The other national banks of the city have come to rescue, and it is declared on the authority of the Clearing-House association, the comptroller and also by the officers of the Chicago National Bank, and the local branch of the Home Savings bank, that the balance sheets of the three institutions show that there is more than $500,000 to meet all deposits, and the resources are $4,412,180. AN INTERESTING SESSION CONDUCTED BY A SET OF LADIES.

The Kentucky T. C. U. held an interesting meeting last Thursday afternoon at the home of Miss Martha B. Bostic, Baptist minister, who was the speaker. The attendance was quite good.

Miss Bostic began her address by stating the importance of the subject, which was a lecture on "Women and the Church." She pointed out that women were often neglected in the church and that they were not always treated with respect. She urged that women should be given a greater role in the church and that they should be encouraged to participate more fully in church activities.

Miss Bostic then spoke on the need for women to be educated in order to be better able to contribute to the church. She emphasized the importance of education for women and the need for them to be given the opportunity to receive an education.

Miss Bostic concluded her address by appealing to the women present to take an active role in the church and to work towards improving the position of women in the church. She stated that women had a valuable contribution to make to the church and that they should not be excluded from participating in church activities.

The meeting was well attended and the women present were enthusiastic in their support of Miss Bostic's message. The meeting ended with a vote of thanks to Miss Bostic for her lecture.

SIGNED AT THE PRECEDING POINTS.

Tuesday Morning, Dec. 30, 1905.

The telephone company has a proposition to the city council to adopt a resolution directing the corporation to pay 10% of their gross revenue to the city. In explaining the matter Mr. Corbett said he had good reasons to believe that if the council adopted that resolution, it would result in turning the telephone company out of business. He thought the council should take up this question right away in order to get outlined by the first of the year just before the new ordinances were adopted.
