CANTERBURY CARD COUNTER

In the United States, in order to play cards it is necessary to use cards that are

of this kind. In England and other countries, where the cards are

numbered from 1 to 13 and are not divided into suits, the cards are

numbered only from 1 to 12. In these countries, the cards are

numbered from 1 to 12, and the player must count the cards one by one, in

order to know which card is on the top of the pack.

Farmers; Your Attention, Please!

68 YEARS OF E. Avery & Sons' Plows

Have been in use, and last year alone there were seven outside improvements made on 50 sets of plows, by making the handles open at both extreme to prevent the carrying of dirt. Our chief reason you should buy one of Avery's plows is that it is an old established factory and will continue perhaps for 100 years, yet to come, thereby you are assured when you buy one of Avery's you get perfect and true for your old plow, which ought to be considered before you buy a new one.
