## A Plan For The Future

Or A

## Plan Of The Present

THE BERWICK has a living room and terrace overlooking the garden. The service rooms face the street. Since all rooms open on the entrance hall, they are equally accessible to the front entrance.

There is a large, well-lighted dining space in the kitchen, which is also equipped with a 6-foot storage cabinet and modern L-shaped cabinets. The side entrance to the kitchen leads directly to the full basement.

The exterior of The Berwick is finished with siding, except the kitchen projection which has a flat roof and vertical boards in place of the siding. High windows in the bedroom increase the usable wall space.

Dimensions of The Berwick are 36 feet wide by 26 feet deep. It has an area of 992 square feet and a volume of 19,672 cubic feet.

For further information about THE BERWICK, write to the Small House Planning Bureau, St. Cloud, Minn.

We hope we can be of service to you on plans for a New Home. We Invite you to discuss your plans with us.

## A HELPING HAND

By Martha White

### Start a Christmas Grabbag Now

Do you ever wind up the week before Christmas wondering just what to give to the children next door—or to the youngsters of your favorite niece whom you haven't seen for so long you don't even remember their exact ages?

This last holiday season, a friend of mine assembled the most wonderful grabbags which really caught the children's fancy. This year I am already planning mine, and thought you might like to do the same thing.

First, gather together all kinds of inexpensive, attractive little toys—the kind that children of all ages enjoy. There are the fascinating doll house furnishings which range from ten to twenty-five cents apiece—folding bridge tables, plastic washing machines, tiny chairs, pots and pans with lids that really come off. In addition, for little boys you can find rubber knives, saws, card games such as Authors, brightly painted yo-yos, plastic soldiers, tanks, automobiles. You can

get imitation leather wallets and play money, both bills and coins, and "watches," and "pearl" necklaces, and boxes of colored crayons—all kinds of things.

When you have a few minutes to sit down with your afternoon coffee and a little hand work, search in your rag box for bright bits of cloth. A celluloid or plastic doll can be dressed in a complete wardrobe with just a few minutes work. Or you can make little rag dolls, stuffed with cotton, with yarn hair and colorful embroidered-on features. Just a tiny scrap of material and left-over trimming will dress such a doll.

Now comes the holiday season—and you will be ready for it. Get some bright Christmas-red cotton material, and make a good-sized bag. Next, get some of the iron-on mending tape which I'm sure you've used before for more utilitarian purposes. Write a big "Merry Christmas" on the tape and cut it out with embroidery scissors. A quick bit of ironing—and presto, you have a Christmas grabbag. Make a bag for each family to which you wish to give presents. Cut out the individual names of the children from the iron-on tape, and personalize the bags, if you wish. For instance, one bag might read "Merry Christmas, Tom, Mary, Jane, Joe."

Sort out the many little presents you have already accumulated, wrap each one separately in gay paper, put them in your grabbag. There you have it—the perfect Christmas present for a family with several small children. Each child will have four or five presents to reach for and to unwrap on The Morning.

## DYNAMIC DECADE FOR THE SOUTH!

### Sales from CHEMICAL MANUFACTURING up 500% since 1939

In every aspect of manufacturing, the South's output is expanding 20% faster than the rest of the nation. But in no aspect has there been a more brilliant advance than in the field of chemical manufacturing.

Since 1939, sales from chemical manufacturing in the South have increased 500% — in cold cash figures, from \$968,000,000 to \$5,893,000,000! Relatively in its infancy in the South, the chemical manufacturing industry shows promise of becoming a giant, for the South offers it unusual advantages. It has a great wealth of raw materials, as yet barely tapped... it has excellent industrial water supply... it has low cost electric power and splendid transportation facilities. These, together with its good weather, low cost construction and plant sites are major reasons why more and more chemical industries are moving South — where possibilities for prosperity are unlimited.

## Eye-opener for the hard-to-please

THIS is an invitation to a new experience.

It is an invitation to people who demand something more than the usual automobile can deliver—an invitation to try a ROADMASTER.

And let us assure you, when this big, roomy, sweet-riding thrill-maker starts taking its orders from you—mister, you're a new man.

You get a tremendous kick from the power you command here—more power than you will ever need or wish for—the

highest horsepower in Fireball history. And it is power made even thrifter by Airpower carburetion.

You get a lift in spirit from the ride here—a ride so extraordinary, even a million dollars couldn't cover the cost of its engineering alone.

You find a new serenity in Dynaflo Drive as it silks your way and frees you from driving strain and tension.

You feel a sumptuous satisfaction in the handling ease that goes with this eager traveler—a superb ease that traces to a host of exclusive Buick engineering advances, and to Power Steering,\* plus

the shortest turning radius of any car ROADMASTER size.

Above all, you know a very special excitement at the helm of a ROADMASTER—a sense of commanding something alive and eager and tremendously able. May we seat you at the wheel and let you judge things for yourself?

Equipment, accessories, trim and models are subject to change without notice. \*Optional at extra cost. Roadmaster and Super only.

## Meal Keeps the Heat Inside Tasty Fish Fillets

or for a Friday dinner party. Lemon slices, tartar sauce, or a hot sauce like you serve with shrimp are all good with these fish fillets.

### FRIED FISH FILLETS

1 cup corn meal  
2 teaspoons salt  
6 fish fillets  
1 egg, beaten  
Hot fat

Combine corn meal and salt well. Dip cleaned fish in the beaten egg, roll in corn meal, and fry in 1/4 inch hot fat (strained bacon dripping may be used, if desired), turning to brown both sides well. Be careful not to overcook fish. Yield: 6 servings.

## THE WEEK'S RECIPE

Baked potatoes are a treat at any time if they have a dry, mealy texture. This happens if they are baked in a hot oven, and if they are pricked with a fork upon removal from the oven to let the steam escape, said Miss Florence Imlay of the University of Kentucky.

### Baked Stuffed Potatoes

3 large flat potatoes  
2 tablespoons butter  
3-4 teaspoon salt  
3 tablespoons hot milk  
Wash potatoes with a brush, then bake in hot oven, 400-500 degrees, for 40 minutes or un-

til they are soft. Remove from oven and cut in halves lengthwise. Scoop out the inside, mash thoroughly and other ingredients. Refill shells and bake 5 to 8 minutes in very hot oven, 500 degrees.

For variety add any of the following to the potato mixture before refilling the shell: 1 well beaten egg white; 1-2 cup grated cheese, with a little held in reserve for sprinkling over the top; 1 tablespoon finely chopped pimento or green pepper; 1-2 cup finely chopped cooked ham.

Menu: Pork chops with apple dressing, stuffed baked potatoes, cooked carrots, perfection salad, biscuits butter and canned fruit sauce.
