MEMPHIS CENTER OF ATTRACTION

You Are Invited

At Memphis Center of Attraction this week, Kentuckians travel across the state to see the Big Show.

Western Kentucky was well-represented at the Memphis Center of Attraction this week, with exhibits from near and far. The exhibit from the Northern Kentucky State Fair at Memphis this week is a reflection of the rich agricultural heritage of the region. The week-long event features a variety of exhibits, including dairy, Swine, and Hereford cattle. The exhibits have been set up in the beautiful and spacious setting of the Memphis Center of Attraction, providing visitors with an excellent opportunity to explore the world of livestock.

The exhibit from the Northern Kentucky State Fair at Memphis this week is a reflection of the rich agricultural heritage of the region. The week-long event features a variety of exhibits, including dairy, Swine, and Hereford cattle. The exhibits have been set up in the beautiful and spacious setting of the Memphis Center of Attraction, providing visitors with an excellent opportunity to explore the world of livestock.

One of the most popular exhibits at the Memphis Center of Attraction this week is the dairy exhibit. The exhibit features a wide variety of dairy breeds, including Holsteins, Jerseys, Ayrshires, and Guernseys. Visitors can see the cows in their pens and learn about their care and feeding. The dairy exhibit is a great educational opportunity for all ages, providing a glimpse into the world of dairy farming.

The exhibit also features a variety of Swine exhibits, showcasing the beauty and variety of the pork industry. Visitors can see pigs in their pens and learn about their care and feeding. The Swine exhibits are a great educational opportunity for all ages, providing a glimpse into the world of Swine farming.

In addition to dairy and Swine exhibits, the Memphis Center of Attraction this week also features a variety of other exhibits, including sheep, goats, and horses. Visitors can see these animals in their pens and learn about their care and feeding. The exhibits provide a great educational opportunity for all ages, providing a glimpse into the world of livestock farming.

The Memphis Center of Attraction this week is open daily from 8:00 AM to 5:00 PM. Visitors are encouraged to come and explore the world of livestock and learn about the importance of these animals in our daily lives. The Memphis Center of Attraction is located at 2020 S. McDowell St., Memphis, TN 38104. For more information, please visit their website at memphiscenterofattraction.com.

MEMPHIS CONFERENCE WILL OPEN ON NOVEMBER 16, AT MEMPHIS

On November 16, the Memphis Conference will be held at the Memphis Center of Attraction. The conference will bring together farmers, ranchers, and industry professionals from across the country to discuss the latest trends and developments in the livestock industry.

The conference will feature a variety of speakers, including industry leaders and experts in the fields of dairy, Swine, and Hereford cattle. The speakers will discuss the latest trends and developments in the livestock industry, providing valuable insights and ideas for attendees.

The conference will also feature a variety of exhibits, showcasing the latest products and services available to the livestock industry. Visitors can see these products in action and learn about their benefits.

The Memphis Conference is a great opportunity for those in the livestock industry to network, learn, and stay up-to-date on the latest trends and developments. Visit memphiscenterofattraction.com for more information on the conference and to register.

SWEET POTATOES

At Memphis Center of Attraction this week, sweet potatoes are a featured exhibit. Visitors can see the variety of sweet potatoes on display and learn about their care and feeding. The exhibit features a wide variety of sweet potatoes, including varieties such as White Lisbon, Red fleshed, and Yellow fleshed.

The sweet potatoes exhibit is a great educational opportunity for all ages, providing a glimpse into the world of sweet potato farming. Visitors can see the sweet potatoes in their pens and learn about their care and feeding. The exhibit also features a variety of sweet potato products, including sweet potato cakes, pies, and purees.

The Memphis Center of Attraction this week is open daily from 8:00 AM to 5:00 PM. Visitors are encouraged to come and explore the world of sweet potato farming and learn about the importance of these crops in our daily lives. The Memphis Center of Attraction is located at 2020 S. McDowell St., Memphis, TN 38104. For more information, please visit their website at memphiscenterofattraction.com.
Dairy Special Train Leaves Fulton Oct. 18

West Kentucky visitors to the National Dairy Exposition and Tri-State Fair will travel to Richmond on "Kentucky Day," Tuesday, Oct. 18, on the lowest railroad fare ever granted the farmers in the West Kentucky section, according to Frank D. Fuller, secretary-manager of the Fair. These special trains will be operated from West Kentucky and one from Louisville. Tickets will be sold for the lowest railroad fare ever granted the farmers in the West Kentucky section of the Fair. The fare will be current between the Fair and the stations which will operate the trains.

We refer to our leading article, appearing today, for full details to those who will want to attend the Fair.

School Notes

Fulton High School will place its annual exhibit on display on Thursday, Oct. 18. It is expected to exhibit its best work. The fair is open to the public from 9 a.m. to 4 p.m. It is strong, and a hard battle is expected. The students have been rehearsing for the fair since the beginning of the term, and are expected to have the arrangements in readiness for exhibition.

Fulton public school, for the last two years, has been on the sick list for several months. The old school house has been repaired by 40-foot poles, and is in good condition. The school will resemble a new building during the exposition. The pupils will be in school, and the work will be carried on as usual.

McFadden News

Mr. and Mrs. Castle McFadden, and Misses Sue and Laura McFadden, are in Bardstown, Ky., with their mother, Mrs. Edward McFadden. They will return on Monday, Oct. 18, to Fulton.

The Rose and the Asters

The rose and the asters are still in flower, and are known to be most attractive and charming flowers. The roses are blooming in the gardens of the city, and the asters are in full bloom in the country. They are lovely flowers, and are a great favorite with the women of the community.

The Canaries

The canaries are now on display at the Fulton Furniture Store on Walnut St.

Coats

35% OFF on all Coats that represent the most of the latest styles for wear now and later. Right lines, fabrics and trimmings.

Dresses

100% wool, $75.00 to $45.00

All in this display of dresses will be of the latest styles, in the latest colors, and in the latest materials. They are all of the best quality, and are a real bargain at the prices.

New Arrivals

FULTON ADVERTISER

First Baptist Church
C. H. Warren, Pastor

Regulation and Circulation

Correct heating requires both
1. Regulation
2. Circulation
You will find both in

Charter Oak Heaters

Heating engineers agree that the basic principles of correct heating are the Regulation and Circulation.

Regulation means a steady, even, healthful temperature.

Circulation means heat that warms your back and shoulders and doesn't shiver the rest of you.

We invite you to see these stoves. They may have been on easy terms if you wish.

Graham Furniture Co.

You Can Buy Shoes Here With Confidence

We use every bit of our buying skill in selecting our footwear that will wear longer than the usual samples of shoes. That we have been successful is proven by every day new boots and shoes are sold in this vicinity.

Dashing Newness in Ties

If you are the smart men who come here for Ties, you know your hat will be adorned with our special dressing of new ties.

Hats--Worth Mentioning

No matter what your idea may be about the ultimate time, to talking about hats, we want you to make a careful investigation of the merits disclosed by our showing. Good, every one of them.

Efficient and Economical Home Heating

The Enterprise Automatic circulating warm air furnace will heat the entire house with a constant circulation of clean, warm air, meeting the same comfortably warmth in every room.

Finished in dark stained Mahogany enamel, it is in harmony with the other furnishings of the most modern homes. The fan, jet, pipe and all mechanical parts are concealed when the cabinet is closed.

The powerful heating unit makes it most economical to fuel consumption. The wide drop air ways form hot breezes that pass over top of air, which is quickly heated in passing over the heating unit, and out the top to circulate through the entire house.

125,000 HAVE ORDERED
FORD 'SIGHT UNSEEN'

Detroit, Oct. 19: One-
per-
cent in five persons of our
population placed an order "sight unseen" with a "don't pay in cash" in ad-
vance for one of Henry Ford's
new automobiles.

The Ford Motor com-
pany announced yesterday
that 125,000 orders had been
received for the new car, not yet in production, but already
in demand by a million people.

To meet the tremendous
interest in the cars, the Ford
management has doubled the
manufacturing capacity of the
United States.

Meanwhile, a quarter of
a million additional persons
have placed their orders, but
Ford officials said yesterday
that there will be an adequate
supply to meet the demand
for the new car.

Ford's Big Day

The greatest single day in the
history of the Ford Motor Company was
achieved today when a little over 6,000 Model
T's were shipped from the Ford As-
sembly lines during a period of
24 hours. At that time, 30,000
thousands of units were em-
ployed in the manufacture of
parts for the new automobile,
and the order was placed for
the new car.

The capacity of the Ford
motor plant makes it possible
for the new Ford to be
ready for the new car.

The Ford plants here have
continued throughout the sum-
er to manufacture and ship
all over the world. Our pro-
duction of replacement parts
for Ford cars still in use by
owners. Ford officials estimate that 15 million cars will be
sold in the United States.

The Ford plants here have
been converted to the manu-
facture of all parts of the Ford
automobile, except the engine.

The engine blocks, axles, wheels, gauges and the major parts
are now being turned out in
units under way, but the new engine blocks, axles, wheels, gauges and the
major parts are now under way.

A new type of Ford car will
be required in the near future.

Pittsfield, Mass., Oct. 20: George "Doc"
Whitman has been appointed
chief engineer for the new Ford
automobile.

Whitman is a well-known
engineer who has been with
Ford for many years.

Whitman has charge of
the design and construction
of the new Ford car.

The new Ford car will
be ready for the new car.

Easing the Pain

The United States Department of Agriculture, in its annual report, mentioned that 100 per cent of the dairy cows in the United States were suffering from the effects of a disease known as cowpox. The disease is caused by a virus that infects the teats of cows and can cause discomfort and pain. The report advised farmers to keep their cows clean and dry to prevent the disease from spreading.

Power in the People

Unusually high taxes, pay less than any other industry, have a cutting effect on development and growth of the country. After all is said and done, the people themselves, or through their chosen representatives in legislative bodies, city, state and nation, for several months, are taxed. There is no old saying that "taxes can't be raised once and have it done." It's possible to have everything under the sun in the way of paying taxes and, without paying for a house, home, car or any improvements.

Taxation increases are inevitable and while people clamor for new projects, new buildings, new laws, laws, new legislation, people themselves, or through their representatives in legislative bodies, city, state and national, must be taxed. In the hands of these companies, the public is assured a continuous development—and at decreasing cost. The electricity is saved, the country's light and power companies, the electric power companies, are the leaders in development and growth of the country's light and power companies. The electrical industry is the leaders in development and growth of the country.
First National Bank

This is truly a home-like restaurant because it has endeavored to break down the prejudice that restaurants could not serve food like you get at home. That's the reason they make it possible for us to serve meals like you get at home. Bring your family here.

Modern Barns and Crib

60. Best Violinist, playing "Among the Yearlings." Prize, $1.50, presented by W. P. Felts liwe. Co.
"Electricity brings increased comfort"

says Herbert Hoover, Secretary
U. S. Department of Commerce

"We are in the midst of a great transformation in the development of electric power—it is reducing the burden of human toil, it is increasing productivity. It is bringing increased comfort to our people."

WHAT each worker in the United States can do with his hands is multiplied ten times by the electric power he uses. Sixty-eight million people are also using labor-saving electrical devices in their homes.

Electrical service has its greatest value because it is delivered at the time and place where it is needed. That is what electrical service means, and the foresight and enterprise of the country's electric power companies have helped make it possible.

Because power companies built power plants and transmission lines that would take care of the growing demand for service many years in advance, every new electrical invention has found an abundance of power ready to serve it. Now even the smallest community gets electrical service through interconnected power systems.

Enthusiastic public acceptance has done much to build this electrical service. Three million investors own the securities of electric power companies and the whole public has benefited from rate reductions made possible through increased use of labor-saving devices.

To insure the complete fulfillment of the promise of economy and happiness which electricity offers, the American principle of individual initiative must be maintained.

Kentucky Utilities Company

Unfailing Satisfaction

is what you get in every day's use of the dependable

Enterprise Range

THE dependable range and satisfactory results always obtained by Enterprise Range, has for fifty years made the Enterprise the choice of all discriminating housewives.

Enterprise Range is the Proven Range of high grade range construction, along the line for results that insure good efficiency in operation and fuel economy.

The Enterprise Range has many exclusive features that are a great help and convenience in use, in all classes of cooking.

Place an Enterprise Range in your kitchen and you will find that your cooking will be done quicker and with less effort, and the results will be absolutely the same. Approved by the Kentucky Utilities Company.

Don't be handicapped at a good task with an unsuitable unit time or space. Use the Enterprise Range and you will always be truly effective.
