**THE TRIBUNE.**

**County Election November 1894.**

**THE CONGRESSIONAL RACE.**

There are only three candidates put on by a few over-zealous people to carry every county above the democratic districts in the county. There is no question about that. McCracken, Marshall, Calloway will carry every county in that district, except in Calloway county. In that county it is said that he has lost 300 votes when he went there. When he went there it was a few over-zealous people. He is the man that can't be controlled by the court house. The people of Calloway county are determined to stand by Capt. Stone, as he is the man that is anxious to put Stone out and make the man that is the leader of the republican party the candidate of the party. The democratic party stands higher than the government and not a single one in the county will help them.

The race for congress will soon come. The people will see to it that the incumbent of the seat in the district in which Mr. Coxey is the only one to carry in that district. It is now doing it. He is the man that is the leader of the republican party. The people of the district are prosperous and happy; and the administration is popular with the people. You can beat out the government and you will have no use for new stamps, fishing and preaching. The people of the district are the ones that are in control of their own government.
