The cost of handling goods, the transportation and the community have $500,000 to spend with or is it wiser to send it all away home and in circulation among us. DEALERS, two important things It increases invariably have a set of instructions one learns by heart and the salesmen are always at hand to explain the trouble and send back the goods. The factor makes a certain profit over and over again.

Just because we say—

FORD V-8 TRUCKS DO MORE WORK AT LESS COST...

because they have

RESERVE POWER AND EXTRA STRENGTH!

The mighty V-8 engine is conservatively rated by Ford at 80 horsepower—more than is needed for most work. And this is one of the main reasons for a Ford truck's economy. Because, with so much reserve power, the Ford V-8 is at work easier, with less effort. It operates efficiently and at low cost because it is usually below "peak". The whole truck, straight to the rear axle, gives longer life than would be possible with a relatively under-powered, over-worked unit. And V-8 power is engined with extra strength in the Ford truck... Frame, clutch, rear axle—

in fact, the whole chassis, including springs, is rigidly built to insure them the greatest possible freedom from servicing cost. And the best way of all for you to learn for yourself exactly what a Ford V-8's reserve power and extra strength means, is to try it on your own job—try on your own hands and check the results. Call your Ford Dealer today for an "on the job" test—without charge or obligation.

By WILLIAM BRUERKART

WASHINGTON—A great many generous and patriotic citizens both here and there in the United States have done their bit in the campaign to secure the return of the President to his native land. Many more will also follow in his footsteps, for he is the kind of man that will always be loved and respected by them all.

Washington silver policy

We believe that the American people are tired of the war, and that they want peace. We are glad to see that the American people are tired of the war, and that they want peace. We are glad to see that the American people are tired of the war, and that they want peace.
Current Events

By Edward W. Pickard

New French Premier Helps Labor Win All Departments

France has a new Labor government, thanks in part to the defection of the Liberal opposition. M. Anquetil, former Socialist premier, resigned after Labor had won a majority of the seats in the recent election. M. Anquetil was replaced by M. Lebrun, who has promised to continue the policies of his predecessor. Among the new ministers are M. Tardieu, minister of agriculture; M. Germain, minister of finance; M. Zuber, minister of labor; and M. Berthelier, minister of education.

Reagan Passes Its Own Tax Revenue Measure

The President has signed into law the tax revenue measure passed by Congress. The act provides for an increase in the income tax, which will go into effect next year. The measure also includes provisions for a reduction in the estate and gift taxes and a decrease in the excise taxes on luxury goods.

Socialist Party in Chile

The Socialist Party in Chile has nominated M. Pinelli for the presidency. M. Pinelli is a former minister of labor and social security. The party has been working for several months to organize a strong socialist movement in the country. The election is scheduled for next year, and the Socialists hope to make significant gains.

DR. HITCHCOCK'S Good General Tonic

The reputation of this tonic is still growing. It is taken by people of all ages and has a long list of testimonials. The tonic is said to be good for all sorts of general ailments, and it is recommended by many doctors.

From the West

One of the most surprising developments of the year has been the rise of the West as a political force. The region has been growing in importance for some time, and this year it has taken a more active role in national affairs. The Western states have been particularly influential in the campaign for labor reform, and their influence is likely to increase in the future.

FROM THE EAST

The East has been less active in politics this year, but there are signs that it may be gaining strength. The region has traditionally been a stronghold of traditionalism, and it has been slow to respond to new ideas. However, there are indications that the East may be beginning to change, and it is possible that it will play a more significant role in the future.

In the South

The South has continued to be a source of conflict and controversy. The region has been struggling with the legacy of segregation and racial discrimination, and it has been slow to move toward equality. The Southern states have been particularly resistant to civil rights legislation, and their attitudes are likely to remain unchanged in the future.

International

The world has been marked by change and conflict this year. The United States has been involved in a number of international disputes, and it has been trying to maintain its position as a world power. The Soviet Union has been expanding its influence, and it is possible that this trend will continue in the future.

The World of Business

The business world has been marked by a number of developments this year. The stock market has been volatile, and there have been significant changes in the economy. The business community has been struggling to adapt to the new circumstances, and it is likely to continue to do so in the future.

The World of Science

The world of science has been marked by a number of significant developments this year. The breakthroughs in genetics have been particularly exciting, and they have the potential to revolutionize medicine and agriculture. The world of science is likely to continue to make significant advances in the future.

The World of Culture

The world of culture has been marked by a number of significant developments this year. The arts have been thriving, and there have been a number of notable works of literature, music, and film. The world of culture is likely to continue to be rich and diverse in the future.

The World of Sports

The world of sports has been marked by a number of exciting developments this year. The Olympic Games have been particularly exciting, and they have brought the world together in a spirit of friendship and competition. The world of sports is likely to continue to be a source of inspiration and enjoyment in the future.

The World of Religion

The world of religion has been marked by a number of significant developments this year. The spread of Christianity has been particularly notable, and it has brought new converts to the faith. The world of religion is likely to continue to be a source of hope and comfort in the future.
Honeymoon Mountain

By Frances Shelley Wees

Chapter VI

Haley found it easy to walk back into the room. The darkness and mystery had disappeared, and the man already missing from the room. It was the last thing she had expected to find in the room. She turnd toward the door, and the other door, and the other window, and the other wall. The room was full of shadows and mystery, and she found finally an end to her search.

The Crying and Restlessness of children is frequently an indication of the nostrils. The coccinella, red, and the restlessness.

Dr. Peetry’s DEAD SLEEP

The Crying and Restlessness of children is frequently an indication...
