THURSDAY, SEPTEMBER 10, 1886.

Halsell carried Butler county over Rhea in the Third district.

The Republicans have probably carried Maine by about 10,000 majority.

The editor of the Philadelphia Ledger says that two women are the ablest writers on his paper.

Mexico came in late with her end of the earthquake, but she got there all the same. Solgwick was there also.

The Wendell Phillips Club, of Boston, banqueting, Fred. Douglass. Frederick cannot possibly be at Boston on a colonization expedition!

Ex-Gov. Plumb, of New Orleans, is making a new record. He is following up the English races making books and is now \$100,000 ahead.

James G. Blaine, Jr., the youngest son of his father, put on a pigeon-falcon and married Miss Marie Nevins, in the Catholic church at Columbus, O., Monday afternoon.

There are 6,000,000 widows in India. Married men die early there. It seems we have about 6,000,000 widows over here that would wipe out the India supply of widows in short order.

A colored minister at Knoxville, Tenn., married an eloping white couple, the first instance on record of the kind. Disbelievers in social equality are now prepared to have their credulity exercised.

We are told that Whitelaw Reid thinks of taking up 20,000 acres of land in California. By the time Whitelaw has toted 20,000 acres of land a few miles, he will be ready to throw up the job of editing a paper.

For the American people remember that such an infernal nuisance as the young man with the chestnut belt never existed under a Republican administration.—Chicago Tribune.

Dead silence is the best thing that could happen to a republican administration.

Stone mountain, fifteen miles from Atlanta, is to be blown up. It is alarming the inhabitants who fear serious results. The result of the explosion will resemble an earthquake, but nothing short of that can now entertain a Georgia audience since Sam Jones has evangelized the State.

A Hardin county man has invented an electrical clock, the explanation of the mechanism of which no common mortal can understand, that will revolutionize the time-keeping world. Logan county has a man that is going to produce perpetual motion; Christian Pomeroy of a fellow that is going to the North Pole with a linen duster and a lunch basket; Breckinridge has a hole bored right into the infernal regions—and, by the time all the other counties are heard from, this will be a g. o. c. after all.

The death of an eminent Harvard Professor is announced in the leading papers. A well-known dispatch sunk down in a corner out of the notice of the common reader, but if "Wildcat Buck" kills two opponents and a widow at a blood fight he occupies a column and a half with a quarter of head lines. Yet this is a great age of aggressive ideas. A dog fight will any day attract more earnest attention than a first class lecture. The public taste is vitiated, and the press feeds them what they want. There is need of a little less of the "blood-and-thunder" business in newspapers. If the horrors of life were dropped for awhile and only the valuable, industrial and useful events heralded in the dispatches, the public would soon adopt the new diet and swallow it with the keenest relish.

Bob Taylor, the Democratic candidate for Governor of Tennessee, is a humorist of the pluckiest sort. During the State convention which nominated him it was reported on authority of ex-Senator Jackson that Taylor would not accept if nominated. His friends were thrown into the wildest alarm, but they hastened to the telegraph office and dispatched him at Knoxville. In a few minutes the wires returned the following reply:

KNOXVILLE, TENN., Aug. 11, 1886.

An old man once hobbled 30 miles to see his mother. On his departure he said to her: "Emmerline, if you don't think I can carry a ham of meat home, try me."

TAYLOR.

As is well known Bob carried the ham of meat home.—Ex.

Mr. Blaine is to stump Pennsylvania after the Maine election.

Justine McCarthy, the noted English historian, is coming to this country this month.

Frost has occurred in the Northwest and we may expect the thermometer to take a tumble here about this time.

The annual state campmeeting of the "Seventh Day Adventists" will be held in Bowling Green from October 6th to 12th inclusive.

The English Admiralty has ordered work upon the unfinished men-of-war at the Chatham navy-yards to be pushed with the utmost dispatch.

A negro in Louisville bet a crowd of bystanders that he could drink a quart of liquor at one time. He swallowed the whiskey and died on the spot.

It is expected that the Bartholdi statue will be completed upon its pedestal by October 19, and the unveiling will take place on November 20.

Miss Marie Reed, the daughter of the millionaire turfman, Chas. Reed, of Galatin, Tenn., clandestinely married Mr. Beaudeau, of New Orleans, Monday.

Miss Studebaker, of South Bend, Ind., paid \$6,000 "dowry" for her husband.

Paris. What would the little Studebaker's of fifty years ago have thought of that?

The English Government gives to her missionaries \$25 for every African sinner they save. Enterprising young evangelists should have an eye to the African missions.

The Suburban society in Louisville gave a blow-out. Men and women paraded the streets in short skirts and stockings to keep alive the traditions of the father-land. These traditions are what we have been trying to get away from for centuries.

Tiffany's gem expert, George Kunz, says "no diamonds will be found in Kentucky." This is especially discouraging to worthy young men who are tramping over the State looking for something to turn up, as it exhausts their only chance of success.

The earthquake was a regular bonanza to News and Courier reporters at Charleston, who stood at their post and hung copy on the hook though the earth trembled. The Associated Press sent \$500 to be distributed among them. News and Courier men will double their salaries this year.

Brother Talmage says that people ought to fling a chair and keep in it. Too many men, he says, want to be Brigadier Generals when they are only fit for pines. A bit of philosophy, if you please, Bro. T., how's a man to know he is in his place till he has tried? Suppose he isn't? He tries again and again, a failure because he changes so often—and so it goes. If a man changes his business often, people say he is a "Jack of all trades and good at none;" if he sticks to one thing and barely makes a living, they say he's "no good" at all. This advice bears in a man on all sides. Shakespeare hit the nail on the head when he said "it is success that colors all in life," whether you be out of your place or in it.

Ayer's Ague Cure acts directly on the liver and biliary apparatus, and drives out the malarial poison which induces liver complaints and bilious disorders. Warranted to cure or money refunded. Try it.

The New York Sun observes that the Tenth district of Kentucky, living in the eastern part of the State and represented in Congress by the Hon. Wm. P. Taylor, is remarkable for the homogeneous character of its population. It consists of twenty counties, with an aggregate population, at the last census, of about 152,000. In all of the twenty counties there are only 341 men, women and children of foreign birth. Most of these live in the towns of Winchester and Mt. Sterling. In sixteen counties, with a population of 100,000, there are only 61 foreign-born people. In ten counties, with a population of 75,000, there are only 15 foreign born. In five counties, out of 30,335 people, there are only 3 of whose nativity is not American. Bell, Breathitt, Letcher, Magoffin, Perry, and Wolfe counties have each only one foreign-born resident; Leslie and Harlan counties have none.

SHILOH'S VITALIZER is what you need for Consumption, Low Blood, Dizziness, and all symptoms of Dyspepsia. Price 10 and 25 cents a bottle. Sold by J. R. Arnalde.

Hog Cholera in Indiana.

INDIANAPOLIS, IND., Sept. 13.—The ravages of hog cholera in the central part of the State are a matter of serious study by those concerned. An important discovery is alleged to have been made by a farmer named Sheppard in Henry county. He had long believed that the disease is nothing but parasites or trichinae in the stomach of the hog, and to vindicate his judgment he held a post-mortem examination upon a hog that died this week. When the naked eye could be seen many of those parasites in the second lining of the stomach. He communicated the fact of the discovery to the Secretary of the State Board of Agriculture, who has referred the subject to a microscopist for examination and report. A story comes from Muncie to the effect that Wilson, a well-to-do farmer, died Saturday with the disease, contracted while administering medicine to the sick hog. He was sick only four hours and died in the most agonizing pain. The far southern portion of the country is horror-stricken, and many farmers are anxious to sell their hams and go West.

Most Excellent.

J. J. Atkins, Chief of Police, Knoxville, Tenn., writes: "My family and I are beneficiaries of your most excellent medicine. Dr. King's New Discovery for Consumption is guaranteed to cure Coughs, Colds, Bronchitis, Asthma, Croup and every affection of Throat, Chest and Lungs."

Trial Bottles Free at Harry B. Garner's Drug Store. Large Size \$1.00.

We know of no mode of treatment which offers to sufferers from chronic diseases, a more certain hope of cure than that which is comprehended in the use of Ayer's Sarsaparilla. For purifying and invigorating the blood, this preparation is unequalled.

To Succeed the Bell.

Humors, Erysipelas, Canker, and Catarrh.

Can be cured by purifying the blood with

Ayer's Sarsaparilla.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.

Price \$1; six bottles, \$5.

SCROFULA

I do not believe that Ayer's Sarsaparilla has an equal as a cure for Scrofula or Humors. It is pleasant to take, gives strength to the body, and induces a more permanent result than any medicine I ever used.

E. Haines, North

Lima, Ohio.

I have used Ayer's Sarsaparilla, in my family, for Cancers, and know, if it is taken faithfully it will thoroughly eradicate this terrible disease.

W. F. Fowler, M. D., Greenville, Tenn.

For forty years I have suffered with Scrofula. I have tried various remedies for my complaint, but found no relief until I commenced using Ayer's Sarsaparilla. After taking ten bottles of this medicine I am completely cured.

M. C. Ambrose, Rockport, Me.

I have suffered, for years, from Catarrh, which was so severe that it destroyed my appetite and weakened my system.

After trying other remedies, without relief, I began to take Ayer's Sarsaparilla, and in a few months, was cured.

Wm. C. Sullivan, Cook, 909 Albany st., Boston, Mass.

Ayer's Sarsaparilla is superior to any blood purifier that I have ever used.

I have taken it for Scrofula, Canker, and Salt Rheum, and have derived much benefit from it.

It is good, also, for a weak stomach, biliousness, and all the ailments which arise from impure blood.

Millie Jane Peirce, S. Bradford, Mass.

A Meteor Strikes Ohio.

AKRON, O., Sept. 13.—The people living in the coal-mining regions, embracing four towns and quite a large range of country, were awakened at midnight by a low, rumbling sound, accompanied by shocks of earthquake so distinct that houses were terribly shaken and articles on mantels were thrown to the floor. Several years ago the earth settled several feet without apparent cause. In this region, and people are now badly frightened, fearing they will be swallowed up. To make matters more unpleasant, a very large meteor yesterday morning passed over the Akron region, and a shower of meteoric stones fell to the earth and throwing off heated particles at every foot. The meteor is supposed to have struck the earth near the southern part of the city, as the shock in that locality was distinctly felt immediately after the great fire passed. The Sunday was one of special prayer here by many people.

There are scores of persons who are suffering from some form of blood disorder, or skin disease, such as Scrofula, Boils, etc., etc. After a practical test H. B. Garner asserts that Ayer's Blood Purifier will certainly cure all such diseases, including Syphilis and Rheumatism. It is not a patent nostrum, but a scientific preparation. He guarantees it.

Co-operation.

Philadelphia Bulletin.

Another Connecticut manufacturer purposed to try the co-operative plan, and his plan has been described as follows: He has taken in his workmen as members of the firm. The workman agrees to contribute any capital sum he may think best to the capital stock of the business. Upon this sum Mr. Kingman agrees to pay a stated percentage per year from the profits of the business, while personally assuming all risk of possible loss. They agree that the wages shall be those generally in force throughout the city, that Mr. Kingman shall have entire charge and direction of the business, and that any workman can withdraw by giving 30 days' notice, taking with him the money he had invested in the business. The men may belong to labor organizations, but being members of the firm, they could not be ordered out in case of a general strike. Co-operation is growing more interesting every year as an American experiment.

Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with headache, you are indigestive, nervous, and generally out of sorts, and want to loose up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap, bad whiskey, and which may make you an honest drunkard, then leave you in worse condition than before. What you want is an alternative that will purify your blood, start healthy action of the Liver and Kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at Harry B. Garner's Drug Store.

The Earth's Shrinkage.

From the N. Y. Sun.

We must remember that we are dwelling upon the surface of a little extinguished sun, which ages upon ages ago became covered with a rocky crust, but which retains in its interior a remnant of the pristine heat that is slowly leaking out. Every school boy understands that when a heated body cools it shrinks in size. The earth does the same, and as the interior mass slowly contracts the hardened crust settles upon it. But the crust cannot thus settle without breaking. Far back in the geological time, when the cooling process was much more rapid than now, the settling of the crust broke and you witnessed it with tremendous power, and the edges and sides of the cracked strata of rock were thrust up into mountainous chairs. Now, when the cooling is very slow and the consequent contraction comparatively slight, mountains are no longer created by the stress upon the settling crust, but slow, almost imperceptible, changes of level in different parts of the earth's surface result from it. So slow, in fact, does the interior of the earth contract at present that the settling of the crust is accomplished for the most part without the knowledge of its inhabitants. Yet it does contract, and the careful observations of earth tremors which have been conducted of late years show that if a complete record of the motions of the earth's crust could be obtained, it would be shown to be slightly trembling in some parts of its extent most of the time.

There are certain regions where the earth's crust yields to this internal strain more readily than elsewhere. In historic times at least, been the scene of great and disastrous earthquakes, and yet its geological structure is such that disturbances of this kind could hardly fail to visit it. This fact is that many earthquakes do occur in this country, but they are usually so slight that little or no notice is taken of them. In the Canebrake Cough and Lung Syrup, Dr. King's Cough and Lung Syrup, the portion of the rocky crust concerned in the disturbance, having presented an unusual resistance to the strain of internal contraction, finally yielded with a proportionately violent result. In that case we may expect that after the present convulsion has completely subsided a long time will elapse before another severe earthquake occurs in the same region, and such is generally the history of disastrous earthquakes.

Farmers and Mechanics.

Save money and Doctor Bills. Relieve your Mother, Wives and Sisters by a timely purchase of Dr. B. Garner's Cough and Lung Syrup. The best known remedy for Coughs, Colds, Croup and Bronchial affections. Relieves Children of Croup in one night; may save you hundreds of dollars. Price 50 cents and \$1.00. Sample free. Sold by G. E. Garner.

Clarksville Planing Mill.
