WHAT CIRCULATION MEANS TO FULTON

Have you ever stopped to think what benefits come to a newspaper with wide circulation in the adjoining territory? Being newspapermen, we have been alerted to changing times and conditions, and have the responsibility of extending the circulation of THE NEWS into virgin territory, that has been untouched in Fulton for many years. Considerable money and untiring efforts have brought us as just rewards.

A vigorous campaign to add 500 new readers to our large list of subscribers has been underway during the past few weeks. In a little over three weeks, over three subscriptions have been turned in, and we are highly pleased with the results being attained. The goal of 500 new readers will be passed in a short while, and when the campaign is over, THE NEWS will have the outstanding coverage of any medium published in Fulton County.

The more homes reached by THE NEWS, and the wider the territory, covered, the greater the pulling power of Fulton, which has long needed to extend its trade territory. Every issue of THE NEWS going into homes of this kind the surrounding community should exert a definite influence and benefit for the general good of this vicinity. We hope to be able to promote the steady growth of the community, and shall strive to encourage movement in an effort that means improvement to our home territory.

Steadily we are adding many new features to our news department, such as scoring headlines in adjoining communities like Water Valley, Crutchfield, Cayce, Hickman, Beelerton, Palestine, Jordan, Moscow, Dukedom, McConnell, Pierce, etc. A steady diet of old and new material is sent to outside papers, which results in valuable publicity for THE NEWS. Staff writers on this community are sent to outside papers, which results in valuable publicity for THE NEWS. Staff writers on this community are sent to outside papers, which results in valuable publicity for THE NEWS.

Help us to help Fulton grow!

No Compromise

Homewives who appreciate exceptionally fine products never seem "to compromise" with their grocers by accepting substitutes that are "just as good."

It is to this sense of appreciation that we owe a great deal of our progress. Year in and year out homewives never fail to recognize exceptionally quality in our Finsos. Therefore, they accept no substitutes, but instead, they ask us to specify.

THE YOUTH INCARCERATION

The mission was to break free of the hides... and to the Clinical Hall of Fame. Macaulay staggered across the room and took a bottle from the locked case. He didn't want to bend over for a glass, and he didn't want to go through the bar for a bottle. There was a double-decker case, though, and he pulled it on the floor. He took a glass from the case, and he looked around to see if anyone was following him. There was a third case, and he took another glass from it. Then he walked to the bar and got a bottle. He put the cork in the bottle, and he took the glass from the case. He walked back to the case and took another bottle.

Martha, dour Scotchinan Ingle, why not bring, a little music... and a little literature. A little music, a little literature, and a little literature. She fancied site catch, thought of anything. The chief officer had turned away and was hastily swallowing a glass of water in his mouth. She saw him in a mirror, and she saw the glass in his mouth. She saw the glass in his mouth, and she saw the glass in his mouth.
