Circus Day Crowds in Fulton

In spite of a strong heat wave last week by our merchants is having telling effect already. Several firms who advertised very little are showing good results. The city streets are being crowded with visitors and the stores filled with eager shoppers to supply their needs and those of their friends. All stores are reporting a big business with a brisk trade.

The big interest is the building up of the new Fulton Fair Grounds, for which work is already in progress at the fair grounds. The workmen are busy clearing the ground and leveling the surface so that the fair will be ready for the opening next spring.

Great Meeting In Progress

The revival which has been going on for the last ten days at the Fulton Park Auditorium, has been pronounced a success by those who have witnessed the services. A committee of men has been appointed to look into the matter of making this a regular annual event.

President Hardesty Returns Home After Attending Convention

E. C. Hardesty, president of the Bankers Club of Fulton, has just returned from a trip to the 22nd annual convention of the Bankers Club at the 14th Annual Convention of the National Bankers Club, June 15 to 17, at Des Moines, Iowa, where he was not only a spectator but also a speaker.

For Governor

J. C. W. Beckahm

Democratic Primary August 6, 1927

For some time now the Bankers Club has been quietly form- ing plans along presidential lines. The time has come when resolutions were in order. Mr. Beckahm was the only candidate for the position, the vote of the local Chamber of Commerce, the bank directors, and the bankers being necessary first to carry a such a resolution. President Beckahm was appointed by the Chamber of Commerce and was elected by the bankers.

For Dairy Interest Is Fulton's Hobby

Fulton has been quietly studying the dairy farming. The time is ripe, just taking the lead in the field was the natural consequence. The dairy farmers of Fulton are all in for the contest and the victory will be theirs.

For many years the Fulton Lions Club has been quietly working for a better Fulton. They have been in the field for a number of years and their work is now bearing fruit. A better Fulton is a better state, and a better state is a better nation.

Dairy for Fulton's Hobby

Dairy farming is not only a business but a hobby. It is a business because it is a way of life. It is a hobby because it is a sport. It is a business because it is a way of making a living. It is a hobby because it is a way of spending one's leisure time.

AIR DRIED CLOTHES

Do you realize what it means to receive a bundle of thoroughly washed and aired dried clothes from a modern power laundry?

It means that at last the only remaining barrier between the housewife and the laundryman has been broken down. Because, now the modern laundry not only washes clean whatever you choose to send, but also duplicates in every respect the method of drying that the housewife has employed for time immemorial, namely, the hanging of the washing on the old-fashioned clothes line to bask and dry in the glorious sunshine.

The greatest development in years and years, comes to this steadily growing industry in the perfection of a natural drying process. This new method of drying does eliminates for all time that uncomfortable odor which has branded the work of the power laundry in the past.

Thousands and Thousands of Cubic Feet of Concentrated Sunshine

The scientific application of air as a drying agent in the power laundry is accomplished by the perfection of the Vorclone Drying Tumbler. This most wonderful machine harnesses the fresh air in such great volumes that it almost entirely eliminates the necessity of heat to dry clothes soils. It dries clothes to air, evenly and gently, ventilating them thoroughly, freeing them entirely of all lint, leaving them soft, flaky and perfectly odorless. Clothes dried in this manner are never shrunken, discolored or left with a harsh feel.

The Vorclone Tumbler used in our laundry is the only drying tumbler that does not depend solely on heat to dry clothes; it is the missing link in an otherwise perfect laundering process. It puts the work of the power laundry on par with that of the housewife's own private laundry.

Be sure to see this wonder machine in our laundry anytime, feel and smell the clothes it dries, notice how fresh and sweet smelling they are.

Phone 130

When you see the planning results, the economy, and the convenience of the service, you are going to put a hook on "house wash day" throughout the year.

REMEMBER!

It is supposed to have happened in Pennsylvania; but we are not certain. It did happen. In fact, it has happened. But the situation was revealed as the result of a survey recently completed under the direction of the Federation of Rural and Small Towns, and the findings are startling. The survey revealed that of the 672,240 homes in the United States, 441,900 have public libraries, and the houses in these communities have an average of 3.7 members each. In 37,500 of these communities, the average number of children under 16 is 2.2.

PROPER PLAN FOR RAISING TURKEYS

Partners in the Memphis Colliery estate at Bluebird have now completed the packing of their turkeys for shipment. Many of the families of the miners have received their live birds for the Christmas day table. The packing is now in full swing, and it is estimated that about 5,000 turkeys will be ready for delivery by Christmas day. The turkeys will be shipped to various parts of the state, including the Memphis area, and will be delivered to the buyers by the end of the week.

The turkeys are raised on the estate and are fed a special diet to ensure their health and well-being. The owners of the estate are proud of their turkeys and have put a lot of effort into raising them. They are confident that their turkeys will be a hit with the buyers and that they will be enjoyed by many families this Christmas.

The turkeys are sold at a competitive price, and the estate owners are happy to provide a quality product to their customers. They are looking forward to the Christmas season and hope that their turkeys will bring joy to many families.

The Memphis Colliery estate is known for its high-quality products, and the turkeys are no exception. Customers can be sure that they will receive a delicious and healthy meal from these turkeys.

For more information about the turkeys, please contact the Memphis Colliery estate at (phone number). They will be happy to answer any questions you may have and provide further details about their turkeys.
More cows without more help

If you could milk and tend more cows without increasing your labor costs, it would pay you to get them.

Electric milkers, cream separators, feed grinders, and water pumps are just a few of the labor-saving devices electricity is bringing to farms.

To make electricity pay its biggest dividends you need more than a power line. You need expert advice.

Call to see us when you and your neighbors are considering the use of electricity.

KENTUCKY UTILITIES COMPANY

Build Bigger Pigs—with Less Feed

The pig that is growing large on a good feed does not get any bigger from the same feed if you stop feeding him. When you stop feeding him, he gets fat. That is how you save. When the fat is all gone, he is ready to be slaughtered. Give your pigs a chance to develop without too much feeding, and they will make big pigs on small feed. This modern method of raising pigs is the most economical way to raise them.

A 100 pound sack of Purina Pig Chow will build as much pork as 100 pounds of midds or shorts—and costs just half as much.

Pig Chow is Easy to Feed

The directions are simple. Feed a diaphragm plate right on top of your hay, or mix it in with your feed you have on hand. Ask us for the Feed in Checkboard Bags.

BROWDER MILLING CO.
Distributors.

Apply them right over old shingles!
