## CONVENTION

Is Called by the Republican Committee to Nominate Candidates for County Offices.

The republican county committee of Calloway county met here last Saturday and formulated and issued a call for a county mass convention to be held in the town of Murray Saturday, May 22, for the purpose of nominating candidates for county offices. All known republicans will be entitled to participate in the mass convention.

The committee will convene again Saturday, May 8, and in case no contests arise for any of the nominations the committee will rescind the call for the mass convention and declare the announced candidates the nominees and place their names upon the ballot to be voted for in the regular election next November.

Nearly every precinct was represented Saturday and a harmonious meeting resulted. Many of the republican leaders expressed themselves as sanguine of success in the general election. They argue that only the cleanest men in the county will be nominated, men who are not contaminated with factions and who stand for a restoration of good feeling throughout the county.

To quote a well known republican of the Kirksey section who expressed his belief in the success of the ticket by saying: "Calloway must make a change if she ever expects to see former conditions restored. Factional fights and quarrels have destroyed property values, arrayed class against class, neighbor against neighbor, and the only salvation for the people is the absolute wiping out of old quarrels and the placing of men in office who are above reproach. We expect to win," he said, "for the reason that Calloway has about 600 republican voters, and before 1896 the present democratic vote was about equally divided between the populists and democrats. Of this number there are now hundreds of disfranchised democrats who will vote with us for clean men, and the populists, who always opposed primaries are sick and disgusted with recent political quarrels and will align themselves with us in a general political cleanup."

Name Didn't Save Him.

Paducah, Ky., April 22.—Death by drowning came to the man who claimed to have the longest name in the world. He disappeared Friday and confirmation of the drowning was obtained today by finding the body in Perkins creek near here. His full name was Arthur Hugh Thomas T. De Witt Talmage Hardin Ledy Lane Arland Linnie Marion Branch Samuel Jones Pigg Reuben Walker Chiles. He was the son of Rev. R. C. Chiles, superintendent of Rescue Mission of this city and each name stood for some minister of note.

Vernon Tinsley, of near Farmington, attempted suicide last Saturday by cutting his throat with a pocket knife. He was suffering with a high fever following a chill and while delirious made the attempt to destroy his life. He is a son of Chas. Tinsley and is about 22 years of age. He will recover.

## JONES RESIGNS

Steps Down as Local Salesman for the Planters Protective Association.

John J. Jones has tendered his resignation as local salesman for the Planters Protective Association, to become effective as soon as his successor is appointed and qualified to take charge of the business.

Ewing Farmer, one of the best known tobaccoists of the county, has been recommended by the county committee for appointment to succeed Mr. Jones.

A meeting of the county committee was held last Saturday at which time the question of Mr. Jones' resignation was considered and accepted, and Mr. Farmer was recommended for the place. Mr. Farmer has not yet fully decided to accept the place, but will make known his intention to the committee at an early date.

Utley Sues Attorneys.

Eddyville, Ky., April 27.—Suit has been filed in the Lyon county circuit court by N. W. Utley, ex state senator, against Henry Bennett and his attorneys, Wheeler Campbell, George D. R. R. and Carl Henderson, for \$10,000 damages. Utley was named as a defendant in Henry Bennett's suit against night riders. Utley denies this and says in pleadings that his name was placed on the petition not because he was guilty, but that it was an attempt to force him to pay money to them. The charge is sensational and borders on the line of blackmail. Mr. Utley formerly was state senator, and was one of the most prominent men mentioned as a defendant. Service has been secured on Henry Bennett and Wheeler Campbell.

## STILL "NIP AND TUCK" BETWEEN THE LEADERS.

Miss Rogers and Miss Chapman Fighting Hard For Lead In The Big Contest. Only Slight Difference.

Miss Chapman and Miss Rogers are still "neck and neck" for first place in the finish for the Ledger piano. But little was done the past week by either of the contestants and as a result no appreciable change has been made in the standing of the two contestants. Each is preparing for a final dash to win at the close which is not far distant.

In the city contest there is yet a promise of a close finish. Miss Opal Wallis and Mrs. Harris are now only a few thousand votes apart.

We expect to be able to announce a closing date next week and again publish the standing of the contestants.

If you expect to help your favorite don't put it off longer but do so today.

Boatright, Ky.

April is here once more and the king of blasts reigns supreme. At this season nature is unwrapped of her snowy pall and the blue skies are smiling down upon nature in her beautiful costume of new and fresh grasses and flowers.

I am proud at this writing there is no sickness of serious effect to report, or anything of a nature that is probable of resulting to the detriment of our good community.

The farmers of our community are very busy sowing grass, oats, planting garden seeds and doing chores. The blacksmiths and merchants are all doing a good business and the future outlook is promising to their avocation.

Owing to the health which our people are enjoying at present Dr. Wall, our diligent physician, is spending some of his time in taking sunbaths upon his farm.

Our school at Russell's Chapel, for which we feel both proud of and rewarded for, closed a few days ago and it is now our pleasure to express in truth, what our hope and pride were in the beginning of our school, and this truth is that on last day the entire scholarship was a unit in the statement of the fact that they had been greatly benefited mentally, morally and socially, which we feel is a fitting tribute to our community.

Our friends are not only aroused by the stirring appeals of temporal necessities but to spiritual ones as well. We have a Sunday school in session at the M. E. Church, we expect to be prolific in result. We feel that under the careful management of our Supt. Bro. C. E. Ligon, that is we, as parents and pupils, do our duty success is ours. May our Sunday school be such that when looked into through the eyes of faith our hearts will respond to God's message of good will.

We purport this year to be an eventful one with the good people of our entire country. Let there be not pains spared in our efforts for good, but keeping before the mind that education in any worthy cause is not manual but soul activity.

Worthily have the citizens of our county spent their money when paying the subscription price for the Ledger. The date of each subscription may be observed with pride and gratitude for the distinguished editor, Mr. O. J. Jennings, who by his earnest efforts has done much for the citizens of old Calloway. —HOPKINSVILLE.

IN THE RIGHT DIRECTION.

A move in the right direction was made at the meeting of the Stewart county members of the Association Monday to refuse the privilege of membership in the future to all who have deserted the organization and have done it all the harm possible by selling tobacco on the outside. If this measure had been adopted when the Association was organized much of the dissension and discontent which has existed during the past few months would have never been known.

The enemies of the Association on the outside have done a great deal less harm than those on the inside. Those who went in the organization because they were scared in have deserted just as soon as an opportunity came along and knocked at their door and opportunity did not have to knock but once either. At the first sign of danger these conscripts dropped bodily, lock, stock and barrel, and sold the crop of tobacco pledged to the Association on the loose floor or to any independent dealer who came along. An obligation to them meant nothing and their pledged word was broken as easily as if it had never been given.

We don't want the Association made up of that kind of people. A man who has broken his word once can never be trusted again, and the sooner the old organization is purged of this class with no hope of reinstatement the better off it will be. Every pound of tobacco pledged to the Association can be sold, no matter how much there is on the outside if it maintains its reputation for quality. The tobacco trust has made a bitter fight against the farmers, but the Association has now become such a fixture that it seems that it would be reasonable to suppose that the buyers of tobacco would prefer to make their purchases through one agency than through many. —Tobacco Planter.

## GOV. WILLSON

Grants Pardons to Taylor, Finley and Others Charged With Goebel Murder.

Frankfort, Ky., April 23.—Governor Willson at 6 o'clock this evening cleared the Kentucky court records of all charges growing out of the murder, in 1900, of Governor William Goebel, except these hanging over state's evidence witnesses of alleged conspiracy, by granting pardons before trial to fugitive Governor Taylor and Chas. Finley, who have been fugitives in the State of Indiana for nine years; to John Powers, brother of Caleb Powers, who is believed to be in Honduras; to Holland Whittaker, of Butler county; John Davis, of Louisville, and Zack Steel, of Bell county, under indictment and who did not flee the state.

Those over whom indictments are left hanging are Wharton Golden, of Knox county, now in Colorado; Frank Cecil, of Bell county now a railroad detective in St. Louis, and William H. Culon, of Owsley county, said to have died in the west a few months ago. These cases, with the possible exception of that of Cecil, will be dismissed, leaving Henry E. Youtsey, now serving a life sentence in the penitentiary, the only person to suffer for the taking off of Goebel.

Reiterating the belief he expressed some months ago, when he granted pardons to Caleb Powers and James Howard, that no one but Youtsey had part in Goebel's murder and that there was no conspiracy, as the commonwealth has charged, Governor Willson says that he believes it "a sacred duty, which I must no longer delay, to carry this belief into effect," and grant pardon to the men charged, who fled the state because they had the greatest reason to believe that they could not have a fair trial if they stayed here and would be forced to a trial before a partisan jury under conditions which would give them no chance at all for a just decision.

Home of Davis is Purchased.

Hopkinsville, Ky., April 26.—By the purchase Saturday of sixteen acres of the farm of Fairview, 12 miles from here, on which Jefferson Davis was born, it is assured that the project to convert the property into a memorial park, similar to that at Hodgenville to the memory of Abraham Lincoln, will go through successfully.

Options held on this property would have expired next Tuesday. The sixteen acres cost \$6,700, which was raised by public subscription, people all over the United States having contributed.

The subscription will be continued, and the work of beautifying the park will be begun as soon as possible.

On June 3, the 101st anniversary of Jefferson Davis' birth, a big meeting will be held at Fairview. Col. Bennett H. Young, of Louisville, and S. A. Cunningham, of Nashville, compose the committee that visited Fairview Saturday and closed the option.

"Protemus" is the name of a new and promising village located on the Murray and Boydsville road west of Harris Grove. The place already has a general merchandise and drug establishment, a shingle mill, a church, a Modern Woodmen organization and is soon to have a blacksmith shop. Dr. A. V. McRee, formerly of Harris Grove, is proprietor of the new store.

## CONVICTED

Victor Jones Sentenced for Two Years for The Murder of Will Lewis.

The trial of Victor Jones, who was indicted jointly with his brother, Fred Jones, for the murder of Will Lewis, was concluded in the circuit court here Monday at noon, and the jury returned a verdict Tuesday morning finding the accused guilty of voluntary manslaughter and fixed his punishment at confinement in the penitentiary for two years.

The case was bitterly contested and has attracted equally as much attention as the trial of Fred Jones, who was convicted and sentenced for five years. The two cases have consumed the greater part of the present term of court.

A motion for new trials for both the accused has been made and is being argued today before Judge Cook. If a new trial is refused the cases will be appealed to the higher courts.

The jury in the last case was composed of the following citizens:

Giles Robertson, W. A. Hughes, Oscar Key, Alfonso Jackson, R. W. James, Albert Paschal, W. B. Paschal, J. O. Wrather, C. W. Clark, Noah Parks, W. P. Cole, Will Ward.

Forrest's Men.

Lieut. General H. A. Tyler, commanding Forrest's Cavalry Corps, has issued the following notice:

"Attention, Veterans Forrest Cavalry." General headquarters of the Forrest Cavalry Corps will be dining room B. Gayoso Hotel, Memphis, during the reunion June 8, 9 and 10. All men who at any time served under the orders of Gen. N. B. Forrest, and remained faithful to our cause until the close of the war, or previously honorably discharged, are earnestly requested to call and register and secure badges.

Efforts are being made to secure mounts for all who attend. Members are requested to join us in the parade on foot, if they cannot secure mounts. Memphis having been the home of our Peerless Commander and his last resting place, we should strive thus to show our appreciation of his matchless career.

A general meeting for organization and election of a commander will take place at 10 o'clock a. m., Wednesday, June 9, 1900, at the Merchants' Exchange, southeast corner Court Square, corner Second and Court streets. Every member is earnestly requested to attend this meeting.

Boyd Pitt, representing Thos. Hodge, of Henderson, received a car load of tobacco here Tuesday. The tobacco was loaded loose into the car and shipped to Henderson where it will be redried and steamed. Boyd Pitt is a brother of P. H. Pitt who was associated with the firm of Gristin & Pitt. The Ledger is informed that the prices paid for the tobacco range from \$3 for lugs and \$6 to \$7.50 for leaf. It is said that quite a lot of the tobacco received was pledged to the association.

## CAPITAL NOTES.

To Widen Capital Avenue.

The state capital commission has purchased two tracts of ground on either side of the extension of Capitol Avenue, from the intersection of Tenth street, so as to make an avenue 100 feet wide from that street up to the main entrance of the new capital. The price paid was \$7,500.

Notice to Banks.

Secretary Patrick of the state board of valuation and assessment sent out to state banks and miscellaneous corporations notice of the amount of their assessment by the board for franchise tax purposes. The banks have until July 1 to pay before a penalty attaches, and the other corporations have 30 days in which to be heard if they desire to protest against the amount of their assessment. These notices are sent out this year a month earlier than they were last year.

Only One County Got by Board.

The state board of valuation and assessment took final action on five counties, Boone county being the only one getting by with the local assessment. Former Gov. Beckham and the assessor of Nelson county appeared before the board for Nelson county and succeeded in having its increase reduced

## Vanceville, Ky.

Health is not as good as it has been.  
Uncle Jimmie Vanceville is right puny.  
Mrs. Nina Crouse is also sick.  
Mrs. Ella Jones is on the puny list.

Pierce Holland and family visited near Faxon Saturday. Mrs. Holland was taken quite sick, was brought home Monday, but she is better at this writing.

Ed Hicks has sold his farm and gone into the bee gum business. The infant child of Walter Hartfield died the past week. Mrs. Hartfield is getting along nicely.

Mrs. Vasseur is suffering with her eyes.  
The farmers are resting now, the rains have stopped the plows.  
Wheat is looking some better, maybe we will have some biscuits yet.

Pack Manhundro has bought the Ed Hicks farm. Watch out girl, you know what a boy wants next after he buys him a home.  
Uncle John Futrell is putting up a nice lot of wire fence this spring.

Ed Eldridge has gone into the tie business.

George Calhoun has decided he wanted a new ground to tend this year so he is clearing Uncle Jimmie's orchard.

Tobacco plants are plentiful, everybody is preparing for a large crop of tobacco.

Joe Eldridge's saw mill is not doing much right now except sawing ties.

Mr. Thomas is hard at work as usual repairing his farm and fixing for a crop.

Mr. F. G. Fritts, Oneonta, N. Y., writes: "My little girl was greatly benefited by taking Foley's Kidney Remedy, and I think it is the best remedy for constipation and liver trouble." Foley's Kidney Remedy is best for women and children, as it is mild, pleasant and effective, and is a splendid spring medicine, as it cleanses the system and clears the complexion. Sold by all Druggists.

## A Piano Contestant.

DEAR LEDGER FRIENDS: The bad weather and slow collecting has forced our editor to carry this contest on much longer than he thought of doing. But I am still working and I take this method of asking you who have not voted in this contest for your vote and influence. I so much appreciate the vote I have thus far and would feel just as grateful for your vote. You are allowed so many votes on each \$1.00 in subscribing, renewing or paying on back subscription. So hoping to get your vote before contest closes I am, very truly yours, ELLA ROGERS, Country Contestant.

## Edgehill, Ky.

The recent storm which passed through this section did quite a lot of damage, barns, fences, timber and other buildings being demolished. Story's Chapel which is a very large church was blown from its foundation, but it was repaired in time for quarterly meeting last Sunday, which was presided over by Elder Leith, who preached a most excellent sermon.

Rev. Nunley preached a very interesting sermon at Mt. Pleasant Sunday evening.

Will S. Jones has been re-appointed rural carrier on Hazel Route 1.

L. J. Story and wife, of Mayfield, visited his old home Saturday and Sunday.

Dr. E. C. Sherman, of Harris Grove, attended quarterly meeting.

Mrs. Carrie Dick has been in bad health for some time.

The funeral of Charles Taylor at Lassiter cemetery last Friday was attended by a large procession of Woodmen, and other friends and relatives of the deceased.

Corn which was planted early has come up quite well, tobacco plants are small and late.

Albert Paschal was on the last Jones jury.

People past middle life usually have some kidney or bladder disorder that saps the vitality, which is naturally lower in old age. Foley's Kidney Remedy corrects urinary troubles, stimulates the kidneys, and restores strength and vigor. It cures uric acid troubles by strengthening the kidneys so they will strain out the uric acid that settles in the muscles and joints causing rheumatism. Sold by all Druggists.

## D. B. Outland, Association Prizer

I will prize association tobacco at my barn on my farm. My barn is 4x18 feet, has a good top on it and is in good shape. I will open up for work May 1st. I have worked for the association two years and ask you to examine my record as prizer. Farmers, if you want your tobacco to sell as soon as it is worked, class it right, order it so it will keep sound. I will advance 60 per cent. on tobacco when it is delivered to me, will ship your tobacco where you want it to go. Will haul tobacco to Murray or river. I thank you in advance for any favor you show me. Yours for business D. B. OUTLAND, Rfd No. 3. At Murray, Ky.

For any pain, from top to toe, from any cause, apply Dr. Thomas' Electric Oil. Pain can't stay where it is used.

LEDGER \$1.00 PER YEAR.

## Tonic or Stimulant?

There is an immense difference between a tonic and a stimulant. Up one day, way back the next; that's a stimulant. Steady progress day-by-day toward perfect health; that's a tonic. Ayer's Sarsaparilla is a tonic, a strong tonic. The only Sarsaparilla entirely free from alcohol. Do not stimulate unless your doctor says so. He knows. Ask him. Do as he says. J. C. Ayer & Co., Lowell, Mass.

Constipation is the great cause of sick-headache, biliousness, indigestion, bad breath, debility, nervousness. Has your doctor ever recommended Ayer's Pills to you?

## LOCAL & PERSONAL.

We want your wool. Will pay top notch prices. SMITH & PARKER.

Andrew Wear, Jr., came in Tuesday on a visit to relatives here.

Mrs. Lewis, of Paducah, was the guest of Mrs. Gray Swann the past week.

Highest market price, cash or trade, for all of your wool. SMITH & PARKER.

Drs. Mason & Keys have purchased an automobile to use in their professional work.

LOST.—Child's white bearskin cloak, lost between town and Bill Bailey's residence. Return to this office.

FOR SALE.—Stanhope buggy that cost \$125 and \$35 set of harness to go at a big bargain. See ELMUS BEALE, Murray, Ky.

The eighteen months old child of Walter Lassiter, of the Stella section, died last Thursday of consumption.

CORN FOR SALE.—Good corn at \$4. Delivered or at crib. J. W. DODD, 3 1/2 miles north of Murray.

LOST.—Buckskin gauntlet glove, lost on Lynn Grove road. Return to Elmus Beale and be rewarded or bring to this office.

ICE, ICE.—We will deliver ice to any part of the city. Phone 88 when you need ice. We expect to start our wagon within a few weeks. MURRAY ICE CO.

The commencement sermon will be preached Sunday evening at the Christian church by Rev. E. B. Bourland. Next week is the closing week of the public school.

King Commandery No. 714, U. O. G. C., will entertain next Wednesday night at a banquet in the court house. Jas. A. Hodges, grand commander, of Louisville, and John H. Burnett, grand treasurer, of Paducah, will attend.

Mrs. Ed Clark, who lived a few miles southwest of town, died Tuesday noon of consumption. She was a daughter of Jas. Scarborough and was about 27 years of age. She is survived by a husband and three children. Burial took place Wednesday at West Fork.

S. Higgins and Asher Graham happened to quite painful accidents the past week. Both fell from stable lofts and injured themselves. Mr. Higgins sustained a sprained knee and is compelled to use a crutch. Mr. Graham is able to get around with the aid of a cane.

## Settlement Notice.

All my notes and accounts not satisfactorily settled or arranged for settlement by the 1st day of June, 1909, will be placed in the hands of an active collector. I am not going out of business, but business changes, partnership with my son P. A. Hart, furnish a convenient opportunity for a general settlement of business transactions extending over 30 years. I have been lenient beyond that which any reasonable person could expect. I shall be grieved if in any case it should be necessary to go further than a presentation of account for settlement, but this means business. Many thanks to friends and patrons and more when you call. I am as ever yours—J. G. HART, 61

## Cairo and Norfolk Railroad.

The Contract News, a publication issued in Chicago, and devoted largely to railroad building, etc., gives an interesting story regarding the Cairo and Norfolk railroad which has been a subject of much comment for some time past. What it says has the stamp of accuracy and shows beyond doubt that the road will be a fact of the present year, from Cairo to Hopkinsville, and to Mayfield by August, unless that city should fail to meet the demands made upon it by the builders of the road. The Contract News gives the following facts: "The Atlantic and Cairo Construction company, incorporated, E. E. Western, president, 111 Broadway, New York, who have the contract for building the Cairo and Norfolk railroad have begun active construction work on the first section of the road at the Mississippi and ending at Mayfield, Ky., about 32 miles in length. They expect to take up the second section from Mayfield to the crossing of the N. C. & St. L. railroad in the very near future and a little later in the season they expect to begin work on the third section from the crossing of the N. C. & St. L. railroad to the city of Hopkinsville. These three sections embrace about 115 miles of tracks. The work is of moderate class, not much rock work and good ordinary construction.

## A Baby Show in Murray

would have many contestants; but it's safe to say that the healthiest baby would win the prize. No baby can be healthy who suffers from worms and most babies do unless they are kept free from them with White's Cream Vermifuge. Acts quickly, yet mildly—is its own purgative. Mothers, don't attempt to raise children without White's Cream Vermifuge. Price 25c. Sold by Dale & Stubblefield and H. D. Thornton & Co.

## Murray R. F. D. No. 5.

Getting ready to plant corn is the order of the day.  
Spring is coming and we welcome bright old spring with its showers and birds and flowers.

Mr. Conn Linn and wife visited Elmus Wilson Thursday night. Miss Flossie StJohn, who has been visiting her grandfather at Hazel the past week, returned home Saturday.

Miss Ola Potter and Jessie Linn visited Madison Ray Friday night.

There was a large crowd at Mason's Chapel forth Sunday, services conducted by Rev. Pritchard.

Mrs. Calip Alton and family visited her parents Saturday and Sunday.

Charley Taylor, son of Jake Taylor, died at his home Thursday of typhoid fever.

There is Sunday school at Le-cust Grove every Sunday morning at 9 a. m.; want everybody that will to join.

Hoping the Ledger and its many readers success I close.  
SPRING FLOWER.

## Up Before The Bar.

N. H. Brown, an attorney, of Pittsfield, Vt., writes: "We have used Dr. King's New Life Pills for years and find them such a good family medicine we wouldn't be without them." For chills, constipation, biliousness or sick headache they work wonders. 25c. Dale & Stubblefield.

Joe Bogard, of Golden Pond, was here last Monday and closed a deal with Higgins for his fine two year old stallion. This young animal is one of the finest registered horses in Western Kentucky, being a colt of Baron Beautiful out of a Cook mare. In the deal Mr. Higgins comes into possession of a very fine saddle horse.

Sam Holcomb and wife, of Hol-ow Rock, Tenn., came in Tuesday on a visit to relatives.

## PAYNE BILL HONEST

MEASURE INDORSED BY NEW YORK TRIBUNE.

Chief Republican Organ in the East Asserts That It Carries Out the Pledges of the National Platform.

The Payne bill, as it goes to the senate, represents an honest effort to carry out the pledges of the Republican national platform. It effects a substantial downward revision of the Dingley rates and attempts to apply the protective principle scientifically and rationally. In so doing it goes much too far to suit the "stand-paters" who consider their own interests paramount to the general good. On the other hand, it does not easily concede the extreme protectionists, to whom reasonable protection is more obnoxious than any other form of protection, because harder to discredit or overthrow. It is only from such a perverted point of view that the Payne bill can be attacked as a triumph of reaction.

A fair analysis will show that compared with the Dingley bill the Payne bill exhibits rational progress. It introduces the maximum-minimum principle, which will be of undoubted value in dealing with "foreign countries" which have adopted that principle, and will furnish us a means of securing everywhere the most favored nation treatment which we are prepared to give. As our industries develop and we attain our natural place as one of the greatest of the manufacturing and exporting nations, protective duties must decrease and revenues from tariffs must diminish. To those, therefore, who hope to see customs duties gradually lowered and finally removed, the Payne bill should be especially welcome, since in imposing a permanent federal inheritance tax it at least points the way to a gradual shifting of basis of federal taxation.

We have already expressed our view that the Payne bill was improved by the limited consideration allowed it in the house. The chances made were on the whole, highly beneficial. It is to be regretted, therefore, that the house did not have enough confidence in itself to go on revising the questions that were included in the provisions of the special rule governing debate on the bill. There does not appear to be any good reason why the house should not have voted on the maximum-minimum principle, the "slaves and bondsmen" provision, the inheritance tax section, the free coin provision and other paragraphs and sections on which there were divisions of opinion. The house of representatives is vested by the constitution with the exclusive right to originate revenue bills. It ought to exercise that right intelligently and deliberately, expressing its opinion on all points at issue and laying a firm foundation for any contest with the senate on changes in the Payne bill was much more serious in character and more fruitful in results than was the consideration of the Dingley bill. But it would well have been more serious and more fruitful.

**Problem in Revenue Law.**  
The Republicans have, undoubtedly, a problem on their hands. A seriously defective new tariff law might be passed in November of next year. A deficit in the treasury at that time, or the receipts running neck and neck with the expenditures, with a bond issue looming up, would make their congressional campaign drag heavily. The people want a comfortable balance in the treasury, and associate it with good times and a good tax law.

On the other hand, a successful new law, bearing not too heavily upon either producer or consumer, yielding revenue enough easily to pay the government's way upon liberal lines of living, and while keeping up wages at home, opening up new markets abroad, should secure another house to the Republicans. The country does not like continuous tariff agitation. Business suffers, and most especially under a threat of deep cuts in the schedules leading toward an exclusively revenue basis. And as Mr. Bryan and his friends are advocating a tariff for revenue only, and as they are the Democratic party, the country must turn to them if it turns away from the Republicans next year except under the most extreme provocation—Washington Star.

**Can Serve Country and Party.**  
The Republicans leaders in the senate have a golden opportunity to serve the people, the party and themselves by shifting the incidence of tariff taxation from necessities to luxuries, from weak shoulders to strong, and by insisting on a broad scientific revision on the labor cost differential principle—such a revision, in short, as an expert tariff commission would provide a basis for. We predict that the public is in for an agreeable surprise in the trend and spirit of the Aldrich substitute tariff bill.

**Champ Clark Diplomatic.**  
Hon. Champ Clark showed the usual brilliancy of the minority house leaders in so far as showing his motion to reconsider the Payne bill with instructions to make its success an absolute impossibility. Had he attempted less he might have accomplished something at least forced a test vote on the Payne bill, and as they are the Democratic party, the country must turn to them if it turns away from the Republicans next year except under the most extreme provocation—Washington Star.

**Victory for Knox.**  
President Zelaya is sending a special envoy to Washington to effect a settlement of the claims of the United States in compliance with the ultimatum of Secretary of State Knox. Zelaya is known as the obstinate man of Central America. He is intensely ambitious and it has been predicted he would bluff the United States in this matter as a preliminary to working out his plans to become the big man of Central America, as well as the obstinate one. He is, however, like Crockett's cow, ready to come down before Mr. Knox begins to shoot.

This is the first diplomatic victory of Secretary of State Knox. It is small game, but not small honor. The dealing with the little republics of Central and South America is always more difficult than with the big nations of Europe and Asia, or the big republics of South America, as many diplomats have found to their cost. Secretary Knox is congratulated on getting some satisfaction from the chaotic executive of Nicaragua. President Taft made no mistake in selecting Mr. Knox as the head of his cabinet. He has made good in every position he held previously, and will no doubt make good in this one.

If a tariff bill could be made that would please everybody, it would be a sign that the millennium was here, and that we didn't need any tariff bills.

## SENATE WITHIN ITS RIGHTS.

Has Power Under the Constitution to Amend Any Bill for Raising Revenue.

Noting the general expectation that the new tariff enactments will be practically framed in the senate, the Chicago Daily News conceives it to be an infraction of the constitutional provision that all bills for raising revenue must originate in the house. That paper then delivers itself of the following bitter assertion:

"The explanation of this degradation of the house to the point where it crawls humbly at the heels of the senate is, as everyone masters of legislation, of which, under the constitution, it is supposed to be the superior body, is found in the words of Cannon and Cannonism."

The assertion that the senate by amending a tariff bill, even so as to generally change the character of its duties, violates the exclusive privilege of the house to originate such bills, has very slight foundation. In the constitutional provision the right of the senate to "propose or concur with amendments" is as clearly stated as the right of the house to originate the measure. The house has control of the subject in the power to refuse to originate. When it has originated a bill it stands on equal terms with the senate as to the acceptance or rejection of amendments.

It is true that in the final stage on this as on other legislation the house has frequently shown less stamina in standing up for its views than the senate. Cannon and Cannonism may be fairly chargeable with several unedifying features of congressional politics, but this one is not easily traceable to that source. It is rather due to a more distinct usurpation by the senate, through the perversion of the "advice and consent" clause so as to practically lodge the appointing power in the hands of individual senators. It is the disposition of patronage by senators that makes many members of the house subject to the directions of the senators from their states. When there is an important test of strength between the two bodies this makes the house prone to yield. Yet if the house ever gets enough confidence to assert its power by withholding appropriation bills until its wishes are met, it can bring both the senate and administration to its feet.—PHIL BURG DISPATCH.

**For Honest Revision.**  
How senseless, premature and meanly partisan is this parrot cry of "fraud" as a comment on the work of congress toward revising the tariff! Never in its history has congress made an honest effort at broad and honest tariff revision that it is making at this session.

We believe the result of the bill and hauling and voicing of local grudge purposes in congress, always concomitant with tariff making, will be a tariff affording an exceptionally high average of general satisfaction.

There are forces this time making for an honest revision for the greatest good of the greatest number that will not be denied.

First and foremost of these is an unusually honest, concentrated and watchful public opinion.

There is another force that is making strongly for honest, broad revision, and that is the persuasive, harmonious, independent, and quiet conciliatory yet massive insistence of President Taft, with the veto possibility in the background. Mr. Taft without outwardly appearing to try very hard, without the faintest show of hesitating and dictating, will get far more out of congress at a juncture like this than Mr. Roosevelt would.

There is every indication that both senate and house are sincerely desirous of framing a tariff bill that Mr. Taft will like and that will help him with the country. Mr. Taft's influence and personal popularity with congress is almost a guaranty of honest revision; and those who cry "fraud" fail to reckon with the fact that Mr. Taft would not sign any such bill were it sent to him, and congress knows it.

**Perfect Coffee.**  
A physician was summoned to a very sick man, who was very much preoccupied with troubles of his own. On arriving at the sick man's bed, he said to his wife: "Your husband is in the last throes of every movement."

At this moment the sick man's head fell over the pillow, when the doctor said: "The end has come, your husband is dead."

In a shrill, thin voice, the sick man said: "Taint so, Maria."

At once the wife laid her hand on his head and remarked: "Don't disturb yourself. Refuse the doctor knows best."—Harpers.

## WHAT COLORS SHALL I USE?

This Question is Important in Painting a House or Other Building.

A proper color scheme is extremely important in painting a house. It makes all the difference between a really attractive home and one at which you wouldn't take a second glance. And it makes a big difference in the price the property will bring on the market.

As to the exterior, a good deal depends upon the size and architecture of the house, and upon its surroundings. For a good interior effect you must consider the size of the rooms, the light, etc.

You can avoid disappointment by studying the books of color schemes for both exterior and interior painting, which can be had free by writing National Lead Company, 1902 Trinity Building, New York, and asking for Houseowner's Painting Guide No. 49. The outfit also includes specifications, and a simple instrument for testing the purity of paint materials. Pure White Lead which will stand the test in this outfit will stand the weather test. National Lead Company's famous Dutch Boy Painter trademark on the keg is a guarantee of that kind of white lead.

"Little black swellings were scattered over my face and neck and they would itch so I couldn't keep from scratching them. Larger swellings would appear and my clothes would stick to the sores. I went to a doctor, but the trouble only got worse. By this time it was all over my arms and the upper part of my body in swellings as large as a dollar. It was so painful that I could not bear to lie on my back. The second doctor stopped the swellings, but when they broke the places would not heal. I bought a set of the Cuticura Remedies and in less than a week some of the places were nearly well. I continued until I had used three boxes, and now I am sound and well. The disease lasted three years. O. L. Wilson, Puryear, Tenn., Feb. 8, 1908."

Mr. Blakelock was putting himself in readiness, clotheswise, to attend an afternoon tea with his wife, when his small daughter appeared on the scene. As she slipped into her frock coat, the child looked up and said: "Father, do you know when you wear that coat you look just like a minister."

Then, noticing the hatbox on the stand near by, she asked: "Ah, when you put on that hat that goes with it, you look just like a lack driver."—Declarator.

## Obituary.

In memory of our deceased brother William Thomas Hill who departed this life on November 11, 1908 aged 65 yrs. 5 mo. 2 days.

He was married to Miss Amy P. Dunn in 1860, 4 sons and 4 daughters blessed this union. His wife, 1 son and 2 daughters preceded him to the better world more than 16 years ago. He had been a sufferer of Bright's

disease for several years, but bore his afflictions with christian fortitude, ready and willing to breathe his last and be at rest, for he had the assurance of a home on high where all would be well with him.

He joined the Masons early in life, was a member of the Methodist church 45 years and for a number of years was Sunday School teacher and class leader. He was a true friend and neighbor never known to cheat or defraud any one.

Farewell friends! Yet not farewell, where I am ye, too, shall dwell. I am gone before your face, A moment's time a little space; When ye come where I have stepped Ye will wonder why ye wept. Why do we mourn departing friends,

Or shake at death's alarms; 'Tis but the voice that Jesus sends To call them to his arms.

A FRIEND.

## Resolutions.

Whereas our heavenly father in his infinite wisdom has seen fit to remove from our church and S. S. our beloved brother and fellow student and from our community one of its most excellent citizens in the person of Bro. W. H. Watkins and whereas we deeply deplore our loss both in church and S. S. and shall miss him greatly in the general associations of life, and whereas we desire to show forth this token of respect and appreciation of

one so faithful and true, therefore be it resolved,

First. That though we deeply deplore our loss we meekly submit to the will of Him who doeth all things well, and humbly say "Thy will be done"

Second. That we extend our sympathy and the assurance of our prayers to the heartbroken family, and commend them to the great physician who healeth all our sorrows.

Third. That a copy of these resolutions be transcribed in our S. S. record book, a copy be sent to each of our county papers for publication and a copy be tendered the bereaved family.

Under favorable conditions, our daring pioneers have been doing remarkable things. They break records day after day and prophesy all sorts of revolutionary doings for the future. But Orville Wright is a cripple, and the list of miraculous escapes from death is long. It is easy to recall lucky falls of Baldwin, Farman, Knabenshue and others. While the fatal outcome of the Morrell airship flight in San Francisco does not readily pass into forgetfulness. Very probably the world will eventually see the success of these machines. Every invention has its early stages of accident. Victory comes only after much experimenting and risk. But the British world has excuse for feeling considerable relief over the latest Zeppelin flight. If one rigid airship acts this way, what would happen to a fleet trying to cross the channel? Aerial invasion of the Englishman's home by the empire of the north is postponed indefinitely.

Even the famous and influential London Times gets "called down" occasionally. The episode of the Pigott letters is not forgotten. And now "the Thunderer" has accused the anger of the Japanese authorities. The Times recently commented on the spy system in international affairs and said it has been proved that Japanese residents in America are acting as spies. This has drawn from Japanese government officials a prompt protest, and they have asked the Associated Press to make a categorical denial of the allegation by the London Times, a representative of the foreign office adding: "The statement is absolutely without foundation. As far as Japan is concerned it is regarded as a silly canard, while its mischievous source alone entitles it to be dignified by the term demerit." This is pretty sharp, coming from the Japanese, who, especially in official outbursts, are usually exceedingly courteous and scrupulously polite. Evidently the London Times has hurt deeply the feelings of the Japanese government.

Russian women have found a more expeditious and a surer way than divorce of getting rid of unsatisfactory husbands. They simply hire a properly qualified woman to "remove" them. At least this method prevails in one district of that country—a district, by the way, where man seems peculiarly disqualified for happy matrimony. A woman of that region has just been arrested, on confession of a wife seized with inconvenient remorse, who confesses that she has murdered no less than 350 men at the solicitation of their wives. She never harmed members of her own sex. This record out-Gunnessees that of the famous Laporte lady.

A New York woman who committed suicide the other day left instructions for her body to be cremated and the "can" containing the ashes to be buried in the ground, concluding her directions with this remark: "I do not wish to spend the winter in a tin box on a shelf." Some people are so particular. One who refuses longer "in this clay carcass" crippled to abide" ought not to care for the dust he has flung aside.

Spring has begun, according to the calendar. The weather bureau failed, however, to celebrate the occasion, and it would be hard to believe that the ghost of winter has been laid hereabouts were it not for the emergence the other day of the spring poet of the Springfield Republican. When he scowles active it is a "life sign" that springtime's sap is seething and running.

New York city's latest contribution to the world's stock of drinkables is the expurgated cocktail. You omit the cherry, and are not allowed to use even the olive. It remains to be seen how this innovation will strike the tipplers inclined who order their drinks at throat centers not located on Manhattan island.

An optimistic club of Gotham wants to abolish All Fools' day. But here is where sentiment will overrule both reason and optimism, for the desire to make a fool of oneself springs eternal in the human breast and will not be deplored, provided on general principles, the task is too herculean one for human endeavor to achieve.

A big volcanic down in little Salvador, Central America, has started erupting. That part of the world is bound to attract attention. When it cannot originate a revolution or an international row it sets the internal fireworks going.

Berkeley (Cal.) schoolgirls are on strike against an order to read the novels of Dumas, Daudet and Zola. Now, why didn't the authorities gain their end by requesting the girls not to read those authors?

## Advice to Women

## Stage Affords Great Chances For Girls

By Olga Nethersole,  
Noted Emotional Actress.

"Many parents oppose their daughters in adopting the career of an actress on the ground that the stage is a place where the temptations are greater than anywhere else. To my mind this is an erroneous idea and wrong. 'To the pure all things are pure,' and there is no good reason why a woman should not lead a life as pure and correct on the stage as elsewhere.

If a young woman is employed in a shop she, in all probability, earns a salary not to exceed \$10 a week. And the majority of women employed in the shops of the great cities earn from \$4 to \$6 weekly. Money—or want of money—is acknowledged by all students of ethics to be one of the strongest factors in the temptation of young women from the path of virtue. We find the temptation, in that respect, far less on the stage than anywhere, for the very simple reason that a young woman on the stage, even when playing a very small part, will command a salary of from \$30 to \$10 a week, while her sister, working in a close, evil smelling shop, will draw the meager salary of, let us say, \$5 for six days' daily toil, working from eight o'clock in the morning until six o'clock in the evening.

Who, in this case, do you really think is subjected to the greater temptation, the girl who earns enough to support herself in comfort or the girl who slaves for barely enough to pay for food and lodging, not to mention the fact that she must be clothed? I think you will agree with me that the girl on the stage has all the advantage up to the present time, and good girls are respected everywhere.

Next comes the question of companions and surroundings. I have been on the stage since I was 18 years of age, and judging from my own experience and what I have been told by young women employed in other walks of life, I think I am perfectly safe in saying that a young girl commands equally as much respect from actors as she will from men with whom she is thrown in contact if employed in store, office or shop—if she respects herself and her priceless heritage of pure womanhood.

In choosing a profession, adaptability must be considered. If you think you are fitted for the stage and have any talent for acting, it is a vocation where the financial reward is greater for women than will be found in any other walk of life. Another thing greatly in favor of the stage is the fact that, with few exceptions, the young woman who adopts that profession are most ambitious to succeed, and, as every one knows, success on the stage means study and hard work and hard work and study—study never ceasing. A woman on the stage is so occupied in her work that she has little or no time for the frivolities of life.

A last word to any young woman contemplating the adoption of a theatrical career: Don't do it unless you are prepared to work and study. This does not mean study for weeks or months, it means unceasing study for years—I might say a life of study.

## Spirit of Lawlessness Denounced

By Rev. Joseph A. Milburn.

The first of the perils of democracy is that the people of America are too material. We measure men by the bigness of the houses they live in. The successful man means one who has much money in the bank.

Political opportunism is a grave peril. Any nation is menaced when there is not culture and refinement in office. I would rather trust the most despotic autocrat than a raging mob of the masses.

If I were a politician I would deal with that great mass with perfect frankness and tell it where it is noble and where ignoble about the misdoings of great corporations. It is easy enough to be frightened in the abstract and to be indignant about the faults and weaknesses of men of means and ability.

A few days ago a man took me riding in an automobile. The first thing I knew we were speeding away past Ryanston. I protested and told the man he was breaking the law at every step.

"Who cares?" was his reply, yet the same man will stand out and shout anarchy at others who trample the law under foot. "The greatest menace is not in corporations, but in individual law-breaking." There is too much diffused lawlessness here.

Every day there are men speeding through this town lawlessly and the next morning you take up the paper and read of some poor man who had been crushed under an automobile. A you talk of freedom, but what is freedom to a dead man?

You must have more patriotism in high places. In England a business man is proud to be an alderman, but it is not so here. Here we must take the inferior man for municipal officers. I believe in the principle of aristocracy in democratic government. "The masses go well only when they are well led."

Of course there is caste in this country. There is social distinction here just as in England, France or Scotland, but in this country it is immutable.

The mediocrity of its tastes and ideals is another peril of our democracy. It is true in literature. Every book written in this age is just like every other book. The theater is worse. Even the church has lost its power. The ministers are as good as ever, but the audience is restless and nervous. Even the church of Jesus Christ, like the theater, is becoming mediocre.

The newspapers appeal chiefly to the physical man, although Chicago has the best newspapers in the world. The details of a divorce case are told ad nauseum in all their salacious details. The sporting columns are full of accounts of prize fights and baseball games.

### SCHOOL INSTRUCTION THAT FAILS

By Walter R. Siders, Superintendent of Schools, Pocahontas, Ind.

Instruction directed at the majority is discouraging to the slow student. Some compromise is necessary between the old-time instruction to the individuals and the present instruction to classes. The burden of home study and parent tuition and the fear of examinations remain. Pupils drop out of school because they find no purpose in continuing in their classes.

### MONARCH OF ALL DRESSINGS

A Few Hints Here Given for the Proper Preparation of Mayonnaise.

When making mayonnaise, if the oil gives out before the dressing is of right consistency, put a little fresh butter in a kettle of hot water and melt it quickly. This can be used to melt out the oil and gives a delicious flavor.

A little whipped cream added to mayonnaise just before serving greatly improves it. If the cream has soured slightly it can still be used without being detected.

A bit of onion or chives rubbed over the bowl in which mayonnaise is mixed gives a snap to the dressing, yet is not enough to be distasteful even to those who dislike onion flavor.

If mayonnaise is to be mixed in a hurry do not think to make haste by adding the oil too rapidly. It will surely curdle. Set the bowl in a larger bowl of cracked ice and the dressing will thicken more quickly.

If lemon does not seem to give enough acid to mayonnaise, a few drops of vinegar will be found to improve the flavor. Should the mayonnaise be too thick and quite sour enough, thin with small drops of ice.

Mayonnaise that has "gone back" need not be thrown away. Start a fresh egg, and when the dressing is quite thick stir in the curdled mixture very slowly.

If kept in the refrigerator in a tightly covered glass jar, mayonnaise that has been carefully mixed can be kept for a week. The careful when first taking it into the air after standing. Too vigorous stirring may make it curdle.

Mayonnaise dressing is suitable for meat and fish salads and for aspic of all kinds. Most fruit salads and plain lettuce are better with French dressing beaten to the consistency of an emulsion.

### CLEAR UP ALL BAD ODORS.

Nothing Better Than an Onion Cut in Pieces to Purify the Atmosphere.

Everyone knows that an onion has a distinct and unpleasant odor, whether cooked or raw. But everyone does not know that this odor of an onion will draw to it every other disagreeable odor, and clear the house atmosphere in a day.

The onion can then be thrown away and with it go the disagreeable smells that come about in a house that has been closed for the summer.

And this is also a good thing to know. That it will absorb all the odor from fresh paint and turpentine. If the house has been freshly painted and cleaned for the season's occupancy, the people moving into it will be miserable with the smells that come from walls and floors.

One onion should be cut into small pieces and placed about the room in two or three saucers. Allow an onion to each room and let the saucers remain there over day and night. If every bit of odor hasn't gone in that time put a few fresh pieces in for the next day.

### Fried Spinach Pie.

Clean and cook one-half peck of spinach. When cooked chop, but not too fine, add three eggs, add three tablespoons olive oil, two cups of grated bread, one cup of grated cheese then the spinach. Salt and onion sliced very fine should be added after the former ingredients have been mixed, and mix again thoroughly. Parmesan cheese is the best to use. Put on a frying pan in olive oil or butter, if preferred, and fry until almost cooked, then form into a sort of pie shape and brown on both sides. After one side has been browned, it can be turned over by placing a shallow plate on top and quickly turning it downward, holding both together. This mixture can be used to stuff fowl.

### Aspic Jelly.

Two slices of onion, two slices of carrot, one stalk of celery, one bay leaf, a sprig of parsley, yellow rind of lemon, grated one-quarter teaspoon cayenne pepper, one teaspoon salt. Put these ingredients into 1½ pints of cold water, bring to a boil and cook three minutes. Moisten half package of gelatin in one cup of cold water, add to boiling mixture with two teaspoons extract of beef. Take from fire, strain, clarify with white of an egg and shell. Mix the egg with the liquid, return to stove till it boils.

### To Clean Plinths.

Wash plinths with large chamois skin dipped in clear water, dry thoroughly with same and the result will be a fine gloss like new. It will prove excellent for any highly polished furniture, as it will not injure the finish.

### To Remove Grease from Silk or Wool.

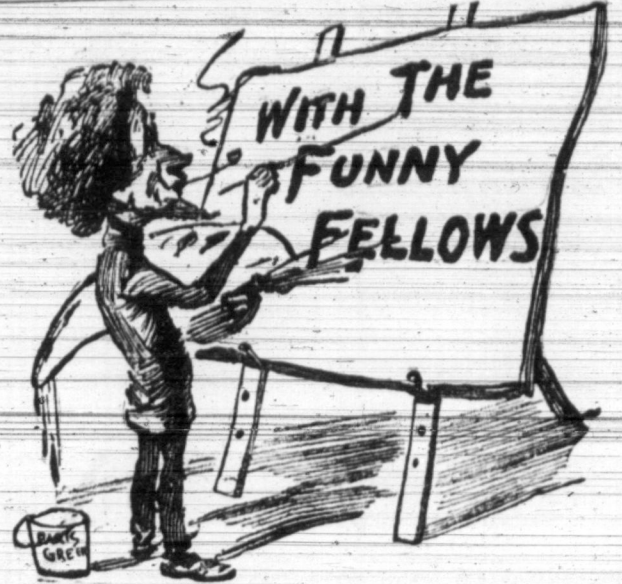

Place the greasy spots between blotting paper and press with a hot iron. The blotting paper will absorb the grease and the most delicate fabrics can be cleaned like new in this way.

### No Chance.

"Pa, when I grow up, how will I keep from marrying the wrong woman?" "You won't."

### Seaweed a Delicacy.

In Scotch Wales seaweed after being washed is boiled down and made up generally with cauliflower, cakes and eaten with bacon. It is called "brown bread" and is considered a great delicacy.

# Does it Pay a Millionheiress to Elope?

NEW YORK—The expediency of eloping is a big social problem, but it never seems more perplexing than when a millionheiress like the leading figure, "Does it pay?"

Within the past few weeks two very different answers might seem to have come from opposite ends of the continent, but both from millionheiresses who started wedded life via the ladder line.

"It's the only way," declared Mrs. Russell F. Hopkins, as she looked over the cradle of her wee daughter, Josephine Lawrence Bennett Hopkins, the central figure in a gorgeous suite at the Hotel St. Regis, far above the rumble of New York's Fifth avenue.

And Josephine's admiring daddy refrains from the diverting sport of cooing a laugh from his smug beard, long enough to add, "Of course, it's the only way."

But in San Francisco Helen Beryl Whitney Graydon, who eloped with Thomas H. Graydon, a famous football player under Harvard's crimson pennant, has brought six years of married life to an abrupt close by leaving her husband.

"Marriage is a failure," she says sadly, and closes the doors to even sympathetic friends.

And back in Cincinnati, where she left him, "Blondy" Graydon announces with the calm, judicial air which men assume when masking a sad secret, "I have nothing to say."

"Yes! Yes! Yes!" chants Mrs. Hopkins, of New York.

"No! No! No!" sighs Mrs. Graydon.

And thus romantic maidens and ardent lovers are left to answer for themselves.

But back to the tale of these two girl-eloped elopements before you die.

**Down Ladder to Her Lover.**

For several months before their elopement Beryl Whitney and Thomas H. Graydon, popularly known as "Blondy," kept the wires between New York and San Francisco humming.

They had two institutions of learning ago with excitement; they cost several eminently conservative and fashionable ladies many good nights of needed slumber; and in the end they obtained parental forgiveness.

Mrs. Graydon climbed down a ladder to meet her waiting lover. That was in 1902.

Between Vera Siegrist and Russell Hopkins there was but one distance, the youth of the girl who was just 17. The determined lover, decided that the obstacle could be removed.

His father, just as successfully after matrimony as before, so he suggested an elopement, and the young girl was entirely agreeable. And she climbed up the ladder to her waiting suitor.

That was in 1902. The elopement of Miss Whitney and Mr. Graydon preceded by a long and strenuous hot warfare with the parents of the girl, who was just 17. The determined lover, decided that the obstacle could be removed.

## YES If You May Judge by the Romantic Experience of Mrs.

Russell F. Hopkins, Who Is Very Happy, and Whose Baby Has Become the Heiress to the Million-Dollar Lawrence Estate.

## NO If You Are to Consider the Case of Mrs. Helen Whitney Graydon, Who Says That Marriage Is a Failure, and Has Begun Suit for a Divorce from Her Football Hero.

The mischief had been done right under Miss Moxley's eyes. The engagement had been entered into!

Miss Moxley swallowed her chagrin and put the young man up for the night, hoping in this way to avoid scandal in the village, and the next morning he departed, so his fiancée said, to join his parents at their home in Cincinnati and announce their engagement.

But, oddly enough, that very night several things happened. Several college youths appeared in Sharon Springs and put up at the tiny inn. The colored butler at Miss Moxley's retreat for obstreperous schoolgirls saw the shimmer of gold and found a convenient ladder somewhere about the place. This he tilted against the wall of the cottage, just where it would do the most good, and three dainty figures, including Miss Whitney's slipped down the ladder.

Miss Walcott, who led the escape, was expelled from Miss Ely's school, but the parents of Miss Whitney and Tom Graydon decided that further interference was both useless and unwise. The engagement was announced with full consent of both households.

Miss Whitney returned to Miss Ely's school to finish out her term, and Mr. Graydon returned to Harvard, where he was graduated the following June.

Vera Siegrist was the grand-daughter and heiress of Dr. J. J. Lawrence of patent medicine fame, who built a palace at No. 1080 Fifth avenue, and held this only grandchild as the apple of his eye.

Russell F. Hopkins was a millionaire from Atlanta, Ga., a sportsman and yachtsman, several years older than Miss Siegrist, who was not yet 18. He met her during vacation days at Narragansett Pier, and while her grandparents had no objection to Mr. Hopkins, they felt the girl was too young to marry.

On the very day when she was expected to return to her duties in a fashionable private school, she disappeared from home with her maid. The two boarded a tender at a North river pier and steamed out to where Mr. Hopkins' yacht "Uno" rode the shimmering waters. Lightly Miss Siegrist climbed the little ladder to where her lover's arms awaited her.

Then the captain of the yacht was ordered to steam up, full speed, for Poughkeepsie, where a clergyman came aboard and performed the ceremony which capped this romantic adventure. Cupid, sitting aloft, smiled and suggested a message to the bride's guardians.

**Secure Forgiveness.**

The news brought great consternation to the Lawrence household, for

both the bride's grandparents were of advanced years and they felt that the girl was not old enough to know her own mind.

Nevertheless, they granted forgiveness, and the mother of the bride groom, following suit, gave a splendid reception in their honor at the St. Regis. Later, the two young "opie" set up housekeeping on a fine estate at Irvington-on-the-Hudson, known as "Veraselle," which they made into one of the most beautiful on the Hudson.

Their time was divided between this home, their yacht and the St. Regis, where they have always kept a suite. One of their mutual fads has been a zoo given over to odd and rare animals. At one time Mr. Hopkins created something of a sensation by trying to break zebras to harness.

The old grandfather lived to see his "little girl" living a most happy married life, and so when he died on March 14 and his will was opened it was found that he had made the wee daughter of Mr. and Mrs. Russell F. Hopkins heiress to a million dollars of the Lawrence legacy, with the mother as trustee.

**Does it pay to elope?**

"It does," answers Mr. and Mrs. Hopkins in happy chorus.

**Great Electric Motor System.**

The electric motors on the New York Edison system aggregate 265,175 h.p.

Now for the other side of the picture.

Immediately after his graduation the two young people slipped quietly away and were married, wiring later to their respective parents for the proverbial blessing.

A year later Tom Graydon's father died and he came into an inheritance of about \$25,000, a mere bagatelle when compared with the fortune which would be his young wife's, but he decided to use his fortune in a most practical way. He bought a shoe manufacturing business and, donning overalls and jumper, went into the leather room to learn the business from the cellar up.

**Sad End of Romance.**

From that time on the Graydons lived quietly in Cincinnati, the young man doing deeper and deeper into business. Then suddenly, to the amazement of friends, Mrs. Graydon appeared at her father's home in San Francisco, denied herself all social attentions, but did not deny the rumor that she was filing suit for divorce on the ground that Mr. Graydon had failed to support her. Thus a familiar excuse for divorce covers a matrimonial tragedy.

Did love, when the man found business more fascinating than courtship, or did she have of excitement labor in Beryl Whitney Graydon, make a matrimonial existence seem tame and flat?

Now for the other side of the picture.

## CATTLE A MENACE

SPORTSMEN ARE FORCED TO FLEE FROM WILD ANIMALS.

Secure from Capture, the Brutes Roam Forests of Idaho and Are Much Feared by Prospectors and Timber Cruisers.

Mining prospectors and timber cruisers returning to Spokane from the headwaters of Big Creek, in the Coeur d'Alene panhandle of northern Idaho, report that several large bands of long horned wild cattle are roaming over the heavily timbered

mountains of the Twin lakes and the heads of the St. Joe and St. Regis rivers. They have forced numerous prospectors to beat undignified retreats, and instances are related wherein sportsmen have sought the shelter of traps, remaining there for hours, until the animals left for water and food.

Most of the territory south of the lakes, where the cattle were seen in the largest numbers, has never been penetrated by a white man. No trails have been cut through the fastnesses, nor has even the blast of the timber cruiser been made upon the banks of its virgin forests. A few prospectors reached the lake and camped a short time, but were forced away before any investigations could be made of the surrounding district.

On the north bank of the largest of the two lakes there is a marked tree, where years ago five prospectors framped their toilsome way, and finding gold quartz scattered on the ground, made a location covering the small stream outlet of the lake and also taking in parts of an inclosed ledge near the lake shore.

Campfire places and a few tin cans mark the spot where these men camped; who they were or what their subsequent movements has never been learned as the small scraps of paper found near the spot which had been their location contained no marks or name by which to identify them.

That they did not return to the lake is evident, as no work was ever performed upon their location, nor were any marks made to show that they returned. Around these lakes and near this spot the many tracks of cattle first attracted the attention of the few prospectors to later gain an entrance into the district. The general was beaten down by hordes of cattle. The lake was used for the watering resort, and not far away was found a salt lick where the herds went at intervals.

Fred Sears of Spokane and his brother, J. Sears of Coeur d'Alene, Idaho, were owners of a wholesale meat business at Wardner, Idaho, ten years ago. J. Sears, as purchasing agent for the firm, was in Montana most of the time, and thence he

shipped many cattle in car load lots, which, when not killed off at once, were either herded in the grassy valleys near the slaughtering houses or corralled.

Twenty of the animals, not being needed in the storage, were given the freedom of the wide valleys running up Big Creek from its confluence with the river. The herd was in the care of several experienced cowboys, but when the round-up came and the animals were headed for the corrals, some of the wilder ones, fresh from the ranges of Montana, stampeded and broke along the creek faster than the hard riding cowboys could travel on

their bronchos. Six animals escaped at that time. After putting the remainder of the herd in the pens, the rest cattle were trailed for miles through the brush and over the mountains until the drivers almost lost themselves in the wild regions of upper Big Creek.

The search was abandoned and for several months the Sears brothers offered liberal rewards. Several parties were close to the prizes, but each time the cattle managed to escape, getting farther into the mountains. They finally became so wary, and so wild that approach in any manner was impossible, and the hunting trips for them were given up in despair.

From that beginning the cattle have increased until their numbers are now unknown, and their wildness cannot be compared to any other creature of the woods. They have taken refuge far back in the recesses of the wooded hills, and there for years they are in position to defy the hand of man.

## LATEST FROM PARIS

HANDY USE FOR WALKING STICKS AND UMBRELLAS.

Their Novel Evolution, Through Parisian Ingenuity, Into Up-to-Date Hand Bags for All Kinds of Necessities.

From Paris come all the styles those that are catching and those that are ultra and outre. Clothes, hats and lingerie fashions, all come from

Paris. The small, invisible hairpins, a thin veil, bonbons, his first poem or his prize essay, the criticisms of the problem plays, the novel which she must not read at home, samples of the newest dry goods patterns, a four-leaf clover, a long shopping list for mamma, matinee tickets, her handkerchief, and a small necessary in case of an accident.

For the woman of fashion to do without her handbag, containing so many of her little individual comforts, for any length of time would seem to be impossible, yet their growing size has made them a positive nuisance and a heavy weight to carry. But what was to take their place? Who would find a place to put these things? The French inventor, of course, and right cleverly and gallantly he has done his work.

First of all there is a neat little knob on her ladyship's umbrella handle made of gold, and smaller than a pingpong ball. This is so small and pretty that it would seem to have only one possible use—for the owner's hand to lean on. But upon its smooth surface there is a tiny lump; press this and the knob opens. Within is disclosed some sort of a gambling game. It may be roulette, it may be the "petits chevaux," so dear to every French woman's heart, or it may be a miniature Monte Carlo roulette wheel. But whatever it is, it serves to amuse the woman while at her five o'clock tea.

Another innocent little umbrella handle has within a complete pack of ivory cards with which she can while away a tedious hour in her motor car or on the train.

But man must not laugh at woman's vanity; for a glimpse at some of the other crooks and crooks of walking cane handles show that the stern sex are just as conceited about their looks as are their sisters.

Stand at the big, ugly, knock-a-man-down handles of a year ago, those of today are small, simple and delicate. One contains a mustache brush, a comb, a mirror; another a pair of manicure scissors and a nail polisher. To grove, however, that man thinks of business at all times one of these cane receptacles has rolled up in it a memorandum pad, a pencil, fountain pen and penknife.

Styles being distinctly feminine, are generally changeable, and often change with the season; but the inventors and artificers of Paris have lately produced and put upon the market some really useful, and it is to be hoped lasting, novelties of a real practical value. These novelties consist of a set of unique and at the same time practical crooks and handles for umbrellas and parasols.

The useful article, which is at the same time elegant and costly, must be more or less necessary, or it would not pay to invent it. If there were pockets in women's frocks, cloaks and capes, there would be no reason for the dozens of styles in leather, silver or gold chateaus or the embroidered relics.

A peep into one of these up-to-date bags is like a look into a woman's

Wild Cattle Evade Cowboys.

An eminent professor of the United States Agricultural Department has been studying the hen. Think of writing books on hens. Listen to this! The American hen produces more in dollars and cents than all the gold and silver mines in the country combined; and if the value of the hens be added, the aggregate is twice the annual yield of all the gold and silver mines and six times the value of the wool crop.

The most independent man on earth is the farmer, for he makes the earth yield him almost everything needed for life. He knows that as he sows so will he reap. He usually keeps strong and healthy with constant strife with nature in sunshine and in purg air. At sundown, when work is done, he finds most refreshing sleep in bed, such as only a tired man knows. In the same way that the earth yields food for man, so does it provide remedies for human ills. Thousands of households throughout the farming districts of the United States know the value of Dr. Pierce's Golden Medical Discovery. It is nature's most valuable and health-giving agent—made from roots, herbs and barks, and is the concentration of nature's vitality as found in the fields and woods. This remedy has a history which speaks well for itself. It was given to the public by Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., nearly forty years ago, and has since been sold by druggists in ever-increasing quantities. Some medi-

cines enjoy a large sale for a few years, then disappear from the public attention, but Dr. Pierce's Golden Medical Discovery has proved such a reliable blood remedy and tonic that it often enjoys the confidence of several generations in a family, and has known of some of our neighbors who have tried it, prove its lasting merit, so that every bottle bears the stamp of public approval. Moreover, Dr. Pierce guarantees that it contains no alcohol or narcotic.

Hon. John E. Smith, Registrar of Deeds, Court House, Durham, N. C., writes: "We have used Dr. Pierce's Golden Medical Discovery in our family, and have known of some of our neighbors using it. We have always found it to do all that is claimed for it, and feel confident that it is a splendid remedy."

Mrs. Bettie Mill, of Cotton, N. C., writes: "I procured Dr. Pierce's Golden Medical Discovery and took it for my cough. The medicine acted like a charm; cured my cough all O. K. I feel very grateful to you for your kindness. Use my name if you choose."

Do you know what a one starer? A complete medical book and physiology of the body, in Dr. Pierce's Common Sense Medical Adviser, which can be sent to you for the price of postage. Send Dr. R. V. "One Touch of Nature—Make the Whole World Kin."

When a rooster finds a big fat worm he calls all the hens in the farm yard to come and share it. A similar trait of human nature is to be observed when a man discovers something exceptionally good—he wants all his friends and neighbors to share the benefits of his discovery. This is the touch of nature that makes the whole world kin. This explains why people who have been cured by Chamberlain's Cough Remedy write letters to the manufacturers for publication, that others similarly afflicted may also use it and obtain relief. Behind every one of these letters is a warm hearted wish of the writer to be of use to someone else. This remedy is for sale by Dale & Stubblefield.

**Live Minks Wanted.**  
If there are any minks about your place you will likely save your place by catching them and make money besides. I will buy minks any time this summer delivered at my place in Murray. **Words To Freeze The Soul.**  
"Your son has consumption. His case is hopeless." These appalling words were spoken to Geo. E. Bleven, a leading merchant of Springfield, N. C., by two expert doctors—one a lung specialist. Then was shown the wonderful power of Dr. King's New Discovery. "After three weeks use," writes Mr. Bleven, "he was as well as ever. I would not take all the money in the world for what it did for my boy." Infalible for coughs and colds, its the safest, surest cure of desperate lung diseases on earth. 50c and \$1.00. Dale & Stubblefield guarantee satisfaction. Trial bottle free.
