THE BENTON TRIBUNE.

VOLUME 6.

BENTON, KENTUCKY. WEDNESDAY EVENING, FEB. 14, 1894.

NUMBER 16.

A NEW $65 BUGGY TO BE GIVEN AWAY.

By order of the trustees of the Benton Free Church, a NEW $65 BUGGY will be given away.

E. Rekhoff & Son's $65 Top Buggy.

This new $65 Top Buggy will be given to the person or persons capturing the next ten numbers of votes cast in the Democratic Primary Election, March 10th, 1894.

The tickets will be sold at the Post Office, etc. 50 cents each.

The draws will be made at the time of the election, 10 a.m., by the qualified person holding the ticket, after which the committee will meet and select the winner.

The committee will then register the winner's name and address, and prepare a certificate for him, which will then be sent to the winner.

The winner will then be required to pay the $65 for the buggy, and the committee will then deliver the same to the winner.

THE OBJECT.

The object in offering this prize is to promote the cause of education and to encourage the people to vote for the best candidates in the coming Primary Election.

The person who captures the ten highest numbers of votes will be the winner of the prize.

The winner will be required to pay for the prize, and the committee will then deliver it to the winner.

THE OPTIMIST.

Washington, Feb. 8, 1894.

Mr. H. H. Holmes, of Chicago, has just returned from a tour of the western states, where he has been engaged in promoting the sale of his new invention, the "Optimist," a machine for the conversion of coal into electricity.

The Optimist is a small machine, about the size of a coffee mill, and is operated by the simple process of grinding the coal into a fine powder, which is then passed through a series of tubes, where it is heated to a high temperature.

The heat thus produced is used to generate electricity, which is then transmitted to the consumer.

The Optimist is said to be a great improvement over the old-fashioned coal stoves, and is said to be capable of producing as much heat as a two-horse team.

The machine is manufactured by the Optimist Manufacturing Company, of Chicago, and is being sold at a very moderate price.

SHOP LOCATED NEAR THE MILL.
The fun of it is," he cried, "that
I don't think that fine fellow will
raise my head. When I did look up I
saw that there was a gent in the
room who was very much like the
man in the picture. I turned to Mr.
Lestrade and asked him immediately
whether he knew the man.

"At eight o'clock," she said, gulping
"I had no intention of tell the
wrong scent."
