After the Gripppe

Is Over

Many persons feel that their general health has been impaired during the past winter, or are still suffering from the effects of the grippe. There is, however, a little known fact, that grippe is a disease that can be cured by a simple method. This method is the use of Schoolboys' Cherry Pectoral Cure, manufactured only by Dr. H. D. McKown.

Royal Germfrei

The gripe is the greatest of all diseases. It is caused by a germ that cannot be seen with the naked eye. This germ causes the sufferer to feel weak, feverish, and uncomfortable. The cure for this disease is Schoolboys' Cherry Pectoral Cure. This cure is guaranteed to cure the disease and to prevent its return.

Cutting Up a Whale

When a whale is sighted, the crew of the ship will prepare to cut up the whale. The whale is cut into large pieces of meat, which are then dried and packed for shipment to market. The whale's blubber is also cut into small pieces and dried. The whale's head and tail are also cut up and used for various purposes.

Capital Catches

Washington, March 12, 1894—A committee of the House of Representatives has recently proposed a bill to make the passage by the Senate a condition of the passage of the bill. The bill, which provides for the payment of the rent of the house by the Senate, has been referred to the committee on the subject. The committee, after careful consideration, has reported favorably on the bill.

Yours with gratitude,
