DRESS UP WITH THE GLADSOME SPRINGTIME

One of the newest axioms which we have with us is the phrase, "Dress Up." As I write this, a young girl is sitting on the edge of her bed making up for her last visit to the beauty salon. She's wearing a new dress, hat, and shoes. She's even gone to the trouble of putting on makeup. It's amazing how such simple things can make a person feel so much better.

GREAT, NEW BUSINESS

SMITHSONIAN GETS VALUABLE MINERALS

Raw Collection is Left by Frederick Canfield.

Washington — The Frederick Canfield collection of the United States National Museum contains a large lot of raw minerals. It is the largest collection of its kind in the world. The collection was left to the Smithsonian Institution by its owner, Mr. Frederick Canfield, who was a wealthy man and a great lover of nature.

Because of this donation, the Smithsonian Institution now has access to a wealth of raw minerals that are of great scientific and artistic value.

The collection includes a variety of crystals, gemstones, and other minerals that have been collected from around the world. Some of the minerals are rare and valuable, and they are used in scientific research and for decorative purposes.

The Smithsonian Institution is a world-renowned museum and research institution that is dedicated to the study of the history, culture, and natural history of the world. It is located in Washington, D.C.

The collection has been catalogued and preserved so that it can be used for scientific research and for educational purposes.

The Smithsonian Institution is a great place to visit if you are interested in learning more about the history and culture of the world.

AIR DRIED CLOTHES

Do you realize what it means to receive a bundle of thoroughly dried clothes from a modern power laundry?

It means that at last the only remaining barrier between the housewife and the laundryman has been broken down. Because, now the modern laundry not only washes clean fresh air into the clothes, but also dries them so thoroughly, leaving them soft, fluffy and perfectly odorless. Clothes dried in this manner are never wrinkled, discolored or left with a harsh feel.

The Vorclone Tumbler used in our laundry is the only dry cleaning that does not depend solely on heat to dry clothes. It is the missing link in an otherwise perfect laundering process. It puts the work of the power laundry on par with that of the housewife's own private laundry.

Be sure to see this wonderful machine in our laundry anytime, feel and smell the clothes it dries, notice how fresh and sweet smelling they are.
