## HOLLAND FILES SUIT AGAINST C. L. JORDAN IN CIRCUIT COURT.

Suit is Filed by Coleman & Linn, and Wheeler, Hughes & Berry, of Paducah.

The only event that has occurred since the election last week to cloud the political skies was a suit filed Tuesday morning in the circuit court clerk's office by Attorneys Coleman & Linn, of this place, and Wheeler, Hughes & Berry, of Paducah, for L. W. Holland, defeated candidate for sheriff, against Charles L. Jordan, who was elected by a majority of 77 votes.

The fact that this suit was filed has caused much criticism and comment and has been a general topic of discussion throughout the county. There is no question of the legality of the election and the petition filed does not specify upon what grounds the suit is filed other than to charge that Mr. Jordan is not legally qualified to hold the office. The petition states:

"That he (L. W. Holland) received a higher number of votes at said election for said office than any other legally qualified candidate for the said office, and that he was therefore duly elected to said office of sheriff to begin on the first Monday of January, 1910."

The petition also contains the following clause:

"That the defendant, C. L. Jordan, be denied to qualify to or to hold or enjoy said office of sheriff of Calloway county for said term or any part thereof, and that he be enjoined from exercising any of the duties or functions thereof, and that he (L. W. Holland) be declared duly elected to said office and be permitted to qualify thereto."

What disposition of the case will be made is not yet known, but it is hardly possible the case will be called before the regular April term of the circuit court.

Mr. Jordan has executed bond.

and was sworn in Monday night of this week, and before the suit was filed. It is estimated that the personal of Mr. Jordan's bond is worth not less than \$350,000.

Ollie James Lucky Find.

Cincinnati, Nov. 8.—Representative Ollie James, of Kentucky, has found his appetite for oysters profitable. Up to date the Kentucky statesman has spent numerous dollars for what are termed "luscious bivalves," but at noon Saturday while eating a dish of "raws" in a local cafe he got all his money back.

The bicuspid was just closing upon one of the oysters when it struck something hard. The congressman investigated, thinking it was about to chew a piece of shell.

But he found a pearl. A jeweler, who happened to be at lunch at the time, was called into consultation and he lifted up his voice, saying: "This is worth \$1,500."

Creasons Arrested and Lodged in Jail While Cagle Made His Escape.

Luther and Alfred Creason and a young man by the name of Cagle, of Scott's Hill, Tenn., together with Nathan Lassiter and son of Alph Thomas, of near Pine Bluff, engaged in a shooting affray on the Tennessee river between Shannon and Pine Bluff last Saturday and as a result both the Creasons received gun shot wounds. They were shot with a shot gun loaded with squirrel shot and their wounds are not serious.

It appears that the Creasons and Cagle had been to Paducah in search of work and were returning up the river. The three were at Sam Coleman's Friday night and asked for lodging. While Cagle went out into the barn lot to see Mr. Coleman the Creasons left taking with them a grip Cagle said belonged to him. Cagle in company with Lassiter and Thomas instituted search Saturday and came upon the Creasons when a general shooting affray resulted.

The Creasons were arrested by Deputy Sheriff Waterfield and brought here and placed in jail. Lassiter and Thomas executed bond for their appearance, while Cagle made good his escape.

## HOW BLOCK SIGNALS WORK

Operation of Ingenious System That Insures the Safety of Railroad Passengers.

Comparatively few people know just what is meant by block signals when they read that a railroad has established the system on its line. The block is a length of track which, on double track roads, has at its ends a post and movable arm, and on single track lines one at each end.

To say that a line has every track protected by this system means that the entire line is divided into consecutive blocks. Only one line from Chicago to New York is thus protected, and of the total in the United States, one-third is on the Union and Southern Pacific.

The operation of the block system is simple but absolute. In a few words, it means that a train cannot move from one block into the next until the latter block is empty. As the train moves forward, the signal arm is not to show that the block just left may be entered by the next train following.

When a train enters a block it so affects the energy that it is a part of signaling that the signal arm remains horizontal until the block is vacated. When the arm is lowered, it means that the block is empty and a train may enter.

When the arm is lowered, it means that the block is empty and a train may enter. When the arm is lowered, it means that the block is empty and a train may enter.

## SHOT UP THE TOWN.

Citizens of Jackson, in the Course of an Hour, Fire 2,000 Shots.

Jackson, Ky. Hundreds of torches lit county mountaineers poured into this city after the departure of several companies of the troops, and hunted the democratic victory by shooting on the street lights and discharging their revolvers and shotguns.

Halfway down the street, and in the main streets, and it was past midnight before the "whoops" of the men died away on the roads leading to the hills.

Republicans in general were absent from the city. Cyclone cellars were hastily sought, and doors and windows barred. Guns were unlimbered and gotten ready for action, but at last the jubilant democrats had no innumerable objects.

It was all unexpected, and the sheriff had discharged most of the deputies sworn in for service at the polls. The few authorities left decided not to monkey with the pleasure of the county men, and humored them in their celebration efforts.

Troops quartered near the city were sent to take a hand at the first sign of trouble.

Healthful county was carried by the democrats and the following ticket was elected by plurality indicated: Redwine over Adams, for circuit judge; 490; Johnson over Ketch, for commonwealth's attorney; 475; Thomas over Hurst, for county judge; 401; Russell over Johnson, for county clerk; 508.

It was a scene of the town, reported that on their way to Crockettville the soldiers were fired upon by a band of men across the Kentucky river. They returned the shot, and the band, caught one man who, when found unarmed, was released.

An interesting feature of the situation was the admission by John Blanton that it was he, and not his brother, Tilden, who killed the man, Thomas Noble at the Spring Fork election polls during the election. John was arrested at once.

It is stated that \$20,000 was spent in Breathitt county by the republicans and democratic committees during the campaign just closed.

Judge Redwine declared that he would exterminate the "blind tiger" in Breathitt.

The doctor's medicine seemed to make me worse, and I was almost out of my mind. I got a set of the Cuticura Soap, Ointment and Resolvent. I used them persistently for twenty-four hours. ## ASTOR DIVORCED FOR A YACHT TRIP

A CUT-AND-DRIED PLAN GOES THROUGH AND CORRESPONDENTS' IDENTITY SECRET.

## PAPERS ARE ORDERED SEALED

Colonel Took Woman on Cruise as "Background" for Suit—\$100,000 Settlement in Lieu of Alimony.

New York, Nov. 9.—Mrs. John Jacob Astor, acknowledged leader of the "Four Hundred," was granted a divorce from her husband, Col. John Jacob Astor, by Justice Mills in the supreme court. The papers in the case are ordered sealed.

It is reported that Mrs. Astor received a lump sum of \$100,000 in lieu of alimony and she will have the custody of their little daughter, while their 17-year-old son will remain with his father. "This sum will eventually go to the daughter."

The proceedings consumed less than one minute to open court, and it was plain nothing had been left undone to prevent any of the details of the divorce action becoming known.

Divorce All Cut and Dried.

Justice Mills was seated on the bench when John L. Cadwalader of the law firm of Stotes & Cadwalader of New appeared before him and handed over the desk a bundle of papers.

"I present the report of C. H. Young, appointed referee by this court to hear and determine the action for absolute divorce brought by Mrs. John Jacob Astor against her husband, Col. John Jacob Astor, and ask that it be confirmed."

Justice Mills nodded. "I have read the report as filed with the court," he said, "and believe it warrants the relief desired."

"You, Mr. Cadwalader, will draw the decree in favor of your client, and I will sign it."

Almost Forgot to Seal Papers.

Cadwalader bowed and stood as though waiting for something. "Oh, yes," broke in the justice, "all of the papers in this case are hereby ordered placed under the seal of the court."

This brought a laugh from the few lawyers in the courtroom.

Neither Colonel nor Mrs. Astor were in court. All of the work had been taken care of by their attorneys, and there was no hitch in the pre-arranged plan.

Who was named as correspondent in the "New York Times" account of the divorce, although there is strong rumor that the affair was entirely arranged for and the correspondent provided, so that the persons who were considered at the outset of the action might be protected.

Trip Up the Nile to Give Pretext.

A few months ago Col. Astor made a trip up the River Nile. He sent in his report as far as he could go, and then proceeded in a luxurious "dahabiyeh." One of the party accompanying him was a beautiful young New York woman whose social standing in the city is not, by any means, the same as Col. Astor's.

It was reported at the time that this trip was made not because of any attachment on the part of Col. Astor, but simply as a "background," as it might be called, for a divorce.

## OZARK FORESTS ABLAZE

Drouth in Southwest Missouri Gives Flames Free Sway Wherever Started.

Springfield, Mo., Nov. 9.—Forest fires throughout southwest Missouri have caused considerable damage during the past few days. The extreme drouth has been a contributing cause to a blaze wherever a hatch has been dropped or a spark has alighted.

Thousands of acres of woodland have been burned over, forests destroyed and in a few instances, country dwellings have been consumed. Passengers on Union Pacific trains from every direction say the fires burn so close to the track that in many places the heat made them feel very uncomfortable.

13,000 Indians Ruled Out.

Washington, Nov. 9.—In an opinion written by Justice Holmes, the supreme court of the United States decided against the complainants in the case of 13,000 Choctaw and Chickasaw Indians who asked for relief for being excluded from the citizenship rolls of those nations when they were prepared by Secretary Hitchcock of the interior department on March 4, 1907.

## CUDAHY TO WED FIANCEE

SON OF MILLIONAIRE DENIES BREAKING ENGAGEMENT

Young Man's Sister to Help in Purchasing Trouseau in New York City.

Chicago, Nov. 9.—The primrose path of happiness has been cleared of all obstacles to the love affair of Edward Cudahy, son of Michael Cudahy of Chicago, and Miss Nora Brewer of San Francisco.

The son of the local millionaire banker, who is wedding to Miss Brewer, was announced as indefinitely postponed because he had developed tuberculosis of a heel bone on a long tramp, stated he was still engaged to the girl of the choice and that the marriage would take place in the spring.

Mrs. John H. Casperly of San Francisco, a sister of young Cudahy, who is stopping with Miss Brewer at the Virginia hotel, has been quoted as saying that the engagement of Miss Brewer and young Cudahy no longer existed. At the same time, however, Miss Brewer insisted the engagement had not been broken, and this led to considerable speculation. You can state that the engagement was never broken and that Miss Brewer and I will be married in the spring," said Mr. Cudahy.

Miss Brewer and Mrs. Casperly will leave for New York Tuesday, where some time will be spent in purchasing the remainder of her trousseau. Mr. Cudahy's plans are still unsettled. He may accompany his sister and fiancée to New York, or may stop in Chicago for a few days longer.

## SOLDIERS IN DEATH RACE

Seven Thousand Troops Go to Rescue of Foreigners Deported by Revolting Tribesmen.

Teheran, Nov. 9.—News from Ardabil is that the foreign residents, being closed in the Russian consulate by revolting tribesmen, are holding out bravely to make a successful resistance until the arrival of reinforcements. Seven thousand Persian troops are now on their way to Ardabil, traveling by forced marches to relieve the consulate.

The news that a Russian force has been dispatched to the relief of the foreigners in Ardabil is received here with the utmost suspicion. The government has evidenced distrust of Russia for an extensive interest in the overthrow of the deposed shah, and it is now believed that the Russian government must have stirred up the tribesmen in Azerbaijan to revolt, in the hope that the uprising would give them an excuse for armed intervention.

The Persians are making every possible effort to subdue the revolting tribes before the Russian forces can reach the affected territory.

New Mexico Land Speculator's Victims Were Numerous Throughout the Nation.

Las Cruces, N. M., Nov. 9.—When A. Ross of Culberson killed himself in New York Sunday he sought death to avoid the penalty. His death marks the collapse of one of the most remarkable men in real estate ever attempted in this section.

Several months ago Ross secured an option on a part of the original Brazito grant. Three times he advanced a grand scheme of the town and delivery of deeds and three times he postponed it on flimsy excuses. He had agents throughout the country and had sold large numbers of lots. On October 1 his option expired. Every dollar invested in his scheme is lost.

## NINE DIE IN NEW YORK FIRE

BROOKLYN DEPARTMENT UNABLE TO COPE WITH THE FLAMES AND EXPLOSIONS.

Many Leap Through Windows.

Workmen, Escape Cut Off by Rapid Spread of Flames in Material, Jump From Upper Stories to the Street.

New York, Nov. 9.—Nine persons were burned to death Monday and twelve were injured in a fire that destroyed the celluloid manufacturing plant of Robert Morrison & Sons, 152 Columbia street, Brooklyn. Thirty employees of the company jumped from second and third story windows.

The fire was one of the worst that the police and fire departments of Brooklyn ever had to cope with. Tons of celluloid were in the three-story brick building, and they sent up a flame that defied water. The loss is estimated at \$200,000.

The dead—William Morrison, a member of the firm and son of Robert Morrison, caught on the first floor while he was trying to put the company's books into a safe.

Eighty-four men, seven bodies so charred that identification is almost impossible.

The injured—Robert Morrison, head of the firm, burned.

Unidentified girl, 18 years old.

Unidentified man about 25 years old, jumped from third story window; back broken; will die.

Nine employees, who jumped from windows and sustained injuries, were attended by ambulance surgeons and sent to their homes.

Two Girls in Danger.

Seventy men and two girls were in the building when the fire was discovered. Of this number 15 were on the third floor.

The blaze started in a pile of culls and other celluloid articles and spread rapidly.

Robert Morrison the head of the firm, was superintending the packing of goods on the first floor at the time. Next to him was his son, William, who was going over the company's books.

Robert Morrison was only a few feet away when the flames started. The first thing he knew he saw a puff of flames coming out of a box filled with celluloid goods.

"Save the books!" the elder Morrison called to his son. At the same time he and several other employees began trying to smother the fire.

Their work proved ineffective and within a few minutes the flames had spread all over the first floor.

Escape Cut Off.

Tons of celluloid were soon ablaze. The flames shot out of the windows and up the fire escapes, cutting off all means of escape.

When they found themselves surrounded by flames, the employees on the upper floors of the building realized it would be impossible for them to rescue them and jumped to the street, several suffering serious injuries.

An immense crowd gathered about the burning building. Many of the spectators had relatives or friends in the burning structure. They became frantic and fought the police in their efforts to reach the burning building to give help to those within.

## MONTAGU TALKS DEATH

LORD WHO ELOPED THREATENS TO END HIS LIFE.

Sir Morgan Announces They Are Reconciled, But Quips Predict New Separations.

London, Nov. 9.—"If you leave me now, I'll kill myself!" Haggard and pale, J. Walter Douglas Lord Montagu, made this threat to the beautiful Lady Crofton, with whom he was found in New York after a three months' search by the police.

Morgan Crofton.

Lady Crofton returned on the Hans Kroppina Wilhelm, and on the same ship were Lord Montagu and his younger brother. At Plymouth they were met by Sir Morgan Crofton. It was when the trio of passengers were quitting the ship and had just caught sight of the husband that Lord Montagu was heard to make his last desperate appeal.

"My wife and I are reconciled," was all that Sir Morgan would permit himself to say.

The elopers occupied separate state rooms on the liner and during the entire trip seldom left them.

Lord Montagu was deathly pale and appeared to be under a terrible strain. Lady Crofton was debonair, her manner marked by a touch of hauteur. Her beautiful face was without a trace of pain. She paid only perfunctory attention to the news for whom she left her husband and little baby many weeks ago.

Without delay, the party came on to London.

Interest in the love affair which led the society woman to the Hotel Gotham, New York, in company with Lord Montagu, reached its height. Society is watching the affair keenly, and it is the principal topic in a thousand drawing rooms in spite of the announcement of the reconciliation between the husband and wife, society was skeptical, and prophecies of further separations were numerous.

## MME. STEINHEIL GAINS SYMPATHY

PARIS "RED WIDOW" RESUMES FIGHT FOR LIFE WITH AIR OF CONFIDENCE.

EVIDENCE FAVORS WOMAN

Neighbor Upsets Contentment of Prosecution That the Woman Was Not Gagged—Husband Feared Attack.

Paris, Nov. 9.—Refreshed by Monday's reprieve, Mme. Marguerite Steinheil fought for her life in the court of the assizes Monday with an air of confidence more marked than has characterized her since the first days of her trial. Her beauty, which captivated French statesmen, was still apparent as she smiled at court and jury. Her lawyer rose with the examination of the first witnesses. Their testimony was another victory for the noted prisoner.

First came a woman, a neighbor of the Steinheils, who was among the first to arrive at the house on the morning of May 31, 1908, when M. Adolphe Steinheil, husband of the prisoner, and her stepmother, Mme. Japy, were found murdered.

Marks of Cords Seen.

"When I reached Mme. Steinheil's room," the witness said, "I saw the marks of cords on her hands and wrists, which were chafed and red. The gag with which she had been gagged lay on the pillow of the bed."

This last declaration is of great importance, one of the main points of the prosecution being the fight to show that Mme. Steinheil was not gagged, although her husband and stepmother were. Medical witnesses have disagreed over the gag.

Another physician, Dr. Achery, who for a long time attended the Steinheil household, was the second witness called, and his testimony was of material aid to the defense. He was called to attend the victims of the crime.

M. Steinheil in Fear.

"M. Steinheil," he testified, "was timid and often expressed fears of attack. Mme. Steinheil was devoted to him and to Mme. Japy."

"When she caught sight of me she cried, 'Save mamma! Save Adolphe!' I already knew that they were beyond hope, but I dared not tell Mme. Steinheil. In her condition she could not have withstood the shock."

Letters Accused Artist.

Closely questioned by the prosecution, the physician said that he knew Mme. Steinheil received anonymous letters accusing her husband of infidelity and accusing one of the models of being the rival of his wife. This point added to the strength of the defense, greatly producing a noticeable effect on the jury.

As she saw her case being strengthened, Mme. Steinheil made no attempt to stir the jury. At times she interjected the witness herself.

Oklahoma City, Nov. 9.—Officers are trying to solve the mystery surrounding the murder of Roy D. Gannon, a real estate dealer, whose body was found on the roof of a ten-story building here, his head almost severed from his body by a rope which had been placed around his neck and twisted with a bar of iron.

Robbery is one theory, although the police believe that another, subtler motive, may be discovered. They are seeking a blonde woman seen with Gannon in an automobile Saturday afternoon.

Gannon drew \$1,000 in currency Saturday afternoon, and this money has not been found.

### HELPFUL HINTS ON THE HAIR HEALTH.

Scalp and Hair Troubles Generally Caused by Carelessness.

Dandruff is a contagious disease caused by a microbe which also produces baldness. Never use a comb or brush belonging to some one else. No matter how clean the owner may be, these articles may be infected with microbes, which will infect your scalp. It is far easier to catch hair microbes than it is to get rid of them, and a single stroke of an infected comb or brush may well lead to baldness. Never try on anybody else's hat. Many a hatband is a resting place for microbes.

If you happen to be troubled with dandruff, itching scalp, falling hair or baldness, we have a remedy which we believe will completely relieve these troubles. We are so sure of this that we offer it to you with the understanding that it will cost you nothing for the trial if it does not produce the results we claim. This remedy is called Rexall "33" Hair Tonic. We honestly believe it to be the most scientific remedy for scalp and hair troubles, and we know of nothing else that equals it for effectiveness, because of the results it has produced in thousands of cases.

Rexall "33" Hair Tonic is devised to banish dandruff, restore natural color when its loss has been brought about by disease, and make the hair naturally silky, soft and glossy. It does this because it stimulates the hair follicles, destroys the germ matter, and brings about a free, healthy circulation of blood, which nourishes the hair roots, causing them to tighten, and

grow new hair. We want everybody who has any trouble with hair or scalp to know that Rexall "33" Hair Tonic is the best hair tonic and restorative in existence, and no one should scoff at or doubt this statement until they have put our claims to a fair test, with the understanding that they pay us nothing for the remedy if it does not give full and complete satisfaction in every particular. Two sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies in Murray only at our store, —The Rexall Store, Dale & Stubblefield's.

### GOOD NEWS.

Many Murray Readers Have Heard It and Profited Thereby.

"Good news travels fast," and the thousands of bad back sufferers in Murray are glad to learn that prompt relief is within their reach. Many a lame, weak and aching back is bad no more, thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with the Old Quaker Remedy. Here is an example worth reading:

Virgil McLean, Murray, Ky., says: "I feel that I am doing no more than my duty in telling of the great benefit I derived from Doan's Kidney Pills. My kidneys were badly disordered. The secretions being irregular in passage. My back ached continually. I had dull pains in the top of my head and I also suffered from dizzy spells. In the morning on first arising, I was so tired and worn out that I could scarcely drag myself about. After using three boxes of Doan's Kidney Pills, procured at Dale & Stubblefield's drug store, the backaches disappeared, the kidney secretions became natural and my health was much improved."

For sale by all dealers. Price 50 cents. Foster-McBum Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

If I live, I can care for all my interests. If I die, I cannot. If there is any way, then, while I live, that will enable me to arrange my affairs so that my interests will not suffer in the event of my death, I should certainly take advantage of it. A life insurance policy will come nearer doing this than any other method. See GILLIS WILKINSON.

### SUDDEN DEATH OF AGED BENTON CITIZEN.

Mr. T. Jeff. Strow, of Benton, fell dead last Wednesday evening about 5:30 in his place of business in that little city. The cause is attributed to heart failure superinduced by general feebleness. It is understood he was alone in the store when stricken and was found dead by some one who stopped in. He had however been dead but a little while.

Mr. Strow was one of the oldest and best known residents of Benton. He was born and reared and lived all his life in the place. He had reached the ripe age of 72 years and was not only one of the best known men of the county and one of the highest esteemed but he had been a successful one in a business way and was among the substantial men of the county. All his life nearly he had been in business in Benton, for a time with a brother, John P. Strow, the two having succeeded their father, Mr. Willis Strow, who was a pioneer of the county.

Mr. Strow had been married twice and his second wife and three sons and many grandchildren survive him. His sons are Messrs. Ethan, Clint and Hud, all well-known men. He was also a brother of Mrs. William Reed, of Paducah.

### Catarrh of the Stomach a Prevalent Disease Difficult to Relieve.

#### A PROMPT AND EFFICIENT REMEDY.

Mr. S. W. Jackson, 215 Weaver Block, Greenville, Ohio, says: "While I was superintendent of construction of J. F. Bender and Bros. Co., of Hamilton, Ohio, I became entirely unfit for business with catarrh of the stomach."

"A friend called my attention to a remedy for this condition. I began to improve at once. I was soon able to return to my former profession. It would require many pages to describe the condition I was in and the relief I have obtained."

Here is another case. Officer George Y. Stout, 721 North Broadway, Baltimore, Md., says: "I suffered very much with catarrh of the stomach and nervous indigestion. I lost fifty pounds in four months."

"A friend called my attention to a remedy, which I used, and gradually got well. I have gained half my lost weight back again."

**Chronic Stomach Trouble.**  
Mr. Robert J. Gillespie, 201 North Main St., Los Angeles, Cal., secretary of Father's International Union, was also suffering from catarrh of the stomach a long time. He grew thinner and paler, lost all ambition and appetite, sick at the stomach, indigestion continually.

A friend also called his attention to a remedy, which brought about a decided improvement. After continuing the use of the remedy for a month, he considers himself permanently relieved.

Now, once more. Mr. Christian Hoffman, Mattington, Pa., says he suffered for many years with catarrh of the stomach. It produced a chronic cough, day and night. He tried doctors and many remedies. At last his attention was called to a remedy, the same remedy that relieved the others which have been referred to above. He claims that he was entirely rid of his stomach difficulty.

**Peruna Brought Back Health.**  
What was the remedy—that has wrought this remarkable relief? No far, the remedy has not been mentioned.

If any one doubts the correctness of these statements it is very easy to verify them by writing to the people whose names have been given, enclosing a stamp for reply.

The remedy is within the reach of every one. It is simply the great, old standard reliable remedy known as **Peruna**.

If the truth were known, the probabilities are that Peruna has relieved as many cases of catarrh of the stomach as any other popular remedy in existence. We have a great many unedited testimonials from all parts of the United States, declaring in strong and enthusiastic terms that Peruna has entirely relieved them of catarrh of the stomach, that they were weakened and miserable beyond words, but Peruna has restored them to health, vigor and happiness.

These are the facts. Now, if you have stomach difficulty, it is up to you to act upon them or ignore them, as you please.

**Symptoms of Stomach Catarrh.**  
The affection may result from errors in diet, or the use of alcohol. The excessive use of tobacco, especially when the juice of the leaves are swallowed, is likely to cause it.

"Highly seasoned meats, irritating foods, sometimes induce the disease."

"As chronic gastritis (catarrh of the stomach) is essentially a secondary affection, one of the primary causes is an unhealthy state of the mouth, nose or throat, such as had diphtheria or catarrh of the nose (rhinitis)."

"The patients are usually poorly nourished, pale, anorectic, thin, fatigue easily induced, muscles flabby. Loss of appetite or obstinate anorexia."

"The tongue is usually coated brown or gray. Cankered mouth is a common occurrence."

"Pain is not common. When present it is usually dull, and is aggravated by food, especially when this is of an irritating character."

"Vomiting may occur in the morning. Also after meals. Birkness to the stomach frequent and persistent."

"Food produces dull headache, and a feeling of general nervous distress. Constipation usually quite marked."

"These symptoms, given by Gould and Pyle, coincide exactly with the frequent descriptions of Hartman in reviewing from patients all over the United States."

If you have any of these symptoms get a bottle of Peruna. Take a dose before each meal. See if your stomach does not immediately feel better, your appetite improve, your digestion at once resume its normal course.

People who object to liquid medicine can now secure Peruna tablets.
