The strike forced the High school pupils at Pulla, Marion county, Ia., Friday. There was much dissatisfaction last week when it was announced that the board of directors had decided against giving the usual week's vacation. The custom, however, has been to give the students a week's vacation. A petition was circulated and unanimously signed by the pupils, but in vain. As a last resort active measures were taken. At 9:30 a. m. a military array of about sixty pupils of age bade defiance to the powers that be, and marched out of the building in procession with banners and stars and stripes trailing over their shoulders. On the banners were mottoes such as: "We claim our rights," and "We will not be tyrannized." They tramped like a military array over the streets and around the railroad track into the suburbs, where they had a regular picnic. The strike continued all day. The children's army was not to be deterred by the school, and as if nothing had happened, and promptly returned as if going to school, but instead going to the general rendezvous of the strike, where the parents got wind of the matter, and informed the youthful strikers that "they guessed they would join in the strike too." They, like the youthful strikers, will return to school this morning with their spirits more subdued than before the trouble occurred.

## GONE WRONG.

Kentucky's State Treasurer Short on Accounts.

\$100,000 GONE GLIMMERING—SO HAS "HONEST DICK."

A Reward of \$5,000 Offered for the Defaulter and Fugitive.

FRANKFORT, March 20.—A special from this place to the Louisville Times says: Gov. Buckner this morning suspended Treasurer Tate and named Attorney General Harlan.

The message from the Governor to the house announcing that Treasurer James W. Tate had been suspended because of discovered shortages in his accounts and great dereliction in his duty as treasurer created a great sensation.

The discovery is the result of the books of the treasurer being examined by an expert accountant. The first reading of the message caused a hubbub over the entire house.

THE NATIONAL GARMENT CUTTER. Plain Talk by the General Manager.

I wish to have plain, honest talk with all parties, including those who are waiting to go into the garment business as well as those already employed.

If you are thinking of entering the work you have an object in view. Now as an honest person it would be well for you to ask yourself what that object is.

Is it to make money? Is it to better your condition? To see the country, regain your health, benefit others as you can, or what is the object? The probabilities are that you have a number of objects in view, and are reasonable. Well, the first thing for you to do is for you to carefully examine the garment cutter, and the nature of the work and see if you are suited to the work or the work to you. It is pleasant work compared with other work, and requires no more exertion than you would have to put forth in any other work. Do not imagine that any business can be successfully followed without steady, persistent effort.

I am often asked what are the essentials to success in the garment cutter business? They are steady work, common sense and perseverance. Capital, influence and all these things help, yet they are not positive essentials, as by following the work properly these can be obtained.

Another question that is often asked is, do all succeed in the work? No, all do not, neither do those who do succeed do so to the same degree. But in all lines of business, men fail. All farmers, mechanics, lawyers, physicians or men of any other kind fail. The reasons for these are general needs of the garment cutter, its correctness and comparative freedom from competition.

We believe a greater number in proportion will succeed and do well in this work than in any other line of business. That there are failures in this work we do not deny and we expect none to fail. The same methods and rules leading to success and failure in other work will apply.

Respectfully, BRODBELT & STERLING.
