Party Shows New Strength In Vote Gains

Democratic, However, Still Have Control Of Senate And House

Republican gains in every broad section of the land—except in the south—fur- ther the expectations of party leaders for a successful Presidential campaign today and brought predictions of a re-election of the Roosevelt Administration next year in Congress.

For Tuesday's victory added to the majority of the nation's Governors, insured the party's membership in the House by more than 1,000, and gave the Senate an assurance of a majority there as well.

Cayce Citizen of Note Dies

Mrs. J. L. Melnyre, a well known lady of the county, died at her home in Cayce this morning.

Local News Plan Panel In Battle Of Progressivism

NEW YORK—Mayor F. P. LaGuardia hinted yesterday that his city may come into the ranks of the nation's Democratic leaders when the new administration takes over.

The only way that I can imagine the nation's Democratic leaders coming into the ranks of the nation's leaders is if the Democratic leadership of the city does not take an active part in the work of the city, and that is what I think the city's Democratic leaders should do.

In any case, I think the city's Democratic leaders should do their best to make the city a democratic city, and that is what I am trying to do.

The only way that I can imagine the nation's Democratic leaders coming into the ranks of the nation's leaders is if the Democratic leadership of the city does not take an active part in the work of the city, and that is what I think the city's Democratic leaders should do.

In any case, I think the city's Democratic leaders should do their best to make the city a democratic city, and that is what I am trying to do.

**No Danger Involved In Removing Moles**

**By EUGAN GLEHSDON**

**FULTON DAILY LEADER (FULTON, Ill.)**

"You have had one or more moles?" I have had one or two myself these past few years. It is definitely not dangerous to have moles removed, but it is definitely not a good idea to have one removed without consulting a doctor.

There are many people who have moles and who have had them removed without consulting a doctor. The trouble is that they may have been told by someone that they could remove them themselves. This is not true. The doctor must be consulted in order to determine whether or not the mole is malignant.

In a recent case I saw a man who had a mole removed without consulting a doctor. He was told that it was a malignant tumor. This was not true. The mole was benign and could have been removed without the doctor's help.

The doctor must be consulted in order to determine whether or not the mole is malignant. If it is malignant, then it must be removed immediately. If it is benign, then it can be removed at a later date.

In conclusion, I would like to say that it is definitely not a good idea to have moles removed without consulting a doctor. The doctor must be consulted in order to determine whether or not the mole is malignant.

Kitchens Feature Modernized Lighting

There are a number of things one can do to make a kitchen more functional and attractive. One of the most important is to have good lighting. The light should be bright enough to allow one to see clearly, but not so bright as to cause glare. The light should also be distributed evenly throughout the kitchen, with more light in areas that are used for cooking and eating.

There are many different types of lighting fixtures available, from simpleincandescent bulbs to morecomplex fluorescent or LED options. It is important to choose fixtures that are appropriate for the specific needs of each area in the kitchen. For example, under-cabinet lighting is ideal for over-the-counter tasks like cutting and chopping, while downlights above the countertops provide general illumination for the entire space.

To install new lighting fixtures, you will need to consider several factors, such as the type of electrical wiring involved, the location of the fixtures in relation to outlets and switches, and the desired style and appearance of the fixtures. Professional installation may be required, especially if you are dealing with older homes or older wiring systems.

The right lighting can transform a kitchen from a utilitarian space into a welcoming and inviting place for family and guests.

"News that is New"

The LISTENING POST

While the men in Washington were working on the program for the 1939-40 season, the men in the Senate and the House were working on the 1938-39 season, but the men in the Senate and the House were working on the 1938-39 season. This has been held in abeyance. The new board can proceed with the work that has already been done. The Queens Ball will be formally opened tonight in Paris barracks.

State Requires Export Licenses
On Liqueur, Wine

Large Crowed Hears Sermon

A serious problem has been facing the people of the world for some time. This is the problem of the export of whisky and wine. The state has found that the export of these liquors is necessary in order to finance the building program. A new building is urgently needed. The building department has been pressured to finance the building program, and the state saw that something had to be done.

The present board did this by issuing orders that no liquor or wine would be shipped until export licences were obtained. This has been held in abeyance. The new board can proceed with the work that has already been done.

Fulton:پیوندگیری فارسی برای سایت اصلی مجازی را به راحتی بگیرید، یا مراحل دیگری را برای سایت‌های جهانی دیگر انجام دهید.
Tom Mooney And Caleb Powers

The election of State Senator William A. Wilson in 1907 was a major political event in Kentucky. Wilson's victory was seen as a triumph of labor unions and their supporters, who had opposed the actions of Governor Culbert L. Olson. The election was seen as a victory for the working class, as Wilson was seen as a champion of workers' rights.

Democrats made an issue of Wilson's association with labor unions, and the controversy surrounding his election continued for years. Justice may have been served in the innocence of Tom Mooney, but the labor troubles were acute in California at the time. Violent reprisals followed the election of Wilson, and the issue of labor rights continued to be a focal point of political discourse.

Meanwhile, Governor Olson was re-elected to a second term in 1909, and the controversy surrounding the election of Wilson continued. The issue of labor rights remained a significant political issue, and the election of Wilson was seen as a turning point in the struggle for workers' rights in the United States.
