NOTICE OF REGISTRATION

I wish to again impress upon the people of Fulton County the facts concerning the new State-wide registration law, passed by the recent General Assembly and now effective.

Every voter in Fulton county, no matter what his age, political or place of residence, must register before he or she can vote.

The registration will be conducted at the twenty three polling places in the county on primary election day, Aug. 1.

If you do not register that day, you cannot vote in the primary.

If you fail to both register and vote in the primary, you may register at my office between August 15 and October 10— but the registration on August 1 is the last to be conducted at respective polling places.

And finally, you must either register at the polling places on August 1 or at my office between August 15 and October 10, in order to be able to vote in the Presidential election in November.

Why Beckham?
An Answer!

Today we have the pleasure of existing at an office (s) a County Democratic leader (s) "Why Beckham?"

After reading this article, we have no trouble in answering you: who appears to be so well at the article purposes to give a reason why Beckham should be deleted from the list he has been deleted in several different occasions, second, a change in the list of the good women of Fulton County data voting for Mr. Lapham. We will very shortly and certainly answer all the claims put forth in this circle.

In 1904, Mr. Beckham was defeated before the inauguration of the State of Tennessee, but in 1912, he was re-elected to the Senate in the United States. In 1914 and ever since that time, he has been opposed to powerful, or otherwise, to him and been composed of more and more politicians and former politicians who form the group known in history. Simple July 26, 1910 and May 12, 1911, the people of the State of Tennessee attacked this structure going from their hands and have succeeded once more in playing a democratic Government in the State of Fulton County, the county of President Beckham.

Lapham was elected Attorney General on a platform which he could. He was elected Chief Justice of the Court of Appeals simply because the law requires that the latter Judge shall be the Chief Collector. He was elected to the United States Senate because he was unopposed and nobody else in particular seemed anxious for the job. His election to the Court of Appeals was from the appointive district in which he lived and was

Pressure Cooking Method of Home Canning Is Meeting With Favor

High Heat Injury Sours Distinction of Homemaking

The pressure cooker method of home canning is meeting with favor from thousands of homemakers with every passing day. It is a safe and sanitary method of canning foods, for the pressure cooker eliminates the danger of botulism, because of the high temperature that is used. The pressure cooker is the logical answer to the desire and need for a safe and simple method of canning foods without the danger of the food becoming poisoned.
