## Five Big Days At Fulton Co. Fair

August 23, 24, 25, 26 and 27  
1927

Why is a fair? We can't all answer that from a single viewpoint. It means something different to practically every one of us. There is no doubt, tho, that the feeling of gaiety is universal—even to those who must work like Turks to make the occasion a success.

The man or woman with a grouch has no business at our fair this year. You must go prepared to enjoy the blare of band music and the million noises that aren't music. You must be keyed up to revel in the roar of thousands of chattering holiday makers, of bright decorations, of pretty girls, of sack races and ballyhoos, of popcorn balls in red tissue and sweating glasses of orangeade, of sizzling sandwiches and ice cream cones, of livestock and household and implement displays, of patterling trotters and pacers, of buzzing grandstand, of golden sunshine and yellow dust-clouds. Yes, and tired feet and whimpering babies with heat-rash and smart alecks here and there—for we haven't reached the land of perfection yet.

Now let's peel the surface off the situation and see what's inside. This year's fair is going to be a pretty fine advertisement for our whole community—the surrounding farm lands and farmers, the town and its enterprising, public-spirited merchants. And really that is the rock bottom purpose of holding a fair—advertising. It is a community aim and effort to show its people how much they amount to, and to show outsiders that this is a mighty good place to live in—a prosperous, progressive country and neighborly people. A man looking for a place in which to settle down couldn't reasonably ask for anything more or better.

### GET YOUR BIRDS READY FOR THE FAIR

By the time this issue of the paper gets into your hands you will have ten or twelve days in which to get your birds ready for the show. Pick out the best in your flock and enter them in the show, and see how they will stack up with those that are entered. Don't be afraid to back up your birds. If you think they are not quite good enough to go in the EXHIBITION class, enter them in the PRODUCTION class.

Don't wait until after you get to the show and be sorry for not entering your birds. The writer has heard many times someone make this remark, "Why I have better birds than that at home, my stock would beat anything entered here." Maybe so, but I doubt it. Your stock is either not as good as what is entered, or else you are ashamed of them. Now I go into a show with the best I have and expect to win, but I will say right here I have lost more times than I have won, and I always felt like I didn't get a square deal, but after looking over my birds and the ones that beat them, I changed my mind, marked the points where the other fellow beat me and tried to remedy them, coming back stronger the next year and stepping around the other fellow. This is the only true way to gauge up your flock. See what the judge thinks of them, they are most always right.

The poultry association has engaged two good judges for this year's show, Mr. G. L. Cleveland, County Agent for Obion county has agreed to judge the

first time in ten years, she is production class, according to the methods he uses in culling flocks which is the plan adopted by the American Poultry Association to be used in all shows; while the exhibition class will be judged by T. D. Windrom, of the Chicago National Poultry Show. Both judges are personally known by the secretary and are good competent impartial judges, and I know every bird will get a square deal.

If you haven't received your premium list, you can get one at the Chamber of Commerce, or the Owl Drug Store.

### Rev. Sowell Will Preach at Christian Church Sunday Night.

Rev. and Mrs. O. J. Sowell, formerly of this city, are here from Oklahoma spending a five weeks vacation. They are accompanied by Mrs. Sowell's sister, Miss Doris Hertzlar. The former pastor and party are touring the country, and he says: "Three cheers for good roads in Kentucky."

Rev. Sowell and wife graduated from Phillips University at Enid, Okla., last June. They are now located in Garber, Okla., where they have a new \$45,000 Church building. The First Christian Church of this city enjoyed great progress under the leadership of these young people and the many friends will have the privilege of meeting them, and hearing Mr. Sowell preach next Sunday night. He will fill the pulpit of the Christian Church at Mayfield Sunday morning, and then drive to Fulton Sunday evening.

The public and friends have a cordial invitation to attend this service. Let's give them a fine welcome.

### Lucas Congratulates Sampson, Republican Nominee For Governor

Robert H. Lucas, defeated Republican candidate for Governor in Saturday's primary, finally gave up in despair Wednesday and congratulated the successful candidate, Judge Flem D. Sampson.

The majority of J. C. W. Beckham over Robert T. Crowe remained at around 30,000. Later returns are not expected to change this figure materially.

Complete, unofficial returns from Campbell county show a gain of 1,000 votes for Crowe over previous reports, which were said to have been in error. The vote from this county now stands Crowe 4,107; Beckham 984.

Returns from the minor races continued to come in slowly and with approximately one fourth of the counties unreported, mostly in the mountain districts, James Breathitt, Jr., of Hopkinsville was leading Albert H. Barker of Falmouth by a small plurality for the Democratic nomination for lieutenant governor.

Miss Ella Lewis had a comfortable lead in the race for Secretary of State. Clell Coleman was leading John A. Goodman, of Elkton, by more than 25,000 votes and Mrs.

Emma Guy Cromwell was in front of Albert Phillips for treasurer.

Judge J. W. Cammack, of Owenton, was leading Charles F. Creal, present assistant attorney general, in the race for attorney general, by 8,000 votes. Bailey P. Wootton, of Hazard, was 3,000 behind Creal.

W. B. O'Connell, Carl P. King and J. P. Wagers were running fairly close for clerk of the court of appeals, with O'Connell in the lead by 3,000.

Newton Bright, Eminence, for commissioner, was 3,000 votes ahead of Roger Lillard, Lawrenceburg, his nearest opponent.

# A MESSAGE FROM OUR PRESIDENT

To the Employees of the Illinois Central System:

Now that the floods on the lower Mississippi River are rapidly disappearing and the people of the devastated regions are returning to their homes to take up the work of rehabilitation, it is appropriate to recall to mind the splendid achievements of our organization in meeting the test of this great calamity. We have good reason to be proud of the manner in which our organization met that test. In overwhelming measure it exemplified those qualities of manhood—courage, fortitude, unselfishness and unswerving devotion to duty—which evoke universal admiration.

Nothing that could be done to answer the call of humanity was left undone. Unheeding personal risk and loss, our employees gave themselves unsparingly to the task of rescuing and relieving others. Messages of warning were sent in all directions by every available means of communication. Rescue trains were hastily organized and dispatched upon their mission of saving lives and property. Over tracks submerged in water that in many cases reached nearly to the locomotive fireboxes, past switches thrown and examined to the accompaniment of breathless groping under water, these trains were anxiously awaited. Only when the rising waters made further train operation impossible for our railroad to transport to safety thousands of refugees and hundreds of carloads of property and household goods.

Others of our organization, working day and night in mud and water, struggled to their utmost to hold levees and to maintain our service wherever there was a chance of success. That the losses by flood at Mounds, Cairo, Yazoo City, Vicksburg, Baton Rouge, Monroe and many other places were no greater than they were is due in no small part to the resources and the tireless efficiency of our organization.

Meanwhile, our employees elsewhere than in the flooded areas were devoting themselves no less generously to alleviating suffering and want. From every division of our system contributions of money, clothing and other necessities poured in to the flooded regions. Altogether, our organization contributed more than \$32,000 in money and many carloads of clothing and other supplies for the relief of flood sufferers.

With the emergency problems of flood protection, rescue and relief disposed of, the next task that confronted our organization was to restore interrupted train service as quickly as possible. It was a gigantic task. Many long stretches of embankment were washed away, leaving the rails and ties suspended in the air. In not a few places both roadbed and tracks had disappeared. Bridges and trestles in many places were wholly or partly destroyed and in many other places the openings they were intended to span had been enlarged to several times their previous length. On nearly every mile of track that was covered with water there was much work to be done before trains could safely be operated.

Here again our organization proved its mettle. Undaunted by the fact that it was necessary in many places to work in two, three or four feet of swiftly-flowing water, our men took up the work of reconstruction. Feeling their way, inch by inch, work trains and repair forces advanced from both ends of severed lines, working day and night. Washed-out embankments were replaced by crib work or trestles. New tracks were laid where the former tracks had disappeared. Missing and partly destroyed bridges were replaced or restored. A second flood came down the river, deepening the water and accelerating the currents, but the work went on. Cribbing placed one day was washed away the next; piling was substituted for it, and this in turn had to be replaced by yet longer piling. The work was extremely arduous, and it had to be performed under conditions that were disheartening and often dangerous. Progress sometimes seemed to the work-

ers to be discouragingly slow, yet, in the end, their skill and endurance surmounted all obstacles. Such an achievement is an eloquent testimonial to the qualities of our organization.

I take great pleasure in conveying to all our employees this expression of thanks and appreciation for their splendid work in connection with the flood. They have won for themselves and for our railroad an undying reputation for public service, and their record of flood-time achievement will be a source of constant inspiration for our work in the future.

Sincerely yours,

L. A. DOWNS.

## Fulton Lion Honored.

August 2, 1927

Fulton Lions:

At the suggestion of your Club I have just appointed Lion Vodie Hardin, Second Deputy District Governor for the Twelfth District. I want to say that I have heard something about Lion Hardin, and that I am delighted to have him thus closely associated with me in the work for Lionism during this year. I know Lion Hardin, with the support and co-operation of the Fulton Club, will accomplish great good for the district.

May I particularly ask that the Fulton Club sponsor the organization of at least one new Lions Club this year?

Sincerely yours,

W. J. Goodwin  
District Governor.

## Shower For Bride Elect

Miss Mary Anderson, whose engagement to Mr. John Bowers, of this city has been announced was the honoree in a beautifully planned bridge shower Tuesday evening, given by Mrs. Cresap Moss, at the home of Mrs. R. H. Wade on Carr street.

The Wade home was made beautiful for the occasion with vases of summer flowers. Three tables of bridge were at play. Mrs. Harold Blackman held high score at the end of the games.

After the game several of the brides' most intimate friends came in for the shower. Miss Ruth Coulter was the lucky one in the drawing the queen of hearts, and was presented with a dainty boudoir pillow. Little Jack Snow as Dan cupid, presented the honoree with a book, Love's Directory, from Coulter and Bowers store. The book contained many dainty and useful gifts for the bride.

Mrs. Moss, assisted by Mesdames Stubblefield, Blackman, McGinnis, and White, served a delicious salad course.

## Creek Well Oiled.

During the past week or ten days the city has had a crew of men with sprays oiling stagnant ponds of water and the breeding places of mosquitoes throughout this vicinity. The banks of Harris Fork creek were well oiled in the city also and we may expect fewer mosquitoes this season.

**"STELLA DALLAS,"  
SUPER-FILM, COMES  
TO ORPHEUM THEATRE**

Photodrama of Rare Entertainment  
Shows Life of a Girl  
in Love with Love

After weeks of dickering with United Artists Corporation, by letter, telegram, and in person, the management of the Orpheum Theatre definitely announces that Samuel Goldwyn's romantic epic, "Stella Dallas," adapted from the famous novel by Mrs. Olive Higgins Prouty, will open for a 2-day engagement, starting August 15 and 16.

The management also recommends "Stella Dallas" as one film that will live in the memory after it is seen. It is great in story, cast and superb in its heart-wringing appeal.

"Stella Dallas" has had an amazing vogue as a popular story, then as a novel, and later as a stage play in which Mrs. Leslie Carter starred. The theme is already known to millions for its distinction and power.

The screen version of this mighty book was directed by Henry King, whose record of achievement is marked by his production of "The White Sister," "24 1/2 Hours Leave," and the gold medal photoplay "Tol-able David."

Striking the keynote of romance, "Stella Dallas," on the screen, bares the love life of the central character played by Belle Bennett. It pictures a girl in love with love. It unfolds her amorous nature, her marriage, her peccadilloes, and vividly visualizes the heights to which Stella rose and the depths to which she fell.

There is no moral in the story. It is entertainment of a high order. It is romance, realistic with laughter and pathos, leaving Stella as puzzled as life is itself. The climax of "Stella Dallas" is as tender, and as glorious as any big thrill heretofore projected from celluloid.

Actors and actresses of recognized ability portray the roles. Ronald Colman plays Stephen Dallas, Belle Bennett plays Stella Dallas, Alice Joyce plays Helen Morrison, Jean Hersholt plays Ed Munn, Lois Moran plays Laurel, and Douglas Fairbanks plays Richard Gravesnor.

My brother, Mr. L. A. Watkins, busied himself with acquiring a bride. The wedding occurred Thursday evening, at the home of the bride's father, Dr. Carpenter, of Frisco, Tex. Bride and groom visited Mr. Watkins' relatives Friday and Friday night, starting home Saturday morning by way of Hot Springs, Ark., and other points of interest, spending about ten days on the road. I remained a few days longer and returned home Wednesday, July 26. If the editor will permit, I'll give you a few impressions gleaned from this trip next week.

Mrs. Oulina Watts is on the sick list.

Lon Watts started to Detroit last Sunday, accompanying Mr. Jesse Johns, who has been visiting here for a few weeks. Mrs. Johns and children will visit here a few weeks longer.

Prof. A. J. Lowe has moved back to the cottage, all ready for the school opening, August 29.

Mr. and Mrs. Vasco Simpson are rejoicing over the birth of a son, Wednesday, August 3. Mr. and Mrs. Linzie Breeden are entertaining a little daughter, who arrived Saturday, August 6. Congratulations are in order.

Protracted meeting at Ruthville closed Friday night. Elder Duncan conducted the meeting, good preaching, but little visible results.

Meeting begins today at New Hope, second Sunday, at Sandy Branch Baptist Church, also Mt. Moriah Methodist. The third Sunday at Sandy Branch Christian Church.

Miss Rena Finch, of Dallas, Tex., spent last week with her cousin, W. H. Finch, and family. She accompanied Mrs. Finch home and will spend several weeks with relatives in and around Fulton.

A letter from Miss Garrison states that she will be prepared to give us our ten day lessons in nursing the first of September. The first meeting

will be with Mrs. Barrax. The date will be announced later.

The reunion of the Finch family Sunday, August 7, was staged at the home of the eldest sister, Mrs. Bettie Finch, two and one-half miles north of Fulton. This was arranged in honor of the youngest member of the family, O. T. Finch of Nashville, Tenn., who has been away for more than twenty years.

Despite the non-appearance of the guest of honor, thirty-eight members of the family enjoyed the day together. A picnic dinner was spread at the noon hour.

The afternoon was spent in a social way, talking over happy days gone by and bright anticipations of future days to come. Mr. Finch got as far as Jackson on his way here, and was called back to Nashville. Those present were Mrs. Etta Binkley, Mrs. John Binkley and family, Mr. Chester Binkley and family, Mrs. Charles Fay and family, Mr. Pete Binkley and family, W. H. Finch and family, V. R. Finch, wife and daughter, Dot, Mrs. Edd Mansfield and family, Mrs. Callie Finch and daughter, Mrs. Willie Wilson, Henry Finch and family, Mr. Rich Finch, Miss Rena Finch and Mrs. Tom Butler, Mr. and Mrs. John Newberry.

One remarkable feature of this gathering was the absence of bobbed hair, only one representative of bobbed hair among the ladies.

MRS. RUTH FINCH.

## Girls On The Farm

Keeping the boys on the farm was once regarded as a big problem. That was in a time when a woman had not asserted her rights as a citizen and had never demonstrated that she could fill a large place in the commercial world. During the war, when called upon to carry on when able-bodied men were called to the nation's defense, women showed that there was a field for her quite as distinct as that held by men.

Accordingly, the pull away from the farm is just as strong today for the girl as it is for the boy. And the need is just as great for intelligent, energetic girls on the farm as for boys. They are needed to take their places beside the boys who are to feed the generation now coming on.

We often hear that the movement away from the farm is not alarming, because fewer people are needed on the farm, due to the introduction of labor-saving machinery and the consequent increase in the number of acres that can be farmed by one man. But the strong, able and ambitious boys, as well as girls of the same type, are as the rule the boys and girls who leave the farm, because the farm in the past has not offered the advantages that employment in large centers of population has offered.

The problem is to keep not alone the girl, but the boy as well, who is anxious to get ahead in the world, and will give the best they have to the calling which they select.

There are many influences at work to resist the pull from the farm to the city. With good roads, cheaper motor cars, rural mail deliveries, telephone, phonograph, electricity and radio, life on the farm is growing more attractive. Community activities in rural life are increasing and social life is more varied. Girl's clubs and the schools are doing their share to create a more satisfying life for girls on the farm. Individual initiative and energy are remaking farm life in America and making it pleasant for boys and girls to remain on the farm.

## BRIEFLETS

The blush of a queen is a royal flush.

Wealthy relatives sometimes enable a man in futures.

An auctioneer always looks for bidding when conducting a sale.

Smartness enables a man to catch on and wisdom enables him to let go.

Woman may be the weaker vessel, but she sometimes contains the stronger spirit.

Some men are so accustomed to making fools of themselves that they don't mind it.

The rudder of a ship is a stern necessity.

Trying to avoid trouble will keep any man busy.

A woman always looks on the bright side of a mirror.

Some people believe everything they hear and a lot they dream.

Many a man who claims to be wedded to his art can't prove it.

Nearly every time a fool makes a kick some wise man gets the benefit of it.

If beauty is only skin deep it may explain why so many pretty girls are shallow.

Love may make the world go round, but it takes marriage to square things.

After forging his way to the front many a man has found himself behind the bars.

Its a poor seed that isn't stronger than the soil.

The goodness of some people is exceedingly tiresome.

Fame is to notoriety what the real turtle is to the mock.

It's a man's weakness that finally overpowers his strength.

Give some people half a chance and they will take the other half.

More good intentions would be carried out if they didn't live forever.

When a man is down his enemies stop kicking him and his friends begin.

It's a pity that some men can't draw checks as easily as they can inferences.

Perhaps some people talk to themselves because they find it impossible to interest any one else.

A clock keeps right on working when it goes on a strike; that's where it gets the bulge on a man.

Politeness is the zero mark of love's thermometer.

A wise man never gives advice until he is asked for it.

No man is truly good who is only so for the sake of praise.

Every woman would live long, but no woman would grow old.

A woman probably feels blue when she is green with envy.

It has been truly said that more men fall in love than in war.

If a man doesn't know when to be silent he doesn't know when to speak.

With the exception of trouble the more the average man has the more he wants.

A woman never knows what she really thinks of a man until she gets a divorce from him.

Every man has a threefold nature—that which he has, that which he exhibits and that which he thinks he has.

Call a spade a spade and you may get it in the neck.

When a man is a little mellow he imagines that he is ripe for anything.

But for the little men in the world great men would never be noticed.

It is easier to recover lost money than lost time.

## How to Get the Best party-line Service

Avoid lengthy telephone conversations over a party line.

To those who are subscribers to a party line telephone it must be evident that the quality of service they get is largely a matter of co-operation upon the part of the users themselves.

For instance, subscribers should be considerate of the length of time they use the line so that other parties may derive their share of its use.

Then, too, when a party line is found to be in use, the receiver should be replaced on the hook immediately, otherwise the conversation will be interfered with.

If the receiver on a party line telephone is lifted while the bell is still ringing, it causes other bells on the line to ring, too.

The observance of the Golden Rule among party line subscribers is certain to result in good service and friendliness.

### Lesson for August 14

DAVID BRINGS THE ARK TO  
JERUSALEM

LESSON TEXT—II Sam. 6:1-19; Ps. 24.  
GOLDEN TEXT—We shall be satisfied with the goodness of thy house, even of thy holy temple.

PRIMARY TOPIC—David Worships God.

JUNIOR TOPIC—David Worships God.

INTERMEDIATE AND SENIOR TOPIC—How to Worship God.

YOUNG PEOPLE AND ADULT TOPIC—Exalting God in Individual and National Life.

#### I. David Made King.

1. Over Judah (II Sam. 2:1-14).  
Upon the death of Saul and Jonathan, David knew that the time had come for the fulfillment of God's purpose, but he carefully inquired of the Lord as to the proper movement to make. God directed him to Hebron, whereupon the children of Judah anointed him to be their king.

2. Over Israel (II Sam. 5:1-5).

After the death of Ishbosheth, the children of Israel came and formed a league with David, anointing him as their king. They assigned as their reasons:

(1) He was their brother (v. 1).  
This is true of Jesus Christ, who has become our kinsman through the incarnation.

(2) He was their leader in war, even in Saul's time (v. 2).

(3) He was the Lord's choice (v. 2).

II. David's Unsuccessful Attempt to Bring Up the Ark (vv. 1-5).

This is an example of a wrong way of doing a right thing. That the Ark of the Lord of Hosts, the symbol of God's presence, should be brought to the center of the nation's life was a decision worthy of all praise. David gathered together the representative men of the nation in order that the movement might be a national one. That David was sincere in this measure cannot be doubted, but he was hasty and inconsiderate, for the procedure was an express violation of God's statutes. The dictum that it matters little what you do, just so you are honest and sincere is one of the devil's blackest lies.

III. God Vindicates His Law and Holiness (vv. 6-9).

The people were very joyful as they moved on toward Jerusalem with the ark, but suddenly there was a stop to the jubilant voices and music. At some rough place in the road the oxen stumbled and Uzzah, anxious for the precious freight on his cart, reached forth his hand to steady it. This resulted in his being stricken to death, as a man who touches a live electric wire. Ignorance does not make a man immune from the death which is in the touch of the heavily charged electric wire; neither does it in the case of the violation of God's laws. Since the ark was God's dwelling place among men, they needed to know that He was holy.

IV. The Ark of God in the House of Obed-Edom (vv. 10-12).

The homes where God is welcomed are always blessed. Obed-Edom was not better personally than Uzzah and David, but he openly received the Lord and properly related himself to Him. What had been death and dread to others was life and blessing to him. This was all because of his attitude toward it.

V. The Ark Brought to Jerusalem With Great Joy (vv. 13-19).

1. Sacrifices were offered after going six paces (v. 13).

David made the start and when convinced of God's approval, he made offerings. These were both burnt and peace offerings, typifying the self-dedication of the offerers and their thanksgiving (I Chron. 16:1).

2. David's great joy (vv. 14, 15).

The people joined him with great shouting and with the sound of the trumpet.

3. Michal's criticism (v. 16).

Even though David went to excess in his expression of joy, it was wrong in her to criticize, for God seems to have sanctioned David's rebuke of her (v. 23).

4. The grand celebration (vv. 17-19).

As a token of his gratitude to God, David generously treated the people.

5. The King of Glory, the Lord Jesus Christ, coming (Ps. 24:7-10).

This was not the psalm composed by David for the occasion of bringing up the ark; that was Psalm 105. (See I Chron. 16.) It is strange that such a suggestion should have been made. This 24th psalm pictures Christ as the coming and triumphant King. At that time the gates shall open to Him and the King of Glory shall come in.

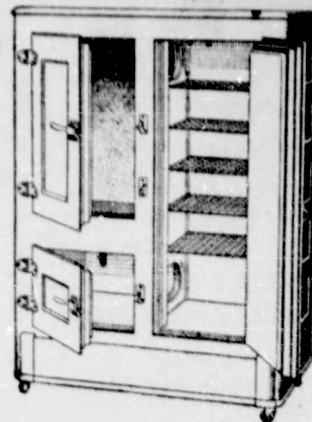

#### God Gives Us Power

God gives us power to bear all the sorrows of His making; but He does not give the power to bear the sorrows of our own making, which the anticipation of sorrow most assuredly is.—Ira McLaren.

#### Asking

Asking "of me" is the one appeal of the most high. It is not enough that we should be able to vindicate a promise signed by the divine hand; we must plead it.—F. B. Meyer.

When you buy John Deere implements you are sure of prompt repair service throughout their long life

## A Big Advantage on Rough Ground

The high, easy lift of the John Deere Mower is a big advantage in rough ground. You can raise the bar high enough to clear obstructions in the field, and cut with the bar in that position.

## John Deere Mower The Mower with the High, Easy Lift

The powerful foot lift raises the outer shoe from 25 to 35 inches and the inner shoe from 8 to 11 inches. The hand lift raises the outer shoe 44 inches and the inner shoe high enough to clear any obstruction passed by the doubletrees.

The John Deere is simple and sturdy. Its parts are strong and long-lived and its construction is so simple that a boy can operate it safely and do good work.

If you intend to buy a mower be sure to see the John Deere. We will be pleased to show you its many fine points any time.

Clutch with 21 points insures instant starting.  
Special drive gear construction reduces wear and increases power.

Special construction of gear assembly overcomes crankshaft end-thrust.  
Improved construction of cutting parts insures better service and longer life.

Adjustments can be easily made in the field with ordinary tools.

### Lost Control of Auto.

Hickman, Ky., Aug. 8.—C.M. They had started up one of the steep hills just below the business section, and as Mr. Ross had been driving a Ford car was not very familiar with the gears, throwing the car in reverse when he intended to put on brakes, the car dashing back down the hill. Mrs. Ross and Mrs. Reese were on the rear seat, the rear of the car being almost demolished. Mrs. Reese received a severe gash in the forehead and another gash in the face and bruises.

Mrs. Ross suffered dislocated shoulder and it was feared was hurt internally. Mr. Ross was
