WASHINGTON -- The Bureau of Labor Statistics today released a report indicating that the nation's agriculture is in the midst of a severe economic depression. The report indicates a drop in the gross income of farmers from $9,870,000 in 1937 to $9,240,000 in 1938. The bureau said the greater part of the decline was due to a drop in the price of farm products and a decrease in the amount of farm products produced.

WHERE'S ELMER?

If you're planning a World's Fair trip, you won't have an accident to happen then have the check over or to determine the cause.

Like most, that's a very good rule for the wife to use in baking, too. Don't wait for baking accidents to happen and then check up to find the floor of hot, steamy glass by using BROMWELL BROM WIND. The floor that has stood the test for nearly three years is a popular one. But there is something else equally important. That is adequate and proper insurance. When you have this you are not at internal fear of fire for your home protection against overwhelming loss.

Let us plan your insurance protection. Years of experience have taught us how to do this. Don't hesitate to call and ask our advice.
