## HARRY BARRY STRESSES IMPORTANCE OF RAT ERADICATION CAMPAIGN; CITIZENS URGED TO CONTRIBUTE TO EXPENSE FUND

Talk at Rotary Club Commends Local Program To Rid City of Rats in Campaign This Fall

Harry Barry, local sanitation officer, was the guest speaker at this week's Rotary luncheon Tuesday, and spoke at length on the need for a rat eradication campaign in Fulton.

Mr. Barry stated that he was much encouraged with the progress and the support being given the campaign against rats in the City of Fulton, being sponsored by the Fulton County News.

Mr. Barry pointed out that arrangements will soon be made to schedule a group of government men to visit Fulton in the Fall and distribute the poison to residences and stores in the city. He has also received a new and improved formula to be used in making the poison, as well as addresses from which ground fish, an essential part, can be obtained.

Already endorsed by the Rotary Club, endorsement by other clubs is being sought by a committee appointed by Rotary president "Happy" Hogan. The plan has been submitted to the Lion's Club and the Young Men's Business Club, who will bring it before the memberships at early dates.

Mr. Barry, by way of suggestion, stated that "if all of the local civic groups are going to actively support the campaign and solicit funds for it, that the city could be divided up into sections, each group taking a section for solicitation... a plan that has been used for successful campaigns in neighboring towns."

The campaign will be one in which poison is distributed to every single dwelling and place of business; to be effective it must include every building in the city limits.

"It's a darned good plan and I think one that everybody in town should take part in," said J. H. Patterson of the Fulton Hatchery as he handed the News the first contribution to help defray the cost of a rat eradication campaign for Fulton.

Close behind Mr. Patterson were Mr. and Mrs. David Sundrick and W. L. Holland who expressed equal enthusiasm for the program.

Contributions to date:  
J. H. Patterson.....\$2.00  
Mr. and Mrs. David Sundrick.....1.00  
W. L. Holland.....2.00  
Col. Mary Agnes Brown.....1.00  
Long way to go, but it's a start.

Contributions of \$1 or more from each dwelling or place of business is needed to raise necessary funds for this campaign. The NEWS is accepting and acknowledging contributions now.

To cost approximately \$500, the News is issuing an urgent appeal to every merchant, professional man and housewife to contribute to ward off the vermin influx that reaches its height during the Fall months.

The Fulton County News office is acting as collection agency for the funds, to be deposited in a special account in a local bank. All contributions will be acknowledged through the columns of the newspaper and the names of the donors turned over to the sanitation officer.

Use the convenient coupon printed on the front page of the News today and send your contribution in today.

Abe Thompson of Paducah spent the weekend with his parents, Mr. and Mrs. John Thompson and Mrs. Ida Pegram west of town.

## Little Phoebe

His body lay prostrate on the hard, shimmering concrete sidewalks of Lake street. The curious passed, nodded their heads in respect and stood silently waiting to see if he would say just one last word.

Then there were the tourists who drove their cars in funeral pace along the streets, curiously peering to determine the cause of such a sight.

But little Phoebe just laughed and laughed because she knew it was old man John Q. Voter who dropped dead in his tracks at the shock of a candidate for city commissioner asking for his vote.

## WAC COLONEL SENDS DONATION TO RAT FUND

At least one house in Fulton will be eradicated of rats through the generosity of a former WAC colonel, who served with distinction as staff director of the Women's Army Corps on the staff of General Douglas MacArthur.

This morning's mail brought a crisp \$1 bill from Colonel Mary Agnes Brown of Washington, D. C. who wants to be a Pied Piper of Fulton. She states that her address in the Nation's Capitol is a "suburb of Fulton."

The publishers of the News send the thanks of the people of Fulton to Colonel Brown for her generosity in helping the campaign along.

And by the way, have YOU appointed yourself a Pied Piper?

## BASEBALL

FORE and AFT

Dear Baseball Fan.

Whitey Lynch came through with a hit to win his own ball game on Tuesday night. And the infield really shone when they pulled five double plays. I'd like to add a sequel to Erl Sensing's Saturday column about selling the team down the river whenever they have a losing streak. If you remember, our infield was shifted during the last slump, under Gill's management. It's true, that no one man comprises a team but each player is a cog in a big wheel. Just like any other mechanism the absence of a cog, no matter how small, makes the machine go amiss. It's nobody's fault that player is hurt and you can't expect to shift a team around and get the same results as you would if they were all in their right places. Another little item I'd like to mention is the term, "he couldn't buy a hit. I didn't know they were on sale. Why not purchase a few and give them to the boys, Mr. Sarcasm?"

In case we miss any 8th inning rallies this week-end, its due to the fact that Hugh Rushton won't be at the games to spur them on. Hugh has gone to Detroit to be at the bedside of his hospitalized sister, Mrs. Nell Rodgers. The News sincerely hopes that Mrs. Rodgers has a quick recovery, and that our ardent fan, Mr. Rushton, hurries home to his seat in the dug-out!

The American Legion adopted a rather feminine countenance on Monday night when the Chick wives gathered there for a double baby shower. It was in honor of future babies Peterson and Pechous. There were pink and blue decorations, which were very attractive. Those who attended were Mrs. Hal Seawright, Mrs. Daryl McAlister, Mrs. Joe McAlister, Mrs. Pete Peterson, Mrs. Jack Williams, Mrs. Fred Biggs, Mrs. Dutch Gray, and Mrs. Ed Engle. Games were played and prizes, all of a baby mode, were won by Mrs. Seawright, Mrs. Engle, Mrs. J. McAlister, and Mrs. Peterson. Ping-pong and pool were also "attempted," and it proved to be a lot of fun. A light lunch was served, and later four of the guests adjourned.

### "Potatoes" Grow In Hyland Garden Here

Something of a monstrosity of nature is occurring out on Second street in the vegetable garden of Mr. and Mrs. Bob Hyland.

Through the mysteries of pollination a potato vine is producing several clusters of good size, healthy tomatoes. The vine is in close proximity to a tomato vine and apparently there have been some very busy and eager bees somewhere in the neighborhood.

The mystery deepens however, because the Hylands would like to know if there will be potatoes or tomatoes underneath the soil.

Would it help to call it a pomato?

## MR. RAABE VISITS HERE IN INTEREST OF NEWS COLUMN

Lawrence J. Raabe, assistant to the editor of the Illinois Central Railroad magazine published in Chicago, was a distinguished visitor in Fulton on Wednesday. Mr. Raabe came to this city in the interest of the outstanding public relations work being done by Mary Alice Clark, Fulton News columnist (Roundhouse Round-up) and clerk to the general foreman at the I. C. roundhouse.

Mr. Raabe commended the publishers of the Fulton News for their interest in railroading and for devoting space in the columns of the paper to the affairs of railroad personnel.

Mr. Raabe took several pictures of the News staff and Miss Clark for publication in the Illinois Central Magazine.

## INTEREST CENTERS IN RACE FOR RAILROAD COMMISSIONER AND DEMOCRATIC GOVERNOR

Tomorrow, voters in the city of Fulton, in Fulton county and in all Kentucky will go to the polls to select city, county, district and state candidates to serve them as public officials for terms ranging from two to four years. In campaigns spotted with disinterest in some races to the rarest forms of mud-slinging in others, candidates are trekking back to their home districts to vote and to await the outcome of the voters' decision.

Here in Fulton voters are looking forward to the final tally with more than a little interest for it will mean victory or defeat of its neighbors and friends.

## LEGION AUXILIARY WINS AWARDS FOR MEMBERSHIP GAINS

For having the greatest increase in membership during the past year, the Marshal Alexander Post No. 72 of the American Legion Auxiliary was presented with the Mrs. Murray State Trophy at the state convention in Louisville, July 21-23. The award was based on the outstanding work done by Mrs. Wallace Shankle and her corps of officers who served the auxiliary last year.

The award for the Auxiliary was received from Mrs. E. C. Zehnder of Louisville by Mrs. Pete Ashby, the newly elected president.

The Fulton unit also won the National Citation for Meritorious Service for carrying out the national program by enrolling membership in 1947 equal to that of 1946. A cash award was given.

The unit also won the Department Citation for paying unit assessments and enrolling membership equal to 1946.

On Tuesday afternoon a memorial service was held by the State Department chaplain, Mrs. Gertrude Questa, in which a candle was lighted for the late Mrs. Ollie Kaler of Fulton, who was an active member of the Fulton Auxiliary.

## 'WILD GARLIC' IS MENACE TO FARMERS BROWDER CO. TOLD

In a letter to Browder Milling Co., the Southern Illinois Millers Association is seeking the assistance of millers and farmers in this section to help eliminate wild garlic in their grain crops.

The letter cited the arrival in St. Louis on July 14, 1947 at 237 cars of wheat of which 84 were sold for cash and 42 graded "garlicky." The letter revealed that while a few sections of Missouri, Illinois and Kentucky are not afflicted with this noxious weed, a large area in all three states has lots to contend with.

To assist farmers in the control of wild garlic, the letter said in part:

"The eradication of wild garlic is a simple process, but means additional work for the farmers. This is the plan: a three year program including an extra plowing each year. The fall plowing is splendid but so is the plowing done in the spring."

The planting of infested fields to a cultivated crop is a further aid to eradicating wild garlic. By this means any stray garlic plants that may have germinated after the ground was plowed, or which may have been missed in previous plowings, will be killed before they have a chance to reproduce. The cultivated crop, furthermore is not likely to become contaminated with the garlic bulblets and act as a new source of infestation. It is important that no plants be allowed to reproduce since these will be sources of new infestations.

Cultivation also helps to prevent the growth of new garlic plants.

Little or nothing has been heard of in the race to select six commissioners from a ten-man race to serve the city of Fulton for the next two years. If politicking has been done in the campaign it has been of the most silent nature. Interest in the campaign has been nil, even though the men elected will spend city funds, set municipal policy, and be charged with the responsibility of directing a course of progress for one of Kentucky's finest little cities. All men in the race are prominent and good businessmen, probably the reason for no accelerated campaigning, since the city would benefit from the election of any six of the ten.

Enthusiasm is running high in the race for railroad commissioner of the first district. Fulton's own Paul J. Durbin has travelled more than 10,000 miles over 42 counties, riding his jeep in the broiling sun and sleeping under the evening skies on an Army bedroll in the interest of his campaign. So strongly are local citizens behind Durbin that a more than avid voter was heard to remark that if there is a dissenting vote in the Durbin column a posse will be formed to hunt the culprit.

In the race for governor interest is running at fever pitch with both major candidates for the Democratic nomination contradicting each other at every turn. Harry Lee Waterfield, local publisher will undoubtedly receive the majority vote in this county. An outspoken opponent of the monied interests, he has waged a bitter campaign against Earle Clements with Kentucky Utilities the target of his attack. Crusader for TVA power in western Kentucky he has also promised a \$10,000,000 program of improved State roads, increased salaries for school teachers, as well as other benefits for the aged, the veterans, and labor.

As in all good political campaigns the opposing faction has retaliated with "Me, too."

All of which augurs well for the voter, who awaits the term of office of the victor with curiosity to see what promises he fulfills.

County Court Clerk C. N. Holland advised the News recently that a record vote is expected. All is in readiness in the 21 precincts of this county to stage an orderly and efficient election. The counting of the votes will begin at five o'clock Saturday afternoon, with a large number of local citizens planning a trip to Hickman to find out what the trend is in early stages of vote counting.

"Complete and final returns will be revealed about Tuesday," Mr. Holland said.

HELP BUILD

AMERICA'S AIR POWER

on AIR FORCE DAY, AUGUST 1ST

No one today questions the fact that the whole future of the United States may rest in the very clouds over your head. And the new, reorganized Air Forces give thousands of eligible young men an opportunity to take an active part in building America's air power... on the ground as well as in the sky.

You may, for example, enlist in the Air Forces for three years. If you have a specialty which will qualify you, you may also be able to enlist in a grade at higher pay.

If you have had Air Forces experience, you may join the Air Reserve and continue your military aviation training outside of business hours.

Or, you may join the Air National Guard and perhaps become eligible for advanced technical training at special Air National Guard schools.

On Air Force Day, make a point of finding out everything about your Air Forces — especially the new Aviation Career Plan described below. Full details can be obtained at your U. S. Army Recruiting Station.

### NOW—THE WORLD'S GREATEST OPPORTUNITY FOR A CAREER IN AVIATION

Today the Army Air Forces offer high school graduates an unprecedented opportunity to get the finest aviation schooling on earth — and select your school or course before you enlist.

The AAF Career Plan is unlike anything ever offered before. It permits selected high school graduates to apply and qualify for AAF specialized courses of their own choice. Simply go to your U. S. Army Recruiting Station, advise the Recruiting Officer the kind of aviation training you want and he will provide you with an application blank and a complete list of available courses.

When you are selected to attend the course of your choice, you enlist in the Army Air Forces for 3, 4 or 5 years. After your basic training period you are guaranteed the education you have selected to make you a specialist in the type of work you want.

## SOUTH FULTON

By Ruby Neisler

I am sure the farmers were delighted to see the good rain that came Monday. Even the trees and flowers seemed to say "thank you," after the dust was washed from their faces.

We are sorry to report that Wess Elstridge is not doing so well. He is now in Jones hospital for treatment.

Mrs. Parrot of Church street has been removed from Haws hospital and is now at the home of her niece, Mrs. Elvilyn Simpley, Water Valley, and is doing nicely.

The last week visitors of Mr. and Mrs. Dom Frankum on College street were Mr. and Mrs. J. L. Stone of Jonesboro, Ark., Mrs. Blanch Reed of Currie, Mexico, Miss Stone, Mr. and Mrs. Ozell Bennett and daughter of Mayfield, Mr. and Mrs. T. L. Droyer of Kenton and Mr. and Mrs. Johns.

## NO SALES TAX

To Kentucky Residents....When Delivery  
Is Made In Kentucky.....

## TAX GOOD ONLY IN STATE

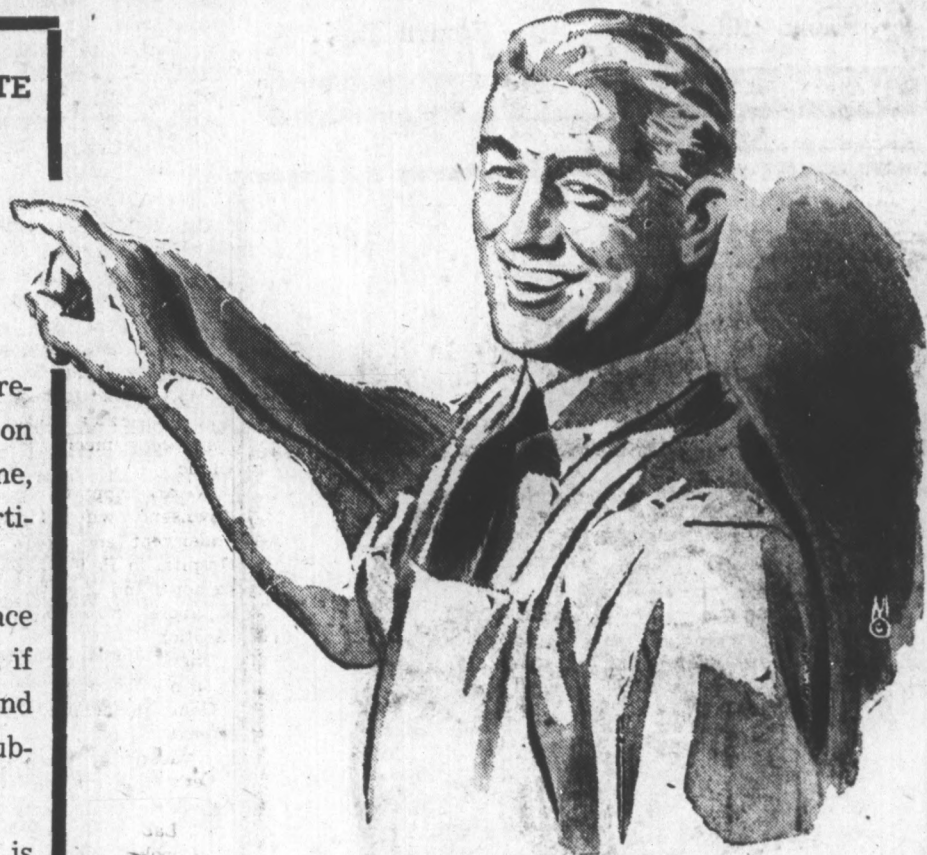

Sales Across Line Are Not  
Affected By It

Tennessee retailers are not required to charge a sales tax on shipments crossing the state line, according to P. K. Seidman, certified public accountant.

"The important point is place of delivery and it follows that if the merchandise is purchased and delivered in Tennessee it is subject to the tax," he said.

"If however, the purchase is made in Tennessee and the delivery is made in another state, then the sale is considered interstate commerce and no tax is due. It is immaterial whether delivery is made by parcel post, express, common carrier or by the seller's own truck.

"This interpretation is now accepted by the commissioner," Seidman said, "and extends Rule 29 to residents as well as nonresidents. Thus, all that is required for the transaction to be exempt is shipment into another state."

Reprinted from a recent Memphis  
newspaper issue:

We, the undersigned Tennessee merchants with businesses in South Fulton, Tenn., feel that this matter should be brought to your attention because there has apparently been a general misunderstanding in this matter of sales tax and who pays it.

We wish further to call your attention to the fact that the Tennessee State line is at the curb on State Line street . . . so delivery "in Kentucky" for most of us needs be only to your car, parked at the curb . . . which we are always glad to do anyhow.

We solicit the patronage of all of our past customers and shall always give you the best.

## Roundhouse Round-Up

By Alice Clark

Hello folks, here we are again with the good old Roundhouse Round-Up. Our safety rule for the week is Rule 713, which has been revised and reads as follows: "Employees must not adjust couplers with foot or hand while cars or engines are moving. They must not ride on the pilot in forward motion or leading footboard of engine or tender, nor follow other dangerous practices."

"There is no pleasure in an accident. Enjoy life by being careful always."

Now for the news.

Mrs. G. A. Thomas and Betty, wife and daughter of Boilermaker G. A. Thomas, have returned home after a visit to relatives in Louisville, Ky.

General Foreman M. M. Matlock spent the week end in Paducah visiting with his family.

Mrs. V. J. Voegeli, Jr., and children, wife and children of roundhouse foreman are visiting relatives in Jackson, Tenn.

We are glad to hear Retired Coal Chute Operator G. E. Allen is getting along nicely. He is in Haws Clinic.

We are happy to report Mrs. Cleve Townsend, wife of Engineer, who underwent operation at I. C. Hospital in Paducah has been moved home and is getting along nicely. Laborer Irvin Ingram is on his vacation.

Engine Watchman Steve Haynes is on his vacation.

Gene Hoodenpye, clerk to car foreman, is back to work after a 12 day vacation.

Let's take a look into the life of Robert Howell. Robert's titles are C. C. Laborer, carman hpr, carman chief cook and bottle washer on the derrick. Robert feels very good when the derrick is called out. His white coat and cap hangs over the door very handy. Oh yes! he's very good at cooking beans but usually puts too much hot sauce on them, so the men will have to fill up on water to cool their mouth. Then laughs about it, and is always kidding the other fellows. He is the suggestion king of the main line chute, always handing in a suggestion about the main line chute. I wonder why he thinks of so much at the chute? A bird told me it was because he came from Cane Creek bottom.

Let's be safety minded at all times. Fireman and Mrs. H. E. Morrow are the proud parents of a girl who has been given the name Brenda Lynn.

Mrs. Lucille Austin of Columbus, Ga., is here visiting Carman and

Mrs. James E. Smith, Mrs. Austin is Mrs. Smith's mother.

Elizabeth Morris, laborer, has returned from her vacation which was spent in Louisville, Ky., and Birmingham, Ala., visiting relatives. Elect. Nelson Tripp is attending the Diesel school at LaGrange, Illinois. Mrs. Tripp is with him.

Dan Collins and Jimmy Collins are busy these days getting ready for a trip to Cincinnati, Ohio. They are the sons of Engineer and Mrs. Earl Collins.

Machinist and Mrs. Tom Carter have returned from their vacation which was spent in Atlantic City, Washington, D. C., New York and Philadelphia.

Car Foreman M. E. Daws is smiling these days as he has a new Ford. I'd smile too.

Bobby Chamless, grandson of Engineer and Mrs. Luke Smith, has returned home after a visit with them.

Flagman Pee Wee Austin is on vacation.

Engineer Jake Huddleston has returned to work after his vacation. Fireman C. E. Mulcahy is on his vacation.

You don't believe Reelfoot Lake has chiggers, well just ask Paul Paine, Jr., he knows.

O look into the life of A. T. (Tom) Carter tells us he was born October 11, 1918 at Memphis, Tenn. He is the son of Retired Machinist and Mrs. A. H. Carter, 833 Fairview street. Tom attended the city schools of Fulton, Ky., and upon completing his high school education he started working for the Illinois Central railroad November 3, 1936 at Paducah, Ky., as a machinist apprentice he worked there until March 29, 1941 when he went to work in the Navy yards at Philadelphia as a machinist. On July 22, 1941 he came to Fulton and went to work as a machinist for the I. C. September 8, 1942 he entered the U. S. Navy and was in military service until December 1, 1945 when he again returned home to continue his service with the Illinois Central. Mr. Carter is married and has a little daughter, Carol. They make their home at 833 Fairview street.

Bridge and Building Foreman R. C. Omar has applied for his pension.

Fireman J. F. Oliver is smiling. He received his state tax which was taken out in 1937, '38 and '39. So if any of you haven't received them don't get worried they will come sooner or later.

MORE MORE MORE MORE

Now for a look into the life of our Boilermaker G. A. Thomas. George was born July 31, 1903 at Decatur, Ala. He is the son of Mr. and Mrs. W. M. Thomas of Decatur. He attended the public school of Decatur and upon completing his education decided he would like to be a boilermaker; so down he went and landed in the office of the L&N railroad at Decatur. So on July 3, 1923 he started as a boilermaker apprentice with the L&N. Upon completing his apprenticeship in 1927 he was cut off and worked at different jobs until Sept. 1936 when he started work with the Illinois Central at Louisville, Ky., as a boilermaker. Transferring to Jackson, Tenn., Feb. 1941 he remained there until July 2, 1945 at which time he transferred to Fulton. George married Virgie Terry, Oct. 31, 1925 at Athens, Ala. They have one daughter, Betty age 12. They make their home at 204 Third street.

To be safety conscious and not "un" conscious should be our constant effort and purpose.

Well now lets don't forget August 22, 1947 at 7:30 p. m. That's when the Illinois Central service club will meet at the Young Men's Business Club for a big evening. Come one, come all. Good clean fun for the short and the tall.

So long! See you Friday, same place, same time and always the same paper.

**A Statement To Our Customers About Resale**

## PRICES of PRODUCTS

**Built by International Harvester Company**

Here at Harvester we are concerned over the fact that a growing number of our products are appearing on the resale market at greatly inflated prices.

As manufacturers, we try to produce at the lowest possible cost. We cannot set the prices at which our products—tractors, motor trucks, farm implements, refrigeration, and industrial power equipment—are sold. We can and do suggest list prices which the great majority of our dealers adopt as their retail prices.

**\$20,000,000 Price Reduction**  
 Our basic price policy was publicly stated in March, 1947, when we announced price reductions at the rate of approximately \$20,000,000 per year on our products. At that time, Fowler McCormick, Chairman of the Board, said: "ANY PRICE IS TOO HIGH IF IT CAN BE REDUCED."

Practically all of our dealers cooperated with this policy and passed on the savings to their customers.

The objective of the price reductions was to make it possible for customers to buy our products, which they need so badly, at lower prices. Naturally, this purpose is defeated when our products are sold by anybody at inflated prices.

**IH Production at All-Time Peak**

Inflated prices are caused by

the difference between supply and demand. To increase supply, we now have the greatest number of employees in history on our payrolls—almost 90,000 in the United States, as against about 60,000 prewar. Large new plants are getting into production in Louisville, Evansville, and Melrose Park. A fourth will soon be in operation in Memphis. The men and women now employed are turning out the greatest quantities of IH products of all kinds that we have ever made. These are also the finest products we have ever made, and recognition of that fact is an important contributing factor to the demand for them.

### Distribution to Dealers

But even record-breaking production is not sufficient to give your dealer—and other IH dealers—enough products to meet today's demand. We have tried to make the fairest possible geographical allocation of our products so that every dealer would get a fair share, and we know that dealers, in most cases, have tried earnestly to make the fairest possible distribution to their customers.

But we also know that many of our products—far too many—are being resold at inflated prices. The public criticism and resentment of these resales are of real concern to us, as we know they must be to our dealers, because such reactions en-

danger the good will of both the dealer and the Company in any community.

### Distribution to Customers

Experience shows that many IH new products are being resold by users who decide they can continue to make out with their old equipment after they have had an inflated offer for their new equipment. To eliminate this, many dealers are taking measures to be sure that equipment purchased is for their customers' own use and is not to be resold.

Nearly all IH dealers, we believe, are now using the basis of PRESENT NEED as their primary guide for the sale of scarce products. The customer whose need is real and urgent is not likely to resell.

### What Price Should You Pay?

While it may take a little more time to get delivery, we urge our customers to consider all of the factors mentioned here, before paying more than the list price for any IH product. Any IH dealer or branch can furnish the suggested list price for any IH product.

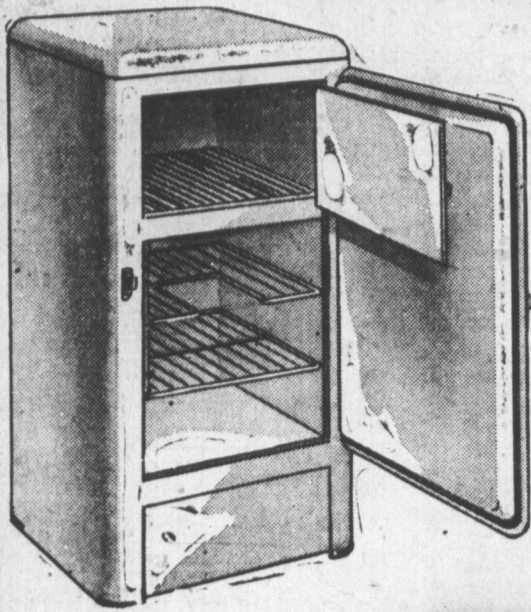

We know that the overwhelming majority of IH dealers are as much opposed to inflated prices as we are. In the public interest, we have already asked their cooperation—and are now asking the cooperation of customers—in correcting this situation.

#### BASEBALL

(Continued from page one) ed to the home of Mrs. Pechous to sort of give it the "finishing touches" as she was unable to attend, due to illness.

If anybody has any roller skates, scooters, bicycles, kiddie cars, etc., please donate them to the Chicks as transportation for the next road trip. That bus is more trouble than

it's worth. On the way home from Hopkinsville it broke down again and passers-by found our team sprawled out on the highway waiting for help. If you're near the bus sometime, board it on a tour of inspection and then tell me how well you think you'd like to ride in it. Say riding to Owensboro, for instance.

There are quite a few rumors flying around about Fulton concerning Ray Pechous. Our center fielder will not be out for the season, will not return to Chicago soon, but will be back in the line-up Friday or Saturday. His leg is in much better shape, and he is currently coaching first base.

I think Jack Williams should be called "The Old Fireman" instead of Union City's Dutch Newman. Jack warms up that old bull-pen so much he's liable to start a fire down there one of these days.

Mrs. Pete Peterson has her fingers crossed in hopes for twin boys. She'll name "Pete" and "Repeat."

During the last road trip, Mrs. Fred Biggs took little Mary Beth to Memphis to see her doctor. The results were more than favorable. She had her braces changed and can be without them three hours per day. In two months, if X-rays are as satisfactory, she will be permitted to go without them, except for sleeping. The most joyous part of the trip was the doctor's comment that in two months she will be allowed to try to walk. But our smiling Mary Beth fooled him by walking on Sunday. Surprised? Her mother, Shirley, nearly fainted! Look for her to be running to the concession stand for popcorn soon.

I have just found out the reason for Jake Propst's agility on first base. People who know tell me that it's due to the fact that he order chicken every meal. We like the agility, but please, Jake, don't start cacklin'. The umpires mightn't understand, and may give you the thumb.

I'll be back next week. Tune in for more news about your Chicks. Unavoidably yours, George.
