The American Legion Baseball Club of Fulton has been
beating some good exhibition teams, and is ready to
appear on the field of honor for the first time this season.

They also beat Fulton two out of three games and they
now have eight games on the program. And it is expected
that they will definitely give good work.

LINDENBERG'S RECEPTION

An hour after Lindbergh
was welcomed home after his
flight, the Nation expressed its un-
qualified appreciation of the great
flight. The flight, in its im-
portance and the individual
qualities of the hero, was
too great to be measured by
human standards. It was the
largest, the most difficult,
the most complete flight of
modern times, and it gave
the American people a
new feeling of pride and
confidence in themselves.

The flight itself was an
achievement of the first
rank, and it is impossible to
describe it as anything less
than a victory at Manila Bay.

The nation was welcomed home after his
flight. In Washington, Saturday,
the Nation expressed its un-
qualified appreciation of the
qualities of the hero. Lind-
bergh made his first public
appearance in Washington
City, and that was an
appearance to which the
Nation gave full measure of
admiration.

The flight was a successful flight in every
sense of the term. Lindbergh
was not only the first
American to cross the
Atlantic, but he did it
alone.

**KEEPING UP A FRONT**

With a view to obtaining definite information as to the growth of poultry among farmers in this vicinity, The Fulton Advertiser has been writing to several of its correspondents, who have been very kind in furnishing information. The following is the result of this work by Seyg. J. R. Wall. Many such reports appear on the first page of this issue. The writer is confiding the information to the publishers of his paper, who will be asked to make a similar effort in their respective localities. The results of this investigation will be published later.

**Importance of Paint**

**Need to Coordinate**

Painting machines and党组织 are the most important points in a building. A building without proper painting will never be of much use. The writer is of the opinion that the painter should always be on the spot to paint the building as soon as possible. A painter is a very important man in the business; he should always be on the spot to paint the building as soon as possible.

AIR DRIED CLOTHES
Do you realize what it means to receive a bundle of thoroughly washed and air dried clothes from a modern power laundry?

It means that at last the only remaining barrier between the housewife and the laundryman has been broken down. Because, now the modern laundry not only washes clothes cleaner and whiter, but also dries them in a method so gentle that the tenderest fabrics do not suffer and in a time that is shorter than ever before.

This modern laundry has done more than eliminate the necessity of keeping clothes in the laundry for days and days. It has made it possible for the housewife to have her clothes washed and dried in a manner that is perfect for her.

The result is a bundle of clothes that is not only clean and white, but also perfectly smooth and soft. The clothes are not only washed and dried, but also ironed to perfection.

This modern laundry has not only made it possible for the housewife to have her clothes washed and dried, but also ironed to perfection, but it has also made it possible for her to have them delivered to her door in a manner that is convenient for her.
