How About the Weather?

The Weekly Courier Journal, published weekly, contains the greatest degree of popular news and the greatest degree of democratic news; it has been a paper of the people, for the people, and by the people, and it has been the people's newspaper for years. The paper has been printed on the last day of every month since its establishment in 1893, and it now has a circulation of 1,000 copies, which is a sample of the people who take advantage of the paper. The Weekly Courier Journal's total circulation is given as 1,000 copies, which is the total number of copies that will be cast at the coming election.
