BIG LIFT to Better Farming

Better farming, new methods and machines, better livestock, and improved marketing are helping bring about a new era of progress and prosperity in Dixie.

Rural telephones (they tripled in number since World War II in the area served by Southern Bell) are bringing a big lift to farm work and farm living. During the first eight months of this year, we installed more than 92,000 rural telephones.

We'll keep on putting them in as fast as we can—because we know how much they mean to prosperity on the farm and in town . . . and to a strong, well-fed America. More farm telephones also mean more valuable telephone service for everyone.

HOW MUCH FUN do you get from a GALLON OF GAS ?

Power Steering now available on Super as well as Roadmaster. Optional at extra cost.

"MILES PER GALLON" is something everyone talks about—and Buick owners take pride in telling us that they're doing OK on this score.

But the kind of miles is important too. The real pay-off you get when you own a Buick is in what happens while you're turning gas into power.

Every drop of gas sets off a tiny tornado of compacted energy in Buick's Fireball 8 Engine.

You swoop from a standing start to any speed the law or good sense permits with effortless smoothness, thanks to Dynaflo Drive.*

You soar over the road with magnificent levelness—buoyed by big soft coil springs on every wheel—coddled by a dozen other features which make up Buick's million dollar ride.

The car holds direction like an airliner on the beam. You snug into turns with sure-footed

poise—ease your grip on the steering wheel and feel the car seek a straight course again like a compass points to the pole.

This is travel as you've always hoped to find it—relaxed, carefree, luxurious, happy—while you leave the miles behind.

Yes indeed—life's different in a Buick. How different you should find out firsthand.

How about letting us give you a sample—any day you say?

Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series.

Glory Is Brittle

Lesson for September 23, 1952

CALL the roll of the dead nations, name any kingdom or empire you know of, that once knew glory and now is but dust. You will observe, if you know their history, that their ruin began just after a period of special brilliance. It is as if the old proverb were reversed, and the brightest hour came just before the dark. Why is this? One reason is that the glory and the power were not based on a solid foundation. The foundations were rottening away. Glory, personal or national, is a brittle thing.

Bang! Want the Empire? YOU do not have to poke about in large volumes of history to find this out. For a small sum you can buy a book that tells the story of the most famous nation of all time—namely, the Bible, giving the history of the nation called Israel.

Israel was a remarkably short-lived nation. Three kings' reigns spanned its whole history from beginning to end. After that, Bang! It split into two pieces, indeed into more than two. For not only did it divide into the two kingdoms of the north and of the south, but it disintegrated everywhere. All the conquests of David were undone. The Empire of Israel (for empire it was) simply went to pieces at every seam. What had been, for a time, the greatest and only empire between the Nile and the Euphrates, fell to pieces fearfully fast. And all that crash occurred immediately after the death of Solomon, that king whose reign is still remembered for its wealth, glory and magnificence. How could such things be?

Glamor for the Few PART of the answer is that the glory didn't spread around very far. There was no middle class, and the gap between Solomon and his crowd at the top, and the peasants on the bottom, was enormous. Solomon's only known son, Rehoboam, told a mass-meeting of citizens shortly after Solomon's death, "My father beat you with whips." Rehoboam was not trying to blacken his father's memory; he was stating a simple fact. The common man had indeed taken a beating under Solomon.

To build the king's great public works cost money, and needed (in these non-mechanical days) armies of laborers. There was the immensely costly Temple, and then there was the royal palace, larger than the Temple, requiring nearly twice as long to build and no doubt correspondingly expensive; there were other temples, public buildings, pools, water works, fortifications, royal stables at Megiddo and what not. King Solomon found it necessary to work thousands of his people, without pay, one month out of every three.

The fact that about nine tenths of the people were ripe for rebellion within months after Solomon's death, shows that, to say the least, they were not contented and happy. Nations often do die, or blow up, just after periods of "prosperity," but it will generally be found that the prosperity was quite badly distributed. There is little true glory in a nation where a few grow rich upon the poverty of the many.

High Income Bracket BUT THAT is not the whole story. Even if every one in the country were equally wealthy, it might not be good. Strange as it seems, the Bible is full of warnings, not so often against poverty as against wealth.

The truth about Israel is not that Solomon and his friends prospered while the rest of the nation decayed; the fact is, Solomon and his set were decaying too, not in spite of their wealth but because of it.

The king's annual income has been computed at some nineteen million dollars of our money. We hear that he built temples to other gods besides the true God, all because of his wives' influence. If he had been a poor man, he could not have married those expensive imported princesses. A man with excess income will often mis-spend it, ninety-nine times out of a hundred; and Solomon was not the hundredth man.

Today in America every dollar spent on drink, on gambling, is a surplus dollar, an uneasy dollar. Not that you can in any way wipe out sin by eliminating excessive wealth; but you might remove a lot of temptations.

MENU Newsreel

Before leaving home prepare this easy barbecue sauce:
1 onion cut fine,
1 tsp. brown sugar,
2 tsp. dry mustard,
2 tsp. salt,
1/2 tsp. pepper,
1/4 tsp. tabasco,
4 tsp. worcestershire sauce,
2 c. tomato juice, 1/2 c. vinegar,
1/2 pound butter or margarine.
Combine and simmer for ten minutes until slightly thickened. Allow 1/2 chicken for each person.

QUICK CHICK Barbecue!

Step 1. Prepare fireplace and fire. Set up rack from kitchen range on four bricks, rocks or forked green sticks. Be sure fireplace is steady. Rack should be 8 to 14 inches above ground.

Step 2. Use dry wood or charcoal and let fire die down to a low bed (about two inches) of glowing embers (no flames). Add fuel when necessary.

Step 3. Dip chicken halves in sauce. Place skin side up on rack. Small 2-3 1/2 lbs. ready-to-cook broilers require 50-60 minutes slow cooking. Baste often with sauce to prevent drying out. If birds brown too quickly, spread out coals. Turn occasionally. M-m-m... you'll love it!

THE WEEK'S RECIPE

The new apple crop is on the market now and there are almost as many ways to serve apples as there are ways to serve potatoes.

An apple a day may keep the doctor away, but he's the last person in the world one would think of when sitting down to this delicious dessert of apple bandanas with spicy syrup.

APPLE BANDANAS WITH SPICY SYRUP

- 1-2 cup molasses
- 3 allspice berries
- 1 1/2 cups sugar
- 3 whole cloves
- 1 1/2 cups water
- 3 cups biscuit mix
- 2 tablespoons butter
- 6 medium tart apples
- 1 2-inch stick cinnamon
- 1 teaspoon cinnamon

Combine molasses, 3.4 cup sugar, water, butter, stick cinnamon, allspice berries and cloves in saucepan. Bring to a boil, stirring until sugar dissolves. Lower heat, simmer 15 minutes. Make soft dough with biscuit mix, adding liquid as directed

on package. You can use your favorite biscuit recipe. Roll 1.8 inch thick on lightly floured board and cut in six-inch squares.

Pare and core apples, being careful not to cut all the way through. Mix remaining 3-4 cup sugar with cinnamon and fill apple centers with this mixture.

Set each apple on a square of dough, bring 4 corners up over apple, pinch edges together. Set in large, shallow baking pan. Pour molasses around apples. Bake in moderate oven, 350 degrees F., 1 hour, or until apples are tender, basting several times with syrup in pan. Serve hot or cold with syrup and plain or whipped cream.
