into bread. Hunger is natural and sinless. Real human life experiences hunger. The appetite of hunger was normal and right. The temptation was to satisfy a right hunger in a wrong way. To have yielded in this case, though his hunger was desperate, would have been to renounce the human limitations which he had taken for our sins. To use divine power to satisfy human needs would have been to fail as Savior and Mediator. To do right in a wrong way is to fail.

b. As Messiah (vv. 5-8). Here the temptation was to grasp his rightful dominion by false means. The devil offered to surrender unto him the world, if he would adopt his method—worship him. The force of this temptation was in the fact that the kingdoms of the world are Christ's by God's covenant with him. God's method by which Jesus was to possess the world was the sacrificial death on the cross. The temptation which Satan is placing upon the church today is to get possession of the world by other means than that of the cross.

c. As Son of God (vv. 9-12). Here Satan tried to induce Christ to presume upon God's care. He quotes a messianic psalm to induce him so to act. To do the spectacular thing in order to get publicity is to fall into Satan's temptation. For Jesus to have placed himself in danger in order to get God's special help in delivering him would have been to sin. To test God as to whether he will keep a promise is the greatest distrust; it is to sin and fail.

d. Christ's defense (vv. 4, 8, 12). It was the Word of God. He met every onslaught of the enemy with "It is written." Our defense is God's Word. May every Sunday School teacher and believer know how to use it.

e. The issue (v. 13). Satan was vanquished. If we but trust God and use his Word, we too can overcome the devil.

#### Burdens

Bear your burden manfully. Boys at school, young men who have exchanged boyish liberty for serious business—all who have got a task to do, a work to finish—bear the burden till God gives the signal for repose—till the work is done, and the holiday is fairly entered.

#### The Best Way

Choose always the way that seems the best, however rough it may be. Custom will render it easy and agreeable.—Pythagoras.

## Suede Topcoats in Style Parade

By CHERIE NICHOLAS

THE wonders being performed via leathers in the realm of costume design is almost too amazing to believe. Yet here they are—the very latest fashions created of supple suede, pigskin and other leathers going along in the style parade.

Comes in the procession any number of stunning sports jackets of plaided or checked leathers, if not in solid rich colorings. Laced together are their seams with leather thong or else hand-stitched in a tailored way. All the latest improvements have they, such as zipper fastenings, wrists that strap to fit, adjustable collars that can be worn up or down and a whole list of other intriguing features to add to their lure as well as their practicality.

And what's this we see?—adorable slim, svelte, sweetly feminine evening gowns of exquisitely supple and daintily pasted-on suede, and little capes and evening wraps of the same. A few seasons ago we would not have believed that such miracles could be, now would we? But that was then. As to the immediate present, style-aler women are simply clamoring for the new apparel done in leather and suede. Indeed, it is not too much to say that the present adaptation of leather in a fabric way will go down in the history of fashion as an epoch-making event.

Just now, being winter, when comfort and protection are prime issues, interest centers about topcoats made of handsome suede that shields from cruel winds. When a vogue starts out in Hollywood, it does not take long before it spreads throughout the country. Which is what has happened in regard to the stunning coats of suede, which a resident designer has been creating for enthusiastic members of the film colony.

The accompanying illustration tells

of the type of suede topcoats favored by leading screen artists. Buckle, buckle, who's got the buckle? The swanky hand-stitched model done in a very light chestnut brown, as worn by Mary Carlisle to the left in the picture, answers the question. The three buckle fastenings, center-pleat action back, haze patch pockets and racy sleeves are fashion firsts. This coat, designed for aviation, is also ideal for town and country on cold days in that suede so successfully keeps out winds. The matching suede hat is also hand-stitched.

The center coat is stunning in dark green, handsome, too, in any of the deep new reds. It is of a heavy suede that boldly defies wintry blasts. It has such outstanding features as wide lapels, contrasting stitching, broad belt and trim fitted flues. The trim of the matching suede hat turns down or up according to the whim of its wearer.

See in the foreground Kathleen Burke who joins the leather movement with a new suede swaggar coat that is delightfully young in its lines. It is all hand laced, even to the unusual shoulder effect, the roomy slash pocket and the jaunty suede beret. Voris of Hollywood, artful leather designer, has decreed that even the wood buttons be accented on leather thongs.

And have you heard about the tall-red pigskin accessory trio comprised of belt, bag and hat? Stunning with weeds and novelty wool coats! Pigskin accessories are meeting with great favor for sophisticated town wear.

© Western Newspaper Union.

### SLEEVES "SAY IT"

By CHERIE NICHOLAS

Fashion turns the spotlight on sleeves this season. It is considered very smart for sleeves to contrast the dress and to be that elaborate and decorative they tone the entire costume. The model pictured is an Alix creation. It is of handsome black velvet and stresses extreme simplicity in its styling. The voguish sleeves are in striking contrast according to the latest dictate of fashion. They are of sumptuous gold and velvet lame in a Renaissance design. The shoes are the newest. They are of gold cloth and are heel-less.

### VOGUE FOR VELVETS CAPTIVATES YOUTH

The vogue of velvet is not confined to dresses and millinery for grown-ups, but is also quite the rage in the realm of juveniles and young children's clothes. Little boys and girls from two years old have their velvet suits and dresses and the medieval inspiration which characterized the haute couture this season is just as noticeable in children's clothes.

These little velvet dresses in transparent bright rayon velvet, as well as in dull short-piled qualities, show high waistslines after the old-fashioned Italian styles, with honeycomb work and large stiff collarettes in Venetian lace or in heavy rayon zephyr, inspired by the Florentine school.

#### White Velvet Is Used to

##### Take Place of Lingerie

White velvet, silk, cotton or ribbed, often takes the place of white lingerie pique or linen, for white touches on dark frocks, particularly black. At Mouna Katorza's there is a charming collar to wear with a round-necked black frock. It is made of three rows of white velvet petals, narrow and pointed, mounted on chiffon, and worn flat around the neck at the base of the throat. At Judith Barbier's (famous for her artificial flowers and neckwear) there are several new ideas in white velvet. One is a round collar with a mass of white petals, rose-petals, in front; another is made of white ribbed velvet, a round collar with a turnover triangle in front stitched in arabesque of silver thread.

#### New Stocking Colors and

##### Fads Appear in Offing

A much more colorful array of legs clad in hose that match bright daytime suits or gowns will be promulgated the avenues soon. Dark reds, jungle green, jug brown, wine, blueberry and burgundy tones match or else complement the frocks with which they are shown. For evening, pastels are rampant—shell pink, pale blue, ice green and even lavender.

### Quilt of Blocks That Picture Nursery Rhymes

By GRANDMOTHER CLARK

Quilts made of blocks that picture the nursery tales that every child knows will interest both old and young. Always a good subject for a mother to work on, at bed time, with her child.

Quilt No. 49-1 consists of four 9 inch blocks stamped on a good quality bleached quilting material and will be mailed to you for 10 cents. The embroidery work is in the outline stitch. Use any color thread. Address Home Craft Co., Dept. A—Nineteenth and St. Louis Ave., St. Louis, Mo. Inclose a stamped addressed envelope for reply when writing for any information.

### Belief Is Influence in Direction of One's Life

The forces that impel action reside in temperament. The ideals and convictions that guide it are hidden in the mind and heart. A man moves slowly or swiftly, he does his work slowly or swiftly, according to the energy that is in him. But the direction of his life, this way or that way, follows the unseen influence of what he admires and loves and believes in.—Henry Van Dyke.

### Knitting Fad in Prehistoric Arctic Circle Settlement

Prehistoric knitting needles, five-teeth combs and spoons of mammoth bone have been found in an ancient settlement near Obdorsk, northern Siberia, by an expedition sent out by the Institute of Anthropology and Ethnography of the Academy of Science of the U. S. S. R. It has excavated 12,000 articles of pottery and bone, some of which are unique.

Besides knitting needles, combs and spoons, they include miniature hoes for tilling fields, pieces of melting pots for metal, and bones of animals and birds which no longer inhabit the Yamal peninsula on which Obdorsk stands. The numerous remains found shows that the peninsula, which is within the Arctic circle, was one densely populated.

### 15 Billions Is Economic

#### Value of Thomas Edison

The economic value of Thomas Edison, or the value of the equipment and devices which have been made from his patents, is estimated at \$15,000,000,000.

This means that from the time of his first patent in 1864 up to the present he has been responsible for the production of nearly \$600,000 worth of property every 24 hours.—Collier's.

#### That Feeling

You don't have to know how to sing. It's the feeling as though you want to that makes the day a successful one.

## Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled.

Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

## RHEUMATISM Free Trial Relief

No matter how long you have suffered, try the medical discovery first endorsed by 3,200 physicians and many thousands of former victims who now work, play and again enjoy life. The pain, swelling, stiffness of rheumatism, neuritis, sciatica, lumbago. To dissolve and expel these acid crystals and so gain relief, write to Dept. 1, Matthews Laboratories, 151 W. 17th St., New York City for an absolutely Free Trial Treatment of Rheumatism.

## How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed.

How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminators, thus cleansing the intestinal tract of the germ-laden mucus and toxins.

Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.

Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

**RESOLVED TO SAVE TIME AND MONEY THIS YEAR WITH Firestone GROUND GRIP TIRES**

**SELF CLEANING**

THE best New Year's resolution you can make is to put your car, truck, tractor, and all your farm vehicles on Firestone Ground Grip Tires.

These remarkable tires make their own road — wherever they go. That is why they will take your car or truck through mud, snow, or over unimproved roads — and you will not need chains.

On tractors and farm implements, Ground Grip Tires enable you to do more work in less time at a considerable saving in fuel. The great flexibility of the Gum-Dipped cord body cushions the shocks of rough going and protects costly equipment against vibration and breakage. They make equipment roll easier, reducing draft more than 50%.

No farmer can afford to be without Ground Grip Tires. See your nearby Firestone Auto Supply and Service Store or Firestone Tire Dealer today and resolve to end your traction troubles with Ground Grip Tires.

Listen to the Voice of Firestone featuring Richard Crookston-Nelson Eddy—with Margaret Speaks, Monday evenings over Nationwide N. B. C.—WEAF Network

## HOW ARE YOU TODAY?

DR. JAMES W. BARTON  
Talks About

**Overweight—Is It Organic?**  
ONE of the points about overweight that should be remembered is that the excess fat tissue is not deposited in everybody alike. Some have most of the excess fat about the abdomen, others in the neck where it makes a double or triple chin, others have the fat about the chest and shoulders and others mostly about the hips.

Ordinary overweight or obesity simply means that fat has got in and about the different organs and tissues of the body, interfering with the action of these organs and tissues and to that extent interfering with health. There are cases of course where the fat actually takes the place of the tissues; that is, the tissue degenerates—fatty degeneration—which is really a disease. When an excess of fat becomes deposited on or in the body the first symptom is an increase in the rate of breathing—a slight breathlessness. The breathing is not only noticeable to the individual but can be heard by others.

The breathing becomes faster and more noisy; even walking on the level may cause breathlessness and walking upstairs becomes very difficult. There is usually an increased thirst, more water or other liquids are taken which of course means a further increase in weight.

Sometimes Mind Is Ailed.  
Digestion may remain good, sleep urgent, and there is likely to be an enlargement of the liver and heart due to the extra work put on these organs. In some cases, strange to say, the mental alertness seems to be as keen as ever. As has been mentioned before very fat individuals do not resist such diseases as pneumonia and bronchitis very well, and are considered "poor risks" for operation.

Now, putting on fat is not usually a sudden process, although after some ailments or a change in certain glands fat accumulates quickly. As accumulating fat then is a slow process taking months and sometimes years, and the excess fat is simply due to the fact that more food is eaten than the body needs taking the fat off, and preventing it accumulating is just as simple. It means just eating and drinking a little less every day.

The next step is that fatigue or tiredness comes on with less effort than when the weight was normal. The extra weight the body has to handle and the interference the fat causes in the organs and tissues brings on fatigue sooner.

Naturally as it is a "burden" to move around or take any exercise fat individuals dislike more and more to take exercise which, of course, means a further increase in weight.

**How Fat Accumulates.**  
As the appetite remains good there is no cutting down on the intake of food, sleepiness is felt, which means more accumulation of fat because even standing or walking would use up some fat whereas lying down allows fat to accumulate.

However if there is not too much fat the individual is not really sick; just a bit sluggish mentally and physically.

If, however, the fat becomes excessive especially in middle aged or older people certain signs due to this excess fat become noticeable. The face becomes flushed, in fact assumes almost a bluish color, especially under exertion.

**Children's Eye Defects.**  
These "behaviors" and noticeable symptoms of children may show parents that the youngster's eyes may be defective:

1. Attempts to brush away blur.
2. Blinks continually when reading.
3. Cries frequently.
4. Has frequent fits of temper.
5. Holds the book far away from face when reading.
6. Holds the book close to eyes when reading, or keeps face close to page.
7. Holds body tense when looking at a distant object.
8. Is inattentive during reading lesson.
9. Is inattentive during wall chart, map or blackboard lesson.
10. Is inattentive during class discussion of field trip or visit to museum.
11. Is irritable over work.
12. Reads but a brief period without stopping.
13. Reads when he should be at play.
14. Rubs the eyes frequently.
15. Screws up face when reading.
16. Screws up face when looking at distant objects.
17. Shuts one eye when reading or covers one when reading.
18. Thrusts head forward in an effort to see distant objects.
19. Tilts head to one side when reading.

Conditions about the eyes that can be observed by parents and teachers: (a) Crusts on lids among lashes; (b) red eyelids; (c) styes; swollen eyelids; and watery eyes. The child may also report dizziness, headaches or nausea.

—WNU Service

## How the People of Milan Get the War News

AN ENORMOUS map is spread in the Arc de Triomphe in Milan, to show the citizens the progress of the advance of Mussolini's troops in their conquest of Ethiopia.

## BEDTIME STORY FOR CHILDREN

By THORNTON W. BURGESS

### LIGHTFOOT FINDS A FRIEND

AS LIGHTFOOT the Deer stood resting and trying to recover his breath out there on the little sandbar in the Big River, his great, soft, beautiful eyes watched first one bank and then the other. On the bank he had left he could see two black-and-white specks moving about, and across the water came the barking of dogs. Those two specks were the hounds who had

It is Doubtful Which Was the More Surprised, Lightfoot or the Man.

driven him into the Big River. They were barking now instead of baying. Presently a brown form joined the black-and-white specks. It was a hunter drawn there by the barking of the dogs. He was too far away to be dangerous, but the mere sight of him filled Lightfoot with terror again. He watched the hunter walk along the bank and disappear in the bushes.

Presently out of the bushes came a boat, and in it was the hunter. He headed straight toward Lightfoot, and then Lightfoot knew that his brief rest was at an end. He must once more swim or be shot by the hunter in the boat. So Lightfoot again struck out for the shore. His rest had given him new strength, but still he was very tired, and swimming was hard work.

Slowly, oh, so slowly, he drew nearer to the bank. What new dangers there might be there he did not know. He had never been on that side of the Big River. He knew nothing of the country on that side. But the uncertainty was better than the certainty behind him. He could hear the sound of the oars as the hunter in the boat

drove him into the Big River. They were barking now instead of baying. Presently a brown form joined the black-and-white specks. It was a hunter drawn there by the barking of the dogs. He was too far away to be dangerous, but the mere sight of him filled Lightfoot with terror again. He watched the hunter walk along the bank and disappear in the bushes.

### Brown Crepe Frock

Wood brown crepe, which makes this frock modeled by Margaret Lind say, screen star, is trimmed effectively with a tiny neck yoke and dropped scarf to the hemline of shrimp-colored fabric, and a coat of mail collar and belt buckle. The blouse has slight fullness and flaring balloon sleeves with stiffened panache cuffs.

did his best to get to him before he should reach the shore. On Lightfoot struggled. At last he felt bottom beneath his feet. He staggered up through some bushes along the bank, and then for an instant it seemed to him his heart stopped beating. Right in front of him stood a man. He had come out into the back yard of the home of that man. It is doubtful which was the more surprised, Lightfoot or that man. Right then and there Lightfoot gave up in despair. He couldn't run. It was all he could do to walk. The long chase by the hounds on the other side of the Big River, and the long swim across the Big River had taken all his strength.

Not a spark of hope remained to Lightfoot. He simply stood still and trembled, partly with fear and partly with weariness. Then a surprising thing happened. The man spoke softly. He advanced, not threateningly, but slowly and in a friendly way. He walked around back of Lightfoot, and then straight toward him. Lightfoot walked on a few steps. The man followed, still talking softly. Little by little he urged Lightfoot on, driving him toward an open shed in which was a pile of hay. Without understanding just how, Lightfoot knew that he had found a friend. So he entered the open shed, and with a long sigh lay down in the soft hay.

## MOTHER'S COOK BOOK

### CANDY TIME

CANDY time is any time, for every one loves candy or there is something wrong with the department of interior. With the time and materials for making candy, there is no sport that can be more entertaining. For those who have no taste for the making of it, candy can be supplied in countless varieties even in the small cities, at prices which are not unreasonable.

**Fancy Caramels.**  
Put two cups of sugar, one cup of brown sugar, one cup of corn syrup, one cup of cream, two cups of milk, one-half cup of butter in a saucepan and cook and stir until the candy forms a soft ball when tested in cold water—246 degrees F. Add one package of dates sliced, and two teaspoons of vanilla and turn at once into lightly greased pans. When

"The trouble with most of those short lived marriages," says Reno Ritzl, "is that the only suit that he or she worries about scraping up the cash first for is the divorce suit."

**Sea Snakes Common.**  
Snakes in the sea are not uncommon in the tropics.

## TRY THIS TRICK

By PONJAY HARRAH  
Copyright by Public Ledger, Inc.

### A MYSTERIOUS KNOT

THIS is a very deceptive trick that can be performed with an ordinary handkerchief. The magician holds the handkerchief by one corner. He raises the lower corner; then shakes it loose. The movement is repeated, the free hand always bringing up the loose end. Finally, on the third shake, a knot appears in the lower corner of the handkerchief. You must prepare for this trick by trying a knot in the upper corner of the handkerchief. That corner is held hidden by the thumb and fingers of the right hand. After twice raising the lower corner and shaking it down again, simply change the ends. You retain the original lower corner, while the knotted corner falls. Done smoothly, this completely deceives the onlookers. They will think that you actually shook a knot into a corner of the handkerchief.

## ANNABELLE'S ANSWERS

By RAY THOMPSON

DEAR ANNABELLE: I HAVE JUST RETURNED FROM ENGLAND AND THEY SAY THE AMERICANS ARE MUCH BETTER BRIDGE PLAYERS—DO YOU AGREE? MAE.

Dear Mae: HM—POSSIBLY LONDON BRIDGE IS FALLING DOWN!

Annabelle.

## GREATLY GOOD

By DOUGLAS MALLOCH

THIS is the greatness of great deeds. By which the humble man succeeds. Where oftentimes the mighty fails: That greatness is not measured in the name we wear or wealth we win. Where often littleness prevails: For any can be great who would. Since all men can be greatly good.

This is the greatness of this earth. That greatness counts not wealth as worth.

Nor title the important thing. For men, what task they may pursue. Are measured by the good they do. Not by the profit it may bring. The measure of man's brotherhood is merely being greatly good.

This is the greatness of the great. Whether they nobly lead the state. Or nobly teach a village school: That they more happiness have brought By noble principles they taught.

Than those who poorly teach or rule. Both shall be judged, as heaven would. By whether they are greatly good.

© Douglas Malloch—WNU Service.

## Eve's Epigrams

When trying to discover if a woman is a cat, a man must remember they purr as well as scratch.

## TUCK A SMART BOW BENEATH THE CHIN

PATTERN 9601

Surely no Junior Miss can resist the girlishness of this smart two-piece frock. Practical for school in a washable cotton tweed, or dressy enough for an evening date in one of the new metallic-shot wools, with velvet bow and belt. Isn't the cut of the shoulder line unusual? The blouse, with darts front and back, is separate, you know, so its pleated skirt may accompany many different blouses.

Pattern 9601 may be ordered only in sizes 10, 12, 14, 16 and 18. Size 12 requires 2 1/2 yards 54 inch fabric and 1/2 yard 5 inch ribbon. Complete, diagrammed sew chart included.

SEND FIFTEEN CENTS in coins or stamps (coins preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, STYLE NUMBER and SIZE.

Send your order to The Sewing Circle Pattern Dept., 232 W. Eighteenth St. New York, N. Y.

## Indians Stage a Rally:

### Population on Increase

The records of the United States government show that in 1865 there were 294,574 Indians on reservations. In 1891, the number had dropped to 246,834, but, after that low point, the Indian brought his total population up to 320,454 in 1933.

The total number of Indians in the United States and Canada today is 443,365, or more than half the number estimated to have roamed the continent before the coming of the white man.

## Japan's Homage to T. A. Edison

RENZO SAWADA, consul general of Japan, is pictured with the two huge stone lanterns of oriental design which he presented, as a memorial from Japan to Thomas Alva Edison, America's greatest electrical wizard, at the Edison library and laboratory in West Orange, N. J., where the famous inventor spent the major part of his life. More than 30 years ago Edison utilized Japanese bamboo for filaments in his early experiments with the incandescent lamp. The lanterns, each more than six feet high and weighing more than 4,300 pounds, express the Japanese equivalent of the western conception of an "eternal light."

### SOUTH FULTON NEWS

Some of the Junior English class are busy during noon hours now, all those who do not have the required book reports in, are staying in at noon until they get them. Katie Margaret Allen, John D. Smoot and Johnnie Lancaster are likely to remain sometime as they haven't yet turned in any.

There are some people who will never grow up it seems, such as Alice Ross and John D. Smoot. They have great fun playing dolls on the way home from school.

"Happy days are here again" says Geneva Sharp "for Howard is here again."

Mary Brown started this week off right. She got to school before ten.

Dorothy Edwards was so busy writing her autobiography she couldn't hear. Helen Jones fixed that with top-heavy pencil.

Shannon Murphy is slightly ill. He made 77 in History (That's better than some of the 50's though Shannon).

In History IV while reading Dorothy Legg pronounced Mulattoes—Mule toes. What were you thinking of Dorothy?

### Juniors

Well the exams are over and most of the grades are fair or worse.

It seems that James Donald Hall is very engaged in something else besides school.

Florence Counce has been out of school several days on account of sickness; we hope for a quick recovery.

The Juniors are planning for their annual play, the characters have not been selected yet.

"There is nothing in looks," said Henry Lee Allen. "Tom Thumb was known all over the world."

### CAPTAIN BLOOD LIVES AGAIN

How the artists see "Captain Blood," hero of Rafael Sabatini's immortal story of adventure on the high seas, as portrayed by Errol Flynn in the Cosmopolitan production "Captain Blood," which is playing Sunday and Monday at the Orpheum Theatre here.

### Tator Family

Little Spec says "the only work

some folks ever tackle is guess work at the end of every semester."

"Mother said could I skip two periods and assembly to go to the beauty parlor," asked Ima Tator Thursday.

"Next to havin' a child bring a low report card home, ther' ain't nothin' that brings school close to you like buyin' a book after the middle o' September," said Aunt Axi Tator at the beginning of the second semester.

Uncle Die says, "one of the funniest thing 'bout growin' up is a four dollar permanent and a report full of F's."

### Basketball

A large crowd is expected at the Gym Friday night when the Woodland Wild Cats clash with the teams here. Woodland has two improved teams that are capable of holding their own with any opposition. The Angels were seeded in the County and District tournaments and hope to keep their record clear through the rest of the regular season. Plenty of basketball will be crammed into the two games Friday night.

### FARM TENDENCY ON INCREASE IN KENTUCKY

A striking increase in the number of tenant farmers in Kentucky has been revealed by reports of the 1935 Census of Agriculture. From 1930 to 1935, while the number of farm owners increased 10 per cent, the number of farm tenants increased 17 per cent.

During these five years the number of tenant farmers increased by nearly 15,000. In 1935, 37 per cent of the farms were occupied by tenants. These figures have been assembled in connection with the preparation of a report on farm tenancy by the Division of Land Utilization of the Desettlement Administration.

Final results of the Census of Agriculture have not been tabulated for all states. Figures for thirty-eight states indicate, however, an increase in the number of farm tenants in most sections of the country. Approximately 43 per cent of all farms in the United States are now operated by tenants. The trend of recent years is in accordance with the steady increase in the percentage of tenants since the first count was made in 1880. At that time 25 per cent of the farmers were listed as tenants.

Attempts to check the growth of tenancy have been made chiefly because of the instability of residence associated with a farm tenant system. Although conditions vary greatly throughout the United States, studies show that the tenant farmer moves on an average of every four years.

Because of this change in residence, the functioning of schools, churches, and other community enterprises such as co-operative organizations is badly handicapped. The impermanent interest which many tenant farmers have in their land prevents their giving proper

attention to soil conservation, the checking of erosion and the upkeep of farm buildings. The tenant hesitates to make improvements on the farm which would only benefit his successor.

In the past tenancy has been considered a stepping stone to farm ownership, and as a means whereby farmers lacking capital could obtain experience in farm management. The steady increase in the

proportion of older tenants, however, indicates that fewer men are now being able to move up the ladder to farm ownership.

### Why We Need a National Empire

By RAYMOND FITCAIRN  
National Chairman  
Sentinels of the Republic

As happened after the crash of the Blue Eagle, the recent decision invalidating A. A. A. has aroused various proposals for a change in our American form of government.

A typical suggestion is that we withdraw from the Supreme Court some or all of its authority to hold elected officials to the course mapped out for them in the Federal Constitution, and thereby extend to Congress the power to steer our ship of state among whatever shoals or channels may strike its fancy.

There is nothing either new or impossible about such proposals. They can be translated into reality by the mere adoption of any one of several amendments now pending in Washington. Let the American people agree to relinquish to Congress certain rights granted them by the Constitution and preserved by the Supreme Court and the thing is accomplished.

That's what advocates of these amendments are asking us to do. But, simple as this idea can be made to sound, it remains a serious and dangerous proposal. It strikes at the very root of accepted American principles in government. Before we consider any such course let's pause to remind ourselves of several facts of our past and current history. Let's recall, for example:

That alone, among the greater nations of earth, our country has retained its form of government unchanged during the past century.

That much of the permanence and success of its government has been attributed to the system of checks and balances between executive, judicial and legislative branches, and between the states and Washington. It is based on the principle that the right of the people and the states to govern themselves shall not be usurped by central authority.

That under our form of government America has enjoyed a larger share of happiness and prosperity than any other nation.

That none of the nations which in recent years have shifted to the newer forms now popular in Europe have achieved anything that can be envied by the American people.

And finally: That whatever passing benefits various odd experiments may offer a favored few, they do not hold the solution of our problems. Despite the alluring phrases of economic crooners, America still subscribes to the essential truth and wisdom expressed by George Washington when he said:

"Nothing but harmony, honesty, industry and frugality are necessary to make us a great and happy people."

#### COMMISSIONER'S SALE

In pursuance of a judgment of the Fulton Circuit Court rendered at its September Term, 1935, in the action of Frank Hendon et al, plaintiff, against Jerome Hendon et al, defendant, I will on Monday January 27th (about the hour of 1:30 P. M.) 1936, (being first day of Circuit Court at Fulton), at the court house door in Fulton, Kentucky, sell to the highest bidder, on a credit of six months, the following describe property, viz:

Lots 7 and 8 in block A in the addition of C. E. Rice to the City of Fulton, and lot No. 5 in block A in said addition to the City of Fulton. This property is located in Riceville, a suburb to the City of Fulton and lots 7 and 8 is the same property that was conveyed to J. S. Hendon, deceased, by R. T. Wilkins and this deed is in volume 33, page 237 Fulton County Court Clerk's office, and lot 5 was conveyed to J. S. Hendon, deceased, by R. T. Wilkins and the property is located

## Beware The Cough From a common cold That Hangs On

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with **Creomulsion**. Creomulsion not only contains the soothing elements common to many remedies; santon, Syrup of White Pine Compound with Tar, fluid extract of Licorice Root, fluid extract of Ipecac for its powerful phlegm loosening effect, fluid extract of Carcra for its mild laxative effect and, most important of all, Beechwood Creosote is perfectly blended with all of these to form the basis of the trouble from the inside. Creomulsion can be taken frequently and continuously by adults and children with remarkable results. Thousands of doctors use Creomulsion in their own families as well as in their practice knowing how Creomulsion aids nature to soothe the inflamed membranes and heal the irritated tissues as the germ-laden phlegm is loosened and expelled. Druggists also know the effectiveness of Beechwood Creosote and they rank Creomulsion top for coughs because you get a real dose of Creosote in Creomulsion, emulsified so that it is palatable, digestible and potent for going to the very seat of the trouble. Creomulsion is guaranteed satisfactory in the treatment of coughs, chest colds and bronchial irritations and especially those stubborn ones that start with a common cold and hang on for dreadful days and nights thereafter. Even if other remedies have failed, your druggist is authorized to guarantee Creomulsion and to refund every cent of your money if you are not satisfied with results from the very first bottle. Don't worry through another sleepless night—phone or go get a bottle of Creomulsion right now. (Adv.)

## Bruce Barton Says

#### MUCH TO DO, PIONEERS

Mixed up with a great deal of justifiable complaint about existing social conditions there is a certain proportion of plain ordinary self-pity. It expresses itself after this fashion: "You who are older have grabbed all the opportunities. You had it easy in your day. If you couldn't find a job, or if you didn't like your job, there was always the land. You could pioneer."

Seen through the rosy haze of emotion, the pioneers appear as a company of hardy young men and women, with their attics full of ham and potatoes and their cellars full of hard cider—dancing barn dances and holding husking bees. But what were the facts? You get a glimpse of them in a recent biography called *Old Jules* by Mari Sandoz, daughter of a Nebraska sod-bust pioneer.

Merely to escape starvation, Old Jules was driven from one home-stand to another, a half-dozen moves. Sand storm and drought destroyed his crops; his cattle died from lack of food or water, or were frozen to death in the terrific shelterless winters. He had to fight off thieves and wolves, and labor from star-light in the morning to moon-light at night. Four wives wore themselves out trying to carry on with him; he could hardly have been punished more by sentence as a galley slave.

His case is not exceptional. Out of the multitudes who started West with the Forty-Niners, only a few arrived; thousands travelled only a little way before the privations drove them back.

The western frontiers are gone, it is true, but if any boy or girl has in him the courage of the pioneers he will not be downed in this age, any more than he would have been a hundred years ago. Courage is timeless, so, unfortunately, is self-pity.

#### TOO MANY BABIES MEANS WAR

On the subject of Peace I am a middle-of-the-roader, and am accordingly shot at from both sides. My preparedness friends criticize me as a contributor to peace move-

ments; my peace at any price friends regard me suspiciously because I advise a strong national defense.

The horrors of war ought to be constantly advertised like the horrors of highway accidents. We need to be inoculated continuously also with the serum of caution against foreign propaganda. Thus far I go along with the peace workers.

But when they talk about the causes of war they frequently talk nonsense. The World War, in its effects, is still going on; the depressions of 1919-23 and of 1929-36 are as much a part of it as was the Battle of the Argonne. Is anybody so child-like as to think that Big Business is as well off today as it would have been if peace had reigned since 1914?

The real causes of war are not bankers or battleship builders or scheming politicians. The real causes are babies. Havelock Ellis pointed this out years ago in his Essays in War Time. The French, with their declining birth-rate, did not want war; the English people did not want it. The German people did not want it. But in forty-four years the Germans had increased from forty millions to eighty millions—THERE was the war pressure. Today Soviet Russia has about sixty people for each acre of tillable land; the United States has a hundred. But Italy has more than four hundred; Germany more than five hundred; and Japan more than 24 hundred!

The nations with declining birth rates cry, "Peace." The crowded nations talk about their "destiny." The rulers who make war are not rulers really; they are distracted nurses, at their wit's end because of too many babies.

#### BUFFET SUPPER

Miss Carolyn King delightfully entertained a number of her young friends with a well planned buffet supper Sunday night at her home on East State Line. Those present were Misses Ann Valentine, Sara Lee Massie, and Frances Brady.

Measrs. John Lloyd Jones, Scott DeMyer, Harry Maddox, Ralph Cantrell and the hostess, Miss King, Rouge, La., is visiting with her grandmother, Mrs. S. E. Bushnot, on College-st.

Miss Jeanette Stokes of Mayfield is the house guest of Mrs. U. R. Small this week.  
Miss Katherine Bushart of Bat.

## AAA Is Killed by Decision of the Supreme Court

SIX justices of the United States Supreme court, including Chief Justice Hughes, joined in an opinion that killed the Agricultural Adjustment act. Three associate justices, Stone, Brandeis and Cardozo, dissented. The majority decision, read by Associate Justice Owen J. Roberts, held that the AAA was wholly unconstitutional because it invaded the rights of the states in seeking to control farm production. The whole system of processing taxes imposed to finance the program was swept into disarray.

Chief Justice Hughes

Not only are the processing taxes illegal but the court apparently declared the farm benefit contracts void and put up bars against any attempt of the federal government to regulate farm production by whatever means.

Senators and representatives who immediately began planning legislation to continue benefit payments to farmers and to balance agricultural output did not seem to grasp the full significance of this part of the decision. The court said flatly that regulation of farm production is not within the scope of the federal government and of its powers to accomplish this, nor can it purchase adherence to a control scheme by federal payments.

The decision destroyed not only the original AAA but also the amended act of the last session of congress.

The dissenting opinion held that the AAA was a legitimate employment of the power to tax for the general welfare. It attacked the theory that the preservation of our institutions is the exclusive concern of the Supreme court and suggested that under the majority decision the unemployment work relief act is unconstitutional.

President Roosevelt, Secretary of Agriculture Wallace and other administration leaders had no immediate comment on the decision to make public, but the President called Attorney General Cummings and Mr. Wallace in to conference. The administration and congress must do something to raise nearly half a billion dollars which the government has contracted to pay farmers and against which it now has no income, since the processing impost is outlawed. Disposition of about \$300,000,000 accumulated under court orders that impounded processing tax collections must be determined.

AAA Administrator Chester Davis stopped all payments to farmers "until further notice," and the Treasury department ordered all collectors of internal revenue to desist from further efforts to collect processing taxes.

In his budget message President Roosevelt included revenue from processing taxes, so the Supreme court decision had the effect of throwing the 1937 budget still further out of balance by something like a billion dollars.

## President's Message Is a Defence of Opponents

SURROUNDED by kilig lights, microphones and movie cameras, President Roosevelt stood before the senate and house in night joint session and delivered what was nominally his annual message on the state of the nation.

Actually it was not that at all, but a statement concerning the warfare and international disturbances on the other continents, followed by what the press generally considered an eloquent and militant political speech addressed to the people of the United States, who by the millions were listening in on their radios. Partisan opinion of his message is perhaps worthless. Of course his supporters praised it highly, and his opponents were equally emphatic in denigration.

Democrats and Republicans alike commended the President's opening paragraphs in which he boldly condemned the aggression of Italy and Japan, though without naming those nations; and there was little dissent from his assertion that the United States must maintain its neutrality while seeking to "discourage the use of belligerent nations of any and all American products calculated to facilitate the prosecution of a war in quantities over and above our normal exports to them in time of peace."

The remainder of the message, devoted to domestic affairs, was devoted chiefly to a belligerently worded defense of the New Deal measures of the administration, an attack on those who oppose them and a spirited passage in which Mr. Roosevelt defied and dared his critics to move for the repeal of those measures instead of "hiding their dissent in a cowardly cloak of generality." In only two paragraphs did the President dwell on "the state of the nation." In these he said that after nearly three years of the New Deal national income is

increasing, agriculture and industry are "returning to full activity," and "we approach a balance of the national budget." That last statement was greeted with mocking laughter from the Republican side of the chamber, and though the Democrats cheered loudly, Mr. Roosevelt himself smiled at his words.

One passage in the message was interpreted by some as a threat to close the lower courts to suits attacking the constitutionality of federal laws. The President told congress that its enactments require "protection until final adjudication by the highest tribunal," and added that congress "has the right and can find the means to protect its own prerogatives."

Altogether, the spectacle in the house chamber was extraordinary and unparalleled. All the senators and representatives were there, the latter being remarkably noisy. Eight members of the cabinet attended, and in the galleries sat Mrs. Roosevelt, the wives of cabinet members, diplomats and enough other privileged persons to fill the seats completely. Vice President Garner and Speaker Hays jointly presided over the session.

The President's message was denounced by the American Liberty league as "the most dangerous speech that ever came from a President," and by former President Herbert Hoover as a message of "war on earth and ill will among men."

Senator Joseph T. Robinson, Democratic leader, struck back at the President's criticism in a statement declaring that if the President had recited the Ten Commandments he would have been accused of having inferior motives. He repeated the challenge of the President to his critics to repeal New Deal legislation.

## Secretary of Labor Perkins Praises Year's Doings

SECRETARY of Labor Frances Perkins found in the developments of the last year much of benefit for the American workingman. In her annual report she cited these five great advancements for labor:

1. Unemployment compensation, accomplished through the social security act.
2. Old-age security, brought about also by the social security act.
3. Establishment of boards for settling industrial disputes locally.
4. Greater co-operation between the states and the labor department, through regional conferences.
5. Development of the United States employment service.

Even the large number of strikes during 1935 could be viewed with some satisfaction by her, for she said they were "due in part to the natural expectation of labor to share in the early fruits of business improvement."

For the future Miss Perkins envisioned a minimum wage law, a short work week of perhaps 40 hours, compensation insurance, and strict regulation of machinery to prevent industrial accidents.

## Budget Message Shows Billion Dollar Deficit

IN HIS message to congress submitting his approved budget for the 1937 fiscal year, beginning July 1 next, President Roosevelt followed the double system of accounting his administration has always employed—one set of books for regular expenditures and income and another set for emergency spending and appropriations. He asserted that receipts from all sources in the next fiscal year will aggregate an estimated \$5,654,000,000. Expenditures for all regular government departments are estimated at \$5,659,000,000. So the "regular" budget will be in balance, with a surplus of \$5,000,000.

But the message went on to say, after explaining that the regular government books will show fiscal affairs in the black, as to income and outgo, they will show red to the extent of \$1,103,000,000 in works relief spending, less the \$5,000,000 "surplus," this leaving the net appropriation for further works relief open for at least two months.

That figure of \$1,103,000,000 represents the President's estimate of unexpended balances on July 1 from the \$4,880,000,000 and previous emergency appropriations. It does not take into account probable new appropriations for similar purposes yet to be determined.

## Guffey Coal Act Again Is Declared Invalid

ONCE more the Guffey coal act has been declared unconstitutional, this time by Federal Judge John P. Barnes of Chicago. He granted to a local coal company a temporary injunction to restrain federal officials from collecting a portion of the taxes imposed under the law.

The injunction is to remain in force pending a ruling by the United States Supreme court on similar suits brought by the Carter Coal company in Washington, D. C., and by the Tway Coal company in Louisville, Ky.

## BRISBANE THIS WEEK

Wilson for Earlier War?  
Prayer Plus Planes  
New Disease Danger  
Ethiopian Victory?

Prof. A. M. Arnett of North Carolina university says it was not Wilson that kept this country out of war for a while, but the country that kept Wilson out of war longer than he would have stayed out.

Arthur Brisbane

Leader of the house.

How deep should we have sunk to our depression if Woodrow Wilson had carried out his alleged plan and started the war one year ahead of time, in 1917?

How many millions of Americans would have been killed (they were always honored with front row places)? How many tens of billions would have been added to the public debt and the repudiated debts of Europe?

The archbishop of Canterbury, head of the official Church of England, has invited all European Christian communions to join in prayer for peace, with resolutions outlawing all war.

While the archbishop takes that desirable step the British government works rapidly on 8,000 airplanes of the fighting kind. Nothing like airplanes to back up eloquent prayer for peace.

Uncle Sam has on his hands the job of preventing the spread of disease throughout the country and its importation from abroad.

Doctor Curran, in charge of insects for the American Museum of Natural History, warns New York it may be invaded by malaria brought into northern New Jersey by a CCC camp worker from the South. The anopheles mosquito, always present, has been spreading the germs. He cannot do that unless he first bites a malaria carrier.

Halle Selassie's fighting Gen. Dejazmatch Hailu Kebede sends cheerful news to his royal master:

"We fought and beat the Italians from dawn to dusk; 200 Italian white soldiers, twenty Italian officers, killed. Cannon, bombs and innumerable batteries of machine guns made murderous concert against us, but God protected our humble Christian soldiers, and the Lion of Judah was victorious."

Ethiopians persist in their theory that they are the only Christians in the world. They say the Italians are Catholics, therefore not Christians, which would amuse the Italians, if they had time for amusement.

Rome calls the General Dejazmatch dispatch "customary Ethiopian inaccuracy."

Former Governor Alfred E. Smith, booked for a big political talk in Washington, D. C., and invited by Mrs. Roosevelt to stop at the White House during his stay in Washington, declines the invitation, explaining that he will have too big a crowd with him. Politicians do not think that the only reason they expect Governor Smith to "cut losses" and say things about the administration that would not come gracefully from a White House guest.

Mr. and Mrs. Triplett of Jenkins, Ky., who have just received from heaven their third set of triplets, say: "We are just tickled to death, but imagine our surprise." Besides nine triplets, the happy couple have one set of twins, all eleven living and all fortunate. The baby born in a family that wants babies is the fortunate child.

For the woman or man who does not want children, the wise thing is not to have them—for the children's sake.

Hitler knows what he wants, tells the rest of the world, and thus far the world has let him help himself.

He wanted an end of the Versailles treaty and got it. He wanted the right to build a strong battle fleet and England consented.

Now he says he must have an air force as strong as that of France, and will proceed to build it. He demands also the return of all colonies taken from Germany, and intimates that he will fight for them if he can't get them peaceably.

Austria will pay Uncle Sam on account of debt thirty million schillings, payment in American paper dollars. At the current rate of exchange Uncle Sam will get \$5,631,000. Our paper dollars are convenient for Europeans, for they know, although we do not, that our dollar is worth 55 cents.

Thomas W. Lamont, a J. Pierpont Morgan & company partner, gives five hundred thousand dollars to establish a "chair of political economy" at Harvard. The money will stay and the interest will be used. Well invested. It should pay the chosen professor a fair salary.

## Washington Digest

National Topics Interpreted

by William Bruckart

National Press Building

Washington, D. C.

Washington—It was in the sultry days of the summer of 1914, it will be remembered, that

Waiting Archduke Ferdinand for a Spark

was laid low by an assassin's bullet in a remote province of Austria. At the time, the assassination was front page news for most of the newspapers but its real import was not generally recognized. Nevertheless, from that incident sprang the greatest war the world has ever known.

Within a few months of 22 years after the assassination at Sarajevo the world sees a situation in Europe where another such incident would have consequences just as violent. At the present time, ammunition dumps all over Europe are waiting for a spark to set them off. It may be an accidental spark or it may be a spark deliberately cast into that powder keg. I do not mean to say that it will happen but I do wish to emphasize that at no time since the Archduke's assassination has there been a field so fertile for the promotion of a gigantic war as the present.

It may seem, and it undoubtedly does seem to many, that the dangers inherent in the European situation at present are afar off. But, it can be recalled that there were those in this country who, as late as 1916, said the European war was 3,000 miles away. Before it ended, however, 5,000,000 American boys and young men had been drafted to be thrown into that European cauldron. It may happen again.

While there is no immediate possibility of the United States getting tangled up in the European political problems which spring from hostilities between Ethiopia and Italy, those who know history cannot fail to agree with the statement that it is never too early to plan for preventing war. For that reason, then, I believe almost every family in the United States has a stake either directly or indirectly, in one of the problems with which congress must deal. This legislation is known by the short and rather indescriptive title of the neutrality policy.

It is, indeed, just that, but the point I seek to make is that the title does not convey by any manner or means its full importance or its full effect upon the lives of each of us. If a policy can be worked out, a policy that is effective, obviously our chances for remaining out of any hostilities in Europe—or in Asia for that matter—are certainly much better. I do not know and I do not believe anybody can say accurately that it is possible to develop a neutrality policy that will be foolproof; or that will guarantee to us the removal of possible entanglements, or that will prevent us from stubbing our toes and falling into the midst of the mess. It seems to me, however, that we ought to try.

A year ago about this time, congress enacted a bill which was designed to prevent the shipment of war materials to any belligerent nation or nations. It was mandatory. The President was directed by congress to lay an embargo against the shipment of arms, ammunition of war to any countries engaged in hostilities regardless of whether their claims were right or wrong. We have had some experience with the force of that legislation already and it has not been without its embarrassing and difficult phases. Now, however, it is proposed to revamp that legislation which was admittedly of a temporary character and is due to expire by limitation of law on February 29. Congress has been told rather definitely, I think, that this country wants to remain out of someone else's war. The President has the same idea. So, instead of allowing our citizens to run wild, ship anything and everything, make contracts with the countries now engaged in war or those that may be engaged later, it is proposed that we have a permanent policy embodying whatever principles may be found wisest to protect us from ourselves and prevent us from throwing ourselves again into such a volcano of molten lava as any present-day war would be.

The problem is not as simple as it appears on the surface. When congress enacted the present temporary neutrality legislation, it provided that the embargoes, when and if laid, must apply to all. It gave the President no discretionary power to determine whether we wanted to use these embargoes as a weapon against one nation while aiding another. Mr. Roosevelt, in accepting the original legislation, said publicly that he believed he should have such discretionary power. This was in line with the conclusions of the Department of State which necessarily must be the President's adviser on matters of this kind.

Congress was criticized in many quarters when it made the embargoes applicable to all belligerents. Now, however, if we may judge from the word that comes to Washington, sentiment seems to be swinging in the other direction and there certainly is a considerable, if not a majority, sentiment for use of the mandatory provision as distinguished from the extension of discretionary authority to the President. To say it another way, the sentiment appears to be in favor of making the embargoes applicable to all belligerent powers and just to one

nation whose claims our government may believe to be unjust.

It is safe to say that before congress determines definitely what the permanent policy shall be, there will be bitter debate. In examining the problem, it is to be remembered that when the government lays an embargo against all nations at war it takes away possibilities of tremendous profit. This profit accrues to those industries by which sustaining war materials are produced. Neutrality legislation, therefore, may prove costly, not as costly as war, perhaps, but nevertheless a costly action. Hence, there is no question that many lines of commerce and industry are going to be drawn into the preliminaries of this decision.

To explain how disturbing to certain lines of industry this thing can be, it is only necessary to recall events of the last month or so in connection with the sanctions proposed by the League of Nations. The League has tried to force the dictator, Mussolini, to withdraw from Africa by the use of embargoes, which is what sanctions are. The League proceeded with considerable vigor until it reached the question of oil. Immediately, shoes began to pinch and the feet that were pinched were in every country where oil is found, even our own.

As a result, they have led the oil horse up to the watering trough from a half dozen different approaches but they have not yet been able to make him drink. Our own oil interests have not been quiescent. If the league bans oil shipments to Italy, the United States, which is not a member of the league, obviously will do likewise. Profits of the oil companies and the hundreds upon hundreds of thousands of shareholders would be cut.

Further, Mussolini has announced publicly that imposition of the embargo upon oil would mean war. He did not say with whom he would go to war but the British and the French know and they are getting ready. The British has its entire home fleet in the Mediterranean at this time and the Blue Jackets aboard the British men of war have been drilled thoroughly anew in the science of manning their big guns.

So it is seen how delicate this whole circumstance is. It is plain that when congress deals with the neutrality legislation, it is moulding a pattern over which there will be undoubtedly an alignment among our citizens as sharply drawn as though it were a purely domestic question. There will be those, of course, who favor a permanent policy which will make it mandatory upon the President to apply embargoes against shipments of anything usable in war and treat all nations engaged in war alike. There will be set off against this sentiment those who think the Chief Executive should have discretion, any power and that the government should not be placed in a strait-jacket from which it cannot extricate itself without congressional action. Whatever the conclusions may be and whatever form the new legislation takes, it remains as one of the most important policies to come before congress in many moons. Whatever is done necessarily will be a precedent toward which future generations will look as time goes on whether civilization becomes more enlightened or not.

The Treasury, operating on a fiscal year that runs from July 1 to June 30, has just passed the half-way point in the current 12-month period. The figures show that its receipts are lagging far behind the expenditures and demonstrates the necessity for cutting down the federal outgo unless the nation desires to see its public debt go far beyond any total hitherto conceived.

The official Treasury statement as of December 30 shows that the government has spent approximately \$1,850,000,000 more in the first six months of this fiscal year than it received in taxes and other revenue.

In consequence of this deficit, the public debt is now approximately \$30,000,000,000, the highest point it ever has reached and that total is roughly two billion dollars higher than the public debt as it stood last July 1 when the present fiscal year began.

Since the expenditures were so much larger than the receipts, the Treasury has been operating on a basis that, reduced to the minimum, shows an outgo of about \$1.96 for every \$1.00 collected in revenue during the first half of the current year.

Many Arson Fires

In the United States today, a house or other structure is willingly set on fire—for insurance, excitement or revenge—on an average of once every 103 minutes, despite the fact that arson fires are usually easy to detect and the punishment is severe. In six states conviction calls for the death penalty, and in 14 others, it results in either life imprisonment or a 20-year sentence.

The Washington monument is 555 feet 5 1/2 inches in height. The base is 55 feet square, and the top is 34 feet 6 inches square.

## Winter-Born People Found Lower in IQ Than Others

Are people born in the winter as intelligent as those born in the summer? No. At least, Prof. Rudolph Pintner and Dr. George Forlano, psychologists of Teachers college, Columbia, report in the Journal of Educational Psychology a study they made of the intelligence quotients—now known as the IQ's—of 17,502 children and young people, and they found those born in the winter had a slightly but consistently lower score on intelligence tests than those born during the other months.

## Glaciers in United States

## Are Rapidly Melting Away

The largest glacial system in the continental United States, exclusive of Alaska, is rapidly melting away. It is the Mount Rainier system, comprising 28 glaciers with an area of nearly 50 square miles.

C. Frank Brockman recently pointed out in American Forests that Ninety, third largest and most accessible of the group, is receding at an average rate of 72 feet a year.—Literary Digest.

## I'M SOLD

It always works

Just do what hospitals do, and the doctors insist on. Use a good liquid laxative, and aid Nature to restore clocklike regularity without strain or ill effect.

A liquid can always be taken in gradually reduced doses. Reduced dosage is the real secret of relief from constipation.

Ask a doctor about this. Ask your druggist how very popular Dr. Caldwell's Syrup Pepsin has become. It gives the right kind of help, and right amount of help. Taking a little less each time, gives the bowels a chance to act of their own accord, until they are moving regularly and thoroughly without any help at all.

Dr. Caldwell's Syrup Pepsin contains senna and cascara—both natural laxatives that form no habit. The action is gentle, but sure. It will relieve any sluggishness or bilious condition due to constipation without upset.

## SYNOPSIS

As Alan Garth, prospector, is preparing to leave for his mining claim in the Far North, a plane lands at the airways emergency station. It is Burton Ramill, millionaire mining magnate; his daughter, Lilith, and Vivian Huxley, pilot and mining engineer. Believing him to be only an ignorant prospector, the men offer to make an air trip to Garth's claim, although they refer to his samples of platinum-bearing ore as nearly "worthless." Lilith Ramill, product of the Jazz age, plainly shows contempt for Garth. Through Garth's guidance, the plane soon reaches the claim site. Huxley and Ramill, after making several tests, assure Garth his claim is nearly valueless, but to "encourage" young prospectors they are willing to take a chance in investing a small amount. Sensing treachery ahead, Garth secretly removes a part from the motor of the plane. Huxley and Lilith return, but their tone soon changes when they try to start the plane. Returning to shore they try to force Garth to give up the missing part. Garth manages to get the monoplane afloat and the current carries it over the falls. He points out that he is their only hope in guiding them out of the wilderness. Garth begins the work of preparing for the long journey. He insists that the others help. Ramill and his daughter must be hardened for the hardships ahead in their trek to the outpost on the Mackenzie. Garth experiences difficulties in getting his companions into line. An experience with a bear helps. Returning from a long sleep in the woods, Garth finds the party has stolen the tea and sugar he has been saving for emergencies. He makes no objection, simply pointing out that he is accustomed to a strict meat diet, and that they are hurting only themselves. The work of getting ready for the trip continues. Huxley refuses to help, and works on the mining claim.

## CHAPTER V—Continued

No man of the engineer's coldly calculating character would stop at anything, when the stakes of the game meant a placer worth a million or more. Mother Nature could now be counted on to keep the spoiled heiress in line. But the Wild would only sharpen and intensify the engineer's craft and avarice.

After eating his fill, Garth took to Huxley's bed, beside the smudge-fire. He awakened to find that the sun had taken its northern dip and was just slanting up again above the mountain crests. It had been under much longer than in June. The summer was getting well along.

Huxley had stayed on watch to keep the fire going. He met Garth's off-hand good morning with a show of civility. His cool reasoning had brought him to the realization that nothing was to be gained by upstaging Garth.

When Miss Ramill left the hearth, Garth stooped under the low roof and began to rub her father's knees and hips. The millionaire groaned that he had been stricken with a terrible attack of lumbago and rheumatism. It was impossible for him to move.

Headless of the plights, Garth rolled the complainer out beside the cold baked leg of moose. The "sick" man ate more than either his daughter or Garth. Afterwards, insistent urging and the promise of an easy work-out persuaded him to get on his feet. They wandered around through the woods, with frequent pauses in the glades.

When, several hours later, they returned to camp Miss Ramill had completed one moose skin and was dogmatically stiteling at its mate. Huxley came down from the trough with the gold pan. Garth melted the last of the moose fat in it and tried a heaping mess of mushrooms. For salad, he shook a quantity of pleasantly acid sorrel from the bottom of his pail. With berries for dessert, the meal became a banquet. While it lasted there was a general glow of good feeling. Even Huxley spoke pleasantly to Garth.

As before, Garth turned in at the same time as Mr. Ramill. He awakened to find the first pair of moose skins finished. The girl had met his terms.

He gave Huxley the moss bed, and started to collect flintlike stones, as heavy as he could find, to use as a cache platform, he strung the slices of meat on rawhide thongs. Raking aside the smudge-fire, he stood on the rack and tied all the meat close up under the cache platform.

He then climbed upon the platform and piled the stones on the tie-things where they came around the poles. That would keep wolves or other pilferers from gnawing the rawhide to let the meat fall. No fourfooted creature could now get at the meat on the under side of the platform, and even ravens would have difficulty stealing much of it. To complete the job, Garth pulled off the cross poles of the smoke rack.

For breakfast, the party finished the baked leg of moose. As Garth had foreseen, his three city camp mates had developed camp appetites. Their craving for drink and tobacco had begun to lessen.

At timberline Huxley went up the trough with the gold pan. Garth headed again for the glacier. This time Mr. Ramill did not want and was

so hard, nor did he have to stop so often to rest. The first climb had done more than strengthen his wind and flabby muscles. It had burned up the autotoxins in his system as well as sweat off many pounds of fat.

He managed to climb all the way to the lower end of the glacier. It took him less time than his part-way climb and he was far less exhausted. While he rested in a sunny nook on the rocky side of the lateral moraine, his daughter went down in front of the glacier with Garth. They came to the channel where the milky stream gushed out of a tunnel cave in the blue-white ice.

Garth pointed to a shelf of rock on the near side of the stream. He walked into the cave along the smooth, polished ledge. Lilith Ramill shuddered and glanced up fearfully at the steep overhanging ice face that seemed about to crash down. Yet after a moment's hesitation, she followed Garth into the chilly blue shadow of the cave.

Several yards from the entrance Garth stopped before a narrow side hole that opened above a waist-high uprise in the bedrock. He reached in and picked up a bundled white skin. Out in the sun he opened the skin and showed a piece of frozen meat.

"How's that for cold storage?" he said. "Killed a young mountain sheep on my way out last month. Thought I'd test the glacier. Looks as if it's a safe meat house. No chance of spoiling, and not even a wolf has ventured inside."

Miss Ramill said nothing. She saw no reason to consider the cave of the slightest interest. There was, however, the meat. She suggested that if it was not spoiled, it would make a change from the moose meat. This proved true. Down at camp the young trapper was first thawed in cold water, then stewed in the gold pan.

The descent had been made by Ramill without aid. There was no need to support much less back-pack him. He had really begun to get a start in training. To Garth this was all the more reason for pushing the millionaire so much the harder.

In the week that followed, he alternated more climbs with trips around into the muskeg swamps. He led his sweating, swearing charge over niggerhead grass, where the heavy-bodied city man had to jump nimbly from one big tussock to another or take a tumble.

Miss Ramill tagged along on these grueling hikes. She also made an effort to climb up the gulch. Garth, crouched in the cave the hundred pounds of smoked moose meat he had brought up on his pack board. He then led on up the glacier, halfway from its foot to the top of the pass. That gave the three climbers some real ice work. Coming back, Garth knocked three brace of foot hens from spruce limbs with a stick.

The half dozen grouse made a pleasant change. But even with a pail of salmon berries for dessert they proved a scant meal for the four meat-eaters. The leg of moose had already been broiled and eaten, the tongues broiled, and the second moose stewed. The remainder of the smoked meat would not last long. So far, Garth had not interfered with Huxley's all-day panning out of the platinum alloy. He had not even asked to look at the take of precious metal. Food was a different matter. Instead of shooting another moose, he called upon Huxley to join in a caribou hunt.

A band of the big animals had drifted along the tundra terrace over towards the glacier. Garth counted fifteen. He waited until the band came within seventy-five yards. He then let drive, shooting rapidly yet with careful aim. One after another dropped, each with a bullet through the head. The stupid beasts stared in the direction of the sharp reports. But they could see nothing. The sixth went down before the nine survivors wheeled and clattered off in panic-stricken flight.

The flying was well under way when Huxley and Miss Ramill came hastening afoot the tundra ahead of Mr. Ramill. The girl eyed the clean delicious-looking white fat on the first flayed body. "That looks good, Alan! Vivian, you can go back to your mining. Dad and I will help here."

Her father called out a panning suggestion for Huxley to wait and carry down a load of meat.

"No need," Garth said. "Don't stop. Huxley. Most of this venison is going on ice. None will be allowed to spoil."

The engineer did not linger. He had looked none too well pleased over the girl's familiar use of Garth's first name. Along with his displeasure about this, there could be no doubt of his eagerness to get back to the platinum panning. Each successive day he had shown himself still keener to continue the sampling of the placer.

When Garth finished the flaying of the caribou, he started to dress out the bodies. Greatly to his astonishment, at the cutting up of the second caribou, she took the belt-ax and began to help. Mother Nature had cracked the polished shell of artificiality in which the pampered heiress had been en-

cased. The girl's few days in the Wild had awakened primitive instincts ground deep into the nature of woman during the remote past of mankind. Down through countless ages her prehistoric ancestors had learned the bitter lesson that, in the Wild, days of plenty are certain to be followed by days of famine. The cave man hunted the meat; the cave woman hoarded what she could of it against the time of want. Otherwise her children starved.

So, upon reflection, Garth's amazement passed. He had managed to cover it, even at the first, when Lilith Ramill took the belt-ax in her slender hand and severed the neck bone of the caribou with a single blow.

Her father was the one who stared. He sat watching the girl's quick, eager wielding of the hand-ax, his mouth slack, almost agape. Garth could only surmise how she had always been coddled and pampered. Her father knew it. He knew how, since her childhood, she had been wrapped about with silken luxury, waited upon by attentive servants, petted and spoiled.

The millionaire had been born on a farm. He could recall seeing his mother help butcher sheep and hogs. But she was a farmer's wife. Lilith would not have known how to prepare a spring chicken for the pan. And now she was cutting up caribou.

Aside from an occasional word of direction, Garth said nothing. When he finished dressing out the fifth carcass, he handed his knife to his eager helper, packed a load of meat, and carried it to the ice cave.

Down in the gulch bottom he chose a pot-hole stone that would hold perhaps three quarts. In the bowl he coiled a wick of twisted dry caribou

She Followed Garth Into the Chilly Blue Shadow of the Cave.

moss, piled in caribou fat, and lighted the wick. When the fat melted, the wick burned with a strong steady flame. Caribou ribs furnished a grating on which to broil steaks. The fat meat was deliciously tender, its flavor between venison and beef.

When even Mr. Ramill could eat no more, Garth carried the stone lamp into the ice cave. Upon his return, he had Mr. Ramill and Lilith look close at the caribou skins.

"You see they are hair, not fur. But every hair is hollow. Nothing is warmer than a caribou parka. In fact, the winter coat is too warm to be worn. That is why I killed six now, instead of one. You have never wintered in the North."

Mr. Ramill tensed as if provoked. "Wintered? You can't mean to infer you expect to stay on here. We have your promise to take us out."

Garth turned to meet the intent gaze of the girl's blue eyes. They looked as cold as the blue ice of the glacier tunnel. None the less, they had greaty changed since he had first seen them, over on the Mackenzie. They no longer showed a trace of their former cynical tiredness. The girl might be as hard as ever, but she was no longer bored or ennuied. For another thing, she had begun to lose her excessive thinness.

He answered her father: "You have my promise—more's the pity. A winter in an Eskimo would be a wonderful experience for Miss Ramill. However, she will of course prefer to go back to jazz and cocktails, to paint, powder and lipstick."

She flared: "And rid of you?" "To be sure. That above all else," he agreed. "So how could I deprive you of that pleasure, or fail to give your father and your fiancé another chance to bask in the glow of my placer claim? I agreed to get you back to the Mackenzie. When we reach the old post, we part company. You and Huxley will then be free to go as far as you can."

"But in that case—No, you can't make me swallow it. I know you're not such a fool as to risk losing that placer."

Garth laughed outright.

"What d'you take me for? Your brand of gold-digger? Gad, that's the rubbin' of it all. It's the reason why men like you and Huxley lose out. You worship the golden calf. Yet what value is there to riches other than what you get from them? Can you think of a more enjoyable game than playing draw poker, with our lives in the jackpot, and Fortune dealing us the cards of chance?"

"What's the catch?" inquired Miss Ramill, with a sudden upwelling of her sophisticated cynicism. "Lives in the jackpot—that means nothing. It's your placer that's in the pot. What stakes do you consider we have in to balance it?"

"That would be telling," he teased. "You'll know if I win. If I lose, it will not matter to any of you what you've risked. The showdown may come sooner than I expected. Your father is already in fairly good shape. We'll start the trip out as soon as these caribou skins have been tanned."

## CHAPTER VI

## Hell in the Muskegs.

Garth sat beside the camp fire, sewing new mocassins for himself. Nearby, the millionaire dealer in mines and his fastidious daughter scraped the raw sides of the six caribou skins and rubbed them with the tanning mixture of fat, liver and brains. Garth had told them they could either tan the skins, or wait for him to do it. Until the tanning had been finished, the trip out would not begin.

Mr. Ramill was so keen to start back for civilization that he went at the disagreeable task with energy and determination. Lilith not only worked as vigorously as her father, she showed a real interest in the tanning.

Huxley took no part in this preparation of the skins. When he came down to the camp from the platinum placer, the sight of his fiancée's doing such squaw work struck him speechless. He stared in blank amazement. When at last he found his voice, he started to threaten Garth:

"You've gone a bit too far, you roughneck. Stand up, or I'll kick you up. I am going to—"

The girl broke in, with cool scorn: "Tune off, old dear. You're set on static. It's not interference we want. Dad and I are giving this performance under our own direction. You see, it's a bargain. Alan agrees to start our trip out just as soon as these skins are all tanned."

The mining engineer drew back. "So soon as that? My dear girl, if he's going to rush us off, I don't see how I can spare any time here in camp. I haven't yet sampled all the area of the placer."

(TO BE CONTINUED)

## Manure Most Important in Aiding Plant Growth

The chemist's analysis of a short ton—2,000 pounds—of well rotted barnyard manure reveals that it is made up of 1,500 pounds of water and 500 pounds of dry matter. This 500 pounds of dry matter contains approximately ten pounds of nitrogen, five of phosphoric acid, 13 of potash, eight of lime and five of sulphur—a total of 41 pounds of chemical matter, or "humus." In addition, it contains a supply of certain bacteria and other microscopic organisms which are essential in effecting changes in the soil—the "breaking down" of chemical compounds existing in the soil into simpler and more soluble forms.

In other words, manure is so valuable in gardening because it provides, combined in this one substance, three distinct soil aids: first, small amounts of the main plant food elements (nitrogen, phosphoric acid and potash) and also of lime (not a food element but a "digestion accelerator" in the plant's diet); second, a supply of humus or organic matter which helps to change any uncoagulated, unresponsive soil into moisture-holding, friable, productive loam; and, thirdly, an active, thriving population of bacteria beneficial to plant feeding and plant growth.

## Pressed Wood

Pressed wood, especially the tempered grade, has almost unlimited uses in home improvement and decoration. One woman used it effectively to replace the bottom of a piano bench that had fallen out long ago; and now the music is no longer scattered in window sills and on chairs. This same material was used to cover the unsightly top of a general utility table. Made entirely of wood and being warp-proof and moisture-resistant, pressed wood is sturdy; it yields easily to the saw and does not chip or crack under pressure of nails or screws.

## U. S. Public Health Service

The United States public health service official seal bears the date of its origin, 1798, when it was known as the Marine Hospital Service. The present name was authorized by congress in 1912.

## IS WAR MADNESS, OR ADVENTURE, AS YOUTH SEES IT?

The hovering threat of World war is protested in a document signed by more than 340 psychiatrists who warn that the world is drifting toward a war madness.

War means all destructive forces are set loose by mankind against itself, they assert. On the shoulders of the statesmen to whom the document is addressed, they place the responsibility for the developing war psychosis.

"The suggestive force of speeches made by leading statesmen is enormous and may be dangerous," they say. Whole peoples, swayed by the influence of the hypnotic words of their leaders—the cries of danger and of "atrocities"—may be carried away by hallucinations and delusions and become neurotic. Nations unbalanced emotionally and mentally!

The other side of the picture is also pointed out by psychiatrists. War provides an outlet for the destructive aggressive forces in man, ordinarily repressed by modern civilized society. For this reason many find release and a fierce joy in the cruelty and bloodshed of battle. These do not become neurotic. They have a glorious time. Laughter may be seen on the faces of the youths setting forth gaily for the "great adventure."

It has taken generations of stern discipline to teach man to master the impulses that lead him to anti-social conduct; to make him learn to work in peace with his fellow man toward a common good. If a World war takes the confining lid from the boiling cauldron of man's aggressive instincts, what will be the price to the future?—Science Service.

My Ideal Remedy for PAIN

"Though I have tried all good Remedies Capudine suits me best. It is quick and gentle. Quickest because it is liquid—its ingredients are already dissolved. For headache, neuralgia, or muscle aches."

## CAPUDINE

## Take the Time

Life is not so short but that there always time enough for courtesy.

## For Bad Feeling Due to Constipation

Get rid of constipation by taking Black-Draught as soon as you notice that bowel activity has slowed up or you begin to feel sluggish. Thousands prefer Black-Draught for the refreshing relief it has brought them. "My husband and I both take Theodor's Black-Draught and find it splendid for constipation, biliousness, and the disagreeable, aching, tired feeling that comes from this condition. With regular use of Black-Draught, which this mother gives her children, she says: 'They like the taste and it gave such good results.'"

## BLACK-DRAUGHT

## STOPS DANDRUFF

You need a medicine to really stop dandruff and the itching it causes. So stop experimenting. Use Glover's Mange Medicine and shampoo with Glover's Medicated Soap regularly. Satisfactorily stops dandruff.

WNU-F 3-36

## BEFORE BABY COMES

Elimination of Body Waste Is Doubly Important

In the crucial months before baby arrives it is vitally important that the body be free of waste matter. Your intestines must function—regularly, completely without gripping.

## Why Physicians Recommend

## Milnesia Wafers

These mint-flavored, candy-like wafers are pure milk of magnesia in solid form—much pleasanter to take than liquid. Each wafer is approximately equal to a full adult dose of liquid milk of magnesia. Chewing thoroughly, then swallowing, they correct acidity in the mouth and throughout the digestive system, and insure regular, complete elimination without pain or effort.

Milnesia Wafers come in bottles of 20 and 48, at 35c and 60c respectively, and in convenient tins for your handbag containing 12 at 20c. Each wafer is approximately one adult dose of milk of magnesia. All good drug stores sell and recommend them.

Start using these delicious, effective anti-acid, gently laxative wafers today! Professional samples sent free to registered physicians or dentists if request is made on professional letterhead. Sales: Post-Trade, Inc., 4202 23rd St., Long Island City, N. Y.

35c & 60c bottles • 20c tins

### Cabbage Fits Stalk;

### So Thief Is Taken

Louisville, Ky.—Frank Ruffra missed some cabbage and a cabbage was found in the car of Lewis Wells and Claud Smothers, but the task of identifying that cabbage as one of Ruffra's appeared an impossible one. Patrolmen Clarence Stickler and John Holsclaw, however, brought in evidence that sent the two suspects to jail. They took the cabbage and "tried it on" all the stalks at Ruffra's farm, finally finding one it fitted perfectly.

### PHYSICIAN ADMITS KILLING PATIENTS

### Helped Five Incurables Into Great Beyond.

London.—The London Daily Mail said an unnamed "elderly family doctor" has admitted taking the lives of five incurable patients.

In a letter to the paper, the doctor said:

"Five times I have taken lives. I have broken the law, and, circumstances being similar, I would do it again."

"I am prepared to face any tribunal in the land. My justification for what I have done is that humanity knows no law."

The doctor told how he strangled an imbecile infant and another infant with no cranium. He said he poisoned a farmer suffering incurable agonies, and ended the life of another man in the same way. Both, he said, died smiling, with their hands in his. The doctor also stated he had poisoned a third incurable patient.

The doctor said that in the case of the grown-ups he adopted the precaution of having the man, his wife and children sign a letter saying they wished his life to be taken to end his suffering. According to the letter, one man said before he died:

"God bless you, doctor."

The doctor's "confession" added:

"If I permitted a dog to suffer in the same way as I permitted these patients to suffer, I should be prosecuted for causing unnecessary cruelty."

"How much more, then, are we guilty of inhumanity when we permit humans to go on suffering when there is no hope of relief for them?"

The letter was written in the height of controversy over formation of a society seeking legislation to permit incurables to end their lives.

### Egyptian Husbands Can't Snap Wives on Beaches

Cairo.—In Cairo it has been decided that it is a "sin" for a woman to be photographed in a bathing costume by any man—even by her husband.

This decision was made by a "Shari" court—one of the Cairo courts with authority to decide lawsuits involving religious issues. It has won warm approval from orthodox Moslems.

The case on which the judgment was given was one in which a Moslem woman sued her husband for beating her and insulting her in public.

The husband was able to prove that his wife had committed the "terrible offense" of exposing herself on the beach in a bathing costume, allowing herself to be photographed in that costume.

Although the wife proved that it was her husband who took the photograph, the court's judgment read:

"This does not in any way absolve the wife, who should never have yielded to his demand."

The court then dismissed the husband, having found that he was fully justified in beating his wife.

### Trapped by "Truth Serum" Killer Makes Confession

Kansas City, Mo.—A confession elicited indirectly by a "truth serum" was the basis on which prosecutors prepared a murder charge against Lester Frisch, thirty-two.

He gave officers a signed statement implicating himself in the death of Mrs. Florence Harless, his paramour. While the statement differed in many respects from the story he told while under the influence of a drug, the similarity of the versions was marked, police said.

Many of Frisch's assertions made after he threw off the influence of the drug were drawn out by questions based on his subconscious narrative, questioners said.

O. P. Higgins, police director, said he was "highly pleased" with the outcome of the experiment with "truth serum," to which Frisch submitted willingly.

The woman's bruised nude body was found in the apartment she and Frisch occupied. He said they quarreled and drank heavily.

In his statement Frisch said he had no remembrance of the woman's head striking any hard object. Doctors said death was caused by a blow on the head.

### HONOR STUDENTS ARE ACCUSED IN MAIL FRAUD CASE

### Two College Graduates Are Indicted for the Selling of Fraudulent Stock.

New York.—Wallace G. Garland, Yale graduate and young financial genius, and his partner in business operations, Arnold C. Mason, honor graduate of Yale's Sheffield scientific school, were named defendants in the largest mail fraud indictment ever voted by a federal grand jury.

The indictment names 52 individuals, including one woman and 20 corporations, the majority of which were organized by Garland and Mason, and contains 42 counts of mail fraud and one of conspiracy spread over 77 pages of a typed copy of the bill.

It charges that between the years 1931 and 1934 the defendants sold \$4,500,000 in stock to the public which was and is worthless, and that representations made in these sales violated the federal mail fraud statute.

### In Business Eight Years.

According to Assistant United States Attorney James Murtagh in the indictment, Garland and Mason began their operations in 1927.

Garland finished Yale in 1925 winning high praise from Prof. Irving Fisher for his unorthodox and interesting financial ideas. Mason, the son of an officer of the Liggett & Myers Tobacco company, finished Yale with honors in 1927.

Garland at that time possessed a patent on an automatic signal device developed by his father, which would regulate traffic at road intersections. He and Mason organized the Automatic Signal corporation to promote the patent which was at that time valued on the books at \$7,500.

Garland later organized the Automatic Signal Acceptance corporation. The value of the patent then was boosted on the books to \$1,000,000. Garland later organized several subsidiaries, always raising the book value of his patent.

### Holding Firm Formed.

Finally, Garland organized the Public Service Holding corporation, the stock of all the subsidiaries was turned over to the holding corporation and an intensive campaign to sell its stock was begun in 1931.

By this time the value of the patent is alleged to have been raised to \$35,000,000 on the books, and salesmen for the stock, according to the charges, represented that it was controlled by the New Jersey Public Service company.

A flood of complaints to the Post Office department caused an investigation last summer which ended in the arrest of Garland, Mason, and others. In all 15 persons have been held in bail on mail fraud complaints by the United States commissioner and all of the Garland corporations have been banned by the state attorney general.

### Sisters Work as Sailors to Make Tour of World

Vancouver, B. C.—An attempt to work their way around the world in ships is being made by two young Vancouver sisters.

They are Clare M. Wilson, a school-teacher, and Katherine, a stenographer. They started out on the first lap of their journey aboard the British freighter Harnmaris, on which they signed as members of the crew, early last month. The Harnmaris will take them to Sydney, N. S. W.

From Sydney they hope to catch a boat to India or the West coast of Australia, work their way to South Africa and up the east coast of Africa and then go through Europe and England, returning by New York and Montreal.

The sisters said they had no special motive for undertaking the adventure, except for the desire to "see the world."

### Strange Things Happen When Lightning Strikes

Brookfield, Mass.—When lightning struck the ice house on Albert Plimpton's farm:

Son Lincoln spun around on the ground like a top.

A cake of ice and a pair of tongs were torn from son Edward's hand.

Son James was knocked down.

Son Albert, Jr., was thrown off a truck.

And Plimpton himself was knocked into a pile of sawdust.

### Even Thieves Read Ads; Like Beagle Hounds, Too

South Bend, Ind.—Harold Miller saw a classified advertisement offering a Beagle hound for sale and called at the home of Samuel Caprell to see the dog.

They went out to the garage to inspect the dog.

The garage, however, contained no dog, but stuck up in a prominent place was a clipped copy of the advertisement.

SYNOPSIS: A luxurious five-month cruise. These characters are aboard ship: Macduff, dour Scotman, single, of middle age; Miss Mudge, school teacher, spending the savings of 20 years; Angela, faithful wife of Lovat, 35; Dick Charlton, first officer; Clare, a person of experience; Joan, a dissipated flapper; Jenny, run-away wife, and Peter, Captain Harring, master of the ship and his son. NOW GO ON WITH THE STORY.

### THIRD INSTALLMENT

Miss Mudge seemed uncertain of herself and shot a birdlike glance along the table, but no one was paying any attention, except to push her out of the way. As soon as she felt the pressure of bodies around her, Miss Mudge took a handful of counters from her bag. She'd show Monte Carlo.

Macduff wondered how long she had been playing this game. He could see from the expression of her face that she had decided her counters were as good as anyone else's. She nipped her numbers with care and distributed them defiantly. The wheel spun, and she watched it with a puckered, myopic gaze. The counters disappeared with amazing speed and left no trace. Miss Mudge dove into her purse then show her head. Her grey straw hat was slipping over one ear from all the pushing and shoving, but she seemed in hilarious spirits, excited by her surroundings.

She suddenly spied Macduff and recognized him for some one from the Marenia. That was enough for her. In a moment, she was standing in front of him, twinkling owlishly through her glasses. "Just think, I've been losing all my money," she announced, as if that were an everyday occurrence in her life.

"Well, what of it?" said Macduff ungraciously. "Oh, I beg your pardon." Miss Mudge stepped back and he felt impelled to make grumpy amends. "Do you want a lift to the boat? I have a car."

She looked at him questioningly for

a moment, then brightened up. "That would be kind of you," she said.

Miss Mudge's elation faded as soon as her cabin door was closed. She sat on the edge of her bed and wondered if it had been an clever of her, after all, to have lost forty of her precious five hundred dollars. She hadn't intended to stake more than a quarter at a time, but she had won five dollars at the start, and that had seemed so exciting that she had gone on and on to ruin. "You're a fool, Alice Mudge," she told herself, severely. "You save and you scrimp for years and years, and then you spend \$25 at Madera for a Spanish shawl and lost forty dollars at Monte Carlo as if you were an heiress."

From now on she would have to be economical. Too much of her money was gone and she was only beginning the cruise.

Miss Mudge took out her diary and proceeded to record her impressions of the day. The Marenia was easing out of the harbor, and the lights were flickering like a forest of lighted candles. The coast line was slowly engulfed in the night and the boat began to toss in a Mediterranean storm. In a state of amorphousness on C deck, Jenny and Peter Rutherford were unpacking their things. Jenny stopped every few minutes to look a little tremulously at Peter, whose attention was all on what he was doing.

"Well, we're off!" His voice had a note of relief. "Perhaps you won't worry so much now, Jenny. There's nothing like the lift of a ship's anchor to lighten the heart."

Jenny moved to his side and slipped her hand beneath his chin. Her voice was hesitating. "Peter! You'll never let me regret what I've done. Your love will justify everything. You'll never let me down—not now, after what I've done." She clung to him, panic in her voice.

"Angie!" said Peter in his most convincing tones. "I shouldn't be running away with you if I were not prepared to spend the rest of my life in making you happy."

He tightened his hold and his

head dropped over hers. Her fears were lulled and her heart sang with sudden melody. She closed her eyes and sank limply in the circle of his arms. She dimly remembered the starved months of her marriage, and the hatred she had for her husband. There was nothing to regret where he was concerned. Her baby was another matter.

"Darling," he said, what are you thinking of?"

"Quite a lot, Peter." She dragged her thoughts back to the present. "I'm seeing myself as a small and selfish worm, in fact, I'm seeing myself as I am."

Peter could detect the fright in her voice. He laughed at her. "Mordant again! I wish you wouldn't analyse yourself so much. You know, if you keep it up, I shall regard you as a little egotist. Women all are, or they wouldn't think that what they do matters so much."

He leaned over her absorbed face and kissed it to healthy glow. "Be gay, my child, and forget about yourself," he implored her. "We're only beginning, and you mustn't feel like this. Let's go out and look at our shipmates. They're sure to be terrible."

The ship was en fete. Chinese lanterns swung on the after-deck, the orchestra played an old Viennese waltz and the sky was powdered with yellow stars four evenings later as the Marenia sailed. The moon hung low in the sky, like a golden guinea. It was an old story to Dick, leaning against the rail smoking a cigarette and watching with cynical interest.

His attention wandered over the dancing couples. He wasn't interested in pretty girls at the moment, but he was supposed he had to dance with some one. Men were so scarce. His glance came to rest on the little teacher from Cabin 454. She was sitting by herself in a corner, enveloped in a Spanish shawl, with poppies too large for her size.

The handsome officer she had seen about the boat was moving in her direction. "Won't you dance with me?" asked Dick, bowing formally over her. She snatched at the fringe of her shawl and looked at him in confusion. She was much too nervous to rise to her feet.

"Oh, do come on," he urged her. "This is a good tune."

A flock to nervous fears went chasing one another across Miss Mudge's sensitive face; then she stepped suddenly in time with the chief officer's, and he had her firmly clasped by the Spanish shawl, whirling her around with such speed that she soon forgot about her feet.

Miraculously Miss Mudge's step was suddenly in tune with the chief officer's, and he had her firmly clasped by the Spanish shawl, whirling her around with such speed that she soon forgot about her feet.

When the music ended, he led her back to a little table. She looked about with an elated air. "What will you have to drink?" asked Dick, disentangling himself from the fringes of her shawl and spring her pink chiffon dress.

Miss Mudge blushed. "Thank you, I don't drink. I never drink. You see, I'm a White Ribboner."

"A what?" echoed Dick. "A White Ribboned—teetotaler, you know."

"Oh, I see. Band of Hope?" He looked at her with a rising gleam of interest. She was really unique—her spirit twinkled brightly through the faded shell of her flesh. It would be fun to tease her a little.

"But you can't possibly go round the world without having a drink," he protested. "It wouldn't be decent to let me order you something while that won't be."

Miss Mudge was half-perplexed. Lights leaped in her eyes, she nodded her head. Dick decided to get her a creme de menthe. She sat very straight in her chair, with her hands folded nervously under her shawl. At times she shot timid glances at her companion, not quite sure what he might be going to do next. The drinks came, and Dick toasted her. "Happy days on the Marenia!" he said.

Miss Mudge had never been toasted before, but she smiled, said thank you, and took a swallow. There wasn't very much of it—such a little glass. It surely couldn't go to her head. Suddenly she giggled and set down her drink.

"What's up?" Dick enquired. "Oh, I was just thinking of Ontario."

"What's Ontario?" "Ontario, Wisconsin—the place I came from." She seemed to be saying, "It isn't possible that you haven't heard of Ontario."

"Nice place?" "Very. I teach there, but I'm having a sabbatical year to see the world."

"I hope you won't be disappointed." "Oh no!" Miss Mudge's voice was fervent. "It's wonderful!"

The music had started again, and his companion's face waved eager signals across the table. He swung her to her feet and they danced again—a waltz this time. She clung to him more confidently now, and he smiled down at her as if she were the only woman in the glittering salon. He took her back to her seat and made his adieux, covering her embarrassment with his protective arm. Should she go on sitting where she had left her, or should she slip back to her quiet place by the wall? The chief officer was dancing now with Miss Foster. Her lovely arms were twined around his neck. Nevertheless, he remembered Miss Mudge, sitting alone in her corner, and tossed her a scarlet balloon. She held it aloft for a moment and smiled at him. Then she let out the air and put the deflated bubble in the black satin bag that Agatha had given her for evening wear. Her first souvenir!

Clare, an enticing Cleopatra, was still dancing with Lovat, a Spanish grandee. Angela watched them with her creme de menthe frappe. She could see that her husband's fingers were deeply sunk in an exquisite back. At last he relinquished his partner and moved smoothly towards her.

"How about turning in, Angela? You're looking tired. His voice was solicitous. She was suddenly ravaged under her make-up.

"I am, rather. Dancing at sea makes me very tired—the strong air, I think, and the bumpy deck."

"But you've scarcely danced at all, Angela," said Lovat, a little crossly. "Yes, but I feel those things, Lovat darling."

She went below and unhooked her peep costume. She took off her powdered wig, but it was scarcely whiter than the smock hatched beneath it. Turning her back on Lovat, she slipped into the loveliest of her negligees, black lace over apricot chiffon.

"You'll be gone from me in five days," she told him. "I wonder if you will miss me when you are back in England."

"I shall simply be lost without you," he assured her. "Ah, Lovat," Angela's voice was a sigh. "How I shall miss you! Besides, I shall be five months older when I come back."

"You'll always be the same to me," he said, and stooped to kiss her hand. She leaned over his head and her lips brushed the dark lacquer of his hair. The mirror revealed the widening path that stretched between the sight of his youth. "Whatever happens, I shall still adore you," she said.

Lovat studied her as she lay on the pillow—the tenderness of her mouth, her sensitive nose, the way her hair swept back from her ears; but the mask of age was set as she lay in the semblance of sleep. He slipped into his dressing-gown and sat with a book under the shaded light. Half an hour passed and he scarcely moved. At last he was sure of her regular breathing and the relaxed look of her face. She must be asleep.

He put down his book, snapped off the light, stole to the door and through the curtain that flapped as the ship rode noisily on her way.

### WEAKS-CARR

A marriage of much interest to a wide circle of friends in Kentucky and Tennessee was that of Miss Mary Neil Carr to Leslie Hunter Weeks, which was quietly solemnized at the home of the bride's parents Saturday afternoon at five o'clock.

The ceremony was performed by the Rev. E. N. Mathis, pastor of the First Methodist Church of Fulton, in the presence of only the members of the immediate families.

The bride wore a costume suit of dark green with fox collar and accessories of brown. Her flowers were tulle roses and valley lilies. The bride is the daughter of Judge and Mrs. Herbert Carr. She received her education at Gulf Park College, Gulfport, Miss., and at Hamilton College in Lexington, Kentucky.

The groom, son of Mrs. P. H. Weeks, is a member of the firm of P. H. Weeks Sons, is a graduate of Vanderbilt University, a member of D. K. E. Fraternity, is an active member and former president of the Fulton Country Club.

The couple left immediately after the ceremony for a trip to Florida and the Gulf Coast.

### FAREWELL PARTY FOR MARGARET CURLIN

Mrs. Robert Whitehead was hostess to a well planned bridge shower Saturday afternoon, honoring Miss Margaret Curlin who will move to Hickman soon. Two tables of players were present. At the conclusion of the games high score was held by Mrs. Uel Killebrew who received bath powder. Miss Jane Scates held second high score and was presented an attractive cigarette holder.

Late in the evening the hostess served delicious refreshments to the following guests who presented Miss Curlin with many beautiful

gifts: Mesdames Joe Hall, Uel Killebrew, Glynn Bushart, Misses Jane Scates, Sara Callahan, and Martha Moore, Mesdames Don Gardner and Carlyle Kirkland, both of Union City.

### TEN DAYS IN FLORIDA

Mr. and Mrs. John Koehn and Mr. and Mrs. William Clifford of Indianapolis, Ind., left Monday for Miami, Fla., where they will spend about ten days. They will return by way of Washington where they will visit the many interesting points of that city.

### McCAMPBELLS LEAVE FOR MONTGOMERY, ALA.

Mr. and Mrs. R. H. McCampbell left Fulton Sunday for Montgomery, Ala., where they will move this week end to make their future home. The children, Julia, Lucille, John and Bob, will leave at eight o'clock Saturday morning. They will be met in Birmingham, Ala., by Mr. and Mrs. McCampbell and will make the remainder of the trip by motor.

The McCampbells have made many friends since their stay in Fulton who regret their leaving.

### WEEK END AT BEAVER DAM

Mrs. W. L. Taylor went to Beaver Dam near Princeton, Ky., last week end to spend several days with her husband who is located there. She will return to her home in Fair Heights the latter part of this week.

### UNEDUS CIRCLE MEETS

The Unedus Circle of the First Methodist Woman's Missionary Society met Monday night, January 13th, with Mrs. Wallis Koelling at her home on Fourth-st with Mrs. L. C. Adams, assistant hostess. The meeting was opened with prayer by Miss Ava Nelle Green. The president, Mrs. Wallis Koelling presided over the business session. The minutes were read by the new secretary, Miss Lena Evelyn Taylor, which were approved. Mrs. George Moore gave the treasurer's report. Business activities for the coming months were discussed during which a discussion was held of the "Holland's Magazine" campaign. Subscriptions to this magazine will be sold by this group from the dates of February 1st to February 22nd.

Miss Marguerite Butts, program chairman, made a very interesting report on the Young People's Conference of the Methodist church held in Memphis, Tenn., last week which she attended. She made a very interesting review of the lecture given at this meeting by Kagawa who is known as the "world's greatest Christian," and who is making a world tour.

The very interesting Bible study lesson was given by Mrs. John Daniels.

At the close of the program the pledge service was held which is enacted at the beginning of each year. The meeting was dismissed with prayer by Miss Mildred Graham.

The hostesses served a delicious dessert course to twenty-two regular members, two new members, Mrs. Robert Bard and Mrs. Ernest McCollum, and these visitors, Misses Margaret King, and Julia McCampbell, Mrs. Finis Houston and Mrs. C. D. McIntosh.

### THURSDAY NIGHT CLUB

Mrs. George Moore delightfully entertained her bridge club Thursday night at the home of her mother, Mrs. Moore Joyner, in Highlands. Three tables of players were present which included regular club members with a number of

visitors. Several games of progressive contract were enjoyed at the end of which high score among the club members was held by Miss Adolphus Mae Latta who received lovely hose, as prize. Miss Mary Anderson held visitors' high score and was presented beautiful linen handkerchiefs as prize.

At a late hour the hostess served a lovely salad plate with coco cola to the members and following guests: Misses Sarah Helen Williams, Julia and Lucille McCampbell, Mary Anderson, Martha Moore and Mrs. Gene Moon.

The club will meet Friday night January 17 with Miss Eunice Rogers at her home on Central-av.

### TUESDAY NIGHT CLUB

Mr. and Mrs. Gracy Varden were host and hostess to their bridge club Tuesday night at their home on College-st. Two tables of club members were present and enjoyed games of progressive contract throughout the evening. At the end of the games high score prizes were presented to Mrs. Ernest McCollum and Mr. Virgil Davis. Both received lovely gifts.

At a late hour the hostess served delicious sandwiches and tea. Mr. and Mrs. Ernest McCollum will entertain the club at its next meeting.

### SUNDAY AT SHILOH PARK

Mr. and Mrs. John Daniels, Miss Lucille Green and Monroe Luther spent Sunday at Shiloh National Park and Muscle Shoals. They returned to Fulton Sunday night.

### THURSDAY AFTERNOON CLUB

Mrs. Clyde Williams was hostess to her afternoon bridge club last Thursday at her home in Fair Heights. Three tables of players were present which included two tables of club members and one of guests.

Serial games of progressive contract were enjoyed after which high score among the visitors was held by Mrs. Hardeman Howard of Chicago, Ill. Mrs. Bob White held club members' high score. Both were presented beautiful prizes.

Late in the evening the hostess served a lovely salad plate.

### TUESDAY NIGHT CLUB

Dr. and Mrs. Seldon Cohn were host and hostess to their bridge club Tuesday night at their home on Carr-st. Three tables of club members were present and enjoyed

games of progressive contract. At the conclusion of the games high score among the ladies was held by Mrs. Abe Jolley who received lovely handkerchiefs. Mr. Charles Binford received hose and gentlemen's high score prize.

Delicious nuts and candies were served at the card tables during the evening.

Mr. and Mrs. Vester Freeman will entertain the club next week.

### TUESDAY LUNCHEON CLUB

The Tuesday Luncheon Club was entertained by Mrs. Joe Davis at her home on Eddings-st. Two tables of players were present and at one o'clock a delightful luncheon was served at the card tables.

Several games of progressive contract were enjoyed at the end of which high score for the afternoon was held by Mrs. Abe Jolley. She was presented a lovely hot roll cloth.

Visitors to the club were Mrs. Vester Freeman and Mrs. Charles Binford. Mrs. Vester Freeman will be hostess at the club's next meeting.

### THURSDAY NIGHT CLUB

Mrs. Harry Murphy was hostess to her bridge club Thursday night at her home on Second-st. Three tables of players were present and participated in the games of progressive contract. Visitors for the evening were Mr. and Mrs. Leslie Weeks and Mrs. Lois Hindman.

At the conclusion of several games high score among the ladies was held by Mrs. Hindman and Glynn Bushart held gentlemen's high score. Both were presented

lovely prizes. Late in the evening the hostess served a delicious course.

### WEEK IN MISSISSIPPI

Mr. and Mrs. George Doyle spent last week in Water Valley, Miss., where they attended the bedside of Mr. Doyle's father.
