## THE LISTENING POST.

● For the past few days I have been wondering if Mr. Chamberlain, the British Prime Minister, was the only man in the civilized world who was surprised and bitterly disappointed when Adolf Hitler, the German opportunist, exercised the mortgages he took last September and foreclosed on the Czechs to almost the last farthing. It will be remembered that Mr. Chamberlain was the moving spirit in the trade that gave Hitler this mortgage, and who afterwards told his nation that he had saved peace "for our time."

● In reading press reports the famous Munich conference and in digesting the opinions of men who should know, and in talking with other common folks like this writer, I never found any evidence anywhere that anybody believed what Hitler said. I never found anybody who thought or believed that this was the last territorial demand in Europe that Hitler would make. Yet, it appears that Mr. Chamberlain believed Hitler thoroughly, for the other day, in his speech concerning Hitler's latest grab, he expressed himself as amazed and pained and disillusioned at the German dictator's action. Verily, Mr. Chamberlain must be a naive sort of person; a man who believes any tale that is told and who places confidence in the unsupported statement of a dictator. My own opinion, for whatever it is worth, is that promises made by any European nation fall into the doubtful list and promises made by the totalitarian states are worth even less. In fact, when a dictator tells you something the best thing you can do is to find out what the opposite of that statement may be and believe that.

● So Europe again stands on the brink of war, and this time the advantage is heavily with Hitler. The little nation of Czech-Slovakia was a distinct threat to Hitler six or eight months ago. It was heavily fortified, it had a trained army, it had a great arms factory. It could have stood off German legions much longer than Belgium did in 1914—and this delay in the World War was all that saved the Allies. No matter who may have won the war later, it must remain a fact that when Belgium held up the German advance for several weeks it enabled France and England to throw troops into the breach, and had it not been for Belgium's heroic stand, German troops would have taken Paris within six or eight weeks after the war started.

● The Czechs could and would have the part that Belgium played in the World War. But not now. Mr. Chamberlain, in pursuance of his folly of trying to appease Germany, made certain of that. He gave Hitler the entrance to that little nation, rendered it without defense and believed the usual process. He consolidated his gains, rendered the Czech government impotent and then in one stroke wiped that nation off the map. What belonged to the Czechs now belongs to Germany, and there can be no effective resistance made by the remnants of that nation. The things which would have fought Hitler will now fight for Hitler, and Mr. Chamberlain cannot look for any help in that sector.

● Taken altogether the Peace of Munich represent the most amazing diplomacy that the world has ever seen. In fact, all the diplomacy that has been used against Germany in past years has been so weak that one wonders why France and England trusts any diplomacy. Practically the entire world knows, or believes, that when Hitler marched into the Rhineland in defiance of the peace treaty France could have stopped him and forced him back. But nothing was done save for talk—and now it seems that talk will make no impression on Hitler. He seems ready for a test of arms—and the advantage now rests with him.

## Cox Slaps Face Of Man Seeking Relief Support

Georgia Solon Angered At Workers' Alliance, Two Negroes

Washington, —Angered by the tactics of a Workers' Alliance representative taking part in a drive for the administration's \$150,000,000 relief appropriation, Rep. Cox (D-Ga.), slapped the man in the face today in a House of Representatives corridor.

The Alliance representative, a white man whose name was not learned, called Cox from the House floor, eyewitnesses said. Indicating two Negroes who were with him, he informed the Congressman they were constituents and wanted his support for the WPA fund.

Cox was said to have told the Alliance spokesman his companions would be better off behind a plow back in Georgia, and that the matter of how he should vote was for his own determination.

The Alliance representative was quoted as saying: "That isn't satisfactory and we'll remember it at the next election."

Cox, witnesses said, slapped the man's face and told him to "remember that, too."

## Nazi Plane Forced Down On Secret Trip

Ria de Janeiro—A German airplane making a secret long distance non-stop flight from Berlin to South America was reported down at sea today.

The report, picked up by the Air France radio station on the island of Fernando de Noronha, said the crew was rescued.

At Natal, one of the points at which it had been expected the craft might land, it was reported the plane was forced down near Brazil's easternmost tip. The German plane, a Heinkel, was reported to have crashed in the sea.

The plane, a Heinkel, left Berlin at 2:06 p.m. Tuesday, passed over the Cape Verde Islands at 9:45 p.m. today, and had been expected to reach Natal tonight.

## Estranged Wife Accused Of Fatal Bombing Of Husband

Rosiclare, Ill., —Earl W. Austin, 43, a World War veteran and former school teacher, was killed and a woman companion was seriously injured today by a dynamite blast that wrecked Austin's automobile 12 miles east of Elizabethtown on the Lambtown-Cave-In-Rock highway.

Mrs. Alice Austin, 35, estranged wife of the dead man, and Theodore Simmons were arrested tonight by Sheriff Otis Brittain on first degree murder charges. They were lodged in jail. Sheriff Brittain said Simmons was a friend of Mrs. Austin.

Austin, janitor at the Cave-In-Rock high school, and Lucene McDowell, 25, had driven five miles from Miss McDowell's home in the eastern section of the county when the dynamite, attached to the car's exhaust pipe, exploded. Both of Austin's legs were blown off in the explosion, which occurred at

## Carl Hastings Is Ruler Of Fulton Elks

At the regular meeting of the Fulton Elks Club held last night in the club rooms, Carl S. Hastings, a very prominent farmer and for the past seven years a very active member of the Fulton Elks Club, was elected Exalted Ruler to succeed J. A. Bowers.

The following officers were elected: James Allen Willingham, Leading Knight; Frank Brady, Loyal Knight; Sandolph Cohn, Lecturing Knight; R. L. Crockett, secretary; C. A. Davania, treasurer; Dr. Sel-don Cohn, trustee; and H. Ed Wade, tiller.

A humorous note was afforded in this election by Ed Wade when he appeared with pistol in one hand and shot gun in the other, demanding that the club get down to business in the election, whereupon Bailey Huddleston expressed his belief that their's must be a "Hitler election" with the voting being done at the point of a gun. (This belief however was withdrawn when Sandolph was elected Lecturing Knight.)

## Meredith Glad To Give Advice On Kenton Gaming

Frankfort, Ky.—Attorney General Hubert Meredith said today after his return from Covington he would be glad to confer again "from time to time" with Circuit Judge Johnst Northcutt and citizens' committees on the gambling situation in Kenton County.

He made it plain he went to Covington upon request of Judge Northcutt and that as Attorney General he was prevented by law from appearing before the grand jury except when its members met unofficially.

Meredith added he would be glad to "give advice" requested but said the question of law enforcement was, under Kentucky statutes, one for local authorities to handle. Asked whether he would make a report to Governor Chandler, Meredith said he did not expect to do so.

## Murray Speaker In Great Address To Chamber Of Commerce Here

In one of the most enjoyable meetings of recent months the Chamber of Commerce last night heard Fred Shultz, Murray State College professor, in a striking and challenging address on "The Justification of Chambers of Commerce." About 50 persons were present and the speaker held them tightly from start to finish.

"Those persons who would tell you that this country is finished, those who weep and say the world is already far along the road to ruin, those who say that we had just as well quit because there is no hope in the future," the speaker said, "are not the people who will face these times and present conditions and make something bigger and better. No, the people who will meet the challenge are those who never quit, those who keep on trying, those who can always see hope ahead."

Mr. Shultz pointed out many challenges that are before people today and expressed confidence that all these problems could be successfully solved.

Previous to the formal program a short business session was held, and the body voted to endorse the advertising control plan that had been devised by the board of directors, and this plan is now in operation. About 25 business firms have already signed the agreement not to buy promotional advertising unless the solicitor has a written endorsement from the Chamber of Commerce.

R. S. Williams made an interesting talk on the wonderful development made by the poultry industry in this section, giving great

credit to Mr. Ross who handles this work for the Chamber of Commerce. Contrasting present conditions with those which prevailed fifteen or twenty years ago, Mr. Williams declared that the change was so wonderful that it could hardly be believed.

One more meeting of the Chamber of Commerce will be held in town and in May it is planned to begin the series of rural meetings.

President Moore named the following standing committees for the ensuing year:

HARRIS FORD WORK: John Earle, Joe Browder, Paul DeMyer, Smith Atkins, John Melton.

## Boys Robbed In New Yards By 2 Negroes

Two white boys were robbed and a third companion received a serious head injury last night in the new yards when two negroes attempted to rob the boys of clothing and money.

The three white boys were Jim Billicker, 18, Willie McDermitt, 17, and "Chuck" Batersby, 18, and arrived in Fulton about 8:30 o'clock on a freight train with the two husky negroes riding in the same car. When the train stopped in the Fulton yards the negroes drew knives and a gun from their pockets. Billicker resisted their attempts at robbery and was knocked in the head by one of the negroes, using a gun as a weapon. Billicker hit the negro in the face, blinding him, and jumped from the train. The other two boys, McDermitt and Batersby, were robbed of leather jackets containing about twenty dollars in currency.

I. C. Inspector Cornell Johnson and local officers made a thorough investigation but no trace was found of the negroes.

Billicker received first aid by Dr. Ward Bushart in the Fulton Hospital, and the three boys remained in Fulton last night. They were enroute to New Orleans, Louisiana.

## Legs Equalized, Girl, 19, Dances For Surgeons

Baltimore—A pretty, 19-year-old girl skipped and danced before a meeting of surgeons today to show a sectional meeting of the American College Meeting of Surgeons the success of an operation to correct a shortness of one leg.

Osteomyelitis, an infection of the bone, left Geraldine Wilkie of Rutherford, N. C., with one leg three inches shorter than the other. Dr. J. Warren White, Greenville, S. C., operated on the normal leg and took out enough bone to make it only as long as the other.

Clad in a green bathing suit, Miss Wilkie appeared on the platform at the surgery clinic and showed how she could walk with only a slight limp.

## 95 Million Boost In Flood Aid Urged By Group

Washington, —Increase from \$110,000,000 to \$195,000,000 to the budget estimate for flood control in the next fiscal year was recommended to President Roosevelt today by a special committee of Congressmen from thirty-three States.

The group was headed by Representative Whittington, Democrat, Mississippi, who said the President "gave us a sympathetic hearing."

Asked by reporters how the increase would fit in with the economy program, Whittington said:

"We will have to let you answer that. We don't want to economize at the expense of flood control."

## 14th Judicial District Post Filled By Reed

Frankfort, Ky., —Clyde E. Reed, of Frankfort, was appointed by Gov. A. B. Chandler today as Commonwealth's Attorney for the Fourteenth Judicial District to fill out the unexpired term of the late Louis P. Morancy.

Shortly after Reed was sworn in by Warner E. Haynes, of Georgetown, former County Attorney of Scott County, filed his declaration for the Democratic nomination for the full term beginning next January. Haynes' certificate was signed by Mayor A. P. Prather of Georgetown and County Judge G. G. Barkley of Scott County.

Reed, a Frankfort attorney, is a native of Edmonson County. He was sworn in at the Governor's office by County Judge Boone Hamilton in the presence of Chandler and Franklin County Attorney James P. Hanrahan.

In reply to a question as to whether he would be a candidate for the full term, Reed replied: "Jimmy and I won't both run." Hamilton, to whom he referred, has not announced, but his friends expect him to make the race.

London, —The importance of British-French solidarity in the new European tension has given a sharp fillip to a long-scheduled visit to London of the French president, Albert Lebrun, and Madame Lebrun, which begins tomorrow.

The trip was arranged for President and Madame Lebrun to repay the state visit King George VI and Queen Elizabeth made to Paris last July.

## FDR Appoints Douglas To Supreme C.

SEC Chairman One Of Youngest Men To Be Named To Bench

Washington, —William O. Douglas, whose Moratio Alger career carried him up the ladder from the status of farm hand and struggling student to the post of chief regulator of Wall Street, was nominated for the Supreme Court today by President Roosevelt.

Just past 40 years of age, the chairman of the Securities Commission will become, if confirmed, the youngest Supreme Court justice since Joseph Storey of Massachusetts took his seat on the tribunal in 1812 at the age of 32.

There was no doubt tonight on Capitol Hill that he would be confirmed with ease. Many Senators hastened to express their approval.

While there was a bit of disappointment among some western Senators, who wanted a western resident appointed, they for the most part indicated approval of the choice.

Douglas, who was at his desk in the SEC building when the nomination was announced, would make no comment on publication, but he yielded to the importunings of cameramen and posed for pictures at the end of the commission's long conference table, once leaning far back in his chair with his feet on the table. He appeared to enjoy the informality of the pose.

The appointment was rated a "victory" for the "inner circle" of more aggressive New Dealers. But it was, in addition, a victory for men of such viewpoint as Senator Borah (R-Ida.), who has differed with the New Deal on many questions.

## U. S. Protests Jap Finances

Tokio—The Japanese Foreign Office confirmed today that the United States, Great Britain and France had been protesting against the outlawing of the central Chinese Government's currency in North China.

The three powers charged that suppression of the Chinese currency in favor of Japanese-sponsored banknotes, effective Friday, was discrimination against their commerce.

Domel, Japanese news agency, reported the Tokio Government's attitude was as follows:

First, the currency measures merely facilitate clearance and will not interfere with trade or discriminate against third powers.

Second, the measures were taken independently by the North China Government (Japanese sponsored) and therefore it is "incomprehensible" that the three powers should protest to Japan.

A state luncheon at Windsor Castle, 25 miles from London, will precede a foreign office banquet and a government reception which will end the official program.

The Lebruns will leave for France tomorrow.

## Rumania's Predicament

The dangerous predicament in which Rumania, threatened with economic and political domination by Greater Germany, finds itself is the direct result of the annexation of Austria and the remembrance and final absorption of the Czech-Slovak State. When Hitler marched into Vienna and gained control of the upper Danube the plucers began closing on the little Balkan kingdom. When he extended his sway over the Sudetan Mountains and later over Bohemia, Moravia and Slovakia he was within grasp of the rich Rumanian oil and wheat fields. All that was necessary was to bring pressure on the smaller country and it would be forced to capitulate unless given outside aid in the form of markets for its goods or military assistance.

It was to avoid this situation that King Carol visited London and Paris last summer, but England and France gave him a cool reception. They could purchase no more of his country's products and they were not interested in a loan to improve Rumania's military defenses. He would have to seek aid from Hitler, and he visited der Fuehrer at his mountain retreat at Berchtesgaden with results that were

none too favorable. Rumania must come into the economic orbit of the Reich if it wanted to dispose of its products and it must deal more gently with its terroristic Fascist Iron Guard. Germany gladly would take it in exchange for manufactured goods all the oil and wheat that it needed, but it meant economic or political vassalage or both for the Balkan country.

Much the same offer is being held out to King Carol, who again returns to England and France to save his country from its powerful neighbor, which ordinarily is the logical market for its grain and petroleum, and Russia also is appealed to for help in a solution of the problem. But England, France and Russia have plenty of such products, or adequate sources of them. Thus Germany's economic penetration, which carried with it political penetration, is difficult to counteract.

Rumania can be brought to its knees without the mobilization of troops or the firing of a single shot unless it can be rescued from its predicament. Another Hitler coup against Hungary, Poland, Yugoslavia, Danzig or Memel is not likely in the immediate future, but economic pressure has already begun and the little Balkan kingdom is in much the same position of dependence on Germany as was dismembered Czechoslovakia following the Munich Pact.

Jittery Europe, therefore, watches the expansion of German territory and of German influence with a surprise not justified by the logical sequence of events.—Courier-Journal.

## 'Frisco Fair Chorines Told To "Dress Up"

San Francisco—Harris McCormick, executive director of San Francisco's Golden Gate Exposition, has ordered chorines in the cast of Greenwich Village musical revue to "dress up—at least as much as Sally Rand's nude rancherettes," after the opening performance of the show here Saturday.

Connick said the adornment of the 100 Greenwich Village beauties, which assertedly consisted only of tiny gold stars, was much too "risque" and cabbage roses and big red stars would have to be substituted instead.

"Even with the addition of the biggest roses available," Connick said, "Sally Rand's girls will still have to go some to be as undressed as the villagers."

The "dress-up" order would become effective immediately, Connick said.

Exposition officials, in a similar move, recently ordered Sally's nude rancherettes to add brightly colored neckerchiefs to their scant apparel.

Circle number 6 of the Baptist W. M. U. met yesterday afternoon with Mrs. Tom Hales on Park Avenue. The meeting opened with a very interesting devotional read by Mrs. W. E. Black, taken from the 46th Psalm, followed with prayer by Mrs. A. C. Allen.

The chairman, Mrs. George Winter, presided over the business session during which time plans were made for an all-day quilting which will be given at the home of Mrs. D. D. Legg.

At the conclusion of the business Mrs. J. E. Hannepin was in charge of the program and was assisted by Mrs. Fred Patton.

The meeting then adjourned until Monday, April 3, and Mrs. Hales, assisted by her daughter, Mary Moss, served delightful refreshments to eleven members and one visitor, Mrs. Elmer Harpole.

## More Mileage! Greater Safety!

Neon Eye Solves Problem That Has Vexed All Motorist

From 50 miles an hour up, does your car handle as easily as at lower speeds? Or, do you unconsciously tighten your grip on the steering wheel and your nerves become more tense? At those higher speeds does your car tramp, shimmy or jiggle?

Unbalanced wheels are the cause! Now the new Bear DY-NAM-IC Wheel Balancer solves the problem by not only balancing the wheels statically, but also dynamically with the NEON EYE. On this machine each wheel is revolved at high speed and the NEON EYE positively detects every spot on the wheel which is out of balance!

Unbalanced wheels are dangerous to safety—cause tires to wear out 20-50% quicker. That's why we now offer car owners this latest service.

### RETURN FROM DELIGHTFUL TRIP

Mr. and Mrs. Joe D. Davis and Mr. and Mrs. J. E. Fall returned yesterday from a two weeks' motor trip which carried them through Mississippi, Louisiana, Texas and Oklahoma, and included also a trip to Monterrey, Mexico, 150 miles below the Mexican border. They made the Natchez pilgrimage on the trip, and saw many former Fultonians in the various states visited. At Vicksburg, Miss., they saw Mr. and Mrs. W. H. McGee, in Texas they saw the Ruckers, Hayden Freeman, and others, and in Oklahoma they saw Fulton's beloved J. C. Cheek and his daughter, Mrs. Brann, and also visited Mrs. Harry Eckdall in Bristow. Speaking of the Mexican trip they say that it very much like touring the United States, with English being spoken at service stations, stores and hotels. They plan to make this trip again and go all the way to Mexico City. It is possible, they were told, to drive from Monterrey to Mexico City in one day, although it is about 600 miles. The Mexican highway is practically all pavement, and while the country is mountainous, it is possible to make good driving speed, as the highway is perfectly engineered.
