• SUNDAY IS GO-TO-SUNDAY-SCHOOL-DAY IN KENTUCKY — EVERYBODY SHOULD ATTEND SUNDAY SCHOOL SOMEWHERE—WHY NOT YOU!
Before you decide on any new car—
Get that V-8 feeling!

Borrow a car from your Ford Dealer today

It won't take you five minutes in a new Ford V-8 to realize why the Ford dealer is in business. Why families with several cars find that it's the Ford that's always in demand. Why over 2,000,000 Americans have bought it in the past four years.

For here, in an economical car, is the type of modern power plant used formerly only by cars priced in the thousands—indeed, most powerful.

Making all driving easier and pleasanter.

Here, too, you'll find the improved modern "spring"—actually 12 inches longer than the wheelbase. You'll enjoy the protection of a steel body, new Super-safety brakes, safety glass throughout, and you'll be delighted with the proved overall economy of a car that is built to the Ford ideal of giving the utmost for every dollar spent.

We urge you to drive this new Ford V-8 now. We want sincerely that no one should buy any car at any price without first having the opportunity.

PLAYING SAFE!

Playing Safe!

Here you have the story of the man who bought a look for his barn—the morning after his barn had burned down. We must admit that he was "playing safe" for the next time.

But farmers have a different idea in that in their baking. They never wait for calamities to happen, and then rush down to a good brand of flour. Not so. You must plan ahead.

Our grains are dry and ready to sell when you need them. The price will be higher than now and you will be sorry. Drive in and inspect our stock. We are 100% dry for right now and 30% dry for winter storage.

Two weeks ago, Robert Owings had a fire in his barn. He came to us for help in getting dry corn. We supplied him and he was able to save much of his stock.

Our grains are now in the dryer and will be ready for storage. Remember, "One is not a crowd but two is a majority."

Come to us and get your shares. We have large supplies of oats, corn, wheat, and rye.

SYNOPSIS

CHAPTER II—Continued

The Flying Pool

The morning dawned bright and sunny. The sun was up and the sky was clear. The air was fresh and invigorating. The waters were still and calm. The trees were swaying gently in the breeze.

The water was clear and cold. It was so clear that one could see the rocks and gravel at the bottom. The water was so cold that it made one's teeth chatter. The water was so clear that one could see the fish swimming in it.

The Laban "used to take all the work here.

The Laban was a large man and he was strong. He could lift a heavy weight with ease. He had a large hat on his head and he had a large beard. He was always dressed in a suit of clothes. He was always well-groomed.
